CODE42 401(K) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Code42 401(k) Retirement Plan (the "Plan") are presented on the accrual basis of accounting.

Investment Valuation
Investments are reflected at fair value in the accompanying financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the contract value of the investment contract as management has determined any adjustment to fair value is not material to these financial statements. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the fully benefit-responsive investment contract.

Income Recognition
The net appreciation in market value of investments represents the realized and unrealized gains or losses on assets bought and sold during the year and held at year-end. Investment income is recorded using the accrual basis of accounting. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants during 2015.

Payment of Benefits
Benefits are recorded when paid.

Funding Policy
Employer discretionary matching contributions are generally remitted to the Plan at the same time as employee deferrals. Any necessary employer discretionary matching contributions relating to the "true up" are remitted to the Plan in the following year.

CODE42 401(K) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Plan Expenses
Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 7, 2015, the date which the financial statements were available to be issued.

NOTE 2 – DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General and Eligibility
The Plan is a defined contribution plan covering employees of Code 42 Software, Inc. (the "Company") who are at least 21 years of age. The effective date of the Plan was January 1, 2014, however the effective date of participant deferrals was July 1, 2014. Plan entrance dates are the first of the month following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Participants may, after meeting eligibility requirements, contribute a percentage of their annual compensation, as defined in the Plan. Contributions are subject to certain IRS limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching and profit sharing contributions. Since the Plan's effective date for participant deferrals, the Company has contributed for each participant a matching contribution equal to 100% up to the first 4% of the elective contributions made by the participants. In order to share in any profit sharing contributions, eligible participants must complete 1,000 hours of service during the plan year and be employed on the last day of the Plan year. No discretionary profit sharing contributions were made for the 2014 plan year.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and Plan earnings. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 2 – DESCRIPTION OF PLAN

Vesting
Participants are immediately vested in their voluntary and rollover contributions. Vesting in the remainder of their accounts is based on years of continuous service. Participants vest ratable in employer matching and profit sharing contributions and are fully vested after four years of service.

Notes Receivable from Participants
Eligible participants may borrow against the value of their accounts. The maximum amount of any loan is the lessor of 50% of the participant's vested account excluding Roth deferrals, reduced by any outstanding loan balances or $ 50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. The minimum amount of any loan is $ 1,000 and the number of outstanding loans is limited to one. The loans are secured by the balance in the participant's account and bear interest at the Prime rate plus 1%.

Payment of Benefits
Upon termination of service, retirement (age 65), death or disability, a participant may elect to receive a lump sum amount or installments equal to the value of his or her account. Upon termination of service if the account balance is $ 1,000 or less, the account balance will be automatically distributed to the participant, who may elect to treat the distribution as a taxable withdrawal or directly roll over the balance into another qualified plan or individual retirement account. If the balance is greater than $ 1,000 but less than $ 5,000, the benefit payment will be rolled over into a qualified individual retirement account. Balances greater than $ 5,000 may remain in the Plan. In service distributions are allowed for participants after obtaining age 59.5 or for amounts attributable to rollover contributions at any time, without restriction. Hardship distributions of elective deferrals are also permitted.

Forfeitures
Forfeitures resulting from a terminated participant's failure to be fully vested in the Company's contributions to the Plan may be used to reduce the Company's matching contribution. Forfeited nonvested accounts totaled $ 0 at December 31, 2014. Also, forfeitures of $ 2,706 were used to reduce the Company's matching contributions for the year ended December 31, 2014.

NOTE 3 – CERTIFICATION BY TRUSTEE

The Plan Administrator has received certification from the Trustee as to the accuracy and completeness of investment assets aggregating $ 2,808,286 at December 31, 2014, and related investment gain of $ 66,148 for the year then ended. Information contained in the accompanying financial statements, Notes to the Financial Statements and supplemental schedule has been obtained or derived from information certified by the Trustee.

NOTE 4 – INVESTMENTS

The investments are all participant directed. Listed below are the investments of the Plan that represent 5% or more of the Plan's net assets at December 31, 2014.

Investments, at Fair Value:	
Target Retirement 2055	$ 177,767
Target Retirement 2050	365,090
Target Retirement 2045	299,351
Target Retirement 2040	290,621
Target Retirement 2035	768,023

NOTE 5 – FAIR VALUE MEASUREMENTS

The fair value measurements topic of the FASB ASC establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies: Valued at the net asset value of shares held by the plan at year-end as determined by quoted market prices.

Common Collective Trust: Represents investment in the Capital Preservation Fund. The objective of the fund is to provide stability of principal and high current income. The fund holds guaranteed investment contracts, separate account guaranteed investment contracts, synthetic guaranteed investment contracts, short-term securities and open-end registered investment companies. The fund is valued at the net asset value of units held by the fund on the day of valuation based upon the market value of the underlying investments. Participant transactions (issuances and redemptions) may occur daily.

NOTE 5 – FAIR VALUE MEASUREMENTS

The methods described on the previous page may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair values of assets measured on a recurring basis are as follows:

	Level 1	Level 2	Level 3	Total
December 31, 2014:				
Common Collective Trust	$ -	$ 2,079	$ -	$ 2,079
Registered Investment Companies:				
Target Date	2,128,244	-	-	2,128,244
Moderate Allocation	45,113	-	-	45,113
Large Blend	172,725	-	-	172,725
Mid Cap Blend	154,216	-	-	154,216
Small Cap Blend	132,777	-	-	132,777
Foreign Large Blend	119,204	-	-	119,204
Bond	43,818	-	-	43,818
Total	$2,796,097	$ 2,079	$ -	$2,798,176

Gains and losses (realized and unrealized) are reported in Net Appreciation in Fair Value of Investments on the Statement of Changes in Net Assets Available for Benefits.

NOTE 6 – NET APPRECIATION IN FAIR VALUE OF INVESTMENTS

The Plan's investments, including investments bought, sold and held, appreciated in value as follows for the year ended December 31, 2014:

Registered Investment Companies	$ 19,444

NOTE 7 – TAX STATUS

The Company has adopted a prototype plan document and is relying on the prototype sponsor's opinion letter from the Internal Revenue Service dated March 31, 2008. The letter states that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since adoption of the prototype plan, however the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

NOTE 7 – TAX STATUS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more than likely would not be sustained upon examination by the taxing jurisdictions. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to examination by tax authorities since its inception in 2014.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
