Gresser, Inc. and Affiliates 401(k) Plan
Notes to Financial Statements
December 31, 2014

Note 1: Description of Plan

The following description of the Gresser, Inc. and Affiliates (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a type of defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of the Company, excluding those under collective bargaining agreements, who have attained the age of twenty-one and have completed one year of service in which they were employed 1,000 or more hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary reductions. The Company may also make a matching contribution as determined by the Company. In addition, each year the Company may also elect, at its discretion, to contribute an additional amount to the Plan. The discretionary contribution will be credited to eligible participant accounts based on the proportion of the employees' compensation to the Company's total compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100% vested in employer contributions after six years of credited service. A participant will also become 100% vested upon retirement, death or permanent disability. Forfeitures of employer matching and discretionary contributions are used to reduce Plan administrative expenses or reduce employer matching contributions. During the year ended December 31, 2014, forfeitures of $5,222 were used to pay administrative costs.

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum, (2) the purchase of a

Note 1: Description of Plan (Continued)

different form of annuity, or (3) installments over a period not to exceed the participant's or participant's beneficiary's life expectancy.

Investment Options

Participants can invest their Plan assets among several investment funds offered by American Funds, the trustee of the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan. Loans are granted only if a financial hardship or financial need under certain criteria has occurred. Principal and interest are paid through payroll deductions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Notes Receivables from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurements and Income Recognition

Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) (the Topic), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies (Mutual Funds): Valued at fair value as determined by observable Level 1 quoted pricing inputs on an active market or by quoted prices for similar assets in active markets.

Participant loans: Valued at their outstanding balance, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded

Note 2: Summary of Significant Accounting Policies (Continued)

on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investment bought and sold as well as held during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

Plan Administration Expenses

Administrative expenses were $3,779 for the year ended December 31, 2014 and were paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Events subsequent to December 31, 2014 have been evaluated through October 15, 2015, which is the date the financial statements were available to be issued. Management did not identify any subsequent events that required disclosure.

Note 3: Information Prepared and Certified by Trustee

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the accompanying financial statements and supplementary schedule and was prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator from the custodian related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplemental schedules.

Note 3: Information Prepared and Certified by Trustee (continued)

The following table presents this certified information, including the fair value of investments that include 5% or more of the plan's net assets as of December 31:

Note 3: Information Prepared and Certified by Trustee (Continued)

The certification extends to the investment and investment income included in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

During the year ended December 31, 2014, the Plan's investments (including investments bought, sold, and held during the period) appreciated in value by $78,518. Investment income (including interest from notes receivable from participants) during the year ended December 31, 2014 was $1,759.

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

Note 5: Additional Financial Statement Disclosures

A. The Plan received a favorable letter of determination from the Internal Revenue Service on March 16, 2010, regarding its qualified tax status for the Plan. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

B. All reportable transactions have been disclosed in supplemental schedules of the annual report made available to the Plan participants.

Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Note 6: Related-Party Transactions

The Plan invests in pooled separate accounts managed by American Funds. American Funds is the custodian and record-keeper of the Plan. These transactions qualify as party-in-interest transactions. Administrative fees amounted to $3,779 and were paid by the plan for the year ended December 31, 2014.

Note 7: Recent Accounting Pronouncements

In February 2013, FASB issued ASU No. 2013-03, *Financial Instruments (Topic 825): Clarifying the Scope and Applicability of a Particular Disclosure to Nonpublic Entities.* The main objective of this ASU is to clarify the scope and applicability to nonpublic entities of a particular disclosure that resulted from the issuance of ASU No. 2011-04. The amendments clarify that the requirement to disclose the level of the fair value hierarchy within which the fair value measurements are categorized in their entirety (Level 1, 2, or 3) for items that are not measured at fair value in the statement of financial position but for which fair value is disclosed does not apply to nonpublic entities. ASU 2013-03 was effective upon issuance and has been implemented.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date (Practical Expedient)*. The main objective of this ASU is to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the

Note 7: Recent Accounting Pronouncements (continued)

usefulness of the information provided to users of financial statements. Under the amendments in Part I, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. Under the amendments in Part II, requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type will be eliminated for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still will be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. The amendments in Part III provide a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. This pronouncement is effective for fiscal years beginning after December 15, 2015. Management has not yet determined the impact of this Statement on its financial statements.

Note 8: Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
