TOM BELL GROUP 401 (k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of Tom Bell Group 401 (k) Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General* . The Plan is a defined - contribution plan covering all full - time employees of the Company who have one year of service and are age twenty - one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions* . Each year, participants may contribute an amount set forth in a salary reduction agreement. For each plan year, the Company will contribute to the Plan an amount of matching contributions determined by the Company at its discretion. The Company may choose not to make matching contributions to the Plan for a particular plan year. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

3. *Participant Accounts* . Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six or seven years of credited service (depending on whether the Plan is top heavy) or upon attaining the normal retirement age of 65.

5. *Investment Options.* Upon enrollment in the Plan, a participant may direct employee contributions to various investment options under the Fidelity Management Trust Company. Funds are invested in guaranteed fund accounts or or pooled fund accounts with the investment company.

6. *Participant Notes Receivable.* Participants may borrow from their fund accounts a minimum of $1,000 and to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from one to five years or up to fifteen years for purchase of a primary residence. The loans are secured by an irrevocable pledge of 50 percent of the balance in the participant's account and bear interest at a rate determined by the Advisory Committee to be commercially reasonable. The loan must provide for at least simi-monthly payments under a level amortization schedule.

7. *Payments of Benefits* . On termination of service due to death, disability, or retirement, a participant receives a lump - sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump - sum distribution.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Fair Value Measurement

Financial Accounting standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from the corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014, and December 31, 2013.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end (Level 1).

Participant loans are valued at amortized cost, which approximates fair value (Level 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective for future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014.

	Participant Loans
Balance, beginning of year	$ 107,097
Issuances and settlements (net)	51,194
Balance, end of year	$ 158,291

Security Transactions and Investment Income

The Plan has an investment contract with Fidelity Investments Institutional, which provides that contributions to the Plan will be invested in certain individual programs as directed by each participant. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 - INVESTMENT CONTRACT WITH INVESTMENT COMPANY

The contract is included in the financial statements at contract value, which approximates fair value, as reported to the Plan by ING Institutional Plan Services. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses.
