Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Christ Hospital 401(a) Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2014 and 2013, and for the year ended December 31, 2014, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content With Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements

December 31, 2014

1. Description of Plan

General

The following description of The Christ Hospital 401(a) Retirement Savings Plan (the Plan) provides only general information. The Christ Hospital Health Network (the Company and Plan Administrator) is the plan sponsor. Participants should refer to the *Summary Plan Description* for a more complete description of the Plan's provisions.

Prior to April 1, 2008, all participants of record participated in a defined contribution plan at The Health Alliance of Greater Cincinnati (the Health Alliance), now doing business as UC Health. Effective April 1, 2008, and in accordance with the Defined Contribution Plan Spin-Off Agreement (the Agreement) with the Health Alliance, dated June 26, 2008, with an effective date of April 1, 2008, the plan assets associated with the Company's participants were spun off to the newly formed plan. Each employee who was an active participant under the Health Alliance Defined Contribution Plan (the Health Alliance Plan) on March 31, 2008, continued to be an active participant if they were still an eligible employee of the Company on April 1, 2008. Subsequent to the spin-off, the Plan was frozen effective April 1, 2008. As such, no new participants have joined the Plan subsequent to April 1, 2008.

The Company is responsible for the general administration of the Plan. The Plan Investment Committee (the Committee) is responsible for oversight of the Plan's investments. Principal Financial Group (Principal) serves as the trustee of the Plan (the Trustee), and Principal Financial Group Retirement Plan Services acts as the recordkeeper for the Plan (the Recordkeeper). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participant contributions were no longer allowed under the Plan subsequent to the Agreement. Discretionary employer contributions may be made by the Company at the discretion of the Company's Board of Directors. No such amounts were contributed for the Plan during 2014 or 2013.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the allocation of plan earnings and charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the relative size of the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Eligibility and Vesting

The Plan has been established for the exclusive benefit of transferred employees who were active participants in the Health Alliance Plan and whose accrued benefits under the Health Alliance Plan were directly transferred to the Plan. All such transferred employees are participants in the Plan with no loss of benefits. As there are no new participants and will be none in the future, there are no eligibility requirements. All participants were immediately vested in their contributions and the associated earnings and losses.

Participant Loans

Participants may borrow from their accounts in increments of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, not less than \$1,000. Loan terms range from one to five years. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. A participant may not have more than one loan outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions. If a participant terminates employment with the Company, they may continue to make loan payments through a pre-authorized check agreement. If the loan is not repaid, it will be treated as a distribution to the participant after three months.

1. Description of Plan (continued)

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum or may elect installment payments on a quarterly or annual basis. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the assets of the Plan will be distributed in accordance with the provisions of the plan document.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan are presented on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

The Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. The Committee is comprised of members of executive management, Accounting, and Human Resources and reports to the Finance and Audit Committee of the Company.

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Plan invests in a fully benefit-responsive guaranteed investment contract. This investment is recorded at fair value (Note 5); however, since these contracts are fully benefit-responsive, an adjustment may be reflected in the statements of net assets available for benefits to present these investments at contract value if it is determined that the contract value does not approximate fair value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because most participant transactions are executed using contract value without adjustment. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2014 and 2013, the fair value of the guaranteed investment contract approximates contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of ASU 2015-12 eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12 allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of ASU 2015-12's three parts without early

adopting the other parts. The Company is currently evaluating this updated guidance and has not adopted any parts in the Plan's current year financial statements.

3. Investments

All investment information disclosed in the financial statements and supplemental schedule, including investments held, and notes receivable from participants at December 31, 2014 and 2013, and interest and dividends, net appreciation in the fair value of investments, and interest income on notes receivable from participants for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2014	2013
Principal LifeTime 2020 R5 Fund	\$ 4,724,791	\$ 4,778,002
Principal Life Fixed Income Guaranteed Option (at contract value and fair value)	3,867,506	4,275,838
Principal LifeTime 2030 R5 Fund	3,750,410	3,587,859
Principal LifeTime 2040 R5 Fund	2,570,143	2,607,972

During 2014, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as follows:

Mutual funds	\$ 830,782
--------------	------------

4. Fully Benefit-Responsive Guaranteed Investment Contract

The Plan invests in the Principal Fixed Income Guaranteed Option fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (the issuer or Principal Life). Principal Life maintains the contributions in a general account.

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fully Benefit-Responsive Guaranteed Investment Contract (continued)

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, as reported to the Plan by the Trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The average yield and crediting interest rates were and 2.35% from January 1, 2013 to June 30, 2013, 2.25% from July 1, 2013 to December 31, 2013, 2.05% from January 1, 2014 to June 30, 2014, and 2.00% from July 1, 2014 to December 31, 2014. The methodology for the calculation of the interest crediting rate is defined in Article I, Section II of the contract under the term, "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

The fully benefit-responsive guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity.

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fully Benefit-Responsive Guaranteed Investment Contract (continued)

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination.

5. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Mutual funds are valued at the net asset value of shares held by the Plan at year-end which are based on quoted market prices in markets that are active. The Plan does not adjust the quoted market price for such financial instruments. Mutual funds are classified within Level 1 of the fair value hierarchy.

The fully benefit-responsive guaranteed investment contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering creditworthiness of the issuer income apparent. The contract is based on significant unobservable inputs and is classified within Level 3 of the fair value hierarchy.

The Plan did not have any significant assets measured at fair value on a nonrecurring basis as of December 31, 2014 or 2013.

5. Fair Value Measurements (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

December 31, 2014				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	\$ 3,867,506	Assumed proceeds at discontinuance*	Composite Credit Rate	2.05%–2.00%
December 31, 2013				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	\$ 4,275,838	Assumed proceeds at discontinuance*	Composite Credit Rate	2.35%–2.25%

* Fair value is considered contract value as most participant transactions are executed using contract value without adjustment. These contracts do have surrender charges if the Plan terminates its interest in such contracts within certain time periods. If the Plan is considering terminating its interest in such contract in the near future, contract value less surrender charges may be a better proxy for fair value. However, as of December 31, 2014, the Plan has no intent of terminating the contract.

In determining the reasonableness of the methodology, the Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Significant increases (decreases) in the composite crediting rate could result in a significantly (higher) lower fair value measurement; however, the composite crediting interest rate is based on a formula agreed upon with Principal Life and may not be less than 1.00% or greater than 3.00%. Such interest rates are reviewed on a semiannual basis for resetting. The Principal Fixed Income Guaranteed Option is a single-group annuity contract with a fixed rate of interest. As a result, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the group annuity contract. Changes in future interest crediting rates will not affect the fair value reported on the statement of net assets available for benefits.

6. Income Tax Status

The Plan has received a determination letter from the IRS dated November 2, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the IRC) and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

U.S. generally accepted account principles require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Christ Hospital 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

8. Related-Party Transaction

The Plan holds units of mutual funds and a guaranteed investment contract managed by Principal Life, an affiliate of the Plan's Trustee and Recordkeeper. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 15, 2015, the date the financial statements were available to be issued.
