Part I	Asset and Liability Statement		(a) Beginning of Year	(b) End of Year
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Independent Auditor's Report

To the Plan administrator
**First Security, Inc. 401k
and Employee Stock Ownership Plan**

We were engaged to audit the accompanying financial statements of the First Security, Inc. 401k and Employee Stock Ownership Plan (the "Plan"), formerly First Security Bank Profit Sharing and 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information in Note C, which was certified by American United Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that, with the exception of the Plan's investment in the common stock of First Security, Inc., the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Independent Auditor's Report (Continued)

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements. Accordingly, we do not express an opinion on the financial statements.

Report on Supplementary Information

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

and Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2014 and 2013**

Note A - Description of Plan

The following description of the First Security, Inc. 401k and Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan covering all eligible employees of First Security, Inc. and affiliate (the "Bank" or "Employer"). Employees must be age 19 or over to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 1, 2014, the Plan was amended to add a Bank common stock investment component to the Plan. Bank matching contributions will be made in shares of Bank common stock after July 1, 2014. The name of the Plan was changed from First Security Bank Profit Sharing and 401(k) Plan to First Security, Inc. 401k and Employee Stock Ownership Plan.

2. Contributions: Each year, participants may elect to contribute up to 100% of their eligible pre-tax compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. The Bank makes a matching contribution equal to 50% of the first 10% of eligible compensation each eligible participant contributes to the Plan. Effective July 1, 2014, the matching contribution is made in the form of common stock of First Security, Inc. The Bank may also elect to make a discretionary profit sharing contribution in the form of cash or common stock. The Bank did not make a profit sharing contribution for the 2014 Plan year. Contributions are subject to certain limitations.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and an allocation of the Bank's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant becomes 100% vested after five years of credited service.
5. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their elective deferral accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year. Prior to July 1, 2014, participants directed the investment of their Bank contributions into the various investment options offered by the Plan. Effective July 1, 2014, Bank contributions are invested as directed by Plan management. For the period July 1, 2014 through December 31, 2014, Bank contributions were invested in the common stock of First Security, Inc.

and Employee Stock Ownership Plan
Notes to Financial Statements (Continued)
December 31, 2014 and 2013**

Note A - Description of Plan (Continued)

6. Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Generally, the term of the loan may not exceed five years. However, if the loan is for the purchase of a participant's principal residence, the Plan administrator may permit a longer term. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is repaid ratably through payroll deductions. There were no outstanding notes receivable from participants at December 31, 2014.
7. Payment of Benefits: Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount in cash equal to the value of the participant's vested interest in his or her account not invested in Bank common stock. Distributions of Bank common stock will be made in substantially equal annual installments over a period not to exceed five years, and will commence no later than one year after the close of the fifth Plan year (first Plan year if termination due to retirement, death or disability) in which the participant separates from service. Distributions from the participant's Bank common stock account may be made in the form of cash or shares of Bank common stock. In-service and hardship withdrawals are also allowed as defined in the Plan agreement.
8. Put Option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Bank buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Bank can pay for the purchase, with interest, over a period not to exceed five years with the first installment payable within 30 days of exercising the put option. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.
9. Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Bank common stock into investments which are more diversified. Any participant in the Plan, who is at least 55 years of age and has at least ten years of Plan participation, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first 5 years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants who elect to diversify receive a cash distribution.
10. Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustees prior to the time that such rights are to be exercised.
11. Forfeited Accounts: The non-vested portion of former participants' accounts may be used to pay administrative expenses of the Plan or to reduce the amount of future employer contributions. Forfeited accounts totaled \$5,135 at December 31, 2014. During the Plan year ended December 31, 2014, forfeitures approximating \$23,000 were used to reduce the amount of employer matching contributions.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.
2. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
3. Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The common stock of First Security, Inc. is valued at estimated fair value as determined by an independent appraiser. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan offers a fully benefit-responsive investment contract to participants. At December 31, 2014 and 2013, contract value approximates fair value.

4. Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013.
5. Payments of Benefits: Benefits are recorded when paid.
6. Administrative Expenses: Administrative expenses of the Plan are paid by the Bank or Plan participants, as defined in the Plan agreement.
7. Investment Management Fees and Operating Expenses: Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on daily basis and are reflected as a component of net appreciation in fair values of investments.
8. Excess Contributions Payable: Excess contributions payable represent amounts withheld from participants in excess of Internal Revenue Code ("IRC") limitations, and related earnings thereon, that are required to be refunded prior to December 31 of the subsequent year. Amounts payable to participants for excess contributions are included in benefits paid to participants on the Statement of Changes in Net Assets Available for Benefits.

9. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report which represents the date the financial statements were available to be issued.

Note C - Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, with the exception of the Plan's investment in the common stock of First Security, Inc. and related activity, American United Life Insurance Company ("AUL"), the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants information reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, the Schedule of Assets (Held at End of Year) at December 31, 2014, and the related investment and interest income on notes receivable from participants information reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014.

Note D - Investments

Note F - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**First Security, Inc. 401k
and Employee Stock Ownership Plan
Notes to Financial Statements (Continued)
December 31, 2014 and 2013**

Note F - Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Insurance investment contract: Valued at contract value which equals the accumulated cash contributions and interest credited to the Plan's contract less any withdrawals.

Pooled separate accounts: Valued at the net asset value ("NAV") of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised, primarily, of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2014 and 2013, respectively. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

Common stock of First Security, Inc.: The fair value of the Bank's common stock is determined by an independent appraiser as of the Plan's year-end. The independent appraiser utilized the market and income approach. Under the market approach, the guideline public company method provided an indication of value utilizing information from comparable companies to determine value. The discounted net earnings method was relied upon under the income approach. The income approach determines value based on estimated future net earnings and an assessment of the risks related to those net earnings. The concluded value was based on an unequal weighting of the market approach (guideline public company) and the income approach (discounted net earnings method). The appraiser took into account discussions with senior management of the Bank, financial statements, and projections of the Bank and other information concerning the economy and industry in which the Bank operates.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Bank. The appraiser prepares a preliminary report which Plan management, reviews in detail, discusses and approves.

Interest bearing cash: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note F - Fair Value Measurements (Continued)

- a) **Balanced:** Primarily seeks current income and, as a secondary objective, capital appreciation.
- b) **Large cap:** Seeks to provide substantial dividend income as well as long-term growth of capital through investments in the common stocks of established companies.
- c) **Mid cap:** Seeks long-term capital appreciation and normally invests in equity and equity-related securities of medium-sized companies with the potential for above average growth.
- d) **Small cap:** Seeks long-term growth of capital and income and normally invests in common stocks and other equity securities of companies with smaller market capitalizations.
- e) **Money market:** Seeks to provide current income while preserving assets and maintaining liquidity and investment quality.
- f) **Fixed income:** Seeks a high level of current income by broadly investing in fixed-income securities through various sectors of the bond market and gaining exposure to various types of credit and interest rate risk.
- g) **International:** Focuses on high-priced growth stock in developed markets mainly outside of the United States.
- h) **Asset allocation:** Provides a diversified exposure to stocks, bonds and cash for those investors who have a specific date in mind for retirement or another goal and provides investors with an optimal level of return and risk, based solely on the target date. Over time, management adjusts the allocation among asset classes to more conservative mixes as the target date approaches.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	Common Stock
Balance, Beginning of Year	\$ -
Unrealized gains	6,841
Purchases	42,627
	<hr/>
Balance, End of Year	\$ 49,468
	<hr/>

Unrealized gains included in changes in net assets for the year ended December 31, 2014 are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note G - Insurance Investment Contract

The Plan holds a fully benefit-responsive fixed interest investment contract with AUL maintained in AUL's general account. This account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed interest investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract may be subject to a market value adjustment upon contract termination.

The fair value of the contract approximates its contract value at December 31, 2014 and 2013 and was \$581,043 and \$494,165, respectively. The yield and crediting interest rate was 4% for 2014 and 2013. The crediting interest rate is based on a formula agreed upon with the issuer, and is guaranteed not to drop below a certain rate on an annual basis. AUL's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, or (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

Note H - Related Party Transactions

Certain administrative services are provided by the Bank at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Bank. In addition, the Plan invests in the common stock of the Bank, therefore, these transactions qualify as party-in-interest.

The Plan invests in an insurance investment contract and pooled separate accounts managed by AUL. AUL is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest.

Note I - Income Tax Status

The Plan has applied for, but has not received, a determination letter from the Internal Revenue Service ("IRS") stating that the Plan is qualified under IRC Section 401(a). However, the Plan administrator believes that the Plan is qualified and therefore, the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note J - Plan Termination

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note K - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note L - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	<u>2014</u>	<u>2013</u>
