Report on the Financial Statements

We have audited the accompanying financial statements of **Porterville Citrus, Inc. Employee Stock Ownership Plan,** which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

PORTERVILLE CITRUS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Porterville Citrus, Inc. Employee Stock Ownership Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General: Porterville Citrus, Inc. ("Company") established the Plan effective as of January 1, 2010. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of ERISA. The plan is administered by the Plan Administrator appointed by the Company's board of directors. The trust department of an independent third-party bank is the plan's trustee.

The Plan purchased Company common stock using the proceeds from a note with the Company (see Note 7), and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, present separately the assets and liabilities and changes therein pertaining to

a. the accounts of employees with vested rights in allocated common stock (allocated) and
b. common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company are generally eligible to participate in the Plan after they have worked 1,000 hours during the Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer contributions: The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the plan to make its regularly scheduled payments of principal and interest due on its term loan.

Payment of benefits: Distributions on account of death, disability or retirement are made in substantially equal periodic installments over a 5 year period. Distributions for other separations from service commence in the fifth plan year following the separation from service and are made in 5 annual installments. Distributions are made in shares of Company stock, cash or a combination of Company stock and cash at the discretion of the Plan Administrator.

Under the provisions of the plan, participants can require the Company to repurchase participant shares that have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2014, the Company repurchased from participants 1,691.8412 shares at prices determined from the independent appraisal.

Administrative expenses: As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

NOTES TO FINANCIAL STATEMENTS

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan Administrator should direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant accounts: The plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service after the first year and are 100 percent vested after 6 years of service.

Put Option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of active participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may invest in three other investment options offered by the Plan, or may receive a cash distribution.

Forfeitures: Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2014 and 2013 totaled $0.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

NOTES TO FINANCIAL STATEMENTS

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment valuation and income recognition: The shares of Company common stock are valued at estimated fair value. See Note 6 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 13, 2015, the date on which the financial statements were available to be issued. No events were identified which would require disclosure in the financial statements.

Note 3. Tax Status

The Plan has received a determination letter from the internal Revenue Services dated July 11, 2014, stating that the Plan is qualified, under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is not subject to income tax examinations for years prior to 2010, the year of inception.

Note 4. Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan.

NOTES TO FINANCIAL STATEMENTS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Note 5. Investments

The Plan's investments, at December 31, are presented in the following table:

	2014		2013	
	Allocated	Unallocated	Allocated	Unallocated
Porterville Citrus, Inc. common stock:				
Number of shares	763,042	1,236,958	616,559	1,383,441
Cost	$ 953,803	$ 1,546,197	$ 770,699	$ 1,729,301
Fair value	$ 28,881,128	$ 46,818,872	$ 18,953,010	$ 42,526,990

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31			
	2014		2013	
	Level 3	Total	Level 3	Total
Investment in Porterville Citrus, Inc. common stock	$ 75,700,000	$ 75,700,000	$ 61,480,000	$ 61,480,000

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Level 3 Assets Year Ended December 31, 2014 Investment in Porterville Citrus, Inc. Common Stock
Balance, beginning of year	$ 61,480,000
Realized gains (losses)	-
Unrealized gains relating to asets still held at the reporting date	14,220,000
Shares distributed to participants	-
Balance, end of year	$ 75,700,000
The amount of total gains or losses for the period included in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 14,220,000

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 or 2013.

The Porterville Citrus, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser under contract. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7. Loan Payable

In 2010, the Plan entered into a $2,500,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 146,483.1098 shares being released and allocated for the plan year ended December 31, 2014.

The agreement provides for the loan to be repaid over 15 years at an interest rate of 4.11%. The fair value of the note payable as of December 31, 2014 and 2013, was approximately $1,666,667 and $1,833,333, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk. Scheduled amortization of the loan for the next five years and thereafter is as follows: 2015 - 2019 $166,667 per year and thereafter $833,332.

Note 8. Related Party and Party In Interest Transactions

The Plan invests in Company common stock and has indebtedness from the Company. These are related party and party-in-interest transactions. As described in Notes 1 and 4, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.
