NOTE 1 DESCRIPTION OF PLAN

The following description of the Hospice of the Comforter 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2006. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective June 30, 2014. All employees of Hospice of the Comforter (Company) are eligible to participant in the Plan after 90 days of service and have attained the age of eighteen. Participants are eligible to participate in matching contributions after 1 year of service and 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan includes an automatic enrollment feature of 1%. The employee enters the salary deferral portion of the Plan on the first day of the month following the completion of the eligibility requirement.

Per the amendment noted above, the Plan is frozen as of June 30, 2014. No additional participants shall be added after this date. Additionally, the Plan Administrator changed effective June 30, 2014.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company may, at its discretion, elect to make a qualified profit sharing contribution or matching contribution to the Plan. For the years ended December 31, 2014 and 2013, the Company elected to not make a profit sharing contribution. In addition, there were no Company matching contributions for the years ended December 31, 2014 and 2013.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA’s. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance company general account as investment options for participants. Contributions are subject to certain limitations.

Per the most recent amendment, the Plan is frozen effective as of June 30, 2014. No additional contributions can be made after this date.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's profit sharing and matching contributions and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant’s account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after five years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Payment of Benefits

Upon retirement, death, disability, or resignation of a participant, or upon termination of the Plan, a participant or beneficiary may elect to receive a distribution under one of the following methods: (a) lump sum or (b) periodic installment payments. In-service withdrawals of employee contributions for reasons of hardship (as defined in the Plan agreement) or attaining age 59½ are allowed. A hardship withdrawal results in a suspension of employee contributions to the Plan for six months. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Forfeitures

The unvested portion of a participant's account to which he or she is not entitled upon termination of participation is deemed a forfeiture. Forfeitures are used to offset future Company contributions. Forfeited non-vested accounts as of December 31, 2014 and 2013 totaled $94,671 and $56,917, respectively. There were $207 and $-0- of forfeitures used to pay plan expenses during years ended December 31, 2014 and 2013, respectively.

Notes Receivable from Participants

Prior to May 1, 2014, participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. The notes are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. At December 31, 2014, interest rates were 4.25%.

Per the most recent amendment, the Plan is frozen effective June 30, 2014. No new Plan loans shall be permitted as soon as practicable after May 1, 2014.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Per Note 8, the Plan Administrator expects to terminate the plan during the year ended December 31, 2016. Given that the termination is not imminent, the financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2014 and 2013, the investment contract is valued at fair value which approximates contract value and therefore no adjustment is reflected in the statements of net assets available for benefits. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan documents. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Transamerica Life Insurance Company, the Insurance Company of the Plan, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information (excluding notes receivable from participants and related interest on notes receivable from participants) reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2014 (excluding participant loans).

NOTE 4 FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end.

Insurance Company General Account: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2014 and 2013:

Investment Type	Fair Value 2014	Fair Value 2013	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Bond Funds	324,464	421,292	-	Daily	Daily
Index Funds	332,567	385,707	-	Daily	Daily

The Blend Funds' investment objective is to obtain a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a diversified portfolio of common stocks, bonds and cash.

The Growth Funds' investment objective is to obtain a favorable long-term rate of return through capital appreciation by investing primarily in foreign and domestic common stocks, mutual funds and cash.

The Value Funds' investment objective is to obtain a favorable long-term rate of return through high current income returns, which are consistent with preserving capital and investments. These funds invest primarily in money market funds and bond funds.

The Bond Funds' investment objective is to obtain the maximum total return, consistent with preservation of capital and prudent investment management.

The Index Funds' investment objective is to obtain a rate of return that is consistent with the S&P 5500 index.

NOTE 5 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2014	2013
Transamerica Stable Value Advantage Option	$ 1,619,706	$ 1,943,292
Vanguard Target Retirement 2025	452,403	456,167
Vanguard Target Retirement 2035	405,324	480,517
SSgA International Stock Index	*	296,994

* Does not exceed 5% of net asseets available for benefits

NOTE 5 INVESTMENTS (CONTINUED)

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separated accounts appreciated by $217,807 and $626,907, respectively.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investments in the insurance company investment contract are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of the contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of the investment contract approximates contract value. The contract provides for withdrawals associated with certain events which are not in the ordinary course of plan operations, and what the insurance company determines will have a material adverse effect on its financial interest, will be paid with a fair value adjustment to the contract value amount of such withdrawal as defined in such contracts. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor event (e.g. divestitures or spin-offs of a subsidiary, etc.) which cause a significant withdrawal from the Plan or (iv) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that the occurrence of any such value event which would limit the Plan's ability to transact at contract value with the participants is probable. The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. For the Transamerica Stable Value Advantage Fund, the average yield during 2014 and 2013 was 1.65% and 1.80%, respectively.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 PLAN TERMINATION

The Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

Per the most recent amendment, the Plan is frozen effective as of June 30, 2014. No additional contributions can be made after this date. Furthermore, the Plan Administrator expects to terminate the plan during the year ended December 31, 2016.

NOTE 9 PARTY-IN-INTEREST

Plan investments are managed by the Transamerica Life Insurance Company and, therefore, these transactions qualify as party-in-interest. Fees paid to the Insurance Company during 2014 and 2013 were $17,467 and $17,737, respectively.

NOTE 10 TAX STATUS

The Plan is operating under a prototype plan designed by the Trustee. The Trustee has received a determination letter from the Internal Revenue Service dated March 31, 2008, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the Trustee received the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 11 RECLASSIFICATIONS

Certain amounts in the 2013 financial statements have been reclassified to conform with the 2014 presentation. These reclassifications do not affect net assets available for benefits as previously reported.
