Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We have audited the accompanying financial statements of Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014, and changes therein for the year then ended, and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

COMMERCIAL VEHICLE GROUP, INC.
PENSION PLAN FOR MAYFLOWER VEHICLE SYSTEMS SALARIED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined benefit pension plan established to provide for the payment of pension benefits and disability benefits for salaried employees of Mayflower Vehicle Systems, LLC, a wholly owned subsidiary of Commercial Vehicle Group, Inc. (the “Company”) and hourly employees at Kings Mountain, North Carolina who were eligible to participate prior to October 15, 1997. Employees were eligible for the Plan once they completed one year of service and attained age 21. Effective March 31, 2006, the Plan was frozen to new participants and future benefit accruals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Benefits: The Plan provides for retirement and disability benefits. Employees, other than hourly-paid employees at the Kings Mountain facility, with five or more years of credited service are entitled to monthly pension benefits beginning at normal retirement age (65), equal to the sum of (1) the accrued benefit equal to 1.25% of average monthly compensation, up to \$833.33, multiplied by the participant’s total number of periods of service, not to exceed 30 years, plus (2) 1.75% of average monthly compensation in excess of \$833.33, multiplied by the participants’ total number of periods of service, not to exceed 30 years. The pension benefit for those hourly-paid employees at the Kings Mountain facility is equal to \$20 for each year of service, plus \$1.67 for each additional month of service comprising a fraction of a year through October 15, 1997. Effective March 31, 2006, benefit accruals under the Plan ceased. Employees’ benefits under the Plan vest after the completion of five years of service. Effective March 31, 2006, the accrued benefits of active participants were 100% vested. The Plan permits early retirement at age 55 with minimum service of 15 years. Employees may elect to receive the value of their accumulated plan benefits as a single life annuity, life annuity with guaranteed payments, or as a joint and survivor annuity, payable monthly from the date of retirement.

If an active employee, other than hourly-paid employees at the Kings Mountain facility, becomes totally and permanently disabled after accumulating 15 years of credited service, the disability benefit is equal to the amount calculated under normal retirement. The disability benefit for a participant who was an hourly-paid employee of the Kings Mountain facility is equal to a monthly annuity of \$20 for each year of credited service, through October 15, 1997. If an employee dies prior to the distribution of any accumulated Plan benefits, a portion of the employee’s accumulated benefits are payable to the designated beneficiary over the life of such beneficiary.

Funding: The Company contributes amounts that it considers necessary to provide assets sufficient to meet the benefits to be paid. The Company’s contributions for 2014 and 2013 met the minimum funding requirements of ERISA.

Administration: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid through the Commercial Vehicle Group Master Trust (“Master Trust”). Investment management fees and operating expenses charged to the Master Trust for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are estimated future periodic payments attributable under the Plan's provisions to services rendered by participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, and (b) present active employees or their beneficiaries. Benefits under the Plan are based on employee's compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date the benefit information is presented. Benefits payable under all circumstances (i.e. retirement, disability and termination of employment) are included to the extent they are deemed attributable to employee services rendered as of the valuation date.

Trust Fund Administered by the Trustee: Under the terms of the trust agreement, Comerica Bank, the trustee, administers the Master Trust on behalf of the Plan and other Company sponsored retirement plans. Each participating retirement plan holds units of participation in the Master Trust. At December 31, 2014 and 2013, the Plan's interest in the net assets of the Master Trust was approximately 59.9% and 60.0%, respectively. Investment managers have been granted discretionary authority concerning purchases and sales of investments in the Master Trust in accordance with general guidelines established by the Company. Investment income and losses and administrative expenses related to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Mutual funds and common stocks: The fair values of mutual funds and common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled separate account: The fair values of participation units held in the pooled separate account are based on their net asset values, as reported by the managers of the pooled separate account as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). The Principal U.S. Property Separate Account ("Account") invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. As of December 31, 2014 and 2013, the Account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The investment objective of the Comerica Short Term Fund is to invest substantially all of its assets in short-term obligations having a stated maturity date of 397 days or less. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Risks and Uncertainties: The Plan invests in a Master Trust which invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Reclassification: Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 – INVESTMENTS

The following table presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

	<u>2014</u>	<u>2013</u>
Investments at estimated fair value:		
Interest in the Master Trust	\$ 21,360,692	\$ 20,158,674

During 2014 and 2013, the Plan's net investment gain in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was \$1,222,165 and \$2,360,010, respectively.

NOTE 4 – MASTER TRUST

December 31, 2014 and 2013

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (RP-2014 mortality table, projected generationally using the MP-2014 improvement scale), (b) retirement age assumptions (rates vary by age with 100% retirement at age 65), (c) a withdrawal rate for employees who will leave before retirement and (d) long term rate of return of 7.5% per annum. The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2013 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Retired participants and beneficiaries currently receiving payments	\$ 11,592,320
Other benefits	<u>7,915,778</u>
	19,508,098
Nonvested benefits	<u>83,647</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 19,591,745</u>
--	----------------------

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2013 consists of the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 18,331,469
Increase (decrease) during the year attributable to:	
Benefits paid	(1,102,908)
Interest due to decrease in discount period	1,338,805
Benefits accumulated net of actuarial experience	106,957
Change in actuarial assumptions	<u>917,422</u>
Actuarial present value of accumulated plan benefits at end of the year	<u>\$ 19,591,745</u>

The change in actuarial assumptions is due to a change in the mortality table from the 2013 Static Mortality Table to the RP-2014 mortality table, projected generationally using the MP-2014 improvement scale. This change was made to be in line with expected participant mortality rates.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 6 – PLAN TERMINATION (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 24, 2014, that the Plan is qualified and exempt from income tax under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"). Plan management believes that the Plan is designed and is currently being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to federal income tax examinations for years prior to 2011.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others.

The Master Trust invests a portion of its investments in a proprietary fund of the trustee of the Plan and Master Trust. This investment constitutes a party in interest investment. The Company pays certain administrative expenses on behalf of the Plan. Also, the Company provides certain administrative services at no cost to the Plan.

NOTE 9 – DECEMBER 31, 2014 ACTUARIAL VALUATION - UNAUDITED

The December 31, 2014 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary which has not been audited by independent accountants, is provided below for informational purposes.

c. Change in Actuarial Assumptions

The assumed discount rate for ASC 715 purposes was changed from 3.67% to 4.57%. All other actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates (including the HATFA 2014 average segment rates) and mortality table.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Pension Expense Method

The actuarial method used in developing the Net Periodic Pension Cost, and the required disclosures, is the Projected Unit Credit Actuarial Cost Method. This is the method prescribed in the Financial Accounting Standards ASC 715.

The final day of the fiscal year is the measurement date for purposes of determining the value of liabilities and assets at the end of each fiscal year.

The Company has made no commitments for future changes in the Plan that would require recognition at this time.

Cumulative net actuarial gains and losses in excess of the allowable 10% corridor are amortized over the average future life expectancy of all participants.

Increases in the benefit obligations due to Plan amendments are amortized on a straight-line basis over the average future service of active participants.

Actuarial Assumptions and Methods

c. Asset Valuation Method

For funding purposes, the actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

For pension expense purposes, the actuarial value of assets is defined as the market value of Plan assets.

d. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Summary of Plan Provisions

1. Effective Date of Plan

The Plan was effective as of August 1, 1989. The plan was amended to freeze accruals and participation effective March 31, 2006. The Plan was most recently restated as of January 1, 2008.

2. Eligibility

First of the month following age 21 and one year of service. Employees include the following:

Salaried employees at:

- Detroit, MI
- Kings Mountain – North Carolina
- Norwalk Assembly – Norwalk, OH
- Hurricane, WV
- So. Charleston, WV

Hourly employees at:

- Kings Mountain – North Carolina who were eligible to participate prior to October 15, 1997.

Participation was frozen effective March 31, 2006.

3. Service

For vesting purposes, a year of service is based on elapsed time. For benefit accrual purposes, elapsed time but no credit for service prior to January 1, 2000 for SCSM salaried employees. Benefit accruals for Kings Mountain hourly employees ceased on October 15, 1997. Benefit accrual service was frozen for all participants as of March 31, 2006.

4. Compensation

Compensation includes base pay in a calendar year plus overtime and salary reductions under a qualified 401(k), 132(f) or 125 plan, but excludes bonuses, income from stock options and other forms of special remuneration.

Average Monthly Earnings is the average Compensation of an employee during the highest 5 consecutive calendar years out of the last 10 calendar years of Compensation. Average Monthly Earnings was frozen as of March 31, 2006.

Summary of Plan Provisions

5. Monthly Pension Benefit

Benefits were frozen as of March 31, 2006. Prior to that date, benefits were determined according to the following:

Salaried employees:

A monthly life annuity with 60 payments guaranteed equal to:

- a) Years of service to a maximum of 30; times
- b) $1.25\% \times \text{Average Monthly Earnings up to \$833.33}$, plus $1.75\% \times \text{Average Monthly Earnings in excess of \$833.33}$.

Hourly employees:

A monthly life annuity with 60 payments guaranteed equal to \$20 times years of service. Service frozen as of October 15, 1997.

6. Normal Retirement

The Normal Retirement Date is the first of the month coinciding with or next following the date on which the Participant attains age 65 or, if later, the fifth anniversary of the employee's date of plan entry.

7. Early Retirement

A Participant may retire early on or after attaining age 55 and completing fifteen years of Vesting Service. The Monthly Pension Benefit is determined as of that early retirement date with payments commencing at age 65. Alternatively, the Participant may choose to commence payments earlier, with such monthly benefit reduced by $\frac{1}{3}$ of 1% for each year that benefits begin prior to age 65.

8. Postponed Retirement

A Participant may postpone retirement beyond his normal retirement date and be eligible to receive a Monthly Pension Benefit determined as of such postponed date. The benefit is equal to the formula benefit determined at the later retirement date.

9. Vested Benefit

A Participant who terminates employment for any reason other than retirement, death, or disability, and after completing five years of Vesting Service, is entitled to a Monthly Pension Benefit deferred to age 65 determined as of the date of termination. Active participants in the plan on March 31, 2006 became vested as part of the plan freeze amendment.

Summary of Plan Provisions

10. Death Benefit

No death benefit is provided other than to the spouse of a Participant. The spouse of a Vested Participant is entitled to a monthly benefit commencing at the earliest date the Participant could have retired. The amount of the spouse's benefit is one half of the 50% joint-and-survivor benefit that the Participant would have been entitled to on such retirement date.

11. Disability Benefit

A Participant is eligible for a disability benefit under this Plan if he is totally and permanently disabled and has at least fifteen years of service. Benefits commence after six months of disability. The benefit amount is equal to the Participant's accrued benefit.

12. Forms of Payment

The Monthly Pension Benefit is payable as a monthly five year certain and life annuity to the Participant. If a Participant is married, such benefit is automatically converted to an actuarially equivalent 50% joint-and-survivor annuity, unless the Participant elects and the spouse consents to an alternative form of benefit allowed by the Plan.

13. Limitations

No benefit for any calendar year may exceed the maximum limitation for that year as defined in Internal Revenue Code Section 415. Compensation in any calendar year is limited as required by Internal Revenue Code Section 401(a)(17). The plan provides for increasing both dollar limits automatically as such changes become effective.

14. Contributions

No contributions to the Plan by employees are required or permitted. The full cost of the Plan is borne by the employer.

c. Change in Actuarial Assumptions

The assumed discount rate for ASC 715 purposes was changed from 3.67% to 4.57%. All other actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates (including the HATFA 2014 average segment rates) and mortality table.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Pension Expense Method

The actuarial method used in developing the Net Periodic Pension Cost, and the required disclosures, is the Projected Unit Credit Actuarial Cost Method. This is the method prescribed in the Financial Accounting Standards ASC 715.

The final day of the fiscal year is the measurement date for purposes of determining the value of liabilities and assets at the end of each fiscal year.

The Company has made no commitments for future changes in the Plan that would require recognition at this time.

Cumulative net actuarial gains and losses in excess of the allowable 10% corridor are amortized over the average future life expectancy of all participants.

Increases in the benefit obligations due to Plan amendments are amortized on a straight-line basis over the average future service of active participants.

Actuarial Assumptions and Methods

c. Asset Valuation Method

For funding purposes, the actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

For pension expense purposes, the actuarial value of assets is defined as the market value of Plan assets.

d. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Summary of Plan Provisions

1. Effective Date of Plan

The Plan was effective as of August 1, 1989. The plan was amended to freeze accruals and participation effective March 31, 2006. The Plan was most recently restated as of January 1, 2008.

2. Eligibility

First of the month following age 21 and one year of service. Employees include the following:

Salaried employees at:

- Detroit, MI
- Kings Mountain – North Carolina
- Norwalk Assembly – Norwalk, OH
- Hurricane, WV
- So. Charleston, WV

Hourly employees at:

- Kings Mountain – North Carolina who were eligible to participate prior to October 15, 1997.

Participation was frozen effective March 31, 2006.

3. Service

For vesting purposes, a year of service is based on elapsed time. For benefit accrual purposes, elapsed time but no credit for service prior to January 1, 2000 for SCSM salaried employees. Benefit accruals for Kings Mountain hourly employees ceased on October 15, 1997. Benefit accrual service was frozen for all participants as of March 31, 2006.

4. Compensation

Compensation includes base pay in a calendar year plus overtime and salary reductions under a qualified 401(k), 132(f) or 125 plan, but excludes bonuses, income from stock options and other forms of special remuneration.

Average Monthly Earnings is the average Compensation of an employee during the highest 5 consecutive calendar years out of the last 10 calendar years of Compensation. Average Monthly Earnings was frozen as of March 31, 2006.

Summary of Plan Provisions

5. Monthly Pension Benefit

Benefits were frozen as of March 31, 2006. Prior to that date, benefits were determined according to the following:

Salaried employees:

A monthly life annuity with 60 payments guaranteed equal to:

- a) Years of service to a maximum of 30; times
- b) $1.25\% \times \text{Average Monthly Earnings up to \$833.33}$, plus $1.75\% \times \text{Average Monthly Earnings in excess of \$833.33}$.

Hourly employees:

A monthly life annuity with 60 payments guaranteed equal to \$20 times years of service. Service frozen as of October 15, 1997.

6. Normal Retirement

The Normal Retirement Date is the first of the month coinciding with or next following the date on which the Participant attains age 65 or, if later, the fifth anniversary of the employee's date of plan entry.

7. Early Retirement

A Participant may retire early on or after attaining age 55 and completing fifteen years of Vesting Service. The Monthly Pension Benefit is determined as of that early retirement date with payments commencing at age 65. Alternatively, the Participant may choose to commence payments earlier, with such monthly benefit reduced by 1/3 of 1% for each year that benefits begin prior to age 65.

8. Postponed Retirement

A Participant may postpone retirement beyond his normal retirement date and be eligible to receive a Monthly Pension Benefit determined as of such postponed date. The benefit is equal to the formula benefit determined at the later retirement date.

9. Vested Benefit

A Participant who terminates employment for any reason other than retirement, death, or disability, and after completing five years of Vesting Service, is entitled to a Monthly Pension Benefit deferred to age 65 determined as of the date of termination. Active participants in the plan on March 31, 2006 became vested as part of the plan freeze amendment.

Summary of Plan Provisions

10. Death Benefit

No death benefit is provided other than to the spouse of a Participant. The spouse of a Vested Participant is entitled to a monthly benefit commencing at the earliest date the Participant could have retired. The amount of the spouse's benefit is one half of the 50% joint-and-survivor benefit that the Participant would have been entitled to on such retirement date.

11. Disability Benefit

A Participant is eligible for a disability benefit under this Plan if he is totally and permanently disabled and has at least fifteen years of service. Benefits commence after six months of disability. The benefit amount is equal to the Participant's accrued benefit.

12. Forms of Payment

The Monthly Pension Benefit is payable as a monthly five year certain and life annuity to the Participant. If a Participant is married, such benefit is automatically converted to an actuarially equivalent 50% joint-and-survivor annuity, unless the Participant elects and the spouse consents to an alternative form of benefit allowed by the Plan.

13. Limitations

No benefit for any calendar year may exceed the maximum limitation for that year as defined in Internal Revenue Code Section 415. Compensation in any calendar year is limited as required by Internal Revenue Code Section 401(a)(17). The plan provides for increasing both dollar limits automatically as such changes become effective.

14. Contributions

No contributions to the Plan by employees are required or permitted. The full cost of the Plan is borne by the employer.
