QED, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the QED, INC. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is commonly known as a Code Section 401(k) profit sharing plan. It covers all employees of QED, Inc., JD Stauffer, LLC and Quality Electrical Systems, Inc. who have one month of service and are age twenty-one or older, excluding non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute to the plan a percentage of their annual wages, not to exceed a specific dollar amount determined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The plan has enacted an automatic contribution arrangement under which eligible employees are automatically enrolled at a 3% deferral rate unless a contrary election is made. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various registered investment options for participants. The Company may make matching contributions or non elective contributions at the discretion of the Company's board of directors. The Companies elected to stop the matching contributions in February 2009. Non-elective contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service if the plan is considered a top-heavy plan.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by 50% of the borrowing participants vested account and bear interest at rates, which are commensurate with local prevailing rates as determined quarterly

by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service a participant must receive the value of the vested interest in his or her account as a lump-sum distribution if the amount is under \$5,000. If the vested interest is over \$5,000, then the participant may elect from two different options:

1. Lump-sum distribution
2. Installment payments for required minimum distributions only (annually, quarterly, monthly) over a specified period of time, not exceeding your life expectancy or the joint life expectancy of you and your designated beneficiary

Withholding Taxes. The Plan is required to withhold 20% of distributions not directly transferred to another qualified plan or IRA account. These funds are then remitted to the Internal Revenue Service.

Forfeitures. Forfeitures of non-vested employer matching contributions are applied in the next plan year, as follows:

1. Reduce plan expenses
2. Reduce matching contributions
3. Reduce non-elective contributions

The Plan had zero and \$4,951 of forfeitures for the years ended December 31, 2014 and 2013, respectively. Forfeitures for the year ended December 31, 2013 were used to reduce plan expenses for the year ended December 31, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from

fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for participant loans. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Expenses of maintaining the Plan may be paid using forfeitures of non-vested employer matching contributions. Any excess of expenses over available funds from forfeitures are paid by the Companies.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
<u>December 31, 2014</u>	<u>Fair Value</u>		
Mutual Funds	\$ 5,385,691	\$ 5,385,691	\$ -
Guaranteed Investment Contract Fixed	<u>431,851</u>	<u>-</u>	<u>431,851</u>
Total	<u>\$ 5,817,542</u>	<u>\$ 5,385,691</u>	<u>\$ 431,851</u>
<u>December 31, 2013</u>			
Mutual Funds	\$ 4,901,051	\$ 4,901,051	\$ -
Guaranteed Investment Contract Fixed	<u>470,501</u>	<u>-</u>	<u>470,501</u>
Total	<u>\$ 5,371,552</u>	<u>\$ 4,901,501</u>	<u>\$ 470,501</u>

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The guaranteed investment contracts with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contracts is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	<u>Investment Contracts</u>	
	<u>Fixed</u>	<u>Total</u>
<u>December 31, 2014</u>		
Beginning balance	\$ 470,501	\$ 470,501

Purchases, sales, issuances, and settlements (net)	<u>(82,317)</u>	<u>(82,317)</u>
Ending balance	<u>\$ 470,501</u>	<u>470,501</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2014 and December 31, 2013 are reported in net appreciation in fair value of investments.

6. RELATED PARTY TRANSACTIONS

Ascensus provides custodial services for the plan as well as trustee services through its subsidiary, Frontier Trust Company; therefore, transactions qualify as party-in-interest transaction. Fees paid by the plan for these services amounted to \$26,113 for the year ended December 31, 2014.

Retirement Planning Services, Inc. provides contract administration services to the plan, therefore, transactions qualify as party-in-interest transactions. Fees paid by the plan for the contract administration fees amounted to \$7,080 for the year ended December 31, 2014.

Cambridge Investment Research provides investment research services to the plan, therefore, transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to \$24,974 for the year ended December 31, 2014.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. TAX STATUS

The Company entered into an adoption agreement which allows them to become a participating Employer in a Defined Contribution Master Plan. Under this agreement, the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements. Tax years 2011, 2012 and 2013 remain open for examination by the Internal Revenue Service.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and such changes could materially affect participants' accounts balances and the amounts reported in the statement of net assets available for benefits.
