NOTES TO FINANCIAL STATEMENTS

DEFINED BENEFIT PENSION PLAN OF YOUNGSTOWN AREA JEWISH FEDERATION

December 31, 2014 and 2013

NOTE A - DESCRIPTION OF PLAN

The following is a brief description of the Defined Benefit Pension Plan of Youngstown Area Jewish Federation (the Plan) and provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a complete description of the Plan's provisions.

General:

The Plan, established April 1, 1976, most recently amended as of March 31, 2014 (see Note F), provides for pension and death benefits for employees of the Youngstown Area Jewish Federation (Federation). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation:

The Plan provided for Federation employees, except leased employees, to become eligible to participate in the Plan upon completion of one year of service and having attained twenty-one years of age. Former participants of any Federation plan with Mutual of America Life Insurance Company were eligible immediately if over age twenty-one. Any prior employment in the nonprofit health or social services field within three years prior to employment with the Federation was included for the determination of eligibility. A year of service as defined by the Plan is 1,000 hours of continuous service. Effective December 31, 2009, participation in the Plan was frozen, and as of this date any future benefit accruals ceased.

Retirement Benefits:

Employees with three or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1% of their final average earnings (highest average earnings during any five consecutive years) plus .65% of their final average earnings in excess of the social security average monthly wage multiplied by their total years of benefit accrual service not to exceed 35 years.

Death Benefits:

The Plan provides for death benefits to beneficiaries. If a partially or fully vested participant dies before retirement benefits have begun, the annual death benefit payable to the beneficiary is equal to 66 2/3% of the vested accrued benefit, reduced for early commencement, and further reduced to reflect an automatic form of payment.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent Events:

Management evaluated all activity of the Plan through October 7, 2015, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - FUNDING POLICY

The Federation contributes additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Federation's funding policy is to contribute annually at least an amount equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is fully funded to meet the ERISA minimum funding requirements.

NOTE D - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following is a summary of the investment information regarding the Plan as of and for the years ended December 31, 2014 and 2013, included in the Plan's financial statements and supplemental schedule that were prepared by or derived from information prepared by Mutual of America Life Insurance Company. NOTE E - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

	Assets at Fair Value	
	Total	(Level 3)

<u>December 31, 2013</u>		
Mutual of America General Account	<u><u>\$ 4,116,080</u></u>	<u><u>\$ 4,116,080</u></u>

FASB ASC 820, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 3 Fair Value Measurements

The fair value of the Plan's interest in the investment contract is based on the beginning of the year value of the Plan's interest in the contract plus actual contributions, less disbursements for benefit payments and contract and service fees. Contract value approximates the redemption or market value of this account.

Mutual of America General Account: Typically recorded at the stated contract value in accordance with authoritative guidance. Contract value equals fair value. The balance consists of the Youngstown Area Jewish Federation's contributions, less disbursements for benefit payments and contract and service fees.

Sales	(53,805)	(50,301)
Ending balance	<u>\$ 4,241,222</u>	<u>\$ 4,116,080</u>

The 2013 classification was restated from Level 1 to Level 3.

NOTE F - PLAN TERMINATION

On March 31, 2014, the Board of Directors voted to terminate the Defined Benefit Pension Plan of Youngstown Area Jewish Federation. An official termination date has not been determined and the Federation is currently in the process of obtaining an IRS determination letter to approve the termination of the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

December 31, 2014 and 2013

NOTE G - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

Benefits payable under all circumstances, including retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is based upon the actuarial valuation as of January 1, 2015 and 2014, prepared by the Plan's actuary, Mutual of America Life Insurance Company, using the projected unit credit cost method. Had the valuations been performed as of December 31, there would be no material differences. The actuarial present value of accumulated Plan benefits was based upon the actuarial valuation as of January 1, 2013 and 2012 in the prior year. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect from the time value of money and the probability of payment between the valuation date and the expected date of payment. Calculation of the present value of accumulated plan benefits under the Plan are made by the actuary using the projected unit credit method. Significant assumptions used in the valuation were (a) assumed rate of return on investments is 4.5% for 2014 and 2013 compounded annually (b) normal retirement at age 65 and (c) discount rates determined under a segment rate approach with an applicable month that is four months prior to the valuation date ranging from 4.72% to 6.81% for 2014 and from 4.99% to 6.99% for 2013. Mortality rates are based upon the RP-2014 Total Dataset Employee Table and the IRS 2014 Static Mortality Table for 2014 and 2013, respectively. As of December 31, 2014 and 2013, 80% of current participants in the Plan are married.

NOTE H - RELATED PARTY TRANSACTIONS

Transactions with the Plan's custodian, Mutual of America Life Insurance Company, qualify as party-in-interest. Fees paid by the Plan for management services and actuarial valuation expenses amounted to \$12,070 and \$23,175 for the years ended December 31, 2014 and 2013, respectively. Certain Plan administrative fees are also paid by the Federation for which it is not reimbursed. Certain administrative functions are performed by the officers or employees of the Federation. No such officers or employees receive compensation from the Plan. The audit fee is borne by the Federation.

NOTE I - INCOME TAXES

In a letter dated July 19, 2012, the Internal Revenue Service has informed the Plan that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and Plan's counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE K - PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's assets are invested in a fund managed by Mutual of America Life Insurance Company. Mutual of America Life Insurance Company is the third party administrator and custodian as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions. Recordkeeping, custodial and other expenses paid by the Plan were incurred with parties-in-interest as defined in Section 3(14) of ERISA.

Retirement Dates

Normal The first of the month coincident with or next following the Participant's 65th birthday.

Early The first of the month on or after attainment of age 55 (but before age 65), on which the Participant elects to retire.

Deferred The first of any month following Normal Retirement Date on which the Participant elects to retire.

Frozen Accrued Benefit The Accrued Benefit as of the Fresh Start Date determined under the provisions of the Plan then in effect.

The Accrued Benefit is reduced by the retirement benefit provided by a prior plan of this Employer, or a plan of a Prior Employer attributable to Benefit Accrual Service also recognized by this Plan.

Benefit Formula The monthly Normal Retirement benefit is determined as follows:

The greater of (A) or (B):

(A) The Frozen Accrued Benefit;

(B) The sum of 1.00% of Final Average Earnings multiplied by Benefit Accrual Service and 0.65% of Final Average Earnings in excess of the Social Security Average Monthly Wage multiplied by Benefit Accrual Service not greater than 35.

Accrued Benefit The Accrued Benefit is computed under the Benefit Formula above using Final Average Earnings and Social Security Average Monthly Wage at date of determination assuming the Participant continues to earn Benefit Accrual Service until his Normal Retirement Age or date of determination, if later, and adjusted as follows:

The portion of the retirement benefit based on total Benefit Accrual Service (item (B) in the Benefit Formula above) is multiplied by a fraction (not to exceed one) equal to actual Benefit Accrual Service divided by projected Benefit Accrual Service at Normal Retirement Age. The multiplication by this factor does not apply to the Frozen Accrued Benefit (item (A) in the Benefit Formula above).

It is prorated for less than 10 years of participation in the Plan.
Minimum Accrued Benefit	The Accrued Benefit computed under the provisions of the plan as of the latest amendment adoption date.

If the participant is not survived by a spouse, the annual death benefit payable for 10 years to surviving children is equal to the benefit that would have been payable had the participant retired on the day before his death and elected the 120 months Certain and Continuous Annuity. ASSUMPTIONS/METHODS**

Actuarial Cost Method

Section 430(a) defines the minimum required contribution for a single employer plan as the sum of the plan's target normal cost and the shortfall and waiver amortization charges for the plan year. Under section 430(b), a plan's target normal cost for a plan year is the present value of all benefits expected to accrue or be earned under the plan during the plan year.

The shortfall amortization charge is determined based on the difference between the plan's funding target and the value of plan assets. Under section 430(d) a plan's "funding target" for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

Section 430(h)(2) specifies the interest rates that must be used in determining a plan's target normal cost and funding target. Under the provision, present value is determined using three interest rates (segment rates), each of which applies to benefit payments expected to be paid during a certain period. The first segment rate applies to benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year. The second segment rate applies to benefits reasonably determined to be payable during the 15-year period following the initial 5-year period. The third segment rate applies to benefits reasonably determined to be payable after the end of that 15-year period.

Each segment rate is a single interest rate determined monthly by the Treasury Department on the basis of a corporate bond yield curve. The corporate bond yield curve used for this purpose is to be prescribed monthly by the Treasury Department and is to reflect the average, for the 24-month period ending with the preceding month, of yields on investment grade corporate bonds with varying maturities that are in the top three quality levels available.

MAP-21, as modified by HATFA, places a minimum and maximum on the 24-month average corporate bond segment rates currently used to determine the Funding Target and minimum funding requirement under the PPA. Beginning with the 2012 plan year, the 24-month average for each segment cannot be more or less than a percentage of the 25-year average corporate bond segment rates. The corridor around the 25-year average widens over time as follows:

<u>Plan Year</u> <u>Beginning in:</u>	<u>25 Year Average</u> <u>Period Ends:</u>	<u>Minimum</u> <u>Percentage</u>	<u>Maximum</u> <u>Percentage</u>
2012-2017	9/30 of the Prior Year	90%	110%
2018	9/30/17	85%	115%
2019	9/30/18	80%	120%
2020	9/30/19	75%	125%
After 2020	9/30 of the Prior Year	70%	130%

In lieu of the segment rates described above, an employer may elect to determine the present value of benefits expected to be paid using interest rates from the full corporate bond yield curve.

Asset Valuation Method

The regulations would provide that plan assets must be valued either at their fair market value on the valuation date or at the “average” value of assets on the valuation date. Under this average value, the value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined for one or more earlier determination dates. The regulations would provide that the period of time between the valuation date and each of the earlier determination dates must be equal, not more than 12 months per period, and the earliest of these determination dates cannot be earlier than the last day of the 25th month before the valuation date of the plan year. The resulting average must be between 90 and 110 percent of the fair market value of plan assets.

For purposes of determining the minimum required contribution pursuant to the PPA, the Actuarial Value of Assets, under the plan’s asset valuation method, is equal to the Average Value of Assets. The Average Value of Assets is determined by averaging the fair market value of assets on the valuation date with the adjusted fair market value of assets for the preceding year, and second preceding year. The resulting average is adjusted to remain between 90 and 110 percent of the fair market value of plan assets.
