New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the New Breed Corporate Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all eligible employees of New Breed Corporate Services, Inc. and related entities (the Company) who have three months of service and are age eighteen or older and have met the quarterly enrollment date. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). During 2014, the Company became an indirect wholly owned subsidiary of XPO Logistics, Inc.

Contributions: Participant contributions to the Plan are made by employees with limitations stipulated in Section 401(k) of the Internal Revenue Code. Eligible employees may contribute any whole percent up to the lesser of 60% of their compensation or the maximum dollar amount permitted by the Internal Revenue Code which is adjusted for inflation and provides for higher contribution limits for employees who are 50 or older. Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides for a discretionary Company match and contribution. The Company's matching contribution is equal to 50% of the participant's pre-tax contributions up to 3% of the participant's eligible compensation. Employee contributions are held in trust and invested along with the employer contributions according to participants' investment election. No discretionary contributions were made for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Employer's contribution and Plan earnings are charged with an allocation of transaction expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Company contributions and earnings thereon vest at a rate of 20% after one year of service, increasing 20% each year for the next four years to be vested 100% after five or more years of service.

Notes receivable from participants: The Plan permits loans to participants ranging from a minimum amount of \$1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding balance of plan loans during the previous 12 month period. Loan terms may not exceed five years except for loans used to purchase a principal residence, which may not exceed ten years. Loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principle and interest is paid ratably through payroll deductions. Interest rates ranged from 4.25% – 6.00% as of December 31, 2014 and 2013.

Payment of benefits: Participants become eligible for benefit payments upon death, disability, retirement or termination. Participants may elect to receive a lump-sum cash distribution, installments over a reasonable period of time, or a direct rollover distribution. Subject to certain conditions, a participant may make hardship withdrawals from his or her balance in the Plan while employed. In the event such a withdrawal is made, the distribution is subject to a 10% excise tax if the participant has not attained age 59-1/2. Also, upon making such a withdrawal, a participant is suspended from Plan participation for a period of six months.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Forfeited non-vested account balances are used to pay administrative expenses with remaining amounts used to offset future Employer contributions. Forfeited, non-vested accounts totaled \$111,685 and \$115,830 at December 31, 2014 and 2013, respectively.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments or in specific dollar amounts to the investment options offered by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend are recorded at the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends and interest income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting guidance, the Statement of Net Assets Available for Benefits present the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

The Plan holds common collective trust investments with a fair value of \$1,786,202 and \$2,022,224 at December 31, 2014 and 2013, respectively, in which participant transactions (issuances and redemptions) may occur daily. The Trustee may impose a twelve month hold period on the Plan from withdrawing from the investment. Management believes the probability to be remote as there have been no declines in creditworthiness of the contract issuer and no events that may limit the ability of the fund to transact at contract value with the issuer. There are no unfunded commitments with respect to these investments, however, they may be subject to redemption restrictions, at the trustee's discretion, to the extent that it is determined such actions would disrupt management of the fund. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the Plan document.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Net appreciation in fair value of investments: The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation on those investments.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

All information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$1,067,561 of net appreciation in fair value of investments, \$2,365,095 of interest and dividends related to investments and \$97,912 of interest income on notes receivable from participants for the year ended December 31, 2014.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Investments

During the plan year ended December 31, 2014, the Plan's mutual funds (including investments bought, sold and held during the year) appreciated in fair value by \$1,067,561.

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are as follows:

	2014	2013
Investments, at fair value:		
American Funds Europacific Growth R6	\$ 3,507,061	*
Fidelity Puritan Fund	4,101,431	\$ 3,958,978
Fidelity Ginnie Mae Fund	*	2,442,428
Fidelity Contra Fund	11,954,084	11,077,364
Fidelity Retirement Government Money Market Fund	4,278,174	4,252,324
Fidelity Worldwide Find	*	3,925,331
Fidelity Spartan 500 Index Advantage	8,176,559	6,542,192

*Fair value did not exceed 5% or more of the Plan's net assets.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust fund: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

	2014			
	Level 1	Level 2	Level 3	Total

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Fidelity Managed Trust Company. The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and advisory services totaled \$100,155 for the year ended December 31, 2014.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500 as of December 31:

	2014	2013

Note 11. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position.

The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient.

The amendments in this Update are effective for Plans public business entities for fiscal years beginning after December 31, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

New Breed Corporate Services, Inc. 401(k) Plan

Notes to Financial Statements

Note 11. Recent Accounting Pronouncements (Continued)

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: *Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively.
