THE PLAS-MAC CORPORATION EMPLOYEES' PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE A – DESCRIPTION OF PLAN

The following description of The Plas-Mac Corporation (“Company”) Employees’ Profit Sharing Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age sixteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, the Company contributes to the Plan such amount as determined by management based on a percentage of the participants’ annual wages. The Company determined that the contributions to the Plan for the years ended December 31, 2013 and 2012 to be 10% and 13%, respectively, with the funding of these contributions occurring in the years 2014 and 2013, respectively.

Participant Accounts. Each participant’s account is credited with an allocation of the Company’s contribution, Plan earnings, and forfeitures of terminated participants’ nonvested accounts. Each participant’s account is charged with an allocation of administrative expenses. The allocations are based on participant earnings or account balances, as defined.

Vesting. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans. Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 with a minimum of \$500. The loans are secured by the balance in the participant’s account and bear interest at rates ranging from 4.25% to 8.50%. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participants’ vested interest in his or her account in a lump-sum amount. If the participant did not make any elections with respect to distributions under the Plan for calendar years beginning on or after January 1, 2001, the Plan will apply the minimum distribution requirements of Code Section 401(a)(9) in accordance with the Regulations under Code Section 401(a)(9) that were proposed on January 17, 2001, notwithstanding any provision of the Plan to the contrary. This amendment shall continue in effect until the end of the last calendar year beginning before the effective date of final Regulations under Code Section 401 (a)(9) or such other date specified in guidance published by the Internal Revenue Service.

Forfeited Accounts. At December 31, 2014, forfeited nonvested accounts totaled \$573. These accounts will be reallocated to participants in the same manner as employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through August 13, 2015, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis of accounting. The modified cash basis of accounting is a comprehensive basis of accounting other than generally accepted accounting principles. Modified cash basis statements are cash basis statements that adjust securities investments to fair value and record other additions to net assets available for benefits when received and records deductions from net assets available for benefits when incurred.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document in compliance with IRS regulations.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid from Plan assets.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 1 inputs were available and used to measure the fair value of all investments reported on these financial statements.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at the year-end.
