Note A - Description of the Plan

The following description of the Yellowstone Landscape Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Yellowstone Landscape Group, Inc. and its subsidiaries (collectively the Company). Following the completion of one year of service and attainment of age 21, employees are eligible to participate in the Plan on the first day of the month coinciding with or following the meeting of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan's trustee is Ascensus Trust Company and the recordkeeper is Ascensus, Inc.

Contributions

Participants may elect to make salary deferral contributions to the Plan up to 100% of eligible compensation, excluding bonuses and commissions, subject to limits provided under the Internal Revenue Code (IRC). Effective January 1, 2013, the Plan was amended to allow participants to make Roth contributions. Participants who have attained the age of 50 within the plan year are permitted to make catch-up contributions in accordance with the IRC. Participants may stop their salary deferral contributions at any time. Participants may change their salary deferral contribution on the first day of each month of the plan year.

Pursuant to the Plan document, the Company may make discretionary matching and profit sharing contributions. Participants are eligible to receive the employer match or the profit sharing contributions if they (1) are participants at the plan year-end and (2) have completed more than 1,000 hours of service in the plan year, or are terminated in the plan year due to death, retirement, or total and permanent disability. The Company did not make any matching or profit sharing contributions for 2014. The Plan is participant-directed and participants may change their investment options at any time.

Participants may make rollover contributions to the Plan subject to the approval of the plan administrator.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and plan administrative expenses. Allocations are based on a participant's eligible compensation or account balance, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are at all times fully vested in their contributions, rollover contributions, and the appreciation or depreciation thereon. Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. Participants vest 20% per year after one year of service and are 100% vested after five years of service.

Forfeited Accounts

Forfeitures result from a participant's non-vested employer matching and profit-sharing contributions. Forfeitures of non-vested employer matching and profit-sharing contributions shall be used to reduce employer contributions. The forfeitures balance at December 31, 2014 and 2013 was $1,006 and $1,003, respectively. No forfeitures were used in 2014 and investment gains of $3 were recognized.

Payment of Benefits

A participant shall be immediately vested upon death, retirement, or total and permanent disability. Normal retirement age under the Plan is the later of attainment of age 65 or the fifth anniversary of the first day of the plan year in which participation in the Plan commenced. Participants with a rollover contribution may receive a distribution at any time, limited to the total of their rollover contribution and related earnings. The Plan also allows for hardship withdrawals from a participant's pretax deferral account and Roth account. Participants receive distributions in a lump-sum amount equal to the value of the participant's vested interest.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested balance. The notes bear interest at reasonable rates as determined at the date of the note and are secured by the participant's vested account to the extent of the principal amount of the note, plus accrued interest. Principal and interest are paid ratably through payroll deductions for periods ranging up to five years, or longer for the purchase of a primary residence. Participants may only have one note outstanding at any time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

Note B - Significant Accounting Policies Basis of Accounting

Accounting Basis

The accompanying financial statements have been prepared on the accrual basis of accounting, except for benefit payments, which are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. At December 31, 2014 and 2013, no allowance was considered necessary by management.

Investment Valuation

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses are included in net appreciation in fair value of investments.

Tax Status

The Plan has adopted a non-standardized prototype plan, which obtained its latest opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable provisions of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2014 and through October 15, 2015, which is the date these financial statements were available to be issued. The plan administrator determined there are no subsequent events that require adjustment or disclosure in these financial statements.

Note C - Plan Investments

Investments that represent 5% or more of the Plan's net assets at December 31 are separately identified below:

Identity of Party Involved	Description	2014	2013
Vanguard	Target Retirement 2025 Inv	$ 178,775	$ 163,924
Vanguard	Target Retirement 2030 Inv	278,232	248,903
Vanguard	Target Retirement 2035 Inv	230,359	211,808
Vanguard	Target Retirement 2045 Inv	113,460	102,862

Note D - Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy, including the types of plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

- *Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

  Shares of registered investment companies: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

  Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- *Level 3* - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in methodologies used at December 31, 2014 or 2013.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

No auditing procedures were performed with respect to the Plan's assets, transactions, income, reportable transactions, and the schedule of investments, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule.

Note F - Risks and Uncertainties

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term, and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note G - Related Party Transactions

Fees paid during 2014 and 2013 by the Sponsor to the trustee and other service providers for professional and custodial services were based on customary rates for their services. Certain investments throughout the years were in investments managed by the trustee. While these transactions qualify as party-in-interest activity, they are expressly exempt from the prohibited transaction rules (ERISA, Title I, Section 408 (b)).
