A. DESCRIPTION OF THE PLAN

The following description of the AmTex Machine Products, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan is administered by an employee appointed by the Company. Alliance Benefit Group of Houston, Inc. is the administrator and MG Trust Company, LLC is the custodian of the Plan's investments. Nationwide was the custodian of the Plan's investments through September 2014. The Plan has adopted the Alliance Benefit Group of Houston, Inc. Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust.

Participation

All full-time employees of the Company, except collectively-bargained employees, who have completed six months of service, may participate in the plan. Participants may enter the plan as of September 1st following the completion of the service requirement. Additionally, participants may change the amount they save on September 1 or March 1. Participants may stop saving at any time but cannot reenter the plan until these dates.

Contributions

Participants may contribute up to 100% of gross eligible compensation, as defined by the Plan, limited to $255,000 in 2014 and $250,000 in 2013, subject to certain limitations under the Internal Revenue Code of 1986, as amended (IRC). Participants age 50 and older as of the end of the Plan year are permitted to make elective catch-up contributions. Participants may also contribute rollovers representing distributions from a former employer's qualified retirement plan.

The Company may make a discretionary match determined by the plan sponsor. Currently, the employer is matching 50% of the participant deferrals up to 6% of compensation.

Participant's accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, and matching contribution and allocations of Plan earnings or losses, net of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF THE PLAN - CONTINUED

Vesting

Participants are vested immediately in their contributions and rollover contributions, if any, plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing portions of their accounts is based on years of continuous service. Participants vest according to the following schedule:

Completed years of service	Vested Percentage
1 year	0%
2 year	20%
3 year	40%
4 year	60%
5 year	80%
6 year	100%

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a benefit equal to the value of the participant's vested interest in his or her account, as defined by the Plan. The normal form of benefit is lump sum cash payment. In the event of an immediate and heavy financial need, as defined by the Plan, participants may request a hardship distribution of their elective contributions.

Notes receivable from participants

Participants may borrow from their funds a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. All loans must be repaid within five years, unless the loan is used to purchase a primary residence. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited accounts

Forfeited matching contributions are first used to pay administrative expenses and then added to any Employer discretionary contribution. At December 31, 2014 and August 31, 2014, the forfeiture balance was $5,444 and $4,894 respectively. No forfeitures were used during the period ending December 31, 2014.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investments contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, benefit payments and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments includes realized gains and losses on units sold during the year and unrealized appreciation (depreciation) of units held at the end of the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses of the Plan, including investment and asset management fees, are paid by the Plan out of forfeitures and, if not paid by the Plan are paid by the Company.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES - CONTINUED

Subsequent events

The plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

D. FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and August 31, 2014.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and August 31, 2014:

D. FAIR VALUE MEASUREMENTS - CONTINUED

E. RELATED PARTY TRANSACTIONS

The Plan investments were shares of mutual funds in pooled separate accounts managed by MG Trust Company, LLC as of October 1, 2014. Prior to this date, Nationwide was the custodian. Both MG Trust Company, LLC and Nationwide are custodians as defined by the Plan and, therefore, a party in interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 7, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and that the trust created there under is exempt from federal income tax. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. CUSTODIAL CERTIFICATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications for the custodians that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation in fair value of investments, and all the information on the schedule H, line 4i-schedule of assets (held at end of year) is presented in reliance solely upon those certifications. No auditing procedures were performed by the independent auditors with respect to this information.

The following represents information certified by the custodian to be complete and accurate:

	December 31, 2014	August 31, 2014
Investments, at fair value	$975,336	$877,523

K. CHANGE OF CUSTODIAN AND CHANGE OF FISCAL YEAR

The Plan adopted a resolution to change its fiscal year-end from August 31 to a calendar year-end December 31. The Plan will be filing a short year return for the September 1, 2014 through December 31, 2014 plan year. Additionally, subsequent to year-end, the Plan migrated from Nationwide Financial to MG Trust Company LLC.

A. DESCRIPTION OF THE PLAN

The following description of the AmTex Machine Products, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan is administered by an employee appointed by the Company. Alliance Benefit Group of Houston, Inc. is the administrator and MG Trust Company, LLC is the custodian of the Plan's investments. Nationwide was the custodian of the Plan's investments through September 2014. The Plan has adopted the Alliance Benefit Group of Houston, Inc. Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust.

Participation

All full-time employees of the Company, except collectively-bargained employees, who have completed six months of service, may participate in the plan. Participants may enter the plan as of September 1st following the completion of the service requirement. Additionally, participants may change the amount they save on September 1 or March 1. Participants may stop saving at any time but cannot reenter the plan until these dates.

Contributions

Participants may contribute up to 100% of gross eligible compensation, as defined by the Plan, limited to $255,000 in 2014 and $250,000 in 2013, subject to certain limitations under the Internal Revenue Code of 1986, as amended (IRC). Participants age 50 and older as of the end of the Plan year are permitted to make elective catch-up contributions. Participants may also contribute rollovers representing distributions from a former employer's qualified retirement plan.

The Company may make a discretionary match determined by the plan sponsor. Currently, the employer is matching 50% of the participant deferrals up to 6% of compensation.

Participant's accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, and matching contribution and allocations of Plan earnings or losses, net of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF THE PLAN - CONTINUED

Vesting

Participants are vested immediately in their contributions and rollover contributions, if any, plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing portions of their accounts is based on years of continuous service. Participants vest according to the following schedule:

Completed years of service	Vested Percentage
1 year	0%
2 year	20%
3 year	40%
4 year	60%
5 year	80%
6 year	100%

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a benefit equal to the value of the participant's vested interest in his or her account, as defined by the Plan. The normal form of benefit is lump sum cash payment. In the event of an immediate and heavy financial need, as defined by the Plan, participants may request a hardship distribution of their elective contributions.

Notes receivable from participants

Participants may borrow from their funds a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. All loans must be repaid within five years, unless the loan is used to purchase a primary residence. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited accounts

Forfeited matching contributions are first used to pay administrative expenses and then added to any Employer discretionary contribution. At December 31, 2014 and August 31, 2014, the forfeiture balance was $5,444 and $4,894 respectively. No forfeitures were used during the period ending December 31, 2014.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investments contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, benefit payments and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments includes realized gains and losses on units sold during the year and unrealized appreciation (depreciation) of units held at the end of the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses of the Plan, including investment and asset management fees, are paid by the Plan out of forfeitures and, if not paid by the Plan are paid by the Company.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES - CONTINUED

Subsequent events

The plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

C. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plans net assets at:

PIMCO Real Retirement 2045	85,190	NA

During the period ending December 31, 2014, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) in value by $(12,958) as follows:

	December 31, 2014
Pooled separate accounts	$(12,958)
	$(12,958)

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

D. FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and August 31, 2014.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and August 31, 2014:

D. FAIR VALUE MEASUREMENTS - CONTINUED

E. RELATED PARTY TRANSACTIONS

The Plan investments were shares of mutual funds in pooled separate accounts managed by MG Trust Company, LLC as of October 1, 2014. Prior to this date, Nationwide was the custodian. Both MG Trust Company, LLC and Nationwide are custodians as defined by the Plan and, therefore, a party in interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 7, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and that the trust created there under is exempt from federal income tax. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. CUSTODIAL CERTIFICATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications for the custodians that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation in fair value of investments, and all the information on the schedule H, line 4i-schedule of assets (held at end of year) is presented in reliance solely upon those certifications. No auditing procedures were performed by the independent auditors with respect to this information.

The following represents information certified by the custodian to be complete and accurate:

K. CHANGE OF CUSTODIAN AND CHANGE OF FISCAL YEAR

The Plan adopted a resolution to change its fiscal year-end from August 31 to a calendar year-end December 31. The Plan will be filing a short year return for the September 1, 2014 through December 31, 2014 plan year. Additionally, subsequent to year-end, the Plan migrated from Nationwide Financial to MG Trust Company LLC.
