The Board of Trustees
403(b) Thrift Plan of Recovery Resources
Cleveland, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the 403(b) Thrift Plan of Recovery Resources (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits for the year ended December 31, 2014 and the notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Mutual of America Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the custodian is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Independent Auditor's Report (Continued)

Further, as described in Note 10, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income and distributions should have been included in the accompanying financial statements. The effects of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedules as of and for the year ended December 31, 2014 are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

403(b) Thrift Plan of Recovery Resources

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the 403(b) Thrift Plan of Recovery Resources (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Recovery Resources (the Company), except for students hired under a work study program. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may contribute up to the maximum amount of pretax annual compensation as defined by the Plan and allowable under the Internal Revenue Code (IRC). To be eligible for the Company's contribution, a participant must have attained at least one year of employment in which they have been credited with 1,000 hours of service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as allowable under the IRC. Also, any participant who has 15 years of service with a qualified organization may make Special Code Section 403(b) Catch-up Contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes the lesser of 50% of a participant's deferral or 2.5% of a participant's eligible compensation.

In July 2011, the Plan sponsor, Recovery Resources, acquired Spectrum of Supportive Services (Spectrum), a not-for-profit entity. Effective July 1, 2011, the Plan agreement was amended to allow employees' service with Spectrum to be credited towards the eligibility and vesting requirements of the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant account balances or employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants hired prior to January 1, 2008 are immediately vested in the Company's contributions plus actual earnings thereon. Participants hired on or after January 1, 2008 are vested in the Company's contributions plus actual earnings thereon based on years of continuous service. These participants earn 33% vesting after 2 years of service, 66% vesting after 3 years of service and 100% vesting after 4 years of service.

Forfeited accounts: Forfeitures are first used to pay administrative expense of the Plan and any remaining amount of forfeitures is used to reduce future Company contributions. Forfeitures applied to Company contributions for the year ended December 31, 2014 and 2013 were approximately \$6,900 and \$2,700, respectively.

Investment options: Upon enrollment in the Plan, participants may direct their contributions into a variety of investment choices offered by the Plan. The Plan currently offers various pooled separate accounts and an investment in funds held in an insurance company general account as investment options for participants. Participants may change their investment options at any time.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a fixed period of years not to extend beyond the participant's life expectancy. Participants who make an in-service withdrawal upon attainment of age 59 ½ or terminated participants who have attained age 55 may also elect to receive either a lump-sum amount or installments over a fixed period of years. Participants who request in-service withdrawals due to financial hardship may only receive a lump-sum distribution.

Administrative expenses: Administrative expenses of the Plan are paid by the Company or the Plan, at the Company's discretion. The expenses paid by the Company are not reflected in the accompanying financial statements.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant and employer contributions are recognized when the participant contributions are withheld from the participant's earnings.

Payment of benefits: Benefits are recorded when paid.

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plan (Topic 962) and Health and Welfare Benefit Plans (Topic 965): Part I - Fully-Benefit Responsive Investment Contracts, Part II - Plan Investment Disclosures and Part III - Measurement Date Practical Expedient ("ASU 2015-12")*. The amendments in this update remove the requirement to record fully benefit-responsive investment contracts at fair value and designated contract value as the only required measure for these contracts. The amendments also remove the requirement to disclose (a) individual investments that represent five percent or more of net assets available for benefits and (b) the net appreciation or depreciation for investments by general type, however, the net appreciation or depreciation in investments is still required to be presented in aggregate. The amendments also provide a practical expedient to permit plans to measure investments and investment related accounts as of a month end date that is closes to the plan's fiscal year end when the fiscal year period does not coincide with month end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Mutual of America Life Insurance Company

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013 and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian, Mutual of America Life Insurance Company and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

The following table presents the value of the Plan's assets as certified and provided by the custodian as of December 31. Assets representing more than 5% of the Plan's net assets have been separately identified.

403(b) Thrift Plan of Recovery Resources

Notes to Financial Statements

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the insurance company in their pooled accounts at year end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the custodian.

General account investment contract: Valued at the amount that would be received were the funds to be withdrawn or transferred within the Plan prior to maturity. This fair market value represents guaranteed interest account contract values as reported by the custodian, adjusted to reflect current interest rates. This value is generally calculated as contributions allocated, plus interest at contractual rates as determined by the custodian, less funds used to pay benefits and any administrative expenses. The contract value of the investment is not materially different from its fair value. See Note 5.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of assets within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of assets from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the asset and size of the transfer relative to total net assets available for benefits. There were no significant transfers.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014.

General account investment contract:

Balance, beginning of year	\$	578,197
Interest		5,843
Purchases		39,701
Sales		(45,195)
Transfers		16,708
Balance, end of year	\$	595,254

Unrealized gains/(losses) from the general account investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table represents the Plan's Level 3 assets as of December 31, 2014, the valuation techniques used to measure the fair value of those assets and the significant unobservable inputs and the ranges of values of those inputs.

Description	Fair Value	Valuation Technique	Unobservable Input	Range
General account investment contract	\$ 595,254	Fair value approximates contract value	Crediting interest rate	1.00%-3.00%

Note 5. Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Mutual of America Life Insurance Company (MOA). MOA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair value, as reported by MOA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

403(b) Thrift Plan of Recovery Resources

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value, which approximates fair value, of the investment contract at December 31, 2014 and 2013 was \$595,254 and \$578,197, respectively. Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return MOA expects on new investments made and held within the MOA general account. When establishing interest credit rates for these contracts, MOA considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan agreement, (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events, or (4) failure of the trust to qualify for exemption under ERISA or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by participants and can only be initiated by the custodian upon termination of the Plan or complete termination of the contract.

	2014	2013
Average yield earned by the Plan	1.00%	1.10%
Average yield credited to participants	1.00%	1.10%

Note 6. Plan Loans

Participants may borrow from MOA using a portion of their Plan account as security for the loan. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 or 50% of their account balance. The loans bear interest at rates that range from 4.00% to 6.10%, which are commensurate with local prevailing rates as determined periodically by MOA. Principal and interest is paid ratably by the participant to MOA. The Plan Administrator has concluded that these loans are not Plan assets and that such arrangements are exempt transactions.

The loan balances as of December 31, 2014 and 2013 are \$85,246 and \$88,108, respectively. Under the borrowing terms, Plan assets totaling these outstanding loan balances serve as collateral to these loans. Interest paid by participants on such loans during the year ended December 31, 2014 was \$3,399.

In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During the current year, no loans went into default. As of December 31, 2014 and 2013, there were no loans in default.

Note 7. Related-Party Transactions

Certain Plan investments are managed by Mutual of America Life Insurance Company, the custodian and, therefore these transactions qualify as party-in-interest transactions.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

403(b) Thrift Plan of Recovery Resources

Notes to Financial Statements

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because no records relating to these exist.

Note 11. Tax Status

The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore is exempt from income taxes. No provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2014 and 2013, respectively, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to tax examinations by U.S. federal tax authorities for years before 2011.
