Independent Auditors' Report

The Board of Directors and Participants
University of Saint Joseph 403(b) Retirement Plan:

We were engaged to audit the accompanying financial statements of the University of Saint Joseph 403(b) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to amounts withheld from current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions. Further, management has instructed us not to perform, and we did not perform, any auditing procedures with respect to investments or the investment activity included in the financial statements.

As further discussed in note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. U.S. generally accepted accounting principles require that these accounts and the related income and distributions be included in the accompanying financial statements. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

KPMG LLP is a Delaware limited liability partnership, the U.S. member firm of KPMG International Cooperative ("KPMG International"), a Swiss entity.

KPMG

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

(1) Description of Plan

The following description of the University of Saint Joseph 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was established by the University of Saint Joseph (the University) in 1946 as a defined contribution plan. The Plan is administered by certain officers and employees of the University. Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF) and JP Morgan Chase Bank (JP Morgan) are the custodians of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Eligibility

Student employees are ineligible to make elective deferrals and after-tax contributions to the Plan. Employees who work less than 20 hours per week are eligible to make elective deferrals and after-tax contributions to the Plan. All other employees are eligible to make elective deferrals and participate in the University's contribution portion of the Plan upon attaining the age of 25 and completing one year of eligible service. A year of eligible service is defined as any year in which the employee works at least 1,000 hours.

(c) Contributions

Participants may make voluntary pre-tax deferrals up to 100% of their wages, not to exceed the maximum annual contribution allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Certain classifications of employees receive an employer contribution even if they do not make deferrals under the Plan. All other eligible nonexempt and eligible exempt employees are required to defer a minimum of 2% and 5% respectively of their gross compensation in order to receive an employer matching contribution. The University makes a contribution equal to 11% of gross salary for all eligible employees actively participating in the Plan. For the year ended December 31, 2014, the University made contributions to the plan of $2,338,641.

Upon enrollment, a participant may direct his or her contributions and the University's contributions to any of the Plan's investment options. Investment options available to participants include the TIAA Traditional Annuity, TIAA Real Estate Account, CREF Variable Annuities, and TIAA-CREF proprietary mutual funds (TIAA-CREF Funds) including the TIAA-CREF Lifecycle Funds.

Transfers out of the TIAA Real Estate Account to a TIAA or CREF account or into another investment option can be executed at any time but are limited to once per calendar quarter. Transfers out of the TIAA Traditional Annuity contracts can only be effected over a period of time (up to 10 years), and may be subject to other limitations. Transfers out of CREF variable annuity funds and TIAA-CREF mutual funds into another investment option may be executed on a daily basis.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution, the University's contribution and allocations of investment earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(e) Vesting

Participants are immediately vested in all contributions plus investment results.

(f) Plan Loans

Under the terms of the Plan, participants may borrow from the custodian. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local market rates for similar loans. Principal and interest are paid directly to the custodian in a manner agreed upon by the custodian and the borrower. The interest rate on outstanding loans ranged from 4.03% to 5.89% during the years ended December 31, 2014 and 2013.

(g) Payment of Benefits

Various distribution options such as lump sums, installments, qualified rollovers and annuities are available to participants as provided in the Plan and as permitted under the applicable funding vehicle.

(h) Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(i) TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), Group Supplemental Retirement Annuities (GSRA), and Retirement Choice Plan (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The average yield earned by the

plan for the fully benefit-responsive investment contracts for calendar years 2014 and 2013 was 3.20% and 3.16% respectively.

The RA does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. The GRA is available within 120 days after termination of employment and is subject to a 2.5% surrender charge. All others must be spread over 10 annual installments, and over five years for withdrawals after termination of employment. The SRA, GSRA and RCP contracts provided for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting. As discussed in note 1, the Plan was established in 1946 and historically was viewed as an amalgamation of individual annuity and custodial accounts and the Plan and its custodians did not maintain financial information at a Plan level. Because historical records were not maintained or are not available at a Plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to January 1, 2009. In recognition of these recordkeeping matters, the Department of Labor released Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (FAB 2009-02), as transitional relief, to address situations where a Plan's management is not able to obtain historical records. If FAB 2009-02 is implemented, the DOL has indicated that they will not reject Form 5500 where contracts are excluded as long as certain conditions were met. Further, FAB 2009-02 suggests that plan administrators make good faith efforts to include known contracts. While the Plan Administrator has, in good faith, included all known contracts, because of certain incomplete records, there is uncertainty that all contracts have been included. However, the Plan Administrator believes that excluded annuities or custodial accounts, if any, would meet the conditions of FAB 2009-02.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein during the reporting period. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Certain TIAA Traditional Annuity contract types, including the SRA GSRA, and RCP, are considered fully benefit-responsive, and are therefore reported at contract value for the years ended December 31, 2014 and 2013. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates.

The Plan's other investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Plan Loans

Plan loans are issued directly from funds owned by Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF) and not from a participant's account. Adequate security is required and a portion of the participant's account is held in collateral to cover 110% of the outstanding loan in case of default. The loan interest rate may be fixed or variable and the rate is determined by the terms of the controlling contract. Interest is paid directly to TIAA-CREF. As of December 31, 2014 and 2013, outstanding plan loans were $115,673 and $116,937, respectively.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Certain administrative expenses are paid by the Plan. Other administrative expenses are paid by the University.

(g) Recently Issued Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities that Calculate NAV per Share (or its Equivalent).* The ASU removes the requirement to classify within the fair value hierarchy table in Levels 2 or 3 investments in certain funds measured at net asset value (NAV) as a practical expedient to estimate fair value. The ASU requires that any NAV-measured investments excluded from the fair value hierarchy table be summarized as an adjustment to the table so that total investments can be reconciled to the balance sheet. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoptions permitted. The ASU is to be applied retrospectively. Management has elected to adopt the ASU early.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminate the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in the fair value of investments by general type. Part II also simplifies the level of disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt the provisions as applicable to the Plan.

(3) Information Certified by the Plan's Custodians (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, TIAA-CREF and TIAA-CREF as agent for JP Morgan Chase Bank, the custodians of the Plan, have certified as being complete and accurate the investments on the statements of net assets available for benefits, the investment activity reflected in the statement of changes in net assets available for benefits, and the investment information included in the supplemental schedule to the financial statements as of and for the year ended December 31, 2014. The custodians of the Plan have also certified as being complete and accurate the investments on the statements of net assets available for benefits as of December 31, 2013. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the Plan's custodians for the respective periods.

(4) Fair Value Measurements (Unaudited)

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (Topic 820), establishes a framework for measuring fair value and a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Investments in TIAA Traditional Annuity contracts (RA and GRA) are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

TIAA offers eight CREF variable annuities. Unlike TIAA Traditional, the variable accounts do not provide guaranteed returns. Participant returns depend entirely on the investment performance of each account. The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing.

In addition, TIAA offers the Real Estate Account (REA) which is a separate account of TIAA. This account is a variable account similar to the CREF variable accounts; as such its returns are not guaranteed and its accumulations and returns fluctuate based on the performance of the underlying investments. The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources.

Participant holdings in the TIAA Real Estate Account and other CREF variable annuities are reported at net asset value (NAV) as reported by TIAA-CREF. NAV is used by the Plan as a practical expedient to estimate those accounts' fair values.

The TIAA-CREF mutual funds invest principally in equity securities, fixed income instruments, and short-term instruments in accordance with each fund's investment objectives. Plan holdings are generally valued at the net asset value (NAV) of shares held by the plan at year end. TIAA-CREF mutual funds are registered mutual funds whose fair values are based on quoted prices and are therefore classified in Level 1 of the fair value hierarchy.

The methods described above may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table summarizes the valuation of the Plan's financial instruments under the fair value hierarchy levels as of December 31, 2014:

	Level 1	Level 3	Total 2014	Redemption frequency	Redemption notice period
Investments at fair value:					
TIAA Traditional Annuity	$ —	24,670,913	24,670,913	Restricted	Restricted
TIAA-CREF Equity Funds	3,960,113	—	3,960,113	Daily	Daily
TIAA-CREF Int'l Equity Fund	1,139,150	—	1,139,150	Daily	Daily
TIAA-CREF Lifecycle Funds	9,936,461	—	9,936,461	Daily	Daily
	15,035,724	24,670,913	39,706,637

TIAA Real Estate Account			4,227,484	Quarterly	Daily
			36,470,081		
Total investments at fair value			$ 76,176,718		

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets measured at fair value for the year ended December 31, 2014:

	Fair value measurements using significant unobservable inputs				
	Beginning balance	Purchases	Sales	Earnings	Ending balance
TIAA Traditional Annuity	$ 23,864,979	1,930,962	(1,886,114)	761,086	24,670,913

The following table summarizes the valuation of the Plan's financial instruments under the fair value hierarchy levels as of December 31, 2013:

	Level 1	Level 3	Total 2013	Redemption frequency	Redemption notice period
Investments at fair value:					
TIAA Traditional Annuity	$ —	23,864,979	23,864,979	Restricted	Restricted

Total investments at fair value			$ 72,127,854		

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets measured at fair value for the year ended December 31, 2013:

	Fair value measurements using significant unobservable inputs				
	Beginning balance	Purchases	Sales	Earnings	Ending balance
TIAA Traditional Annuity	$ 23,380,911	2,345,211	(2,599,772)	738,629	23,864,979

The following table presents information about the valuation technique and significant unobservable inputs and ranges of values for those inputs related to the Plan's investment in assets categorized as Level 3 in ASC 820 fair value hierarchy at December 31, 2014 and 2013:

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
TIAA Traditional Annuity	**2014** $ 24,670,913	Discounted cash flow	Risk-adjusted discount rate applied*	RA – 3.25%–5.00% GRA – 3.25%–5.00%
	2013 $ 23,864,979	Theoretical transfer (exit value)		

* Unobservable inputs include discount rate applied

(5) Related-Party Transactions

All Plan investments are shares of funds managed by TIAA-CREF. TIAA-CREF is a custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

(6) Income Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the Internal Revenue Code of 1986, as amended (IRC). A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and as such is exempt from federal income taxes. Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator believes that there are no uncertain tax positions that would have a material impact on the financial statements of the Plan. Therefore, no provision for income taxes has been recorded in these financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Form 5500:

	December 31	
	2014	2013
Net assets available for benefits per the financial statements	$ 80,273,655	75,797,816
Less contributions receivable	(64,915)	(56,911)
Net assets available for benefits per the Form 5500	$ 80,208,740	75,740,905

The following is a reconciliation of contributions reported in the financial statements at December 31, 2014 and 2013 to the Form 5500:

		December 31	
		2014	2013
Employer contributions per the financial statements	$	2,338,641	2,235,320
Add employer contributions receivable in prior year		38,637	15,458
Less employer contributions receivable in current year		(37,771)	(38,637)
Employer contributions per the Form 5500	$	2,339,507	2,212,141
Employee contributions per the financial statements	$	1,960,697	1,753,357
Add employee contributions receivable in prior year		18,274	9,764
Less employee contributions receivable in current year		(27,144)	(18,274)
Employee contributions per the Form 5500	$	1,951,827	1,744,847

(9) Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, the Plan has evaluated events subsequent to December 31, 2014 and through October 14, 2015, the date at which the financial statements were available to be issued.
