Notes to the Financial Statements December 31, 2014 and 2013

1. Description of Plan

The following brief description of the inContact, Inc. (the “Company”) 401(k) Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan agreement for more complete description of the Plan’s provisions.

General. The Plan is a defined contribution 401(k) plan and profit sharing plan covering all employees of the Company. Employees are eligible to make salary deferrals upon hire, but must work for the Company for at least 90 days to be eligible for employer match. Employees who have worked for the Company for at least one year and are 21 years or older are eligible for employer profit sharing, if declared. Upon becoming eligible to participate, employees may enroll in the Plan on the next entry date – immediately for employee deferrals; quarterly for Company match; and January 1 or July 1 for employer profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Plan management is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to Plan management.

Contributions. Each year, participants are allowed to make contributions to the Plan up to a maximum of 90% of annual compensation as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows both pre-tax and Roth contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, subject to certain restrictions. The Company may contribute a discretionary matching amount that is determined at the end of each year by management. Additional amounts called “non-elective contributions” may be contributed at the option of the Employer. Contributions are subject to certain IRS limitations.

Participant Accounts. Each participant’s account is credited with the participant’s contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

Notes to the Financial Statements

1. Description of Plan (continued)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. On termination of service due to death, total disability, or retirement, a participant is eligible to receive a lump sum distribution equal to the participant's vested account balance. Prior to the normal retirement age, as defined by the Plan, a participant who is 59 ½ or older is eligible to receive an in-service distribution. A participant may also withdraw in a lump sum up to 100% of their vested balance in their elected deferral account, excluding any earnings thereon, to pay for any financial hardship as defined in the Plan.

As of December 31, 2014 and 2013, the Plan had \$1,346,390 and \$1,136,217, respectively, of plan assets that were allocated to participants that had withdrawn from the Plan, but for which disbursement of those funds from the Plan had not yet been made.

Forfeited Accounts. At both December 31, 2014 and 2013, forfeited nonvested accounts totaled \$10. These accounts may be used to reduce future employer contributions. During 2014, employer contributions were reduced by \$40,052 from forfeited nonvested accounts.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes to the Financial Statements

2. Significant Accounting Policies (continued)

Reclassifications

Certain 2013 balances have been reclassified to conform to the 2014 presentation. These changes did not affect the financial results of the Plan.

Subsequent events

The Plan has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at fair value based on quoted redemption values on the last business day of the Plan year.

Common collective trusts: Valued at their respective net asset value as reported by the funds daily.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 12,636,495	\$ –	\$ –	\$ 12,636,495
Common collective trusts	–	110,967	–	110,967
Total assets at fair value	\$ 12,636,495	\$ 110,967	\$ –	\$ 12,747,462

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,744,520	\$ –	\$ –	\$ 9,744,520
Common collective trusts	–	88,108	–	88,108
Total assets at fair value	\$ 9,744,520	\$ 88,108	\$ –	\$ 9,832,628

5. Stable Value Fund Options

Investment options of the Plan included MetLife Group Annuity Contract No. 25554 (the "Contract") issued by Metropolitan Life Insurance Company ("MetLife") to the trustee, to establish a stable value fund (the "Fund"). Wilmington Trust Retirement and Institutional Services Company ("WTRISC") is the trustee and is responsible for maintaining and administering the Trust. The Contract is administered by Met Life and is managed by MetLife and WTRISC.

The Contract simulates the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by MetLife. The participating plans' assets are the unit ownership interests in the Contract. The separate account investments are owned by MetLife. The Contract provides that the Trust execute transactions at contract value. MetLife guarantees the contract value, which represents contributions, plus interest, less participant-initiated withdrawals or transfers. This is the Contract's guaranteed value. The Contract's fair value equals the Contract's proportionate share of the fair value of the separate accounts. A participating plan's fair value in the Contract equals the Contract's fair value times the ratio of the plans' guaranteed value to the Contract's guaranteed value. Of a participating plan terminates participation in the Trust, the lesser of the guaranteed value or the fair value will be received.

The average yields earned by the Contract for the years ended December 31, 2014 and 2013, were 4.61% and (1.94%), respectively. This represents the annualized earnings (loss) of the separate account investments owned by MetLife in which the Contract funds are invested divided by the fair value of the Contract at December 31, 2014 and 2013.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

5. Stable Value Fund Options (continued)

The average yields earned by the Contract with an adjustment to reflect the actual interest rate credited to participants in the Contract for the years ended December 31, 2014 and 2013, were 2.22% and 2.21%, respectively. This represents the annualized earnings credited to participants in the Contract divided by the fair value of the Contract at December 31, 2014 and 2013.

The balance of the fund is reported at fair value on the accompanying financial statements. The following shows the adjustment from fair value to contract value for this fund at December 31:

	2014	2013
Fund at fair value	\$ 110,967	\$ 88,108
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(3,054)	(1,192)
Fund at contract value	<u>\$ 107,913</u>	<u>\$ 86,916</u>

6. Related-Party Transactions

Certain plan investments are shares of funds managed by State Street Global Services record keeper of the Plan, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax Status

The Plan has not applied for nor received a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(k) of the Internal Revenue Code (the "Code"). However, the plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation. The Company has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

8. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Department of Labor (“DOL”). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefit.
