LANGER JUICE COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2014

1. Description of Plan

The following description of the Langer Juice Company, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established on December 1, 1997 and amended effective July 1, 2006, is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code (the "Code") with deferred, matching and qualified non-elective contributions under Section 401(k) of the Code. The Plan is a defined contribution plan covering all full-time employees of the Company who completed a minimum one year of service and one thousand hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2010, the Plan changed its year ending from November 30 to December 31.

Administration of Plan Assets

Certain officers of the Company are administrators of the Plan. Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain custodial fees are paid by the Plan. Other administrative expenses including auditing and accounting fees may be paid by the Plan or directly by the Company.

Contributions

Under the terms of the Plan, eligible employees may elect to defer up to 100% of their annual compensation, limited to a maximum annual amount specified by the Internal Revenue Service. The maximum employee contributions were $17,500 for the year ended December 31, 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer, at its discretion and as specified by resolution of the Board of Directors each year, may provide a matching contribution for the plan year. For the year ended December 31, 2014, the Employer did not provide matching contribution.

1. Description of plan (Continued)

Contributions (Continued)

The Employer may also make other contributions, which are called non-elective contributions. These contributions are discretionary, including the discretion to forego a contribution for one or more plan years. The Employer has elected to provide a Safe Harbor Matching Contribution for Actual Deferral Percentage Test. For the year ended December 31, 2014, the Employer did not provide non-elective contributions.

Participant accounts

All individual accounts are maintained in the name of the trustee for each participant's benefit. Each participant directs his or her own investments and is allocated the related investment activity results. Each participant's account is credited with participant voluntary contributions, Company profit sharing contributions, and investment earnings and charged with distributions, fees and investment losses. Allocations, if any, are based on eligible participant compensation relative to total eligible compensation. The difference between the value of a participant's account at the end of the previous day, and the value at the end of the current day, net of all transactions occurring during the current day (contributions, distributions, etc.), is the amount of earnings (losses) credited to the participant's account. The benefit to which a participant is entitled is their vested account balance.

Vesting

Participants are immediately vested in their salary deferral contributions, any rollovers from other plans, plus actual earnings thereon. Vesting in the employer matching contributions and non-elective contributions, if any, is 25% after two years of service, with vesting increasing 25% each year, thereafter, until the fifth year, at which time participants become 100% vested.

Participants become fully vested at the normal retirement age of 65, retirement due to disability, death or upon termination of the Plan.

Forfeitures

Any portion of a participant's account which is nonvested upon separation from service is forfeited. Forfeited accounts are reallocated to eligible participants on the basis of their compensation.

1. Description of plan (Continued)

Notes receivable from participants

Participant loans are valued at cost, which approximates fair value. The minimum loan amount is $1,000 and the maximum is limited to the lesser of 50% of the participant's vested balance or $50,000. Loans must be repaid in weekly installments of principal and interest through payroll deductions. The loans are secured by the vested balance in the participant's account. The interest rate charged on the loan is based on the market rates as determined by the Plan administrator.

Payment of benefits

Amounts contributed through salary/wage reductions may be withdrawn by, or distributed to, a participant only upon termination of employment or attaining the age of 65 years. Withdrawals prior to attaining age 65 years are not permitted except in the event of disability or as a hardship distribution as defined in the Plan Agreement. Certain income tax penalties may apply to withdrawals or distributions prior to age 65 years.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, ("GAAP").

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

2. Summary of significant accounting policies (Continued)

Investment valuation and income recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when paid.

Administrative expenses

Fees and expenses are paid by either the Plan, the Company, as reduction of the forfeiture account or directly as a reduction of the participant's account and fall into two major categories. Investment fees are generally assessed as a percentage of assets invested, and are deducted directly from the participant's account. Plan administration fees and costs are either paid directly by the Company or charged to the Plan. Expenses that are charged to the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued.

3. Investments (unaudited)

The following information was obtained from data that has been prepared and certified to as complete and accurate by MassMutual Retirement Services, the trustee of the Plan's assets.

Investments at year-end consisted of the following:

	2014	2013
Pooled separate accounts	$ 849,738	$ 716,687
Fixed account	301,318	338,735
	$ 1,151,056	$ 1,055,422

3. Investments (unaudited) (Continued)

The following table presents the individual investments that exceeded 5% of the Plan's net assets available for benefits at year-end:

	2014	2013
Voya Fixed Account	$ 301,318	$ 338,736
American Funds Washington Mutual Investors Fund SM	125,431	109,830

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $50,954 as follows:

Pooled separate accounts	$ 44,564
Fixed account	6,390
	$ 50,954

4. Information certified by the Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee as complete and accurate to the best of their knowledge, except for comparing such information certified by the trustee to the information included in the Plan's financial statements and supplemental schedule.

4. Information certified by the Trustee (Continued)

Investments held and certified by the trustee in the accompanying statements of net assets available for benefits and supplemental schedule totaled $1,151,056 and $1,055,422 as of December 31, 2014 and 2013, respectively. Net investment appreciation, dividends and interests certified by the trustee in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014 was $50,954.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and schedules.

5. Fair value measurements

The frame work for measuring fair value provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to the unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. Fair value measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts

The separate accounts invest directly in mutual funds which are valued daily at their net asset values (NAV). The Plan holds units of participation in the separate accounts. The accumulation unit value (AUV) is the value of each unit of participation in the separate accounts and the separate accounts are valued daily as the number of accumulation units held multiplied by the AUV. The AUV was determined based on the NAV of the shares of the underlying mutual funds, the funds dividends and the related contract separate charges.

Fixed account

This account is available through an annuity contract issued by Voya Retirement Insurance and Annuity Company ("VRIAC"). It is not fully benefit responsive under SOP 94-4-1 requirements because there is a potential to restrict certain transfers and withdrawals. It is an obligation of VRIAC's general account which supports all of the company's insurance and annuity commitments. The account is credited with declared rates of interest and is subject to a minimum rate of 1.0% as described in the contract. The credited rate is communicated to the Plan and credited daily. Any market value adjustment or contract surrender charge will be based on the formulas and schedules in the Plan’s contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair value measurements (Continued)

Below are the Plan's financial instruments carried at fair value on a recurring basis by ASC 820 fair value hierarchy levels described above:

5. Fair value measurements (Continued)

Fair value of investments in entities that use Net Asset Value (NAV) and Accumulated Unit Value (AUV)

The following table sets forth a summary of the Plan's investments reported based upon NAV and AUV at December 31, 2014.

	Pooled Separate Accounts
Fair value	$ 849,738
Unfunded commitments	None
Redemption frequency	Daily
Redemption restrictions	None
Redemption notice period	None

6. Related – party transactions

Certain Plan investments are shares of mutual funds and a collective trust managed by Voya. Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Effective December 1, 2010, Voya, formerly known as ING, provided the administrative services pursuant to a contract between the Company and Voya. Fees charged to the Plan for administrative services amounted to $50 for the year ended December 31, 2014.

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax status

The IRS determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Company's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for tax years prior to 2011.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
