NOTE A – DESCRIPTION OF THE PLAN

The following brief description of Salisbury House, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

1. General

The Plan is a 401(k) defined contribution plan established by Salisbury House, Inc. effective July 1, 1996. The Plan covers substantially all employees of Salisbury House, Inc. and affiliated employers named in the adoption agreement (collectively, the Sponsor) who have met the eligibility requirements. Union members, non-resident aliens, leased employees, zero hour employees, on-call employees, and temporary employees are not eligible for the Plan. The Plan is subject to Employee Retirement Income Security Act of 1974 (ERISA) and was most recently amended effective January 1, 2011.

2. Eligibility

Each employee is eligible to make contributions to the Plan on the first day of the calendar quarter following the attainment of age twenty-one, one year of service and one year of employment. One year of service is defined as completion of 1,000 hours of work during the period.

3. Contributions

Each year participants may contribute between 1% and 80% of eligible compensation, as defined by the Plan, and up to 100% of their bonus compensation, up to the maximum allowed by the applicable laws. The contribution limit for 2014 and 2013 under the Internal Revenue Code (IRC) was $17,500 for participants under age 50 plus a $5,500 catch up contribution for those aged 50 or older. Participants may also make rollover contributions representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Undirected participant investments are invested in the Blackrock Global Allocation fund. Participants may elect to contribute either pre-tax or post-tax dollars into the Plan.

For eligible participants, as defined by the Plan, the Sponsor contributes an amount equal to 50% of the first 6% of eligible compensation, on a per-payroll basis. The Sponsor's matching contributions are invested in the same manner as those directed by the participants. The Sponsor's matching contributions totaled $388,482 and $378,533 for the years ended December 31, 2014 and 2013, respectively.

The Sponsor may also make a discretionary profit sharing contribution to the Plan as determined by management on an annual basis. All participants are eligible to receive the discretionary profit sharing contribution. The contribution is allocated pro rata based on each employee's compensation in proportion to the compensation of all participants eligible to receive the contribution. During the years ended December 31, 2014 and 2013, the Sponsor did not make discretionary profit sharing contributions.

NOTE A – DESCRIPTION OF THE PLAN – Continued

4. Notes Receivable from Participants

Participants may borrow a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, without regard to their intended use of the funds. Participants may have only one note outstanding at a time. Notes are collateralized by the participant's vested account balance and are measured at their unpaid principal balance plus any accrued but unpaid interest. The notes bear interest at prime plus 1.00% at the time of origination. Interest and principal payments are made ratably through bi-weekly payroll deductions. Note terms range from one to five years except when used for the purchase of a primary residence. Notes become due immediately upon termination of the participant's employment. Delinquent notes are treated as distributions based upon the terms of the Plan document. Notes receivable from the participants totaled $679,106 and $690,233 as of December 31, 2014 and 2013, respectively.

5. Participant Accounts

Each participant's account is participant-directed and is credited with the participant's contribution and allocations of (a) the Sponsor's contribution and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

6. Vesting

Participants are immediately vested in their elective deferral and rollover contributions plus actual earnings thereon. Participants are vested in Sponsor matching and discretionary profit sharing contributions plus earnings thereon according to the following schedule:

Years of service	Vested Percentage
Less than 2	0%
2	33%
3	66%
4	100%

Participants become 100% vested in Sponsor matching and discretionary profit sharing contributions upon attainment of normal retirement age or in the event of death or disability.

7. Payment of Benefits

Upon attainment of age 59 ½, or upon termination of service, death, disability, or retirement, a participant or the participant's estate or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in the participant's account, a single sum distribution of a portion of their vested balance, or installments for a specified term. If the vested account balance is less than $1,000, it will be paid in a lump sum. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose from a participant's elective deferral account. In all cases, certain income tax penalties may apply to withdrawals or distributions prior to age 59 ½.

NOTE A – DESCRIPTION OF THE PLAN – Continued

8. Forfeited Accounts

Forfeited non-vested account balances are applied to reduce future Sponsor contributions or pay administrative expenses. Forfeitures become available to the Plan as of the earlier of the last day of the Plan year in which a participant incurs five consecutive one-year breaks in service or a distribution of the Participant's entire vested account balance occurs. The amount of forfeitures available to the Plan totaled $6,208 and $7,091 as of December 31, 2014 and 2013, respectively. The amount of forfeitures used to reduce the Sponsor contributions totaled $19,994 and $9,760 for the years ended December 31, 2014 and 2013, respectively.

9. Administrative Expenses

Expenses incurred in the administration of the Plan are required to be paid by the Custodian with net assets of the Plan, unless paid by the Sponsor, at its discretion. During the years ended December 31, 2014 and 2013, the Sponsor paid a portion of administrative expenses relating to the Plan.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements.

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive instrument contracts through a common collective trust. The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

3. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest on loans is recognized over the term of the loan and is calculated using the simple-interest method on principal amounts outstanding.

5. Payment of Benefits

Benefits are recorded when paid.

6. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 13, 2015, the date the financial statements were available to be issued. During this period, the Plan did not have any material recognizable subsequent events.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

DWS Trust Company acts as Custodian for the funds held as investment vehicles in the Plan. The Plan administrator has elected the methods of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013 and the supplemental schedule of assets (held at end of year) as of December 31, 2014, and the related investment activity reported in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

NOTE E – FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The hierarchy includes three levels. Level 1 includes instruments whose inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 includes instruments whose inputs to the valuation methodology are quoted market prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 includes instruments whose inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2014 and 2013.

These valuation methodologies are:

Registered investment companies are valued at quoted market prices on the active market on which the shares are traded. These are level 1 assets.

Common collective trusts include components that are valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly business manner. The Plan has determined that the common collective trust is level 2 asset.

Fair Value of Investments in Entities that use NAV

The common collective trust investment objective is to preserve invested principal while providing a competitive current rate of return. There are no restrictions on redemption and there were no unfunded commitments as of December 31, 2014.

NOTE F – EXCESS CONTRIBUTONS PAYABLE

As of December 31, 2014 and 2013, payables of $68,301 and $80,029, respectively, are recorded as a liability for amounts refundable by the Plan to participants for contributions made in excess of amounts allowable by the Code.

NOTE G –PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of registered investment companies and a common collective trust managed by an affiliate company of the Custodian of the Plan. The Plan allows participants to take out notes against their vested account balances. The Sponsor provides certain accounting and administrative services for the Plan for which no fees are charged. All such transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. At termination, each participant's account may be distributed.

NOTE I – TAX STATUS OF THE PLAN

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
