ZOGG BENEFITS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Zogg Benefits, Inc. 401(k) Plan (the Plan) provides only general information. The Plan is sponsored by Zogg Benefits, Inc. (the Company and Plan Sponsor). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature, originally established on August 1, 1998, as a single employer plan. During 2003, it converted to a multi-employer plan which was retroactively applied to January 1, 2003. In 2008, the Plan adopted a Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement (CODA). There is no minimum age or service requirements for participation. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as well as all applicable provisions of the federal income tax laws.

Contributions

Participants may make tax-deferred contributions not to exceed the amount deductible for federal income tax purposes. Participants may also contribute or 'roll over' amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may designate all or a portion of their elective deferral as Roth Elective Deferrals. In addition, certain employer profit sharing and other contributions may be paid to the Plan over several years pursuant to the terms of the 'Plan joinder agreement' with each employer.

Individual clients participating in the Plan have the option to make discretionary contributions from time to time as deemed advisable. For the year ended December 31, 2014, employer contributions totaled \$1,677,422.

As required by the Plan, pursuant to the terms of the 'Plan joinder agreement' with each employer that elects safe harbor matching contributions, the Company made safe harbor matching contributions equal to 100% of the participant's salary deferral up to 3% of total compensation, plus 50% of the next two percent of the participant's salary deferral.

The Company has the option to make discretionary profit sharing contributions of an amount determined by the Board of Directors of each employer at the end of each Plan year. At December 31, 2014, the Company did not make any discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's tax-deferred and post-tax (Roth) contributions, the allocable share of employer contributions, if any, and Plan earnings or losses on the assets of their self-directed investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ZOGG BENEFITS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Vesting

Participants are immediately vested in their deferred salary contributions, employer safe harbor matching contributions, rollover contributions from other plans and actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions (if any) of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested upon retirement, permanent disability, death or reaching retirement age while employed by the Company. If a participant separates from the employment of the Company for any other reason, a participant shall be vested based upon the following schedule:

<u>Year(s) of Vesting Service</u>	<u>Percentage Vested</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, by or on behalf of the participant, to any one or more of the investment funds provided by the custodian of the Plan's assets. A participant may log in online at any time to change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance or \$50,000. The loans in form of promissory notes (Note 2) are secured by the balance in the respective participant's account, and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Beginning in 2014, the Plan amended its participant loan policies to allow participants to have up to two loans outstanding at any one time. Principal and interest on participant notes receivable are repaid through payroll deductions and are generally repaid within five years. Principal and interest on participant notes receivable are repaid through payroll deductions and are generally repaid within five years.

Payment of Benefits

Participants are eligible to request distributions of their vested account balance upon termination, death, disability, or reaching retirement age of 65. Distributions from the Plan will be made in a lump-sum payment equal to the value of the participant's vested interest in his or her account balance if the participant's vested account balance is \$1,000 or less. If a participant's vested benefit in the Plan exceeds \$1,000, the method of benefit payment is selected by the participant.

ZOGG BENEFITS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Plan Expenses

It is the philosophy of the Company to absorb and pay most Plan administration expenses such as audit fees and other administrative functions so as not to decrease Plan assets. Any fee or expense paid, directly or indirectly, by the Company is not considered a contribution to the Plan, provided the fee or the expense relates to the ordinary and necessary administration of the Plan.

In addition, during the year ended December 31, 2014, the Plan incurred \$137,752 of administration expenses with its Plan custodian, a party-in-interest. These charges are reflected in the accompanying statement of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, which generally is the quoted market prices, representing the net asset value of shares held by the Plan (Note 3). Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis with dividends being recorded on the ex-dividend date. Net appreciation or depreciation includes the gains and losses on investments bought and sold, as well as those held during the year.

Notes Receivable from Participants

Notes receivable from participants (Note 1) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. The Plan recognizes interest income from the notes receivable as earned.

Allowance for Doubtful Accounts

Some employers are required to contribute a qualified non-elective contribution (QNEC) due to the failure of their plan to pass the nondiscrimination test, as a targeted contribution to satisfy the coverage rules, or other contributions due to operational defects that require a contribution to correct. It is the Plan's policy to not allow terminating employers to transfer their account balances until all receivables are collected. The QNECs are reported at their outstanding balance reduced by an allowance for doubtful accounts. The Plan estimates doubtful accounts based on the age of the QNEC. An allowance is established in the amount of 50% or 100% of the QNEC balance over 2 years or 4 years old, respectively. The Plan writes off QNECs against the allowance when a balance is determined to be uncollectible or when forfeitures are applied to the balance.

ZOGG BENEFITS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Contributions

Contributions from the employer are accrued in the period in which they become the obligation of the Company, as determined by the Plan's administrator.

Payment of Benefits

Benefits are recorded when paid.

Forfeited Accounts

Forfeitures are used to reduce the employer's matching contribution to the Plan or pay administrative fees. During the year ended December 31, 2014, forfeitures of \$317 and \$5,861, were used to pay for Plan fees and the employers' matching contributions, respectively. At December 31, 2014 and 2013, unallocated forfeitures available to reduce future employer contributions were \$35,293 and \$30,483, respectively.

Recent Accounting Pronouncements

During the year ended December 31, 2014 and through October 15, 2015, there were several new accounting pronouncements issued by the Financial Accounting Standards Board (FASB). Each of these pronouncements, as applicable, has been or will be adopted by the Plan. Management does not believe the adoption of any of these accounting pronouncements has had or will have a material impact on the Plan's financial statements except for the early adoption of Accounting Standard Update 2015-12, *Plan Accounting*, which eliminated certain investment disclosures.

Subsequent Events

In preparing the financial statements, the Plan has reviewed, as determined necessary by the Plan's management, events that have occurred after December 31, 2014, up until the issuance of the financial statements, which occurred on October 15, 2015.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

- Level 1 Valuations based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2 Valuations based on quoted prices in markets that are not active, or financial instruments for which all significant inputs are observable; either directly or indirectly; and

ZOGG BENEFITS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Level 3 Valuations based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable; thus, reflecting assumptions about the market participants.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Investment in insurance company general account: The reported value for Transamerica Stable Option Advantage account is reported at fair market value based upon the daily credited rate (Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

4. GROUP ANNUITY CONTRACT WITH TLIC

The Plan has an investment in a Group Annuity Contract with Transamerica Financial Life Insurance Company (TLIC). TLIC maintains the contributions in the Stable Option Advantage investment choice which is a non-tradable obligation of TLIC. This investment choice seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year U. S. Treasury bills.

The investment choice has a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. Contract charges may reduce this return. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the general account of TLIC, subject to a minimum return as stated in the contract. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The credited interest rate is backed by the income received from assets held in the general account. During the years ended December 31, 2014 and 2013, the average yield based on actual earnings was 1.13% and 1.71%, respectively. During the years ended December 31, 2014 and 2013, the average yield based on the interest rate credited to participants was 1.60% and 1.70 %, respectively.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfers of all or a portion of their investment at contract value to other investment choices within the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The repayment of principal and interest credited to participants holding the investment is a financial obligation of TLIC. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example a significant decline in creditworthiness of TLIC, the Stable Value Option Advantage investment choice may no longer be considered fully benefit-responsive.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their account balances.

NOTES TO FINANCIAL STATEMENTS

6. REPORTABLE TRANSACTIONS

There were no reportable transactions, loans (participant notes receivable) in default or uncollectible, non-exempt transactions with parties-in-interest or any other prohibited transactions which would require supplemental presentation under Department of Labor rules and regulations.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Sponsor of the prototype plan by a letter dated March 31, 2008, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. However, a determination letter from the Internal Revenue Service has not yet been requested by the Plan Sponsor/Company to determine if the Plan as amended was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and ERISA and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

9. TRANSACTIONS WITH PARTIES IN INTEREST

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Certain Plan investments are shares of funds managed by TLIC, the custodian. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$68,630 for the year ended December 31, 2014.
