NOTES TO FINANCIAL STATEMENTS
ACMC SYSTEM SAVINGS INVESTMENT PLAN

Note 1. Description of the Plan

The following description of ACMC System Savings Investment Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description and Plan Agreement for a more complete description of the Plan's provisions.

General

Ashtabula County Medical Center and Subsidiaries (ACMC) established a defined contribution plan to provide employees with a systematic means of savings and investing for the future. All permissible employees of ACMC, as defined in accordance with the universal availability standards are eligible to enroll on their date of hire. Deferrals begin on the first pay period subsequent to enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may voluntarily defer up to 50% of their eligible pre-tax annual compensation subject to the Internal Revenue Service (IRS) limits, as defined in the Plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants. Participants may change their deferral percentage contribution at any time throughout the Plan year. Investment allocation changes can be made at any time. ACMC makes a matching contribution to the Plan. During 2014, ACMC contributed 50% of the elected deferral, up to 4% of eligible compensation. ACMC also makes a non-elective contribution of 2% of eligible compensation. Effective January 1, 2014, the Plan was amended to begin all employer contributions 6 months after the hire date for employees hired on or after January 1, 2014.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of ACMC's matching contributions, non-elective contributions, and Plan earnings, and is charged with a quarterly administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from a participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in ACMC's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 2 years of credited service.

Participants' Investment Options

Participants must direct their salary deferral, discretionary and non-discretionary contributions to selected investments as made available and determined by the plan administrator. Participants may change their investment options anytime throughout the year via direct phone access to Fidelity Management Trust Company or internet access through their website.

NOTES TO FINANCIAL STATEMENTS
ACMC SYSTEM SAVINGS INVESTMENT PLAN

Note 1. Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

During their employment, participants may withdraw their vested account balance in the event of financial hardship. The balance in a participant's account not previously withdrawn may be paid to the participant or his designated beneficiary in the event of death, permanent disability, retirement, or other termination of employment with ACMC. In addition, an in-service withdrawal may be taken after age 59½. Benefit payments are generally made in a lump-sum amount but there is an option for installment or annuity payments.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$11,017 and \$10,066, respectively. These accounts will be used to reduce future employer contributions. Also, in 2014, Employer contributions were reduced by \$22,082 from forfeited nonvested accounts.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by ACMC. Expenses that are paid by ACMC are excluded from these financial statements. Fees related to the administration of notes receivable are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Recent Accounting Pronouncements

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensus of the Emerging Issues Task Force. The amendments in this Update (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2015, the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held and notes receivable from participants as of December 31, 2014 and 2013, interest and dividend income, interest income on notes receivable from participants and net depreciation in fair value of investments for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Fidelity Management Trust Company, the custodian, and furnished to the plan administrator. The plan administrator has obtained a certification from the custodian that the information provided to the plan administrator by the custodian related to the investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

Note 4. Fair Value Measurements

FASB *Accounting Standards Codification, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under *Fair Value Measurements and Disclosures* are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money Market Fund: Valued at the daily closing price as reported by the fund. The money market fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at fair value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total

Total assets at fair value	\$ 30,181,186	\$ -	\$ -	\$ 30,181,186

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Levels 1, 2 or 3.

NOTES TO FINANCIAL STATEMENTS
ACMC SYSTEM SAVINGS INVESTMENT PLAN

Note 5. Related-Party Transactions and Party In Interest Transactions

Certain Plan investments are managed by affiliates of Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian and record keeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, ACMC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their employer contributions.

Note 7. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the internal revenue service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
