INDEPENDENT AUDITORS' REPORT

To the Pension Committee of the
Scripps Networks Interactive Pension Plan
Knoxville, TN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Scripps Networks Interactive Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the table of contents as of and for the year ended December 31, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN

The following is a general description of the Scripps Networks Interactive Pension Plan (the “Plan”). Participants should refer to the Plan document for more complete information.

General—The Plan is a defined benefit pension plan maintained by Scripps Networks Interactive, Inc. (the “Company” or “Scripps”) and various employers affiliated with the Company. The Plan became effective January 1, 2009. Vanguard Fiduciary Trust Company serves as the trustee of the Plan and manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits—Normal retirement occurs upon attainment of age 65; however, early retirement may be elected if certain conditions are met. Vesting occurs after five years of credited service or upon normal retirement. The amount of monthly benefits is a function of participants’ compensation, years of credited service, and in some circumstances, age. Retirement benefits are reduced one-half of one percent for each month participants are under age 65 at the time benefits commence. For participants who are considered to be early retirees (age 55 and 10 years of credited service), retirement benefits are reduced 5% for each year the participant is under age 62 at the time benefits commence. Participants who become permanently and totally disabled after completing 15 years of credited service are entitled to accrued benefits, with no reduction for commencement prior to normal retirement age, if they are not eligible for, or if they elect not to receive, disability benefits under a separately funded long-term disability income plan provided by the Company. The surviving spouses of participants may be entitled to death benefits under certain conditions. Contributions by participants are not required or permitted.

Effective December 31, 2009 (“Freeze Date”), the Plan was amended to freeze participants’ Plan benefits. Upon freezing the Plan, participants’ years of benefit service will no longer increase, however, compensation earned prior to December 31, 2019 will be considered for calculation of the retirement benefit provided by the Plan. An employee of Scripps must have earned one year of eligibility service (as defined) before December 31, 2009 to become an active Plan participant. New employees since the Freeze Date shall not be eligible to participate in the Plan.

Effective March 13, 2013 (the “effective date”), the Plan was amended for the withdrawal of The Edward W. Scripps Trust and Miramar Services, Inc., collectively (“Affiliates”), from participation in the Plan. Participants of the Affiliates employed as of the effective date became fully vested in benefits and participants who did not qualify to receive any other benefit under the Plan are eligible to receive a deferred vested benefit. The deferred vested benefit is equal to the participant’s accrued benefit determined in accordance with the Plan but reduced for various factors including each month commencement of benefit precedes normal-age retirement.

The Plan was also amended effective June 1, 2013 to allow participants in the Plan who terminated before January 1, 2010 with annuity start dates on or after June 1, 2013, to elect an immediate lump sum payment.

The Employee Benefits Committee approved an amendment to the Plan, effective October 1, 2014, to establish a voluntary early retirement program (the “Program”) which provides enhanced pension benefits to eligible participants who voluntarily elect to participate in the program. Eligibility for the Program includes individuals who will have attained at least 55 years of age by September 30, 2015 and rendered at least 10 years of continued service with the Company through September 30, 2015. Individuals who elect to participate in the Program will receive three additional years of credited service for purposes of determining an individual’s normal retirement benefit under the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Investments—Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in mutual funds which have underlying investments including corporate debt instruments, mutual funds, hedge funds, real estate funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Expenses—Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Administration—The Company is responsible for the administration of the Plan. The Company provides the Plan with certain accounting and administrative services for which no fees are charged.

Payment of Benefits—Benefit payments to participants or their beneficiaries are recorded upon distribution.

Subsequent Events—The Plan has evaluated subsequent events through October 14, 2015, the date these financial statements were available to be issued.

New Accounting Standards Not Yet Effective—In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investment for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for fiscal periods beginning after December 15, 2016. The Company is currently evaluating the impact of this guidance.

In July 2015, the FASB issued ASU 2015-12 in an attempt to reduce complexity in employee benefit plan accounting consistent with its simplification initiative. There are three parts under this new standard to take into consideration. They are as follows:

Part I amends the accounting guidance to allow fully benefit-responsive investment contracts measured, presented and disclosed only at contract value, which will eliminate the fair value adjustments presented on the face of plan benefit financial statements and modify the reconciliation disclosure in the footnotes.

Part II amends the accounting guidance to remove the requirement to disclose individual investments that are 5% or more of net assets and net appreciation or depreciation for investments by general type.

Part III provides a practical expedient to permit plans to measure investment and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month end.

The new accounting guidance is effective for fiscal periods beginning after December 15, 2016. Early adoption is permitted. The Plan is currently evaluating the impact of this guidance.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information as of December 31, 2014 and 2013, and for the years then ended, included in the Plan's financial statements and supplemental schedules that was prepared by the trustee or derived from information prepared by the trustee. The Plan administrator has obtained a certification from the trustee that such information prepared by the trustee is complete and accurate.

Statements of net assets available for benefits:

Investments—at fair value—mutual funds	\$ 59,041,590	\$ 64,161,061
Interest receivable	-	4

Statements of changes in net assets available for benefits:

Net appreciation in the fair value of mutual funds	2,181,926	5,388,306
Interest and dividend income	2,591,631	2,042,591

All investment balances and information included in Notes 5 and 7 and in the supplemental schedules, and all investment balances in Note 4.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices

from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis at December 31, 2014 and 2013:

Transfers between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended December 31, 2014 and 2013.

5. NAV PER SHARE

In accordance with ASU No. 2009-12, *Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, the Plan should include disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share. The Plan's investments in mutual funds are based on the net asset values of the funds, all which have a daily redemption frequency and do not require a notice of redemption. The following provides a description of the significant investment strategies of the commingled trust funds.

PIMCO Long-Term Credit Fund seeks total return which exceeds that of its benchmark, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its assets in a diversified portfolio of fixed income instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It invests primarily in investment grade debt securities, but may invest up to 20% of its total assets in junk bonds that are rated B or higher by Moody's, or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality.

Vanguard Long-Term Investment Grade Fund provides diversified exposure to medium- and high-quality investment-grade corporate bonds with an average maturity of 15 to 25 years. Reflecting this goal, the fund invests primarily in corporate bonds, with a small percentage in taxable municipal bonds, within that maturity range.

AQR Multi-Strategy Alternative Fund aims to provide exposure to several strategies often referred to as “alternative” or “absolute return” strategies and more traditionally made available through unregistered funds. It implements these strategies by investing globally (including in emerging markets) in a broad range of instruments, including, but not limited to, equities, bonds, currencies, commodities, credit derivatives, convertible securities, futures, forwards, options and swaps. The fund may also invest in exchange traded funds or exchange traded notes.

AQR Small Cap Momentum Fund seeks long-term capital appreciation. The fund invests primarily in equity or equity-related securities of small cap companies traded on a principal U.S. exchange or over-the-counter market that the advisor determines to have positive momentum. It invests significantly in common stocks. The fund may also invest in or use financial futures contracts and other types of equity-linked derivative instruments such as equity swaps and equity index swaps, as well as exchange-traded funds and similar pooled investment vehicles to gain exposure to the equity market and to maintain liquidity to pay for redemptions.

Diamond Hill Small Cap Fund seeks to provide long-term capital appreciation. The fund normally invests at least 80% of its net assets in U.S. equity securities with small market capitalizations that the advisor believes are undervalued. Small cap companies are defined as companies with market capitalizations at the time of purchase below \$2.5 billion or in the range of those market capitalizations of companies included in the Russell 2000 Index at the time of purchase.

Touchstone Merger Arbitrage Fund seeks to achieve positive absolute returns regardless of market conditions over the long-term. The fund primarily invests, under normal market conditions, in equity securities of U.S. and foreign issuers. It primarily buys securities of companies being acquired (the “target company”) in publicly announced transactions where the terms of the transaction have been largely defined and disclosed. The weighted average maturity of the fund’s fixed income investments will normally range from 3 to 7 years.

Vanguard 500 Index Fund was developed as the industry’s first index fund for individual investors, the 500 Index Fund is a low cost way to gain diversified exposure to the U.S. equity market. The fund invests in 500 of the largest U.S. companies, which span many different industries and account for about three-fourths of the U.S. stock market’s value.

Acadian Emerging Markets Institutional Fund seeks long-term capital appreciation by investing primarily in common stocks of emerging country issuers. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, at the time of initial purchase, in equity securities of issuers that have their principal securities trading market in an emerging country; alone or on a consolidated basis derive 50% or more of annual revenue from goods produced, sales made or services performed in emerging countries; or are organized under the laws of, and have a principal office in, an emerging country.

DFA International Small Cap Value Fund seeks long-term capital appreciation. The fund intends to purchase securities of small value companies associated with developed market countries that the advisor has designated as approved markets. As a non-fundamental policy, under normal circumstances, it will invest at least 80% of its net assets in securities of small companies in the particular markets in which it invests. The fund may gain exposure to companies associated with approved markets by purchasing equity securities in the form of depositary receipts, which may be listed or traded outside the issuer’s domicile country.

Dodge & Cox International Stock Fund seeks long-term growth of principal and income. The fund invests primarily in a diversified portfolio of equity securities issued by non-U.S. companies from at least three different countries, including emerging markets. It will invest at least 80% of its total assets in common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks of non-U.S. companies. The fund invests primarily in medium-to-large well established companies based on standards of the applicable market.

Janus International Equity Fund seeks long-term growth of capital. The fund pursues its investment objective by investing, under normal circumstances, at least 80% of its net assets in equity securities. It normally invests in a core group of 60–100 equity securities of issuers from different countries located throughout the world, excluding the United States. The fund may, under unusual circumstances, invest all of its assets in a single country. It may invest in emerging markets but will normally limit such investments to 20% of its net assets, measured at the time of purchase. The fund may also invest in foreign debt securities.

ING Global Real Estate Fund seeks high total return, consisting of capital appreciation and current income. The fund normally invests at least 80% of net assets in a portfolio of equity securities of companies that are principally engaged in the real estate industry. It may invest in companies located in countries with emerging securities markets. The fund may invest in other investment companies, including exchange-traded funds.

6. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2014.

7. INVESTMENTS

The Plan's investments, which represented five percent or more of net assets available for benefits as of December 31, 2014 and 2013, are as follows:

PIMCO Long-Term Credit Fund	\$ 7,328,230
Vanguard Long-Term Investment Grade Fund*	9,430,090
AQR Multi-Strategy Alternative Fund	3,369,115
Touchstone Merger Arbitrage Fund	3,099,195

8. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted.

The actuarial present value of accumulated plan benefits as of December 31, 2014 and 2013, and change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2014 and 2013, are as follows:

	<u>As of December 31,</u>	
Actuarial present value of accumulated vested benefits:		
Participants and beneficiaries currently receiving payments	\$ 4,089,925	\$ 3,379,423
Other participants	<u>58,145,419</u>	<u>55,708,701</u>
Total vested	62,235,344	59,088,124
Actuarial present value of accumulated unvested benefits—active participants	<u>2,373,117</u>	<u>2,640,299</u>
Total actuarial present value of accumulated benefits	<u>\$ 64,608,461</u>	<u>\$ 61,728,423</u>
	<u>For the Year Ended December 31,</u>	
Actuarial present value of accumulated benefits—beginning of year	\$ 61,728,423	\$ 58,573,227
Increases (decreases) due to:		
Change in assumptions	1,356,132	4,222,169
Interest	4,324,725	4,067,287
Benefits accumulated—net	2,906,206	3,551,207
Plan amendments	2,423,832	-
Benefit payments to participants or their beneficiaries	<u>(8,130,857)</u>	<u>(8,685,467)</u>
Actuarial present value of accumulated benefits—end of year	<u>\$ 64,608,461</u>	<u>\$ 61,728,423</u>

The significant actuarial assumptions used in the valuations as of December 31, 2014, were:

- Mortality—2015 IRS prescribed funding mortality
- Average retirement age—62 years
- Investment return rate—7.5% per annum
- Assumed lump sum interest rates of 1.15%, 4.06% and 5.15% for segment rates 1, 2 and 3, respectively.
- Lump sum segment rates were updated to reflect current market conditions and mortality was updated to reflect expected improvement in mortality experience.

The significant actuarial assumptions used in the valuations as of December 31, 2013, were:

- a. Mortality—2014 IRS prescribed funding mortality
- b. Average retirement age—62 years
- c. Investment return rate—7.5% per annum
- d. Assumed lump sum interest rates of 1.37%, 4.05% and 5.06% for segment rates 1, 2 and 3, respectively.
- e. Lump sum segment rates were updated to reflect current market conditions and mortality was updated to reflect expected improvement in mortality experience.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are managed by the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were approximately \$25,000 and \$24,000 for the years ended December 31, 2014 and 2013, respectively.

10. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 23, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

11. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

2014 SCHEDULE SB, PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

A. Actuarial Methods

1. Actuarial Funding Method

The Accrued Benefit actuarial funding method is used in developing the contribution requirements of the plan. The actuarial funding method is the procedure by which the actuary annually identifies a series of annual contributions which, along with current assets and future investment earnings, will fund the expected plan benefits. The normal cost for the plan is the sum of the individually determined normal cost for each active participant. Each active participant's normal cost is determined as the present value of benefits that the participant is expected to accrue during the year of valuation.

The plan's current accrued liability is the sum of the individually determined accrued liability for each active participant plus the present value of future benefits for all retirees and vested terminated participants. Each active participant's accrued liability is the present value of all benefits which have accrued as of the valuation date.

The unfunded accrued liability is the amount by which the accrued liability exceeds the current plan assets. The unfunded accrued liability is recalculated each time a valuation is performed and is amortized in level dollar annual contributions in accordance with IRS guidelines.

2. Plan Value of Assets

Assets are valued at fair market value as determined by the plan trustee, including the present value¹ of any receivable contributions made for a prior plan year which were not recognized by the plan trustee, as of the asset valuation date.

B. Actuarial Assumptions

1. Mortality: The active and retired participants of the plan are expected to exhibit mortality in accordance with the following published mortality tables:

- a. Healthy Lives Mortality: Separate Annuitant/Non-Annuitant Static Tables under Regulation 1.430(h)(3)-1 in effect for 2014 plan years
- b. Post-disability Mortality: Separate Annuitant/Non-Annuitant Static Tables under Regulation 1.430(h)(3)-1 in effect for 2014 plan years

No additional future mortality improvement has been assumed other than that used to develop the IRS prescribed mortality table identified above. The IRS prescribed mortality table identified above incorporates mortality improvement in accordance with Projection Scale AA for 7 years beyond the valuation year for annuitants and 15 years beyond the valuation year for non-annuitants.

¹ Present value is determined using the effective interest rate for the preceding plan year.

EIN/PN: 61-1551890/002

2014 SCHEDULE SB, PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

2. Withdrawal: The active participants are assumed to terminate their employment for causes other than death, disability or retirement in accordance with annual rates as illustrated below.

Attained Age	Terminations per 1,000 Participants
25 and under	200
30	160
35	110
40 and above	60

3. Interest Rates:

	For purposes of:	
	Minimum Required Contribution under IRC §430 and IRC §436 reflecting the provisions of HTFA and MAP-21	Maximum Tax Deductible Contribution under IRC §404
1 st Segment Rate	4.99%	1.37%
2 nd Segment Rate	6.32%	4.05%
3 rd Segment Rate	6.99%	5.06%

The segment rates used in this valuation are consistent with the plan sponsor's election to:

- use the segment rates under IRC Section 430(h)(2)(C) for purposes of determining the Funding Target and Target Normal Cost; and
 - use September as the applicable month for the segment rates.
4. Earnings Progression: The increase in the levels of participant Annual Compensation is assumed to vary by age and is assumed in accordance with annual rates illustrated below.

Age	Annual Rate of Salary Increase
25 and under	12.0%
26	11.2%
27	10.4%
28	9.6%
29	8.8%
30	8.0%
31	7.2%
32	6.4%
33 and above	6.0%

EIN/PN: 61-1551890/002

2014 SCHEDULE SB, PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

Rationale: This assumption is based on the prior actuary's review of recent wage growth experience in this plan, adjusted for the prior actuary's future expectations. The experience study was completed by the prior actuary in 2011.

For the valuation year, Annual Compensation is developed as follows:

- If a participant is bonus-eligible, Annual Compensation is assumed to be the base pay rate as of the first day of the plan year plus the target bonus
- If a participant is not bonus-eligible, Annual Compensation is assumed to be the greater of:
 - a. Annual Compensation for the previous year increased with the applicable salary scale assumption, or
 - b. The base pay rate as of the first day of the plan year.

The amount determined above is increased with the applicable salary scale assumption to each future year.

5. Retirement Age: A participant is assumed to retire in accordance with the annual rates as illustrated below. Any participant who has attained his expected retirement age and is still working is assumed to retire immediately.

Attained Age	Retirements per 1,000 Eligible Participants
55-61	60
62	250
63-64	60
65	1,000

Specifically for the AFTAP determination, 100% of participants eligible for the special early retirement window (plan amendment executed October 15, 2014) were assumed to retire on January 1, 2015.

6. Social Security Taxable Wage Base Increase: The benefits of this plan are determined, in part, by 35-year averages of the Social Security Taxable Wage Base. The Social Security Taxable Wage Base is assumed to increase at the annual rate of 4.25%.

Rationale: This assumption is based upon the actuary's review of inflation experience since 1948 and the relative relationship between this assumption and national average wage growth.

7. Disability: None

SCRIPPS NETWORKS INTERACTIVE PENSION PLAN

EIN/PN: 61-1551890/002

2014 SCHEDULE SB, PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

8. Expenses: Target Normal Cost is required to be loaded with plan-related expenses expected to be paid from plan assets during the year.

For the valuation year, the plan-related expenses are assumed to be equal to the plan-related expenses paid on a cash basis from plan assets during the prior calendar year rounded to the nearest \$1,000.

9. Recognition of IRC Sections 401(a)(17) and 415(b) Limitations: The limitations under IRC Sections 401(a)(17) and 415(b) have been reflected in the determination of plan costs.

10. Marital Status: 80% of the male participants and 60% of female participants are assumed to be married at the time of separation from service. Female spouses are assumed to be three years younger than their male counterparts.

11. Additional At-Risk Assumptions [Treas. Reg. §1.430(i)-1(c)(3)(ii) and (iii)]:

- i. All *participants* who are not otherwise assumed to retire as of the valuation date but who will be eligible to commence an immediate distribution during the plan year and the ten succeeding plan years are assumed to retire at the earliest retirement date (i.e., the earliest date on which a participant can commence receiving an immediate distribution *of a fully vested benefit*) under the plan but not before the end of the plan year for which the At-Risk Funding Target and At-Risk Target Normal Cost are being determined.
- ii. All *participants* are assumed to elect the optional form of benefit available under the plan at the assumed retirement age (determined after application of (i) above) which results in the highest present value of benefits.

12. Form of Payment: Upon separation from service for causes other than death, 100% of active participants are assumed to elect the lump sum form of payment.

Surviving spouses of employees who separate from service due to death are assumed to commence payment in the form of a life annuity at the later of the participant's death or the participant's age 55.

Current deferred vested participants are assumed to elect a lump sum at normal retirement age.

In accordance with Treas. Reg. §1.430(d)-1(f)(4)(iii), future lump sum payments are estimated assuming current applicable mortality rates are unchanged in the future and using the valuation interest rates (see Item B.3.).

2014 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS

2. Late Retirement:

Same formula as Normal Retirement and payments shall automatically commence at Normal Retirement Age unless the participant is given a Suspension of Benefits Notice.

3. Early Retirement:

Amount equal to Normal Retirement Benefit accrued at Early Retirement date reduced 0.4167% for every month Early Retirement precedes age 62.

If the participant terminates prior to eligibility for Early Retirement, the amount equal to the accrued Normal Retirement Benefit reduced by 0.5% per month for each month benefit commencement precedes age 65 up to 120 months.

4. Disability:

For terminations due to disability after December 31, 2009, the same benefit as if the participant terminated for reasons other than disability.

F. Normal Form of Monthly Payment

Life Only annuity; Joint and 100% Survivor Annuity is the automatic form of payment for married participants.

G. Optional Forms of Payment

Other optional forms of payment are available, subject to applicable spousal consent requirements. Optional forms of payment include:

Lump Sum^{1, 2}

5-year certain and life

10-year certain and life

Joint and 50% Contingent Annuity

Joint and 100% Survivor Annuity

¹ Prior to June 10, 2013: Available without limitation if terminated after December 31, 2009. If terminated before January 1, 2010, limited to \$10,000 until age 55 then available without limitation.

After June 10, 2013: Available without limitation to all current and future deferred vested participants.

² If the participant has attained age 55 but not 65 as of the Annuity Starting Date, the lump sum is equal to the greater of the present value of the immediate subsidized early retirement benefit or the present value of the deferred normal retirement benefit. Otherwise, the lump sum is equal to the present value of the deferred normal retirement benefit (or the present value of the late retirement benefit if paid at a Late Retirement Date).

3. Accrued Normal Retirement Benefit: the monthly benefit that a participant has accrued before reaching Normal Retirement age payable in the Normal Form of payment beginning at Normal Retirement age; the amount of the accrued benefit is determined when a participant terminates his employment and is calculated like the Normal Retirement benefit but using only Years of Credited Service (Benefits) and compensation credited at date of termination.

I. Plan Provisions for Compliance with Benefit Restrictions under IRC §436

1. Limitations on Benefit Accruals:

- a. Benefit accruals are frozen if Plan's AFTAP falls below 60%, as required by PPA.
- b. Benefit accruals restart automatically when the Plan's AFTAP increases above 60%.
- c. Benefit accruals that otherwise would have been earned when the Plan's AFTAP was below 60% are not restored automatically when the Plan's AFTAP increases sufficiently.

2. Shutdown or Other Unpredictable Contingent Event Benefits:

IRC Section 436(b) does not apply because the plan does not and shall not provide any: (a) special benefits in the event the employer shuts down a business segment ("shutdown benefits") or (b) other unpredictable contingent event benefits.

3. Limitations on Prohibited Payments:

- a. The election of certain payment forms that include a prohibited payment are prohibited when the Plan's AFTAP falls below 60%. The Plan does not allow special optional payment forms in this situation.
- b. The Plan restricts the availability of certain payment forms that include a prohibited payment when the Plan's AFTAP is between 60% and 80%. The Plan does not allow special optional payment forms in this situation.

SCRIPPS NETWORKS INTERACTIVE PENSION PLAN

EIN/PN: 61-1551890/002

2014 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS

4. Limitations on Plan Amendments Increasing Benefit Liabilities:

The plan prevents certain Plan Amendments that would increase liabilities from taking effect if the Plan's AFTAP would be under 80% after the amendment unless additional funding is made in an amount equal to the lesser of: (i) the amount necessary to ensure the Plan's AFTAP is 80% after the amendment, or (ii) the amount of the increase in the Plan's Funding Target Liability due to the amendment (note that this option (ii) is not available if the Plan's AFTAP is presumed to be less than 60%).

J. Pre-retirement Death Benefits

If the participant has a spouse at the time of his death, payment of benefit which is equal to the benefit that would have been payable to the spouse if the participant had commenced a Joint and 100% Survivor Annuity form of benefit immediately prior to his death. If the participant does not have a spouse at the time of his death, no benefit is payable.

K. Post-retirement Death Benefits

1. For pre-January 1, 2010 terminations only, and only if the employee was age 55 with at least 10 years of Credited Service (Vesting) at the time of termination:

a one-time lump sum death benefit equal to three times Average Monthly Compensation, but not more than \$10,000 and not less than \$2,500.

2. For all other benefits, no death benefit is payable other than the continuance of benefit payments to a surviving spouse or beneficiary if provided under the optional form of payment elected at the time of retirement.

L. Basis of Actuarial Equivalence

For purposes of monthly annuity options, determined in accordance with the tables provided in Appendix A to the Plan document.

For purposes of lump sums, determined in accordance with the applicable mortality table under IRC §417(e)(3) and the Segment Rates in effect for the month of September preceding the plan year.

M. Covered Compensation

Equal to the 35-year average of the Social Security Taxable Wage Base, with such 35-year period consisting of complete calendar years which immediately precede the first day of the month after the earliest of the following dates: (i) December 31, 2019, (ii) the date a Participant retires or terminates, or (iii) the date a Participant ceases to be an Eligible Employee.

RESULTS AND AMOUNTS USED TO CALCULATE AFTAP**

The 2014 plan year AFTAP was certified to be 104.38% on June 30, 2014. This certification was calculated using MAP-21 segment rates and prior to the adoption of a plan amendment in October 2014 that added a special early retirement window for certain eligible participants. The AFTAP was updated to 118.66% on December 30, 2014 to reflect the pension funding stabilization provisions of the Highway and Transportation Funding Act of 2014 (HTFA) [prior to reflecting the October 2014 plan amendment]. The AFTAP was updated to 109.85% on December 30, 2014 to reflect the provisions of the plan amendment in accordance with Internal Revenue Code Section (IRC§) 436 and associated Treasury Regulations. However, for purposes of IRC§ 430, the provisions of the amendment related to the increase in the minimum plan benefit were not required to be reflected because the amendment was adopted after the beginning of the plan year. The details of the 2014 certified and recertified AFTAP calculations are shown below.

2014 AFTAP Certified on June 30, 2014 [Reflects MAP-21 but Prior to HTFA]
