NOTE 1 DESCRIPTION OF PLAN

The Plan was established effective January 1, 1998 from a prototype plan of The Rehmann Group. The Plan was amended and restated effective January 1, 2010. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement and "Summary Plan Description" for more complete information.

General

The Plan is a voluntary defined salary deferral 401(k) plan in which all employees of New Horizons Baking Company, Inc. or its sister company, Genesis Baking Company (collectively referred to as "the sponsors") who are also members of Local 1-377 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied-Industrial, and Service Workers International Union, and who have completed 120 days of service with the sponsors and reached age 18, are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees, consisting of key management personnel of the sponsors, oversee the operations of the Plan.

Funding Policy

Plan participants may defer and contribute a specified percentage of their eligible annual pre-tax compensation, as defined in the Plan, subject to certain limitations as specified in the Internal Revenue Code (IRC).

Funding Policy

Pursuant to the collective bargaining agreement, the sponsors have agreed to make matching contributions equal to 50 percent of the first 5% of each participant's compensation deferral (resulting in a maximum matching contribution of 2.5% of annual compensation). Also pursuant to the collective bargaining agreement, the sponsors made profit sharing contributions equal to $.60 per hour worked for all eligible participants during the period January 1, 2012 through March 31, 2013, and $.65 per hour worked for all eligible participants during the period April 1, 2013 through December 31, 2014.

The Plan also accepts rollover contributions from other qualified plans.

Participant Accounts

Each participant's account is credited with the participant's compensation deferral contribution, matching and profit sharing contributions from the sponsors, and an allocation of the investment earnings or loss of the investment options in which the participant chooses to invest. At December 31, 2014, the Plan offered various pooled separate accounts and a general account, as investment options for plan participants. Participants may change their investment allocation at any time.

The benefit to which a participant is entitled is the vested benefit that can be provided from the balance of the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their compensation deferral contributions, any rollover contributions, and investment earnings or loss on such contributions. Participants vest at 20% per year with respect to contributions made by the sponsors to the Plan on their behalf and are fully vested upon completion of five years of credited service.

If a participant is terminated, any nonvested portion of the participant's account relating to sponsor contributions is considered a forfeiture. Forfeitures are available to reduce sponsor contributions to the Plan. During the years ended December 31, 2014 and 2013, $20,181 and $11,170, respectively, of forfeitures were used for this purpose.

Notes Receivable from Participants

Upon completion of three years as a Plan member, participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance for hardship reasons as defined by the participant loan program. Under the terms of the Plan, participants may only have one outstanding loan from the Plan at any time. Loan transactions are treated as a transfer between the participant's investment accounts and the notes receivable from participants account. Loan terms may not extend beyond five years, unless for the purchase of a principal residence. Loans are secured by the balance in the participant's account and bear a reasonable rate of interest compared to the published prime rate at the time of loan origination. Principal and interest is paid ratably through payroll deductions. Loans are considered to be in default at the end of the calendar quarter following the calendar quarter in which payment was not made.

Benefits and Withdrawals

The normal retirement date is the date a participant reaches age 65. When a participant reaches the normal retirement date or elects early retirement at age 59-1/2, or if a participant dies or becomes disabled while participating in the Plan, the participant becomes fully vested and is immediately entitled to the balance in their account. If participants terminate for any reason other than retirement, death, or total disability, they are entitled to receive the vested amount in their individual account.

A participant may request a distribution from the participant's account to meet an immediate financial hardship pursuant to guidelines issued by the Internal Revenue Service (IRS).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies followed in preparing the financial statements of New Horizons Baking Company 401(k) Retirement Savings Plan for Norwalk Union Bakers (the Plan) are presented below.

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments consist of pooled separate accounts and a general account of Yoya Retirement Insurance and Annuity Company (Voya), Insurance Company. Investments are stated at fair value which is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

The net appreciation (depreciation) in fair value of pooled separate accounts includes gains and losses from investments purchased, sold and held during the year. Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As described in Financial Accounting Standards Board (FASB) Staff Position, ASC 962-325-50, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "ASC"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract with Voya. As required by the ASC, the Statements of Net Assets Available for Benefits should present the fair value of the investment in the investment contract as well as the adjustment of the investment in the investment contract from fair value to contract value relating to the investment contract. However, since fair value of the investment contract does not materially differ from contract value, no adjustment is needed. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are secured by the participant's account balance and are stated at the amount of unpaid principal balance plus any accrued but unpaid interest. Payments of notes receivable from participants are applied to the specific accounts comprising the balance.

Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan agreement.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon payment.

Transfers from the Plan

Participants have the ability to transfer funds to another qualified savings plan, which are recorded upon transfer date.

Administrative Expenses

Administrative expenses consist of loan and distribution processing fees, as well as advisory fees for those participants who elect this service. All other administrative expenses and costs incurred in connection with the operation of the Plan, including all internal costs, are paid directly by the Plan's sponsors.

Subsequent Events

Management evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2014, but prior to October 14, 2015 that provided additional evidence about conditions that existed at December 31, 2014, have been recognized in the financial statements for the year ended December 31, 2014. Events or transactions that provided evidence about conditions that did not exist at December 31, 2014 but arose before the financial statements were available to be issued, have not been recognized in the financial statements for the year ended December 31, 2014.

NOTE 3 INFORMATION CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Participant-directed investments of $2,824,859 and $2,435,637 as of December 31, 2014 and 2013, respectively.
- Notes receivable from participants of $31,535 and $25,105 as of December 31, 2014 and 2013, respectively.
- Net investment income of $138,922 and $361,613 for the years ended December 31, 2014 and 2013, respectively.
- Interest income from participant notes receivable of $1,531 and $998 for the years ended December 31, 2014 and 2013, respectively.

NOTE 3 INFORMATION CERTIFIED BY CUSTODIAN (CONTINUED)

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 is as follows:

	2014	2013
Voya Retirement Insurance and Annuity Company – Pooled Separate Accounts:		
American Funds American Balanced	$ 237,012	$ 207,101
Voya Index Solution 2025	345,045	316,054
Voya Index Solution 2035	313,766	251,131
Voya Index Solution 2045	175,411	156,645
American Funds Growth	148,045	135,529
American Funds Washington Mutual	163,870	*
Voya General Account	487,806	408,107

* Less than 5% of Plan Net Assets as of December 31, 2014

The Plan's independent auditors did not perform any auditing procedures with respect to the preceding information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed by Voya, and consequently, transactions with Voya qualify as party-in-interest. Administrative expenses paid by the Plan to Voya amounted to $6,496 in 2014 and $5,607 in 2013.

NOTE 5 FEDERAL INCOME TAXES

The Internal Revenue Service (IRS) has determined, in a letter dated March 31, 2008, that the prototype plan of The Rehmann Group has been designed in accordance with applicable Sections of the Internal Revenue Code. Consequently, a separate letter of determination for the Plan is not required. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan continues to qualify as a tax-exempt plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

NOTE 6 FAIR VALUE MEASUREMENTS

Fair Value Measurements, FASB ASC 820-10 (ASC 820-10) requires the use of valuation techniques that should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, ASC 820-10 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets of the Plan measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts – valued at the net asset value (NAV) of shares of the underlying mutual funds held by the pooled separate accounts held by the Plan at year-end. The pooled separate accounts do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. Pooled separate accounts are considered Level 2 investments.

General Account – valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. The contract is considered a Level 2 investment.

NOTE 6 FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value (there were no liabilities) as of December 31, 2014 and 2013:

2014	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts:				
Growth Funds	$ -	$ 1,111,311	$ -	$ 1,111,311

General Account	-	487,806	-	487,806
Total Assets at Fair Value	$ -	$ 2,824,859	$ -	$ 2,824,859

2013	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts:				
Growth Funds	$ -	$ 981,735	$ -	$ 981,735
Fixed Income	-	110,634	-	110,634

Money Market	-	3,515	-	3,515
General Account	-	408,107	-	408,107
Total Assets at Fair Value	$ -	$ 2,435,637	$ -	$ 2,435,637

Following, is a description of the nature and risks of the categories of assets by major security type.

Growth Funds: Growth funds seek to maximize the value of savings over time by investing in the stocks of companies that have a strong potential for providing above-average earnings growth.

Fixed Income Funds: Fixed income funds seek to provide a steady stream of income, which is reinvested, and in some cases a small amount of growth by investing in bonds issued by governments and corporations.

International Funds: This asset class is composed of investment options that invest in stocks or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth.

NOTE 6 FAIR VALUE MEASUREMENTS (CONTINUED)

Target Date Retirement: Target date funds seek to balance the investment return with the level of risk that can be assumed considering the length of time until expected retirement by investing in a combination of stocks of companies that have potential for strong earnings growth, stocks of companies that are priced below their expected long-term worth, and fixed income securities.

Money Market Fund: The money market fund seeks to provide a stable value and limit exposure to losses due to credit, market, and liquidity risks by investing in short-term securities representing high-quality, liquid debt and monetary instruments.

NOTE 7 INVESTMENT CONTRACT WITH CUSTODIAN

The Plan entered into fully benefit-responsive investment contracts with Voya. The Insurance Company maintains the contributions in a general account. The account is credited with earnings, based on the daily balance and the interest rate in effect, and charged for participant withdrawals and administrative expenses.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2014 and 2013 was $487,806 and $408,107, respectively. The crediting interest rate is based on a formula agreed-upon with the issuer, and is guaranteed for the six-month period for which it is effective. Such interest rates are reviewed on a semi-annual basis for resetting.

There are no conditions or restrictions that limit the ability of the Plan to transact at contract value with the issuer. The investment contract does not have a maturity date. Plan participants generally may withdraw assets without restrictions; however, there may be a hold period at the contract level in the event of full or partial contract discontinuance.

The average yields earned by the guaranteed investment contract are as follows:

	2014	2013
Average Yields		
Based on Actual Earnings	2.02%	2.05%
Based on Interest Rate Credited to Participants	2.01%	2.05%

NOTE 8 TERMINATION

The Plan was established as a result of the collective bargaining process and can only be terminated upon the written agreement of Local No. 1-377. In the event of termination of the Plan, all participants will become fully vested in their respective account balances and the total value of each participant's account will be distributed to the participant, after reasonable expenses of administration.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain Plan assets with Voya are a collective trust fund (pooled separate account), as classified in the financial statements included herein. The collective trust fund (pooled separate account) did not file a Form 5500 for the direct filing entity, therefore, the underlying assets have been reported on the Form 5500, Schedule H.
