1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Honda 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Honda 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan was established on January 1, 2014 by American Honda Motor Company, Inc. (Plan Sponsor). The Plan allows participants an opportunity to contribute according to provisions of Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan Administrator responsibilities are carried out by the Honda 401(k) Savings Plan Committee (the Committee). The Plan allows eligible associates of certain adopting employers to participate in the Plan.

Fidelity Management Trust Company (Fidelity) is the trustee of the Plan. The trustee holds the Plan's assets and executes transactions therein based upon specific authorization of the Plan Administrator or participants.

Plan merger: The Plan was established on January 1, 2014 to consolidate the Honda Manufacturing 401(k) Savings Plan, the American Honda Savings Plan and the Honda South Carolina Savings Plan (Merging Plans) into a single 401(k) savings plan for all U.S. Honda associates. The Merging Plans' employers became adopting employers and eligible participants began participating, in the Plan on January 1, 2014. The Plan assumed legal title and control of the Merging Plans' net assets effective at the close of business December 31, 2013 and net assets were received by the Plan on January 2, 2014. As a result, the Plan shows a beginning net asset amount of approximately \$2,932,000,000 on the Statement of Changes in Net Assets Available for Benefits representing the pending transfers in from the Merging Plans as of close of business December 31, 2013. The beginning net assets amount is comprised of approximately \$2,003,000,000, \$909,000,000 and \$20,000,000 from the Honda Manufacturing 401(k) Savings Plan, the American Honda Savings Plan and the Honda South Carolina Savings Plan, respectively.

Contributions: Under the terms of the Plan, eligible associates (other than Japanese national associates and student associates) with at least three months of service may participate in the Plan. Participants are automatically enrolled in the Plan with an elective pre-tax deferral rate of 6% of compensation, increasing each January 1 thereafter by 1% until such elective deferral rate is 10% of compensation, unless the participant affirmatively elects out of the automatic deferral feature, elects a different deferral rate, or elects not to participate in the Plan. A participant may authorize payroll deductions ranging from 1% to 75% of their base salary. The Employer matching contributions equal 100% of the first 6% of each participant's basic contribution. The Employer savings contribution is awarded to all eligible participants that were employed as of September 3, 2013 and is equal to 3% of the participant's compensation. In addition, associates that elect an increased 401(k) contribution (in lieu of participant in Honda's defined benefit plan) receive an Employer service-based contribution that ranges from 2% to 8% of the participant's compensation based on years of service. The Plan also permits associates to transfer funds from other qualified plans into the Plan as rollover contributions. Such transfers must be approved by the Plan Administrator. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the associate's contributions, employer's contributions, an allocation of investment earnings and is charged with an allocation of investment and administrative expenses. Allocations are based on the participant's selected funds allocation percentages. Investment income is allocated to participant accounts by investment fund balance on a daily basis. This allocation is based upon the ratio of each participant's weighted average fund balance to the total of all participants' fund balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Honda 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Associate contributions are 100% vested at all times. Employer matching and savings contributions credited to a participant's account are fully vested at the time the contributions are made. Vesting in the Employer service contributions is based on years of service, where a year is defined as 365 days. Vesting in the employer service contributions along with earnings thereon is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Fewer than 2	0%
2	25%
3	50%
4	75%
5 or greater	100%

Investment options: Participants may allocate their contributions to any of the various funds provided by the Plan. Participants may transfer account balances among the different funds on a daily basis.

Notes receivable from participants: The Plan permits loans to participants up to 50% of their vested account balance for not less than \$1,000 and not to exceed \$50,000. The term for repayment shall be no longer than five years nor less than twelve months. Loans bear a reasonable rate of interest as determined by the Committee. Principal and interest is paid ratably through periodic payroll deductions.

Distributions: A participant's vested account will be distributed upon retirement, termination, disability or death. Distributions are made in a lump sum or in installments not to exceed the life expectancy of the participant. A participant may make an in-service withdrawal due to financial hardship or upon attainment of age 59 ½. Such withdrawals are subject to approval.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement feature for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value for this common/collective trust is based on the net asset value of the fund as reported by the trustee. The statements of net assets available for benefits as of December 31, 2014 present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Honda 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Associate contributions and employer matching contributions are recognized when the associate contributions are withheld from the associate's earnings. The employer savings and service contributions are recognized weekly.

Distributions: Benefits are recognized when paid.

Administrative expenses: Fees charged by the trustee and other administrative fees incurred by the Plan are charged to and paid directly by the Plan Administrator or the Plan, as directed by the Committee.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued interest. Delinquent loans are treated as distributions based upon terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ significantly from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

Honda 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan* as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2015, the date the financial statements were available to be issued.

Note 3. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Administrator by a letter dated October 23, 2013, that the Plan and its underlying trust qualify under the applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that is more likely than not would be sustained upon examination. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statements of changes in net assets available for benefits.

Note 4. Parties in Interest Transactions

Certain Plan investments are shares of registered investment companies (through the self-directed brokerage accounts) managed by Fidelity. Fidelity is the trustee, as defined by the Plan; therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for administrative and other services provided by Fidelity approximated \$835,000 for the year ended December 31, 2014.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trusts: Valued at the total of the NAV of the underlying securities held by the account at year end. The Plan's interest in the common/collective trusts are valued based on the information reported by the investment advisor.

Honda 401(k) Savings Plan

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

Money market fund: Valued at the closing price reported on the active market on which the fund is traded, generally at \$1 per share.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Registered investment companies:

The following tables set forth additional disclosures of Plan's Level 2 investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2014:

Target retirement date trusts ^(a)	2,369,764,231	None	Daily	None
Stable value trust ^(b)	166,120,021	None	Daily	12 months

- ^(a) This category includes high quality securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Honda 401(k) Savings Plan

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

- ^(b) This category's objective is to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions without penalty or adjustment. The trust invests principally in guaranteed investment contracts issued by insurance companies; investment contracts held by banks; structured or synthetic investment contracts issued by banks, insurance companies and other issuers, as well as the securities supporting such contracts; separate account contracts; and other similar instruments. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of the investments in this category has been estimated using the net asset value per share of the underlying investments. A plan-level total withdrawal from the stable value trust requires 12 months notice to the trustee; however, participants may trade in and out of the trust on a daily basis.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor had the right under the Plan to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.
