Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in NOTE 7, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. Their report, dated October 15, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN

The following brief description of the Femwell Group Health, Inc. 401(K) Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a safe harbor plan established by the Plan sponsor and Employer, Femwell Group Health, Inc., and became effective on January 1, 2007. The Plan is a defined contribution 401(k) profit-sharing retirement plan covering all full-time employees of Femwell Group Health, Inc. who have completed at least one year of service or 1,000 hours of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is designed to qualify as a "Safe Harbor 401(k) Plan." A Safe Harbor 401(k) Plan, among other features, must provide for Employer contributions that may be (a) Employer matching contributions (limited to employees who defer), or (b) Employer contributions made on behalf of all eligible employees (regardless of whether they make elective deferrals). Safe Harbor 401(k) Plans are exempted from the annual nondiscrimination tests applicable to traditional 401(k) plans, provided the Safe Harbor requirements are satisfied.

Contributions

Participants may elect to contribute a specific percentage or dollar amount of annual compensation as pre-tax deferrals, or Roth deferrals, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code and other limitations specified by the Plan.

Pursuant to the provisions of the Plan, Safe Harbor Employer contributions may be determined each plan year, at the discretion of the Employer. For 2014 and 2013, the Plan has elected to provide for annual Safe Harbor employer contributions on behalf of all eligible employees in an amount equal to 3% of their compensation regardless of whether or not an eligible employee makes salary deferrals into the Plan. The Employer must provide written notice to each eligible employee for the plan year of the employee's rights and obligations under the Plan in accordance with Federal Tax Regulations Section 1.401(k)-3(d)(2).

Additional discretionary Employer contributions may be contributed at the option of the Employer's Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution (if any) and the Employer's Safe Harbor contribution on behalf of the corresponding participant. In addition, each participant's account is credited with allocations for the following (if any) (a) the Employer's matching and discretionary contribution, and (b) the Plan's investment earnings. Each participant's account is charged with the participant's distribution and allocations for the following (if any) (a) Plan investment losses, and (b) Plan operating expenses. Allocations of Plan investment earnings or losses are based on each participant's investment election, as defined in the Plan. Allocations of Plan operating expenses may be charged pro-rata to each participant in relation to the size of each participant's account balance or as an equal dollar amount based on the number of participants in the Plan. Alternatively, the Employer may elect to assume all, or part, of the Plan's operating expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions and Safe Harbor contributions plus actual earnings thereon. Vesting in additional discretionary Employer contributions and earnings, if any, thereon is based on a "6-year graded vesting schedule," as following:

Years of Vesting Service	Vested percentage
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options

Participants may direct the trustee to invest their elective 401(K) contributions, rollovers, if any, as well as Employer matching contributions to the Plan in any of the available investment options. Participants can individually determine their investment options based on desired level of risk and return for all contributions (Employer and participant) to the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or beneficiary may request to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant may receive a distribution from his or her account prior to termination of employment provided the participant (a) has attained age fifty-nine and a half, or (b) has incurred a financial hardship, as described in the Plan. Involuntary distributions of $5,000 or less may be made by the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear an interest rate equal to the prime rate, plus 1%. At December 31, 2014 and 2013, the interest rate was 4.25%. Principal and interest are paid ratably through payroll deductions.

Forfeitures

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $8,662 and $7,186, respectively. Forfeitures will be used to reduce future Employer contributions and/or Plan administrative expenses. In 2014 and 2013, Employer contributions were not reduced by forfeited non-vested accounts.

Administrative Expenses

During the years ended December 31, 2014 and 2013, administrative expenses amounting to $17,013 and $17,736, respectively, were paid by the Plan and shown as a deduction from net assets. The Employer assumes part of the Plan's operating expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as any adjustments of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis, which approximates fair value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in NOTE 9. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions could significantly affect the estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Tax Status

The Plan has adopted a prototype plan, which has obtained an Internal Revenue Service ("IRS") letter on March 31, 2008, in which the IRS stated that the form of the Plan was acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been made.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status (continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Adoption of Accounting Pronouncement

Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in ASU No. 2011-04

In July 2013, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which defers indefinitely the effective date of certain required disclosures in Accounting Standards Update No. 2011-04 of quantitative information regarding the significant unobservable inputs used in Level 3 fair value measurements of investments held by a plan not subject to the Securities and Exchange Commission's filing requirements ("nonpublic employee benefit plan") in its plan sponsor's own nonpublic entity equity securities as well as equity securities of its plan sponsor's nonpublic affiliated entities. The update does not defer the effective date for certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. The update is effective upon issuance for any financial statements that have not been issued. The implementation of this update did not have a material effect on the Plan's financial statements.

Recent Accounting Pronouncements

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

In May 2015, the FASB issued an accounting standard update which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The update is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the update retrospectively to all periods presented. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

Plan Accounting: Defined Benefit Pension Plans; Defined Contribution Pension Plans; Health and Welfare Benefit Plans

In July 2015, the FASB issued ASU 2015-12 which, in three parts, amends the requirements for disclosures related to fully benefit-responsive investment contracts and to plan investments, and provides a practical expedient for the measurement date of an employer's defined benefit obligation and plan assets. Part I of this update requires fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value. Part II eliminates the required disclosures of individual investments that represent five percent or more of net assets available for benefits, and requires the disclosure of the net appreciation or depreciation for investments only be presented in the aggregate. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal-year end, when the fiscal period does not coincide with a month-end. The update is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated events through October 13, 2015, which is the date the financial statements were available to be issued.

3. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets as of December 31:

	2014	2013
Vanguard Large-Cap Index	$ 313,710	$ 275,750
TCW Core Fix Ed Inc. Class I	209,450	184,261
T.Rowe Price Equity Income	193,218	169,801
American Fund Europacific R6	192,355	176,831
Oppenheimer Int'l. Growth	186,349	175,638
DFA Inflation Protected Sec	157,638	134,160
Wells Fargo Adv Growth Adm	146,068	135,700

During the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value from the pooled separate investment accounts by $91,905 and $264,673, respectively.

4. COLLECTIVE TRUST FUND WITH BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan's investment in the KeyBank EB Magic Fund ("Fund") as of December 31, 2014 and 2013 principally consists of fully benefit-responsive synthetic guaranteed investment contracts ("GICs"). At December 31, 2014, the Plan's investment in the Fund had a fair market value of $74,841 and a contract value of $73,704. At December 31, 2013, the Plan's investment in the Fund had a fair value of $67,588 and a contract value of $66,912. The GIC investments held by the Fund represent arrangements which guarantee a stated interest rate for the term of the contracts.

Traditional GICs are unsecured, general obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The interest crediting rate on the contract is typically fixed for the life of the investment. Separate account GICs are investments in a segregated account of assets maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the separate account GIC's return. The credited rate on this product will reset periodically and it will have an interest rate of not less than 0%.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund and a benefit-responsive, book value wrap contract purchased for the portfolio. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract, the market yield of the underlying assets, the market value of the underlying assets and the average duration of the underlying assets. The initial crediting rate of the contract is established based on the market interest rates at the time the underlying portfolio is first put together and it will have an interest crediting rate of not less than 0%.

The average market yield of the Fund for 2014 and 2013 was 1.86% and 1.69%, respectively. This yield is calculated based on actual investment income from the underlying investments for the last month of the year, annualized and divided by the fair value of the investment portfolio on the respective balance sheet date. The average yield of the Fund with an adjustment to reflect the actual interest rate credited to participants in the fund was 1.79% and 1.60% for 2014 and 2013, respectively.

5. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Less: miscellaneous cash receipt	-	(556)
Total investment income per Form 5500	$ 96,668	$ 268,761

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, each participant will automatically become 100% vested and the Employer shall direct the distribution of accounts to or for the exclusive benefit of participants or their beneficiaries. Additionally, charges may be applied against the value of the Plan if the Plan is liquidated.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

7. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Charles Schwab Bank ("Schwab"), has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	December 31, 2014	December 31, 2013
Mutual funds, at fair value	$ 2,191,052	$ 1,950,928
Collective trust, at contract value	73,704	66,912

Interest income on notes receivable from participants	4,763	4,088
Total investment income	**$ 96,668**	**$ 268,761**

7. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (CONTINUED)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest is defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As of December 31, 2014 and 2013, all Plan investments are either pooled separate investment accounts managed by Charles Schwab Insurance Company, an investment company affiliate of the trustee, or insurance company general accounts issued by the trustee, and are therefore considered party-in-interest investments. Notes receivable from participants also qualify as party-in-interest transactions.

9. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC are described as follows:

- Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 — Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Investment Accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end.

Insurance Company General Accounts: Valued at contract value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Contract value is an approximation of fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

9. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:
