RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013**

Note 1-Description of plan

The following description of the Third Street Family Health Services Retirement Plan (the "Plan"), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all Third Street Community Clinic dba Third Street Family Health Services (the "Organization" or "Plan Sponsor") employees who have completed at least one year of continuous accredited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute up to 100% of their base compensation, or the maximum dollar amount allowed by law, as a pre-tax deferral. The Organization matches 100% of the first 3% of participant's contributions. Rollover contributions from other qualified plans are accepted by the Plan provided certain specified conditions are met.

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are vested in the Organization's contributions over a four year-period as described in the table below:

Less than 1 year of service	0%
1 year of service	25%
2 years of service	50%
3 years of service	75%
4 years of service	100%

Forfeitures

Forfeited balances of terminated participant accounts are used to pay Plan administrative fees and reduce the Organization's future matching contributions in the plan year they become forfeited. At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$23 and \$2,050.

Note 1-Description of plan-continued

Participant withdrawals

In the event of retirement, attainment of age 59 ½, death, termination, total and permanent disability or other severance from employment, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Payment of benefits may be taken in a lump sum distribution, in installments or as an annuity payment.

In the event of hardship, as defined in the plan agreement, participants may take a distribution from their accounts in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

Notes receivable from participants

Participants may borrow the lesser of 50% of the vested value of their entire account or \$50,000, but may not borrow less than \$1,000. Participants may have up to two loans outstanding at one time. Participants are able to borrow funds for up to five years, unless funds are used to purchase a participant's primary residence. Outstanding loans will become due upon death or when the participant receives benefits. The interest rate on outstanding loans is at the discretion of the Plan Sponsor (4.00 - 8.00% as of December 31, 2014). Principal and interest is paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account.

Termination of the plan

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan provisions to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in the termination of the Plan, the participants shall receive their full account balance, less any administrative costs to the Plan for such distribution.

Note 2-Summary of significant accounting policies

Basis of accounting

The Plan maintains its records on the accrual basis, whereby income is recognized when earned and expenses are recognized when the obligations are incurred. Benefit payments are recorded when paid.

Notes receivable from participants

Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Valuation of investments and income recognition

Investments held by the Plan are stated at fair value with the exception of the Fixed Account. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Note 2-Summary of significant accounting policies-continued

Valuation of investments and income recognition-continued

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Participant withdrawals are recorded upon distribution.

Administrative expenses

The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3-Investments

Mutual funds	\$ 92,562
Fixed account	<u>17,333</u>
Net appreciation in fair value of investments	<u>\$ 109,895</u>

Note 4-Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**THIRD STREET FAMILY HEALTH SERVICES
RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2014 and 2013**

Note 4-Fair value measurements-continued

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Fixed account – valued based on the contracted terms of the underlying investments. The contract value is equal to the principal invested plus interest earned. The contract value is believed to be an appropriate determination of fair value. Therefore, no adjustment is deemed necessary.

Mutual Funds – These are valued at quoted market prices, which represent the net asset value (“NAV”) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5-Party-in-interest transactions

Certain Plan investments, held until September 30, 2014, were shares of mutual funds managed by American United Life Insurance Company, who was the custodian until September 30, 2014, as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. The Plan made direct payments to American United Life Insurance Company in the amount of \$346 from January 1, 2014 through September 30, 2014.

Beginning October 1, 2014, Principal Trust Company is the custodian as defined by the Plan, therefore, these transactions qualify as party in interest transactions. The Plan made direct payments to Principal Trust Company in the amount of \$906 from October 1, 2014 through December 31, 2014.

Note 6-Federal income tax status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and therefore, it is not currently eligible to receive a determination letter from the Internal Revenue Service. The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7-Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 8-Subsequent events

The Plan Sponsor has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued, and have determined that except as set forth below, there are no subsequent events that require disclosure.

During 2014, the Organization failed to remit certain participant contributions to the Plan in the amount of \$152,241 within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Organization has transmitted the delinquent participant contributions to the Plan, but has not yet reimbursed the Plan for lost earnings. Related excise taxes have not yet been paid by the Organization.

During 2013, the Organization failed to transmit certain participant contributions to the Plan in the amount of \$196,588 within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Organization has transmitted the delinquent participant contributions to the Plan, and has reimbursed the Plan for lost earnings. Related excise taxes have also been paid by the Organization.
