System Pavers 401(k) Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of Plan

The following description of the System Pavers 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on January 1, 2001 for substantially all employees of Systems Paving, Inc., System Pavers of Washington, System Pavers of Oregon, System Pavers of Colorado and S.P. Marketing, Inc. (collectively, the Company). All employees who have completed three consecutive months of service are eligible to enroll. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants direct the investment of all contributions into various investment options offered by the Plan through Massachusetts Mutual Life Insurance Company (MassMutual).

Reliance Trust Company (Reliance) was appointed as the successor trustee under the Plan's trust effective July 15, 2011. MassMutual serves as the Plan's recordkeeper and State Street Bank and Trust Company (State Street) serves as custodian.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, up to the dollar limit set by law. The annual dollar limit was $17,500 for 2013 and 2014. In addition, a participant over the age of 50 is eligible to make a catch-up contribution. The catch-up contribution dollar limit was $5,500 in 2013 and 2014. Participants may make elective deferrals on either a pre-tax or post-tax basis (to a separate Roth account). Participants may also contribute amounts representing distributions from other qualified plans (rollovers).

The Plan contains an automatic enrollment provision. All eligible employees are automatically enrolled at a deferral rate of 3%, with contributions invested in a Lifecycle Fund based on the participant's age and projected retirement date. The employee may choose to opt out, select a different deferral rate or select different investment options at any time.

The Company may make a matching contribution equal to a discretionary percentage of a participant's salary deferrals, with the percentage being determined each year. For the year ended December 31, 2014, the employer match was 30% of the first $1,000 of compensation that a participant contributes to the Plan. Additional profit-sharing amounts may be contributed at the option of the Company's board of directors. No profit-sharing contributions were made for the year ended December 31, 2014. Contributions are subject to certain limitations.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) net investment income and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on the participant's eligible compensation or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Vesting in the Company's matching and profit-sharing contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service as follows:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year or more	20%
2 years or more	40%
3 years or more	60%
4 years or more	80%
5 years or more	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to the lesser of (1) 50% of the value of the participant's vested account balance or (2) $50,000 reduced by the highest loan balance during the past 12 months minus the loan balance on the date a new loan is made. A participant may have two loans outstanding at a time. Loans are secured by the balance in the participant's account. The rate of interest for the term of the loan is established as of the loan date at the prime rate plus 1%. As of December 31, 2013 and 2014, the interest rate on all outstanding loans was 4.25%. Principal and interest are paid ratably through bi-weekly payroll deductions.

1. Description of Plan (continued)

Payment of Benefits

On termination of service due to death, disability or retirement after age 65, a participant will become 100% vested in all his or her accounts. If a participant's employment terminates for another reason, the participant will be entitled to receive only the value of the vested interest in his or her account.

On termination of service, a participant will receive a single lump-sum payment of their entire vested account balance if the vested balance does not exceed $5,000. If the participant's vested balance exceeds $5,000, they may elect to receive a single lump-sum payment of the entire account balance or a single-sum payment of a portion of the vested balance. The Plan also permits hardship distributions and other in-service distributions under certain conditions.

Forfeitures

If a participant terminates employment with the Company prior to becoming fully vested, the nonvested portion of the Company's contributions and earnings thereon are forfeited. Forfeitures may be utilized to pay the Plan's administrative expenses or to reduce future Company contributions. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $8,079 and $6,951, respectively. During the years ended December 31, 2014 and 2013, nonvested account balances totaling $10,111 and $9,731, respectively, were forfeited and forfeitures in the amount of $8,828 and $7,752, respectively, were used to reduce Company contributions. During the year ended December 31, 2014, forfeitures in the amount of $969 were applied to administrative expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. As of December 31, 2014 and 2013, no adjustment was needed. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Company absorbs most of the costs of plan administration and any related accounting and auditing fees.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB 157 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Separate investment accounts with underlying mutual fund investment: Unit value calculated daily based on the observable net asset value of the underlying investment. The net asset value, as provided by the custodian, is used as a practical expedient to estimate the fair value.

Stable value fund: Liquidation value determined periodically based on the terms of the contract and equates to the contract value of the Plan's assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013.

		Fair Value Measurements at December 31, 2014 Using:

Realized and unrealized gains and losses are reported in net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

The following table sets forth a summary of the Plan's investments with a reported net asset value:

Investments	Fair Value 12/31/2014	Fair Value 12/31/2013	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Total	$3,580,931	$3,227,321	$ -		

4. Investments

Under a Group Annuity Contract offered by MassMutual, participants are able to invest in any combination of separate investment accounts, including a stable value fund (the Capital Preservation Account). See note 5 for a description of the investment contract with MassMutual. The following table presents investments that represent 5% or more of the Plan's net assets.

	December 31, 2014	December 31, 2013
Investments in separate investment accounts:		
Retirement 2020 Fund (T. Rowe Price)	$ 366,831	$ 476,443
Retirement 2030 Fund (T. Rowe Price)	791,026	711,640
Retirement 2040 Fund (T. Rowe Price)	1,389,177	1,260,729
Retirement 2050 Fund (T. Rowe Price)	585,770	442,292

During 2014, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $186,890. This amount was entirely attributable to the separate investment accounts.

5. Investment Contract with MassMutual

The Plan participates in a Group Annuity Contract with MassMutual. The contract provides for separate investment accounts as well as a Capital Preservation Account. The Capital Preservation Account is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market.

MassMutual maintains a book value account to determine the amount of each investor's interest in the Capital Preservation Account. MassMutual also maintains a market value account for purposes of setting and resetting the book value account interest rate for the investment pool in which each investor is a member. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in note 2, because the guaranteed contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contract is included in the financial statements at contract value, which approximates fair value, as reported to the Plan by MassMutual. The contract value of the Capital Preservation Account at December 31, 2014 and 2013, respectively, was $142,880 and $96,690. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

5. Investment Contract with MassMutual (continued)

Under the terms of the Group Annuity Contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance in the Capital Preservation Account at contract value. MassMutual is contractually obligated to repay the principal and a specified guaranteed interest rate to the Plan.

The Capital Preservation Account investment option also allows the plan sponsor to withdraw the contract value after a deferral period of up to twelve months. The fair value presented assumes that the deferral period was being waived and that immediate lump sum payment of proceeds was available. MassMutual reserves the right to impose or not impose the deferral period based on circumstances at the time of notice of termination.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The book value account interest rate is based on the investment experience of the assets that support the contract and is established on a semi-annual basis. The minimum book value account interest rate will equal the thirty-six month average of the five-year constant maturity treasury note as of the end of the month preceding the quarterly reset date less 1.25%, rounded to the nearest multiple of 0.05%.

The book value account interest rate was as follows:

Period	Rate
January 1, 2013 – March 31, 2013	1.00%
April 1, 2013 – June 30, 2013	0.85%
July 1, 2013 – December 31, 2014	1.00%

Certain events may limit the ability of the Plan to transact at contract value with the issuer and may result in a deferral of the payment at contract value for up to twelve months. Such events include, but may not be limited to the following: (1) removal of a group of participants from plan coverage as a result of temporary absence, change in position or other occurrence qualifying as a temporary break in service under the plan; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; (3) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Company's business; (4) removal from the Plan of one or more groups or classifications of participants; (5) partial or complete Plan termination; or (6) plan disqualification. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

5. Investment Contract with MassMutual (continued)

The average yields were as follows:

	2014	2013
Based on actual earnings	1.18%	0.98%
Based on interest rate credited to participants	1.18%	0.98%

6. Tax Status

The Company adopted a restated prototype profit sharing plan with cash or deferred arrangement effective July 15, 2009. The prototype plan sponsor has obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC).

The Plan has been amended since receiving the determination letter. However, the plan administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC and, therefore, the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Party-in-Interest Transactions

Certain Plan investments are offered through a group annuity contract issued by MassMutual. MassMutual serves as the recordkeeper for the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to MassMutual for contract administration and investment management services amounted to $36,282 for the year ended December 31, 2014. Notes receivable from participants are also considered to be exempt party-in-interest transactions.

9. Plan Contribution Limits and Excess Contributions Payable

For the plan year ended December 31, 2014, three participants exceeded the plan-imposed matching contribution limit. The excess matching contributions and earnings thereon were forfeited during 2015. Additionally, for the plan year ended December 31, 2014, the Plan did not pass the Actual Deferral Percentage (ADP) Test. Excess contributions amounting to $87,367, plus earnings thereon amounting to $3,909, are recorded as excess contributions payable in the accompanying statement of net assets available for benefits as of December 31, 2014, with a corresponding reduction to participant contributions for the year then ended. During 2015, the Plan distributed approximately $91,000 in excess contributions, plus earnings thereon, for the 2014 plan year to thirteen participants.

For the plan year ended December 31, 2013, nine participants exceeded the plan-imposed matching contribution limit. The excess matching contributions and earnings thereon were forfeited in June 2014. Additionally, for the plan year ended December 31, 2013, the Plan did not pass the Actual Deferral Percentage (ADP) Test. Excess contributions amounting to $22,266, plus earnings thereon amounting to $3,982, are recorded as excess contributions payable in the accompanying statement of net assets available for benefits as of December 31, 2013, with a corresponding reduction to participant contributions for the year then ended. During June 2014, the Plan distributed $26,248 in excess contributions, plus earnings thereon, for the 2013 plan year to five participants.

10. Delinquent Participant Contributions

As reported on the supplemental schedule, certain participant contributions and loan repayments were not remitted to the trust within the time frame specified by the Department of Labor (DOL), therefore constituting nonexempt transactions between the Plan and the Company. The Company intends to fully correct this error and reimburse the Plan for lost earnings on the delinquent participant contributions and loan repayments. The Company will file Form 5330 with the Internal Revenue Service and pay excise taxes related to the nonexempt transactions.

11. Information Prepared and Certified by the Agent on Behalf of the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MassMutual on behalf of Reliance, the trustee of the Plan, as of December 31, 2014 and 2013, as complete and accurate, except for comparing such information certified by the recordkeeper on behalf of the trustee to information included in the Plan's financial statements and supplemental schedules:
