1. Description of Plan

The following description of the HLW International (the "Company") LLP Savings and Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees. The Plan was adopted on January 1, 1983 and was subsequently amended on January 1, 2003. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Participants may contribute up to 100% of pretax annual compensation as defined in the Plan limited to Internal Revenue Service ("IRS") regulations to a maximum amount of $17,500 for the year. Individuals who will be at least age 50 by year end may make an additional "catch-up" contribution, up to a maximum amount of $5,500. Participants may also contribute amounts representing rollovers from other qualified plans. The Company may elect to make a matching contribution. For employees with five years or more of service as of April 1, 2006, the match is equal to 50% of salary deferral up to 6% of compensation. For employees with less than five years of service at that date, the match is equal to 33.33% of salary deferral up to 6% of compensation. Participants direct the investment of both employer and participant contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) employer's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Investments of participant accounts are participant-directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. For employees hired prior to March 31, 2006, their share of employer contributions are 20% vested after two years of service, with an additional 20% vesting for each additional year of service. For employees hired April 1, 2006 and thereafter, their share of employer contributions are vested immediately.

Payment of Benefits

Upon termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installments over a period of time, determined in accordance with the plan agreement.

Eligibility

An employee is eligible to participate in the Plan after completing one hour of service. For employees hired prior to March 31, 2006, the Company's match commences after one year of employment. Effective April 1, 2006, new employees are eligible for matching contributions after completing two years of service. Employees must be actively employed by the Company as of December 31st to be entitled to receive a matching contribution for that year. Employees may contribute to the Plan on the day that they satisfy the eligibility requirement. Entry into the Plan to receive matching contributions is on the first day of every quarter that coincides with or follows the date on which the eligibility requirements are met.

Forfeiture Accounts
Forfeitures are used to reduce future employer contributions, subject to the Plan's provisions.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are measured at their unpaid principal balance plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25%-9.00%, which is charged at 1% per annum over the prime rate. Principal and interest are paid ratably through payroll deductions and must be repaid within five years unless the loan is used to buy or build a principal residence. Only one loan will be granted at a time and must be repaid in full before another can be requested. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Loans mature at various dates through July 2036. The notes are measured at their unpaid principal balance plus any accrued but unpaid interest.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
The Plan's investments in mutual funds are stated at fair value as determined by Mid Atlantic Trust Company by reference to quoted market prices of the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment in the Reliance Stable Value Fund – MetLife GAC Series 25053, a common and commingled trust (the "Trust"), is valued at fair market value. However, contract value is the relevant measurement. The contract value represents the Plan's contribution to the fund, plus interest at a fixed periodic rate set by the issuer, less withdrawals, and less expenses of the fund allocated to the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments
Benefits are recorded when paid.

Plan Expenses
Substantially all costs of plan administration are paid by the Company.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's mutual funds consist of equity securities that are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain equity securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect the value of investments reported in the financial statements.

3. Certified Financial Information

The following is a summary of the information regarding the Plan as of December 31, 2014 and 2013 and for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Mid Atlantic Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained a certification from the trustee that such information is complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	December 31,	
	2014	2013

Mutual funds	$ 628,482
Common collective trust	38,329
	$ 666,811
Dividends and interest	$ 233,381

The following represents investments that represent 5% or more of the Plan's net assets:

	December 31, 2014	December 31, 2013
Mutual Funds:		
General Money Market Fund	$ 1,300,932	$ 1,301,182
First Eagle Global Fund	988,200	1,166,559
Oakmark Equity and Income Fund	2,597,519	2,630,728
Parnassus Equity Income Fund	1,371,070	1,270,307
Wells Fargo Advantage Growth Fund	1,361,128	1,678,073
Common Collective Trust:		
Reliance Stable Value Fund	2,282,056	2,083,339

4. Investments in Reliance Stable Value Fund (CCT)

The Plan has a common collective trust investment contract with Reliance Trust Company ("Reliance") in 2014 and 2013. The common collective trust contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2014 and 2013 was $2,353,563 and $2,106,315, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% for each of the contract years ended December 31, 2014 and 2013. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

For 2013, the weighted average market yield and crediting interest rates were approximately 4.52% and 2.20% per annum, respectively.

5. Fair Value Measurement

Professional standards established a framework for measuring fair value under U.S. generally accepted accounting principles and expands disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Guaranteed Investment Contracts: Valued at fair value with an adjustment to contract value on the statement of net assets available for benefits.

- Common Collective Trust Contracts: Valued at fair value with an adjustment to contract value on the statement of net assets available for benefits.

- Mutual Funds: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year-end.

6. Tax Status

The Plan obtained its latest determination letter dated October 26, 2010, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator and the Plan's trustees believe that the plan sponsor has operated the Plan in a manner that does not jeopardize this tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations prior to 2011.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their account balances.

8. Subsequent Events

The Plan has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued.
