NOTE A – DESCRIPTION OF THE PLAN

The following description of the C3 Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a qualified defined contribution 401(k) plan covering all employees of C3/CustomerContactChannels, Inc. (the "Company"). The Plan was established on January 1, 2011, under the provisions of Section 401(a) of the Internal Revenue Code (the "Code"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the Code for the benefit of eligible employees of the Company that meet eligibility requirements. The Plan's primary purpose is to provide employees with retirement benefits. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administrator, Custodian and Trustee:

The Plan's administrators, custodian and trustee are as follows:

- Plan Administrator – C3/CustomerContactChannels, Inc.
- Third Party Administrator and Custodian – American United Life Insurance Company ("AUL")
- Trustee – Ascensus Trust Company

Eligibility:

All employees, excluding union, non-resident aliens, leased and/or temporary employees, are eligible to participate in the Plan. An employee is eligible to participant in the Plan on the first day of the month following three months of service.

Contributions:

The Plan provides that participants may contribute a maximum elective deferred contribution to the Plan in accordance with the Code, which for the Plan year ended December 31, 2014 was $17,500. Participants over the age of 50 are allowed to contribute an additional $5,500. The Company may match a discretionary percentage of the participant's contributions, excluding catch-up contributions. Contributions are subject to certain limitations as prescribed by the Code.

All contributions are participant-directed and may be invested in one fund or allocated among different funds, subject to certain limitations set forth in the Plan. Changes in allocation of contributions among funds are permitted pursuant to Plan provisions. Under the terms of the Plan, employer discretionary matching contributions are invested in the same funds at the same percentages as chosen by the participants for their own contributions.

The Company elected not to make an employer discretionary matching contribution for the year ended December 31, 2014.

Rollovers:

At the discretion of the Plan administrator, participants may transfer their funds from other tax-qualified plans.

NOTE A – DESCRIPTION OF THE PLAN (CONTINUED)

Participant accounts:

Each participant's account is credited with the participant's voluntary contributions and allocations of (a) the Company's contribution and, (b) the Plan's earnings and appreciation in the value of investments. The Plan administrator will make deductions for administrative expenses, withdrawals or distributions made to the participant and depreciation in the value of investments. Allocations are based on participant's directions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately 100% vested in their voluntary contributions, plus actual earnings or losses thereon. Vesting in the employer discretionary matching of their accounts is based on years of service. A participant is 100% vested (20% per year) after five years of credited service. A year of vesting service is defined as a year in which an employee accrues 1,000 or more hours of service.

Investment options:

Upon enrollment in the Plan, participants elect investment options from the various fund choices. Participants may change their fund options at their discretion.

Notes receivable from participants:

Only current employees who are participants may borrow from their vested account balances, up to a maximum of $50,000 or 50% of their account balance, whichever is less. The minimum loan amount a participant may borrow is $1,000. The notes are secured by the balance in the participant's account. The interest rate for outstanding notes at December 31, 2014 and 2013 was 4.25%, which was commensurate with local prevailing rates, as determined quarterly by the Plan administrator. Notes receivable are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits:

Upon termination of service, including death, disability or retirement, a participant may elect to receive either a lump sum distribution equal to the value of his or her account, or cash installments for a period not to exceed the participant's life expectancy or the life expectancy of his or her designated beneficiary, as defined in the Plan. However, if the value of the participant's vested benefit is less than $5,000 (excluding amounts attributable to rollovers), a participant may only receive a lump sum distribution.

Forfeitures:

Forfeitures of non-vested account balances of participants are used during the year to reduce administrative expenses and employer contributions. For the year ended December 31, 2014, forfeited non-vested amounts totaled $6,574. Unused forfeitures as of December 31, 2014 and 2013 were $454 and $2,103, respectively. During 2014, no forfeitures were used to reduce 2014 employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the contract value of the investment contracts as such no adjustment of the fully benefit-responsive investment contracts from fair value to contract value was necessary. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value, as certified by the Plan's custodian, based on the quoted market prices of the underlying securities within each fund at December 31, 2014 and 2013. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The Plan's assets include a group annuity contract ("GAC") related investment option, the AUL Fixed Account. As of December 31, 2014, the contract value of this investment is $111,626. The GAC is an interest-earning investment option, backed by AUL's general account assets. AUL guarantees that interest will be credited at the higher of the rate guaranteed in the group variable annuity contract and the current rate declared by it. AUL may change the initial interest rate for future contributions. New contributions are guaranteed to earn the applicable initial interest rate for at least a one-year time period from the date the contributions are made. Changes in the initial interest rate or in the interest rate for prior contributions will also be effective for at least one year. In no event will the interest rate ever be below the rate guaranteed in the group variable annuity contract. The guarantee is based on the continued claims-paying ability of AUL.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition (continued):

The minimum crediting rate under the contract is the lesser of (a) 3.00% or (b) the average 5-year constant maturity treasury rate reported by the Federal Reserve for the month of October of the calendar year immediately preceding the calendar year in which the guaranteed rate became effective, rounded to the nearest 0.05%, reduced by 1.25%, where the resulting interest rate calculated is not less than 1.00%. The average interest rate being credited to assets in this investment as of December 31, 2014 was 1.56%. The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the Plan's ability to transact at contract value with AUL. Such events include, but are not limited to, the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the Code are recorded as a liability with a corresponding charge to corrective distributions on the statement of changes in net assets available for benefits.

Payment of benefits:

Benefits are recorded when paid. As of December 31, 2014 and 2013, account balances attributable to employees who have terminated employment were approximately $1,375,000 and $638,000, respectively.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation in fair value of investments.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent accounting pronouncements:

On May 1, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The effective date is for plan fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. Early adoption is permitted. Management is currently evaluating the impact of adopting this new standard on the Plan's financial statements and does not anticipate that it will have a material effect.

On July 31, 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. These amendments are a consensus of the Emerging Issues Task Force. The amendments apply only to reporting entities that follow the requirements in Topics 960, 962, and 965, and include changes in the accounting and reporting for fully benefit-responsive investment contracts and certain disclosure requirements for plan investments. The amendments are effective for Plan fiscal years beginning after December 15, 2015, and should be applied either prospectively or retrospectively for all financial statements presented. Early application is permitted. Management is currently evaluating the impact of adopting this new standard on the Plan's financial statements and does not anticipate that it will have a material effect.

Subsequent events:

The Plan has evaluated subsequent events from December 31, 2014 through October 13, 2015, the date the financial statements were available for issuance, and has determined that there are no reportable events.

NOTE C – INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2014 and 2013:

	2014	2013
T Rowe Price Retirement 2055	$ 1,089,737	$ 588,272
T Rowe Price Retirement 2035	$ 784,442	$ 675,657
T Rowe Price Retirement 2050	$ 524,187	$ 366,067
T Rowe Price Retirement 2030	$ 527,210	$ 425,577
T Rowe Price Retirement 2045	$ 510,316	$ 382,578
T Rowe Price Retirement 2040	$ 509,936	$ 423,940
T Rowe Price Retirement 2025	$ 333,800	$ 239,638
T Rowe Price Retirement 2020	$ 316,073	$ 302,948

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $261,862 as follows:

Mutual funds	$ 261,862

NOTE D – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract: Valued at the amount plan participants or plan sponsors would receive if they were to withdraw or transfer funds within the Plan prior to their maturity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

NOTE E – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by AUL. AUL provides brokerage services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. The total amounts of assets held by AUL at December 31, 2014 and 2013 were $223,677 and $199,201, respectively. Fees paid by the Plan for the investment management services are included in the net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

A portion of the costs of the Plan's administration are paid for by the Company and are excluded from the Plan's financial statements.

NOTE F – TAX STATUS

Upon the Plan's inception on January 1, 2011, the Plan was created by adopting AUL's prototype non-standardized 401(k) profit sharing plan and trust. In its determination letter dated March 31, 2008, the Internal Revenue Service ("IRS") ruled that AUL's prototype, as then designed, was in compliance with the applicable requirements of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. In the opinion of management, the Plan continues to be operated in accordance with the terms of the Plan in conformity with the applicable provisions of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – PLAN TERMINATION

The Company may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, or upon the complete discontinuance of contributions by the Company under the Plan, participants would become 100% vested in all amounts credited to their accounts.

NOTE H – NON-DISCRIMINATION TESTS

During 2014, the Plan passed the Average Contribution Percentage non-discrimination test but failed the Average Deferral Percentage non-discrimination test. As a result, the Plan received excess contributions from certain employees totaling $33,329 during 2014. These amounts were refunded to the applicable employees in the subsequent year and are reflected as "Excess contributions payable" at December 31, 2014, in the accompanying statements of net assets available for benefits. The Plan distributed the 2014 excess contributions plus earnings from the appreciation of the underlying investments of $115 to the applicable participants on February 18, 2015.

During 2013, the Plan passed the Average Deferral Percentage and Average Contribution Percentage non-discrimination tests.

NOTE I – NONEXEMPT PROHIBITED TRANSACTIONS

The Plan sponsor did not timely remit a total of $50,493 of participant contributions withheld from the participants' wages during 2013, in accordance with the Department of Labor's Regulation 29 CFR § 2510.3-102, which states that contributions by participants are to be remitted to the trustee on the earliest date that the funds can be reasonably segregated from the employer's general assets, but in no event later than the fifteenth day of the month following the month when the contributions were either withheld or received from the participant. The remittance of $50,493 of participant contributions were all made during 2013.

These transactions are considered nonexempt prohibited transactions with a party in interest and are disclosed as a supplemental schedule to the accompanying financial statements.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
