NOTE A--DESCRIPTION OF PLAN

The following brief description of the RusCorr, L.L.C. 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is sponsored by RusCorr, LLC (the "Company") for employees that meet specific eligibility requirements, as defined in the Plan's provisions. Affiliated company CSC Atlanta, LLC is a participating employer under the Plan for the benefit of their employees and is bound by all elections selected by the Company. The Plan, designated as a defined contribution plan, was originally established on September 1, 2003, and was most recently restated January 16, 2015 (see Note L) to comply with applicable laws. The plan provides for contributions to be made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). Employees of the Company, twenty-one years or older, are eligible to participate after completing two months of services in which the employee is credited with 83.3 hours of service in each month or one year of service. Employees are eligible to enter the Plan on the first day of the quarter coinciding with or next following satisfaction of the eligibility requirements.

The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974 ("ERISA").

The Plan Administrator and Plan Trustees are responsible for oversight of the Plan, determining the appropriateness of investment offerings, and monitoring investment performance.

Contributions

Eligible participants may elect to contribute pre-tax deferred compensation to the Plan by means of a salary deferral agreement up to the maximum limit permitted by law. Contributions are, thus, subject to limitations as provided in the Code and as described in the Plan's provisions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Salary deferral contributions are funded proximate to the withholding date. Participants may also contribute amounts representing distributions from other qualified plans (rollovers) in accordance with Plan provisions.

Unless eligible employees affirmatively elect otherwise, their compensation will be reduced by 2%, the "Automatic Enrollment Rate." For each payroll period in which they are an active and eligible participant, a pre-tax deferral contribution at the automatic enrollment rate will be made on the participant's behalf into a default fund as designated by the Plan Trustees.

The Company may make discretionary matching contributions to the Plan in accordance with Plan provisions.

Eligibility requirements for matching contributions are the same as general Plan eligibility requirements. Employees are eligible to receive the matching contributions on the first day of the quarter coinciding with or next following satisfaction of meeting the eligibility requirements.

The Company may make discretionary profit sharing contributions to the Plan in accordance with Plan provisions (see Note L). All participants employed at the Plan year-end are eligible to receive an allocation of discretionary profit sharing contributions regardless of age or service

Salary deferral contributions are funded proximate to the withholding date. Discretionary contributions, if any, are funded annually after the close of the Plan year and within statutory time frames.

NOTE A--DESCRIPTION OF PLAN-continued

Participant Accounts

Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's discretionary contributions, if any, (b) Plan earnings or losses, (c) forfeitures of terminated participants' nonvested accounts, and (d) charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant account balances or compensation, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions into various investment options offered by the Plan and may elect to change their investment options at any time. During any period in which there is no participant direction on file with the Plan as to the investment of a participant's account, 100% of that participant's account will be invested in the investment option designated from time to time by the Plan Trustees as the default investment. The Plan currently offers various investment options for participants, including mutual funds and a fixed annuity.

Vesting

Participants are immediately vested in their contributions and the Company match contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions of their accounts plus actual earnings thereon is based on years of credited service, as presented below. A participant is 100 percent vested after six years of credited service. Participants who attain the normal retirement age of 65 or who terminate employment due to death or disability become 100 percent vested in their account balances.

Years of Credited Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the participant's highest outstanding loan balance in the previous twelve months and the participants existing loan balance or 50 percent, of their vested interest in the Plan, reduced by the participants existing loan balance. The loans are collateralized by the participant's account balance and bear interest at a reasonable rate commensurate with local prevailing rates as determined by the Plan Administrator. Loans are for a period not to exceed five years unless for the purchase of the participants principal residence, in which case a reasonable time for repayment will be determined. The interest rates applied to current loans outstanding are between 4.25 and 5.25 percent. Principal and interest is paid ratably through payroll deductions.

NOTE A--DESCRIPTION OF PLAN-continued

Payment of Benefits

Upon termination of employment due to death, disability, retirement or Plan termination, a participant is entitled to 100 percent of their account balance. For termination of employment for other reasons, a participant is entitled to 100 percent of the participant's contributions and the vested portion of the Company's contributions based upon the Plan's vesting provisions in a lump sum.

All distributions will be made as soon as administratively feasible. However, those account balances in excess of $5,000, will be made as soon as administratively feasible following the date the Plan Administrator receives a written request for distribution. In-service and hardship withdrawals, subject to certain restrictions, are also permitted.

Mandatory distributions less than $5,000 will be paid in a single lump-sum payment. The Plan will make the distribution as a direct rollover for any amounts greater than $1,000. These distributions will be made if a participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or does not elect to receive the distribution directly.

Forfeited Accounts

Forfeited nonvested accounts may be used to reinstate any previously forfeited amounts of certain former participants who are rehired. The remaining forfeitures will first be used to pay administrative expenses of the Plan, as directed by the employer, with remaining amounts used to reduce future employer contributions.

At December 31, 2014 and 2013 forfeited nonvested accounts totaled $105 and $1,126, respectively. During the year ending December 31, 2014, the Plan used $6,773 of the forfeited non-vested accounts to reduce the matching contribution for the Plan year 2014.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment, if any, of the fully benefit-responsive investment contract from fair value to contract value at December 31, 2014 and 2013. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value, which approximates fair value, for fully benefit-responsive investment contracts at December 31, 2014.

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded as contract value, which approximates fair value, for purposes of the net assets available for benefits.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator and Trustees determine the Plan's valuation policies utilizing information provided by the Plan's investment advisors, custodians and insurance companies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded at December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administrating notes receivable and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of the fair value of investments.

New Accounting Pronouncement

During 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which retrospectively removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient, and ASU 2015-12, which reduces complexity in employee benefit plan accounting. The new standards are effective for Plan years beginning after December 15, 2015, with early adoption permitted. Plan management is evaluating the effect that implementation of the new standards will have on its statements of net assets available for benefits and changes in net assets available for benefits.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

Subsequent Events

Management of the Plan has evaluated subsequent events through October 14, 2015, which is the date the financial statements were available to be issued.

NOTE C--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Gains and losses (realized and unrealized) are reported as net appreciation in the fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Registered investment companies value mutual funds at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE C--FAIR VALUE MEASUREMENTS-continued

Pooled separate accounts: Valued at the NAV of the shares held by the Plan at year end. The NAV is based upon the valuation of underlying investment assets, liabilities or mutual funds at year end as determined by quoted prices or other observable inputs provided by pricing services, transfer agents or other approved method.

Fixed Annuity: The Key Guaranteed Portfolio Fund is valued daily as calculated by Great-West Life & Annuity Insurance Company, the Custodian. The Custodian calculates the contract value as the accumulation of contributions that are allocated to the Fund, plus interest credited to the Fund on an annual effective basis pursuant to the guaranteed interest rate (see Note E) and charged for any amounts transferred or distributed and any administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014.

NOTE D--INFORMATION CERTIFIED BY CUSTODIANS (UNAUDITED)

Certain information related to investments and notes receivable from participants including net appreciation (depreciation) in the fair value of investments, interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodians, Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC. The contract value, fair value and related adjustment, if any, from fair value to contract value of the guaranteed portfolio fund were also certified by the Custodians. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to such information certified by the Custodians, as of December 31, 2014 and 2013 and for the year ended December 31, 2014.

Except for comparing such information as certified as being complete and accurate by the Custodians to information included in the Plan's financial statements and supplemental schedule, the Plan's independent auditors did not perform any auditing procedures on the certified information.

During the year ended December 31, 2014, the Plan's investments in registered investment companies, as certified by the Custodian, (including investments bought, sold and held during the year), depreciated in value of $16,979 and provided dividends of $91,609. Also during the year ended December 31, 2014, interest of $813 and $4,078 was earned from the fixed annuity and notes receivable from participants, respectively.

NOTE E--FIXED ANNUITY

The Plan has a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company, the Custodian, that includes, as one investment option, the Key Guaranteed Portfolio Fund (the "the Fund"). This fixed annuity is credited with the accumulation of contributions that are allocated to the Fund, plus interest credited to the Fund on an annual effective basis pursuant to the guaranteed interest rate and charged for any amounts transferred or distributed and any administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is considered the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Management has deemed no adjustment to contract value was needed at December 31, 2014 and 2013 as fair value approximated contract value. Contract value, which approximates fair value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus interest, less any amounts transferred or distributed and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2014 and 2013 is $98,437 and $42,459, respectively. The crediting interest rate of the Fund at December 31, 2014 and 2013 was 1.25% and 1.26%, respectively. The average yield of the Fund's interest rate was also 1.25% and 1.26% at December 31, 2014 and 2013, respectively. Interest is credited to a participant's account daily, based on its daily balance at the established effective rate of interest that reflects the performance of the underlying portfolio. The Fund's crediting interest rate is determined by the Custodian prior to the last day of the previous calendar quarter and is the periodic interest rate accrued to Plan participants. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include premature termination of the contracts by the Plan; Plan termination, bankruptcy of the Plan Sponsor or failure of the trust to qualify for federal income tax exemption. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE E--FIXED ANNUITY-continued

Either party may terminate the investment contract with at least 90 days advance written notice to the other party. If the Fund was to be discontinued, the value of the funds to be disposed would be determined in accordance with contract provisions, which included an interest component. There are no reserves for credit risk of the contract issuer or otherwise.

NOTE F--RELATED PARTY TRANSACTIONS

Plan investments consist of registered investment companies, pooled separate accounts and a fixed annuity contract managed by the Custodians; and therefore, qualify as party-in-interest transactions. The Custodians performed administrative and recordkeeping services for the Plan which were paid for with Plan assets.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services by the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H--TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype plan document, subsequently adopted by the Plan, as then designed, qualified under section 401(k) of the Code. The Plan has been amended since receiving the determination letter. The Plan has not received a determination letter specific to the Plan itself. However, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the Code and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE I--RISKS AND UNCERTAINTIES

The Plan's assets are invested directly and indirectly in various investment securities. The investments are exposed to various risks such as interest rate, market, and credit risks. The Plan's assets are subject to the changes in the value of those underlying investments, including the potential for bankruptcy of one or more of the companies in which they are invested.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J--RECONCILIATION TO FORM 5500

NOTE K--COMPANY CORRECTIVE ACTION FOR LOST EARNINGS

During the Plan year ended December 31, 2014, the Plan engaged in prohibited transactions of $294 related to late deposits of pre-tax deferred compensation (employee deferrals). During 2015, the Plan Sponsor completed a self-correction action by depositing $622 into the Plan, of which $294 was for missed employee deferrals, $294 was for missed matching contributions and $34 to make up for lost earnings.

NOTE L--PLAN AMENDMENTS AND RESTATEMENT

Effective December 30, 2014 the Plan was amended to allow all employees to become eligible to receive the Plan Sponsor's non-elective profit sharing contributions. Prior to the amendment, only those employees, twenty-one years or older and completing 1,000 hours of service were eligible to receive an allocation in the non-elective profit sharing contributions.

Effective January 16, 2015, the Plan was restated as part of a prototype plan restatement cycle in order to comply with applicable laws and regulations. As a result of the Plan restatement, eligibility to receive an allocation in the non-elective profit sharing contribution reverted back to only those employees twenty-one years or older and completing 1,000 hours of service.
