Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CRF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect the information summarized in Note 4, which was certified by John Hancock Life Insurance Company U.S.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule: Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. Description of the Plan

The following description of The Platinum 401(k) Retirement Savings Plan FBO Patrick K. Neal & Associates, Inc. (the "Plan") provides only general information. Users of the financial statements should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established to provide for contributions made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). The Plan covers substantially all eligible employees of Patrick K. Neal & Associates, Inc. (hereafter, referred to as the "Company"). Effective April 1, 2014, the Company elected to participate in the Platinum 401(k) Retirement Savings Plan, a "multiple employer" plan as described in Section 413(c) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Eligibility: **Participant Eligibility:** Employees may participate in the Plan once they are age 18 and have completed two months of service with the Company.

Contributions: Eligible employees may make contributions via payroll deductions up to limits as defined in the Plan and other limits in accordance with the Code. Elective deferrals can be made in whole percentages of compensation or in specific dollar amounts. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan.

The Company may, in its sole discretion, make a Matching contribution on behalf of the participants in an amount determined by the Company. The Company may also, in its sole discretion, make a Discretionary contribution on behalf of the participants in an amount determined by the Company. Such a contribution, if made, will be allocated to each participant eligible in pro rata shares. For the year ended December 31, 2014, the Company provided a Discretionary match equal to 100% of the first 3% of deferrals and 50% of the next 2% of deferrals.

Participant Accounts: Each participant's account is credited with the participant's allocation of (a) the Company's matching contributions, (b) the Company's discretionary contributions, (c) the participant's contribution and (d) Plan earnings less an allocation of investment and operating expenses charged to the Plan. The Company's discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. Description of the Plan (continued…)

Vesting: Participants are immediately 100% vested in their contributions, voluntary rollovers, employer safe harbor matching contributions, and the actual allocated earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on years of service shown in the following schedule:

Years of Service	Vested Percentage
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

A participant will become 100% vested in the Company's matching and discretionary contributions under any of the following circumstances…

- Death before retirement date.
- Disability before retirement date.
- Attainment of normal retirement age.
- Termination of the Plan.

Notes Receivable from Participants: Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Retired or terminated participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

In the event of a participant's death, his or her designated beneficiary may request a distribution of his or her account.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

Forfeitures: Upon termination of employment the non-vested portion of a participant's account is forfeited. Forfeitures may be paid back to the Company or used to reduce the Company's matching or discretionary contributions.

NOTE 2. Summary of Significant Accounting Policies

Basis of Presentation: The financial statements of the Plan have been prepared in accordance with the accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for Fair Value Measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are classified as notes receivable from participants in the statements of net assets available for benefits and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a "deemed" distribution based upon the terms of the plan document.

NOTE 2. Summary of Significant Accounting Policies (continued…)

Non-Distributed Benefits: The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Administrative Expense: The cost and expense of administering the Plan shall be paid, at the discretion of the Company, either directly by the Company or by the Plan through fees deducted from participant accounts.

Subsequent Events: Subsequent events have been evaluated through October 1, 2015, which is the date the financial statements were available for issuance.

NOTE 3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

Ret to 2020 Managed Port	1,044,404
Ret to 2025 Managed Port	1,724,145
Ret to 2035 Managed Port	407,812
Ret to 2040 Managed Port	638,029
Ret to 2045 Managed Port	406,552

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by investment type as follows:

Pooled separate accts	222,787

NOTE 4. Information Certified by the Investment Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 for the year ended December 31, 2014. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information as of December 31, 2014 and for the year ended December 31, 2014 certified by John Hancock Life Insurance Company, USA, the custodian, as complete and accurate, except for comparing such information to the information included in the Plan's financial statements and supplemental schedules. The information certified includes:

	2014
a) Investments:	
Pooled separate accounts	6,619,596
b) Notes receivable from participants:*	
Participant notes receivable	47,160

**The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

c) Other additions and investment income for the year ended December 31, 2014:

Net appreciation in fair value of investments	222,787
Interest income on notes receivable from participants	939

d) Supplemental Schedule:

Schedule H, Line 4i – Schedule of Assets (Held at End of Year)

NOTE 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable market data by correlation or other means;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5. Fair Value Measurements (continued…)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end. Investments in the mutual funds can be redeemed with no advance notice on any day on which the NYSE is open for trading.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Stable Value Fund: The John Hancock Stable Value Fund is an investment option within the group annuity contract. The John Hancock Stable Value Fund sub-account invests into the John Hancock Stable Value Fund Collective Investment Trust. The underlying John Hancock Stable Value Fund Collective Investment Trust (CIT) itself is fully benefit-responsive and honors eligible redemptions at $1.00 per unit. As a result:

- the daily net asset value (NAV) published by the CIT is a stable $1.00 per unit, and is effectively its "contract value"
- the value is used for valuing the sub-account and determining sub-account unit values, daily
- the sub-account does not have to reflect the actual market values of the CIT's net assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. Fair Value Measurements (continued…)

NOTE 5. Fair Value Measurements (continued…)

As of December 31, 2014, there were no unfunded commitments. All investments can be redeemed daily and have no redemption notice period.

The following additional information presents the fund strategy relative to Plan investments reported at net asset value as of December 31, 2014:

Stock Funds:

Domestic-Stock Funds

Funds with at least 70% of assets in domestic stocks are categorized based on the style and size of the stocks they typically own. The style and size divisions reflect those used in the Morningstar investment style box: value, blend, or growth style and small, medium, or large median market capitalization.

Based on their investment style over the past three years, domestic-stock funds are placed in one of the nine categories: large growth, large blend, large value, medium growth, medium blend, medium value, small growth, small blend, small value. Domestic-equity funds that specialize in a particular sector of the market are placed in a specialty category: communications, financials, health care, natural resources, real estate, technology, utilities, and miscellaneous.

Also see "Conservative Allocation" and "Moderate Allocation" in the "Balanced Funds" section below.

International-Stock Funds

Stock funds that have invested 40% or more of their equity holdings in foreign stocks (on average over the past three years) are placed in an international-stock category.

Foreign Large Value: These funds seek capital appreciation by investing in large international stocks that are value-oriented. Large-cap foreign stocks have market capitalizations greater than $5 billion. Value is defined based on low price/book and price/cash-flow ratios, relative to the MSCI EAFE Index. These funds typically will have less than 20% of assets invested in U.S. stocks.

Foreign Large Blend: These funds seek capital appreciation by investing in a variety of large international stocks. Large-cap foreign stocks have market capitalizations greater than $5 billion. The blend style is assigned to funds where neither growth nor value characteristics predominate. These funds typically will have less than 20% of assets invested in U.S. stocks.

NOTE 5. Fair Value Measurements (continued…)

Foreign Large Growth: These funds seek capital appreciation by investing in large international stocks that are growth-oriented. Large-cap foreign stocks have market capitalizations greater than 5 billion. Growth is defined based on high price/book and price/cash-flow ratios, relative to the MSCI EAFE Index. These funds typically will have less than 20% of assets invested in U.S. stocks.

Foreign Small/Mid Value: These funds seek capital appreciation by investing in small- and mid-sized international stocks that are value-oriented. Small-and mid-cap stocks have market capitalizations less than $5 billion. Value is defined based on low price/book and price/cash-flow ratios, relative to the MSCI EAFE Index. These funds typically will have less than 20% of assets invested in U.S. stocks.

Foreign Small/Mid Growth: These funds seek capital appreciation by investing in small- and mid-sized international stocks that are growth-oriented. Small-and mid-cap stocks have market capitalizations less than $5 billion. Growth is defined based on high price/book and price/cash-flow ratios, relative to the MSCI EAFE Index. These funds typically will have less than 20% of assets invested in U.S. stocks.

Foreign Small/Mid-Blend: These funds invest in a variety of international stocks that are smaller. These portfolios primarily invest in stocks that fall in the bottom 30% of each economically integrated market (such as Europe or Asia ex-Japan). The blend style is assigned to portfolios where neither growth nor value characteristics predominate. These portfolios typically will have less than 20% of assets invested in U.S. stocks.

World Stock: an international fund having more than 20% of stocks invested in the United States.

Diversified Emerging Markets: at least 50% of stocks invested in emerging markets.

Diversified Pacific Asia: at least 65% of stocks invested in Pacific countries, with at least an additional 10% of stocks invested in Japan.

Asia/Pacific ex-Japan: at least 75% of stocks invested in Pacific countries, with less than 10% of stocks invested in Japan.

Europe: at least 75% of stocks invested in Europe.

Japan: at least 75% of stocks invested in Japan.

Latin America: at least 75% of stocks invested in Latin America.

NOTE 5. Fair Value Measurements (continued…)

Global Real Estate: Global real estate portfolios invest primarily in non-U.S. real estate securities but may also invest in U.S. real estate securities. Securities that these portfolios purchase include: debt and equity securities, convertible securities, and securities issued by real estate investment trusts (REITs) and REIT-like entities. Portfolios in this category also invest in real-estate operating companies.

Also see "World Allocation" in the "Balanced Funds" section below.

Bond Funds:
Funds with 80% or more of their assets invested in bonds are classified as bond funds. Bond funds are divided into two main groups: taxable bond and municipal bond. (Note: For all bond funds, maturity figures are used only when duration figures are unavailable.)

Taxable-Bond Funds
Long-Term Government: A fund with at least 90% of its bond portfolio invested in government issues with a duration of greater than or equal to six years or an average effective maturity of greater than 10 years.

Intermediate-Term Government: A fund with at least 90% of its bond portfolio invested in government issues with a duration of greater than or equal to 3.5 years and less than six years or an average effective maturity of greater than or equal to four years and less than 10 years.

Short-Term Government: A fund with at least 90% of its bond portfolio invested in government issues with a duration of greater than or equal to one year and less than 3.5 years, or average effective maturity of greater than or equal to one year and less than four years.

Long-Term Bond: A fund that focuses on corporate and other investment-grade issues with an average duration of more than six years, or an average effective maturity of more than 10 years.

Intermediate-Term Bond: A fund that focuses on corporate, government, foreign or other issues with an average duration of greater than or equal to 3.5 years but less than or equal to six years, or an average effective maturity of more than four years but less than 10 years.

Short-Term Bond: A fund that focuses on corporate and other investment-grade issues with an average duration of more than one year but less than 3.5 years, or an average effective maturity of more than one year but less than four years.

NOTE 5. Fair Value Measurements (continued…)

Ultrashort Bond: Used for funds with an average duration or an average effective maturity of less than one year. This category includes general- and government-bond funds, and excludes any international, convertible, multisector, and high-yield bond funds.

High-Yield Bond: A fund with at least 65% of assets in bonds rated below BBB.

World Bond: A fund that invests at least 40% of bonds in foreign markets.

Emerging-Markets Bond: at least 65% assets in emerging-markets bonds.

Multisector Bond: Used for funds that seek income by diversifying their assets among several fixed-income sectors, usually U.S. government obligations, foreign bonds, and high-yield domestic debt securities.

Inflation-Protected Bond: Inflation-protected bond portfolios invest primarily in debt securities that adjust their principal values in line with the rate of inflation. These bonds can be issued by any organization, but the U.S. Treasury is currently the largest issuer for these types of securities.

Bank Loan: funds that invest primarily in floating-rate bank loans instead of bonds. In exchange for their credit risk, they offer high interest payments that typically float above a common short-term benchmark.

Municipal Bond Funds
Municipal National Long-Term: A national fund with an average duration of more than seven years, or average maturity of more than 12 years.

Municipal National Intermediate-Term: A national fund with an average duration of more than 4.5 years but less than seven years, or average maturity of more than five years but less than 12 years.

Municipal National Short: A fund that focuses on municipal debt/bonds with an average duration of less than 4.5 years, or an average maturity of less than five years.

NOTE 5. Fair Value Measurements (continued…)

State-specific munis: A municipal bond fund that primarily invest in one specific state. These funds must have at least 80 percent of assets invested in municipal bonds from that state. Each state-specific muni category includes long, intermediate, and short duration bond funds. State-specific funds that do not fall into one of the below categories will occupy either the Muni Single State Long-Term or Muni Single State Intermediate/Short category.

High Yield Muni: A fund that invest at least 50 percent of assets in high-income municipal securities that are not rated or that are rated by a major rating agency at the level of BBB (considered speculative in the municipal industry) or below.

Balanced Funds:
Funds in these categories offer investors a mix of stocks and bonds to provide capital appreciation, income, diversification, or specific allocations based on planned retirement dates. This group also includes funds that invest in convertibles, which act a bit like stocks and a bit like bonds.

Convertibles: Convertible bond portfolios are designed to offer some of the capital-appreciation potential of stock portfolios while also supplying some of the safety and yield of bond portfolios. To do so, they focus on convertible bonds and convertible preferred stocks. Convertible bonds allow investors to convert the bonds into shares of stock, usually at a preset price. These securities thus act a bit like stocks and a bit like bonds.

Conservative Allocation: Conservative-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. These portfolios tend to hold smaller positions in stocks than moderate-allocation portfolios. These portfolios typically have 20% to 50% of assets in equities and 50% to 80% of assets in fixed income and cash.

Moderate Allocation: Moderate-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. These portfolios tend to hold larger positions in stocks than conservative-allocation portfolios. These portfolios typically have 50% to 70% of assets in equities and the remainder in fixed income and cash.

NOTE 5. Fair Value Measurements (continued…)

Aggressive Allocation: Aggressive-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. These portfolios tend to hold larger positions in stocks than moderate-allocation portfolios. These portfolios typically have 70% to 90% of assets in equities and the remainder in fixed income and cash.

World Allocation: World-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. While these portfolios do explore the whole world, most of them focus on the U.S., Canada, Japan, and the larger markets in Europe. It is rare for such portfolios to invest more than 10% of their assets in emerging markets. These portfolios typically have at least 10% of assets in bonds, less than 70% of assets in stocks, and at least 40% of assets in non-U.S. stocks or bonds.

Tactical Allocation: Tactical Allocation portfolios seek to provide capital appreciation and income by actively shifting allocations between asset classes. These portfolios have material shifts across equity regions and bond sectors on a frequent basis. To qualify for the Tactical Allocation category, the fund must first meet the requirements to be considered in an allocation category. Next, the fund must historically demonstrate material shifts within the primary asset classes either through a gradual shift over three years or through a series of material shifts on a quarterly basis. The cumulative asset class exposure changes must exceed 10% over the measurement period.

Target-Date Portfolios: Target-date portfolios provide a diversified exposure to stocks, bonds, and cash for those investors who have a specific date in for retirement or another goal. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. Over time, management adjusts the allocation among asset classes to more conservative mixes as the target date approaches. Morningstar divides target-date funds into the following categories:

- Target-Date 2016-2020
- Target-Date 2021-2025
- Target-Date 2026-2030
- Target-Date 2031-2035
- Target-Date 2036-2040
- Target-Date 2041-2045
- Target-Date 2050+
- Retirement Income

NOTE 5. Fair Value Measurements (continued…)

Alternative Funds:

Alternative funds may take short positions or invest in currencies, derivatives, or other instruments. Funds in this group may attempt to move in the opposite direction of the market or may have performance that is not correlated with the broader markets.

Bear Market: Bear-market portfolios invest in short positions and derivatives in order to profit from stocks that drop in price. Because these portfolios often have extensive holdings in shorts or puts, their returns generally move in the opposite direction of the benchmark index.

Currency: Currency portfolios invest in U.S. and foreign currencies through the use of short-term money market instruments; derivative instruments including (and not limited to) forward currency contracts, index swaps, and options; and cash deposits.

Long-Short: Long-short portfolios hold sizable stakes in both long and short positions. Some funds that fall into this category are market neutral--dividing their exposure equally between long and short positions in an attempt to earn a modest return that is not tied to the market's fortunes. Other portfolios that are not market neutral will shift their exposure to long and short positions depending upon their macro outlook or the opportunities they uncover through bottom-up research.

Specialty-Precious Metals: Specialty-precious metals portfolios focus on mining stocks, though some do own small amounts of gold bullion. Most portfolios concentrate on gold-mining stocks, but some have significant exposure to silver-, platinum-, and base-metal-mining stocks as well. Precious-metals companies are typically based in North America, Australia, or South Africa.

NOTE 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

NOTE 8. Tax Status

The Platinum 401(k) Retirement Savings Plan received a "favorable" determination letter from the Internal Revenue Service on September 8, 2013. Since then the Plan has been amended and the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

NOTE 9. Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company, USA, the custodian. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to other investment custodians and investment advisors. Administrative fees include investment fees, third party administrative fees, and other professional services, and are based on customary charges as shall be agreed to from time to time. During the year ended December, 31, 2014 Independent Financial Partners received advisory fees and American Pension Services, LLC received administrative fees. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan.

NOTE 10. Reconciliation of Financial Statements to Form 5500

Certain differences may exist between the recording of accruals for financial reporting purposes and IRS/Department of Labor's (DOL) Form 5500 purposes. There were no such differences as of and for the year ended December 31, 2014.
