Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

Textron Inc.
Plan Sponsor
Textron Master Retirement Plan

We have audited the accompanying financial statements of Textron Master Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Textron Master Retirement Plan at December 31, 2014, and the changes in its net assets available for benefits for the year then ended, and the financial status of Textron Master Retirement Plan at December 31, 2013, and the changes in its financial status for the year then ended, in conformity with U.S. generally accepted accounting principles.

Textron Master Retirement Plan
Notes to Financial Statements
December 31, 2014

1. Description of the Plan

The Textron Master Retirement Plan (the Plan) is a noncontributory defined benefit pension plan, with the exception of a limited number of participants who are allowed to make employee contributions. The Plan covers certain eligible domestic salaried employees and hourly non-bargained employees of Textron Inc. (Textron) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). For a description of the Plan, refer to the Plan document, which is available at the personnel office of Textron.

The Plan is a part of the Textron Retirement Program, which applies to all salaried employees and uses a structure known as a “floor-offset arrangement.” A floor-offset arrangement is comprised of both a defined benefit plan and a defined contribution plan (the Retirement Account Plan). The defined benefit plan establishes a minimum benefit accrual for each participant and is determined with reference to the participant’s account balance in the defined contribution plan (the offset benefit). The benefit is payable first from the participant’s vested account balance in the defined contribution plan. Then, only to the extent necessary to reach the defined benefit plan’s minimum benefit accrual, benefits are payable from the defined benefit plan. In 2014 and 2013, \$2,075,049 and \$3,733,432, respectively, were transferred into the Plan from the Retirement Account Plan.

As of December 31, 2014, the Supplemental Agreement Covering Pensions Between Lycoming and Local 787 of the UAW plan and the Hawker Beechcraft Corporation Retirement Income Plan for Hourly Employees plan were merged into the Plan in the amount of \$67,511,138 and \$410,995,805, respectively.

The Plan has been closed to new participants for most business and bargaining units, although not all. This change does not impact employees or retirees currently in the Plan.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Textron Master Retirement Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Valuation of Investments

The Plan's investments and those investments held in the Textron Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

Investments in public securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year. Public fixed income securities are also priced in this manner, assuming the bonds trade on the last business day. However, if the bond does not trade, the price is determined by third-party pricing services, which consider such factors as reported prices and extent of trading activity in similar investments, quality ratings, maturity date, call provisions and other factors in determining fair value.

Commingled trust funds are valued at the net asset value established by the trustee of the commingled fund, which is generally based on the fair value of the underlying assets. There are no redemption restrictions on these investments.

For private securities (limited partnerships), values are established by the investment managers, general partners or external valuation services. These prices are then updated by the investment manager, Hamilton Lane, to reflect cash flow during the period between the date of the valuation and the pricing date. The cash flow adjusted prices are then reported to the trustee. The trustee takes direction from the Plan's investment managers who, when pricing the underlying assets within their fund, consider such factors as investment type, reported prices, and extent of trading activity in similar investments, company fundamentals, quality ratings, maturity date, call provisions, and changes in economic conditions relating to the investment in estimating fair value.

Valuations of equity investments in real estate are estimated by the Plan's external real estate manager, Core and Value Advisors LLC, on an annual basis and at least once every three years by a qualified third-party appraiser. These valuations are approved by Textron management. Factors such as real estate type, market conditions, property performance, valuation of comparable properties, and consultations with external real estate advisors are considered in determining fair value.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Hedge fund investment funds invest in a portfolio of funds that are not publicly traded and are managed by various portfolio managers. They are valued on the basis of the most recent price or valuation provided by the fund manager. The hedge fund investments can be redeemed quarterly with advance notice. There were no restrictions on redeeming the investments at December 31, 2014, although the hedge fund manager could restrict redemptions in the future.

Income Recognition

Purchases and sales of securities are recorded on the trade date. Gains and losses on the sale of investments are determined based on the average cost of the investment.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 9) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on a formula, which includes compensation, as defined in the Plan documents, and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The accumulated plan benefit information is presented at the beginning of each plan year.

The interest rate used to determine accumulated plan benefits is adjusted to reflect administrative expenses paid by the Plan.

Administrative Expenses

Administrative expenses consist of investment advisor fees, actuarial fees, custodial fees, Pension Benefit Guaranty Corporation (PBGC) premiums, consulting fees, legal fees, auditing fees and other professional services fees. During 2014 and 2013, Textron paid a portion of these fees on behalf of the Plan in accordance with the Plan document.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. U.S. Treasury bonds are traded and quoted on the open market which resulted in a change in the prior year classification from Level 2 to Level 1 within the fair value hierarchy table.

Subsequent Events

Management evaluated subsequent events for the Plan through October 15, 2015, the date the financial statements were available to be issued.

3. Funding Policy

Textron contributes such amounts as are sufficient to meet minimum funding requirements as set forth in employee benefit and tax law amounts as we may determine to be appropriate. The Plan has met the ERISA minimum funding requirements for 2014 and 2013.

4. Plan Termination

Should the Plan terminate at some future time, its net assets may generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all. Information about the PBGC's benefit guarantee is available in the Summary Plan Description, which is available at the personnel office of Textron.

5. Investment in the Textron Master Trust Fund

The investments of the Plan are held in the Master Trust, which also holds the assets of other Textron-sponsored pension plans. The Plan is administered under the terms of a Trust Agreement, dated March 1, 2011 with BNY Mellon. Investment income and changes in unrealized gain or loss on investments of the Master Trust are allocated monthly among the participating plans in proportion to the adjusted market value of the Master Trust attributable to each plan, as determined by BNY Mellon. The adjusted market value is calculated by adding to the market value at the end of the previous period the contributions and income received for each plan during the period and subtracting benefit payments and expenses for each plan during the period. On this basis, 71.42% and 68.1% of the Master Trust's net assets were attributed to the Plan as of December 31, 2014 and 2013, respectively.

Fair market value for each type of investment is determined as discussed in Note 6, fair value measurements.

In July 2014, assets of the Hawker Beechcraft Corporate Retirement Income Plan for Hourly Paid Employees totaling \$407 million merged into the Master Trust.

The net assets of the Master Trust at December 31 are as follows:

	2014	2013
Investments in securities:		
Common stock	\$ 2,259,036,644	\$ 1,975,317,235

Presentation for certain captions above has been revised to correspond with the current year presentation.

During 2014 and 2013, interest and dividend income earned by the Master Trust was \$160,014,186 and \$116,297,311 respectively. Other income for 2014 and 2013 was \$43,858,896 and \$38,659,889 respectively.

Included in the net earnings of the Master Trust were the Plan's share of administrative expenses of \$24,930,850 and \$27,482,991 for 2014 and 2013, respectively.

Certain Master Trust investments require additional capital commitments. The callable commitments associated with these investments amounted to \$375,668,302 at December 31, 2014.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

Valuation Methodologies Used for Assets Measured at Fair Value

Common stock and exchange traded funds are traded and quoted on an open market and are valued at their quoted market price.

Textron Master Retirement Plan

Notes to Financial Statements (continued)

6. Fair Value Measurements (continued)

Short term investment funds consist of cash, which is swept nightly into an institutional equivalent of a money market fund, for which the cash earns interest. These investments are valued at their cost basis plus accrued interest. The accrued interest is an observable input, but is not quoted on an active market. Therefore, we have classified these assets as Level 2 measurements.

Government bonds include bonds issued by various government entities, such as FNMA, FHLMC, and the U.S. Treasury, as well as a small number of municipalities. Corporate bonds include debt issued by corporate entities. U.S. Treasury bonds are traded and quoted on an active market and are valued at their quoted market price. These investments were classified as Level 2 fair value measurements in 2013. The table above has been revised to reflect these investments as Level 1. Government Agency bonds, Municipal bonds, and Corporate bonds are traded using brokers which make the market, and price the bonds using published historical transactions for similar securities and a matrix pricing model. These inputs are observable, although the investments are not quoted on an active market. Therefore, we have classified these assets as Level 2 measurements.

Common Collective Trusts, as defined as commingled funds on the previous tables, are funds which are not quoted on an active market. The objective is to maintain a diversified portfolio of publicly traded securities which seek to achieve long term capital appreciation. The underlying investments are quoted in an active market, and thus, we consider these investments to have observable inputs for valuation (Level 2).

Partnerships and joint venture interests and real estate investments are valued by various valuation specialists using assumptions that we believe are consistent with those that would be used by a market participant in valuing the asset. The valuation specialists include MAI certified appraisers, fund managers and various other consultants. The fair value is based upon the Plan's proportionate interest in the underlying partnership or fund's net asset value (NAV), which is deemed to approximate fair value. The objective of these assets is to provide diversification and long-term capital appreciation. The Plan is generally unable to liquidate these investments during the term of the partnership or fund, which range from 10 to 15 years. As such, we have classified these assets as Level 3 measurements.

Hedge funds represent an investment in a diversified fund of hedge funds of which Textron is the sole investor. The fund of hedge funds seeks to achieve long term capital appreciation and low volatility through investments in a portfolio of funds that are not publicly traded and are managed by various portfolio managers. Investments in portfolio funds are typically valued on the basis of the most recent price or valuation provided by the relevant fund's administrator. The administrator for the fund of hedge funds aggregates these valuations with the other assets and liabilities to calculate the NAV of the fund of hedge funds. Because these investments are valued using various market techniques, which require assumptions to be made about the assumptions market participants would use in valuing the assets, the inputs to the fair value calculation of these assets are considered Level 3 measurements.

Textron Master Retirement Plan

Notes to Financial Statements (continued)

7. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated June 19, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the code) and therefore the related trust and Master Trust are exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. Subsequent to this determination by the IRS, the Plan was amended. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan, as amended, is qualified and the related trust is tax exempt. Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. Accumulated Plan Benefits

An actuary from Towers Watson estimates the actuarial present value of accumulated plan benefits for the Plan, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information, as of December 31, 2013, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 1,641,096,592
Other participants	868,035,050
Total vested benefits	<u>2,509,131,642</u>
Nonvested benefits	47,146,942
Total actuarial present value of accumulated plan benefits	<u><u>\$ 2,556,278,584</u></u>

Changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2012	\$ 2,479,888,080
Increase (decrease) during the year attributed to:	
Increase for interest due to the decrease in the discount period	186,630,540
Benefits accumulated	29,499,572
Actuarial losses	9,472,244
Benefits paid	(202,503,309)
Change of assumptions	<u>53,291,457</u>
Actuarial present value of accumulated plan benefits at December 31, 2013	<u><u>\$ 2,556,278,584</u></u>

Textron Master Retirement Plan
Notes to Financial Statements (continued)

9. Accumulated Plan Benefits (continued)

On December 31 2014, the Supplemental Agreement Covering Pensions Between Textron Lycoming and Local 787 of the UAW and the Hawker Beechcraft Corporation Retirement Income Plan for Hourly Employees were merged into the TMRP. As of December 31, 2013, the plans had accumulated plan benefits of \$55,257,040 and \$377,588,984, respectively.

The \$53,291,457 change of assumptions amount is primarily related to the change from the 2013 PPA statutory mortality table to the 2014 table with modified MP 2014 mortality improvement.

Significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.75 % for 2013 valuation.
Mortality	The mortality rate assumption was updated to the RP-2014 "Employees" tables for non-annuitants and the RP-2014 "Healthy Annuitants" tables for annuitants with a one-year age set-forward for all participants, projected generationally using Scale MP-2014 adjusted to a 0.75% long term rate and a convergence period ending in 2020.
Retirement	Rates varying by age, average age 63.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

SCHEDULE SB ATTACHMENTS

Form of payment	Participants are assumed to elect the normal form.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of the participants are married for the majority of the subgroups. For the Bell Aerospace Non-union and Bell Aerospace Union groups, 90% of the participants are assumed to be married.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current base pay and target bonus, if available. Otherwise, compensation in the prior year is assumed to be the prior year annualized pensionable earnings.
Administrative expenses	<p>The amount included this year for plan-related expenses is \$10,200,000.</p> <p>The assumed ASC 960 interest rate is the assumed net rate of return after payment of any expenses or fees charged to the plan.</p>
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Retirement account balance	2% of compensation per year after January 1, 2007, accumulated with 7% interest per year.
Retirement account rollover option	It was assumed that participants do not roll over their account balance into the Pension Plan at retirement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued including discussions with Textron regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Textron and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the benefit choice assumptions described above.

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013, which was subsequently revised by applying the corridors of HATFA.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The administrative expenses decreased from \$10,900,000 in 2013 to \$10,200,000 in 2014.

Form of payment	Participants are assumed to elect the normal form.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of the participants are married for the majority of the subgroups. For the Bell Aerospace Non-union and Bell Aerospace Union groups, 90% of the participants are assumed to be married.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current base pay and target bonus, if available. Otherwise, compensation in the prior year is assumed to be the prior year annualized pensionable earnings.
Administrative expenses	<p>The amount included this year for plan-related expenses is \$10,200,000.</p> <p>The assumed ASC 960 interest rate is the assumed net rate of return after payment of any expenses or fees charged to the plan.</p>
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Retirement account balance	2% of compensation per year after January 1, 2007, accumulated with 7% interest per year.
Retirement account rollover option	It was assumed that participants do not roll over their account balance into the Pension Plan at retirement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued including discussions with Textron regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Textron and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the benefit choice assumptions described above.

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013, which was subsequently revised by applying the corridors of HATFA.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The administrative expenses decreased from \$10,900,000 in 2013 to \$10,200,000 in 2014.

Appendix B1 - Summary of plan provisions - Main Pay-Related Formula

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2007.

Participation date A Covered Employee participates after being employed for at least 1,000 hours in first 12 months of employment or for any calendar year.

Definitions

Vesting service Years and completed months of employment by an Employment Unit and any predecessor of such Employment Unit.

Pension service The sum of:

- Pension service under Benefit Part 1 of the Textron Master Retirement Plan through December 31, 1975; plus
- Years and completed months of covered employment subsequent to December 31, 1975; plus
- Years and completed months of employment by a predecessor company if included pursuant to Plan amendment; plus
- Years and completed months subsequent to termination of employment as a result of total disability and prior to age 65, death, recovery or commencement of benefits under the Plan.

Compensation Wages including 401(k) and flex deferrals, but not including reimbursements or other expense allowances, fringe benefits, moving expenses, other deferred compensation and welfare benefits credited or paid.

Average compensation Based on best consecutive 5 calendar years of Compensation during all employment with Textron.

Covered compensation 82.5% of the career average Social Security taxable wage base for an individual attaining Social Security Retirement Age in that year.

Grandfathered employee

A Covered Employee on January 1, 2007 who had:

1. Attained age 60 or completed 5 years of vesting service no later than January 1, 2007

plus
2. Earned sufficient vesting service such that the sum of the member's age in completed years as of January 1, 2007 and full years of vesting service as of January 1, 2007 equals or exceeds 55.

Retirement account

The sum of:

1. The account balance in the Textron Retirement Account Plan

and
2. The Actuarial Equivalent of the single sum value of all prior distributions the participant has received from such account.

Retirement account actuarial equivalence

The 1994 Group Annuity Reserving Mortality Table (unisex) and an interest rate of 7% should be used to determine the Actuarial Equivalent of a Member's Retirement Account for any purpose, except that, for purposes of projecting the Retirement Account to any age, mortality shall be disregarded.

Retirement account rollover option

The participant can roll over his entire account balance under the Textron Retirement Account Plan upon retirement into this plan. The balance is converted into an actuarial equivalent Normal Retirement pension and is reduced for early commencement consistent with post-December 31, 2006 accruals.

Normal retirement date (NRD)

Benefit is equal to the greatest of 1, 2, 3, 4, or 5.

1. The sum of a and b
 - a. The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (iii) 1.00% of the lesser of Covered Compensation or monthly Average compensation; times (iii) pension service through December 31, 2006 subject to a total limit of 35 years.

and
 - b. 4/3% of monthly Average Compensation times pension service earned after December 31, 2006, offset by the participant's Retirement Account expressed as an actuarially equivalent single life annuity commencing at age 65 (or, if later, his actual retirement date);
2. \$50 per year of pension service with service up to 5 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in 1b.
3. For Participants listed on Supplement 3 to Addendum A, the monthly benefit listed in that Supplement
4. For Grandfathered Employees only: The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (ii) 1.00% of the lesser of Covered Compensation or monthly Average compensation; times (iii) pension service subject to a total limit of 35 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in 1b.
5. The participant's accrued benefit earned as of December 31, 2006.

Monthly pre-retirement death benefit

Upon the death of a vested married Employee, the surviving spouse shall receive, commencing on the earliest commencement date of date of death if later, the 50% surviving spouse benefit that would have been payable to the spouse had the Employee terminated at death and elected early commencement of benefits. Upon the death of a participant eligible for Normal or Early Retirement, a death benefits will be payable to the beneficiary equal to 60 monthly payments of the participant's life annuity that would have been payable had he retired at death.

Plan Provisions

Covered employees	All hourly paid employees of Textron Inc. at its Berne, Indiana plant.
Participation date	An Employee who has attained age 21 and has been employed by the Company or an affiliate for one year will be eligible to participate.

Definitions

Pension service	An Employee earns pension service for uninterrupted employment with the Company. Beginning January 1, 1976 one full year of pension service is earned for each Plan Year (calendar year) in which the Employee earns 1,000 or more hours of service; no credit for less.
Final average earnings	The final 60 months' average of an Employee's regular earnings, excluding bonuses, overtime and other non-recurring compensation.
Hours of service	Such hours include all periods of time for which the Employee is paid by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Monthly pension benefit	1% of the Employee's Final Average Earnings times full years of pension service (not in excess of 30).
Monthly pre-retirement death benefit	Upon the death of a participant after 5 years of pension service, who has not waived coverage, the surviving spouse shall receive 50% of the pension the participant would have been entitled to receive had he terminated at date of death, survived to earliest benefit commencement date, retired with the 50% joint and contingent option in effect and then died. Coverage is automatic. However, for participants over age 55, a reduction of 1/20% of the accrued benefit per month of coverage will be effective. Waiver can only be made with spousal consent.
Monthly post-retirement death benefit	The elected form of payment.

Monthly pre-retirement death benefit

Upon the death of a vested married Employee, the surviving spouse shall receive, commencing on the earliest commencement date of date of death if later, the 50% surviving spouse benefit that would have been payable to the spouse had the Employee terminated at death and elected early commencement of benefits. Upon the death of a participant eligible for Normal or Early Retirement, a death benefit will be payable to the beneficiary equal to 60 monthly payments of the participant's life annuity that would have been payable had he retired at death.

Monthly post-retirement death benefit

The beneficiary of a participant who dies while receiving or eligible to receive a normal or early retirement benefit shall be eligible to receive a death benefit if the participant had not yet received 60 monthly payments. Death benefits are equal to an annuity for the remainder of the 60-month period in the amount of the participant's single life annuity. This death benefit is in addition to any other elected option.

Appendix B20 - Summary of plan provisions – Cadillac Gage Greenville

Plan Provisions

Covered employees All persons covered by the Collective Bargaining Agreement between Cadillac Gage Textron, Textron Inc. at its Greenville, OH plant and the Ex-Cell-O Independent Union.

Participation date An Employee participates at date of hire.

Definitions

Vesting service An Employee earns one year of pension service for each calendar year of 1,000 or more hours of service, subject to a minimum of the pension service earned for that year.

Pension service A participant earns one year of service toward benefit accrual if compensated for 1,800 (or more) hours per calendar year, reduced pro-rata to the nearest 1/10 year for less than 1,800 hours, except that less than 750 compensated hours will earn no credit for the year.

Hours of service Such hours include all periods of time for which the Employee is paid by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65.

Monthly pension benefit Monthly benefit is equal to \$22.50 per year of pension service.

Monthly pre-retirement death benefits Upon the death of a participant after 5 years of vesting service, who has not waived coverage, the surviving spouse shall receive a 55% survivor benefit computed as if the participant had terminated employment at date of death (if not prior), survived to age 60, and elected commencement of benefits under the Normal Form of Payment and died at that time. If the participant had been age 55 or older with at least 10 years of pension service, spousal benefits will commence immediately with the reduction for early commencement being 6/10% per month for each complete month the participant was under 65 at death. To provide this coverage there is a charge to participants of 1/100% reduction in pension for each month the coverage is in effect after the age of 35 until the age of 60.

Grandfathered employee

A Covered Employee on January 1, 2007 who had:

1. Attained age 60 or completed 5 years of vesting service no later than January 1, 2007

plus
2. Earned sufficient vesting service such that the sum of the member's age in completed years as of January 1, 2007 and full years of vesting service as of January 1, 2007 equals or exceeds 55.

Retirement account

The sum of:

1. The account balance in the Textron Retirement Account Plan

and
2. The Actuarial Equivalent of the single sum value of all prior distributions the participant has received from such account.

Retirement account actuarial equivalence

The 1994 Group Annuity Reserving Mortality Table (unisex) and an interest rate of 7% should be used to determine the Actuarial Equivalent of a Member's Retirement Account for any purpose, except that, for purposes of projecting the Retirement Account to any age, mortality shall be disregarded.

Retirement account rollover option

The participant can roll over his entire account balance under the Textron Retirement Account Plan upon retirement into this plan. The balance is converted into an actuarial equivalent Normal Retirement pension and is reduced for early commencement consistent with post-December 31, 2006 accruals.

Normal retirement date (NRD)

Benefit is equal to the greatest of 1, 2, 3, 4, or 5.

1. The sum of a and b
 - a. The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (iii) 1.00% of the lesser of Covered Compensation or monthly Average compensation; times (iii) pension service through December 31, 2006 subject to a total limit of 35 years.

and
 - b. 4/3% of monthly Average Compensation times pension service earned after December 31, 2006, offset by the participant's Retirement Account expressed as an actuarially equivalent single life annuity commencing at age 65 (or, if later, his actual retirement date);
2. \$50 per year of pension service with service up to 5 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in 1b.
3. For Participants listed on Supplement 3 to Addendum A, the monthly benefit listed in that Supplement
4. For Grandfathered Employees only: The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (ii) 1.00% of the lesser of Covered Compensation or monthly Average compensation; times (iii) pension service subject to a total limit of 35 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in 1b.
5. The participant's accrued benefit earned as of December 31, 2006.

Monthly pre-retirement death benefit

Upon the death of a vested married Employee, the surviving spouse shall receive, commencing on the earliest commencement date of date of death if later, the 50% surviving spouse benefit that would have been payable to the spouse had the Employee terminated at death and elected early commencement of benefits. Upon the death of a participant eligible for Normal or Early Retirement, a death benefits will be payable to the beneficiary equal to 60 monthly payments of the participant's life annuity that would have been payable had he retired at death.

Monthly post-retirement death benefit

The beneficiary of a participant who dies while receiving or eligible to receive a normal or early retirement benefit, shall be eligible to receive a death benefit if the participant had not yet received 60 monthly payments. Death benefits are equal to an annuity for the remainder of the 60-month period in the amount of the participant's single life annuity. This death benefit is in addition to any other elected option.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Eligibility is the earlier of:

- Age 60,
- Age 55 with at least 5 years of vesting service, or
- For employees hired prior to January 1, 2007, completion of 20 years of vesting service regardless of age.

Disability

Eligible for Federal Social Security benefits and disabled during employment.

Vested termination

Termination for reasons other than death or retirement after completing five years of vesting service

Benefits Paid Upon the Following Events

Normal retirement

Monthly pension benefit determined as of NRD

Early retirement

For benefits payable under monthly pension benefit Section 1a, 3, 4 or 5 or for benefits accrued on or before December 31, 2006 under Normal Retirement Section 2, the Normal Retirement Benefit is reduced 5/12% for each month of benefit commencement before age 62 down to age 57, with reduction by table for commencement at younger ages.

For benefits payable under Normal Retirement Section 1b and benefits accrued after December 31, 2006 under Normal Retirement Section 2, the Normal Retirement Benefit is reduced 5/12% for each month of benefit commencement before age 65 down to age 55, with reduction by table for commencement at younger ages.

Vested termination

The benefit, payable as a straight life annuity starting on the participant's Normal Retirement Age (65), equals the participant's monthly pension benefit. The benefit is reduced the same as the Early Retirement benefit if commenced before age 65, but no earlier than age 55. A terminated Employee may elect to receive his Accumulated Contributions in lump sum with subsequent actuarial reduction in deferred vested pension.

Other Plan Provisions

Forms of payment

The normal form is a single life annuity, unless married. If married, a 50% joint and surviving spouse form is automatic unless the spouse consents otherwise.

Pension increases

None

Maximum of benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Monthly pre-retirement death benefits

Upon the death of a participant after 5 years of pension service, the surviving spouse shall receive a 55% survivor benefit computed as if the participant had terminated employment at date of death (if not prior), survived to age 60, or date of death, if later, and elected commencement of benefits under the Normal Form of Payment and died at that time. If the participant had been age 55 or older with at least 5 years of pension service, spousal benefits will commence immediately with the reduction for early commencement being 6/10% per month for each complete month the participant was under 65 at death. The charge to the participant for this coverage will be 1/100% per month reduction in benefit for months of coverage prior to eligibility for immediate spousal benefit commencement, and 1/20% reduction per month of coverage after age 60.

Monthly post-retirement death benefit

The elected form of payment.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Age 60 and 5 years pension service

Disability

10 years pension service, commencing 26 weeks after total disability

Vested termination

Termination for reasons other than death or retirement after completing five years of vesting service

Benefits Paid Upon the Following Events

Normal retirement

Monthly pension benefit determined as of NRD

Early retirement

Accrued monthly pension benefit reduced 6/10% per month of commencement before age 65

Disablement

A monthly benefit computed as for normal retirement plus a temporary benefit equal to \$8.50 multiplied by years of pension service with a maximum monthly temporary benefit of \$210. This additional benefit is payable to the earlier of 65 or eligibility for a Federal Social Security benefit for disability.

Vested termination

Accrued monthly pension benefit is payable in full at age 65, or reduced for early commencement between the ages of 60 and 65, at the rate of 6/10% per month of commencement before age 65.

Other Plan Provisions

Forms of payment	The normal form is a single life annuity, unless married. If married, 95% of the single life annuity (adjusted for differences in age between the Employee and spouse) will automatically be payable, with a 55% continuation to the surviving spouse after the retiree's death. The survivor option may be waived only with spousal consent, and will not apply to any temporary benefits payable. For participants retiring on or after December 1, 1975, the computed benefit reverts to single life annuity form if the spouse predeceases the participant.
Pension increases	None
Plan participants' contributions	None
Maximum of benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Covered employee All persons covered by the Collective Bargaining Agreement between Textron Inc., at its Lima, Ohio plant and Local 1211 of the UAAAIW.

Participation date An Employee participates at date of hire.

Definitions

Vesting service An Employee earns one year of vesting service for each calendar year of 1,000 or more hours of service, subject to a minimum of the pension service earned for that year.

Pension service A participant earns one year of service toward benefit accrual if compensated for 1,700 (or more) hours per calendar year, reduced pro rata to the nearest 1/10 year for less than 1,700 hours. Hours that would have been credited while on Workers' Compensation or military leave will be included.

Hours of service Such hours include all periods of time for which the Employee is paid by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65.

Monthly pension benefit Monthly benefit is equal to \$24.50 per year of pension service.

Special age 65 benefit Early and Normal retirees who are over age 65, and Disability retirees, or their surviving spouses receiving pensions, receive an additional monthly benefit of \$78.20.

Supplemental allowance Employees who retire on or after April 1, 1989 and after attaining age 58 with 85 or more points, shall receive a temporary benefit of \$500 per month payable until age 62.

Monthly pre-retirement death benefit

Upon the death of a participant after 5 years of vesting service, the surviving spouse shall receive a 60% survivor benefit computed as if the participant had terminated employment at date of death (if not prior), survived to age 55, or date of death, if later, and elected commencement of benefits under the Normal Form of Payment and died at that time. Payment commences the later of first of month following the participant's 55th birthday or first of month after death. If the participant had been age 55 or older with at least 10 years of pension service, spousal benefits will commence immediately with actuarial reduction for early commencement before age 62 (reduced from age 58, if the participant had at least 85 "points" at death).

Monthly post-retirement death benefit

The elected form of payment.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Age 60 and 10 years pension service; or age 55 and 85 "points"; or age 58 and 85 "points" if retirement is after April 1, 1989

Disability

10 years pension service, commencing 12 months after total disability

Vested termination

Termination for reasons other than death or retirement after completing five years of vesting service.

SCHEDULE SB ATTACHMENTS

Early retirement

Accrued monthly pension benefit, reduced as follows:

If not having 85 "points" (i.e., years of age plus years of service = 85 or more), benefit is adjusted in accordance with this table (pro-rated for intermediate ages):

Age Pension Starts	Percent of Pension
60	86.7%
61	93.3
62 or older	100.0

With 85 "points" and retiring before age 58, adjusted in accordance with this table (pro-rated for intermediate ages):

Age Pension Starts	Percent of Pension
55	69.4%
56	75.2
57	80.8
58	86.7

For employees retiring on or after age 58 with 85 "points", the accrued normal benefit is unreduced.

Disablement

Full accrued monthly pension benefit under the Normal Form of Payment, plus a temporary monthly benefit equal to \$24.50 times years of pension service up to 25 years, payable until the earlier of receipt of Social Security benefits for disability, reduced Social Security benefits at age 62, or attainment of age 65

Vested termination

Accrued monthly pension benefit is payable in full at age 65, or reduced for early commencement between the ages of 60 and 65, (between the ages of 55 and 60 with at least 85 "points"), at the rate of 6/10% per month of commencement before 65.

Other Plan Provisions

Forms of payment	The normal form is a single life annuity, unless married. If married, 95% of the single life annuity (adjusted for differences in age between the Employee and spouse) will automatically be payable, with a 60% continuation to the surviving spouse after the retiree's death, with pop-up feature. If retired before January 1, 1977, the continuation will be 55%. The survivor option may be waived only with spousal consent, and will not apply to any temporary benefits payable.
Pension increases	None
Plan participants' contributions	None
Maximum of benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.
