Note 1 - Description of Plan

The following description of the Oscar de la Renta, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified defined contribution plan covering all employees of Oscar de la Renta, LLC (the "Company") who have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant of the Plan can elect to contribute a percentage, between 1% and 100%, of their compensation provided such amount will not cause the Plan to exceed certain limitations prescribed by the Internal Revenue Code (the "IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. These amounts are credited to each participant's separate rollover account. Additionally, participants age fifty or older who are making contributions to the Plan are allowed to make catch-up contributions as defined in the Plan. The Company may, at its discretion, make matching and profit-sharing contributions for the plan year not to exceed certain limitations prescribed by the IRC. In order to share in the employer matching contribution or the profit-sharing contribution, a participant must complete 1,000 hours of service and be employed on the last day of the plan year, unless the participant retired, became disabled or died during the plan year. The Company did not make any discretionary matching or profit-sharing contributions for the plan year ended December 31, 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and plan earnings, and an allocation of the profit-sharing contribution and expenses. Discretionary profit-sharing contributions are allocated based on compensation. Expenses are allocated based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Automatic Enrollment

The Plan has an automatic enrollment election and under this provision, each employee who has satisfied the eligibility requirements is automatically enrolled and has an amount equal to 3% of their compensation automatically deducted unless the employee affirmatively elects a different elective deferral contribution percentage (including a zero percent election).

Note 1 - Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant will have a fully (100%) vested interest in his or her employer contribution account in the event of death or disability. A participant is 100% vested after six years of credited service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures are used to reduce the Company's contributions or they can be reallocated to participants. Forfeited non-vested accounts at December 31, 2014 and 2013 are $487 and $473, respectively.

Investment Options

Upon enrollment in the Plan, a participant may direct their allocable contributions in increments of 1% in any of the various investment options offered by the Plan.

Participants may change their investment options daily.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms may not exceed five years, unless the loan is used to acquire a dwelling which is to be used as the principal residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% as of the date of the loan unless otherwise determined by the plan trustee. Principal and interest are paid ratably through weekly payroll deductions.

Note 1 - Description of Plan (Continued)

Payment of Benefits

On termination of service for any reason, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest is $5,000 or less. If the participant's vested interest is over $5,000, the participant may elect to receive payment in a lump-sum amount or installments paid over a certain number of years selected by the participant.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

In accordance with the Plan, all administrative expenses may be paid out of the Plan unless paid by the Company. During the year ended December 31, 2014, certain administrative expenses were paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Unit Values

Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest, which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Note 3 - Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company ("Voya") (formerly ING Life Insurance and Annuity Company), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value (contract value of the Voya Fixed Account, which is not fully benefit-responsive)
- Net appreciation in fair value of investments
- Dividend income
- Schedule of assets (held at end of year)

Note 3 - Information Certified by the Trustee (Continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Investments

Investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	2014	2013
American Funds The Growth Fund of America (R-3)	$ 721,672	$ 677,044
Eagle Small Cap Growth Fund (R-3)	*	$ 411,346
Voya U.S. Stock Index Portfolio (Inst)	$ 1,200,399	$ 1,079,869
Voya Aggregate Bond Portfolio (I)	$ 492,175	$ 513,443
Voya Fixed Account	$ 1,088,282	$ 1,109,169
Voya Mid Cap Opportunities Port (I)	*	$ 402,417
T. Rowe Price Retirement 2035 Fund	$ 448,773	$ 480,431
T. Rowe Price Retirement 2045 Fund	$ 414,048	*

*Not applicable, investment amount is below 5%.

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	$ 420,291
Voya Fixed Account	14,167
	$ 434,458

The market volatility of equity-based investments can substantially impact the value of such investments at any given time. It is possible the value of the Plan's investments, both in total and in individual participant accounts, has declined since December 31, 2014.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurement," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at the net asset value ("NAV") of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 5 - Fair Value Measurements (Continued)

Voya Fixed Account: Valued using crediting interest rates, which are communicated and credited daily. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as determined by Voya. The crediting interest rate was 3.00% for each of the years ended December 31, 2014 and 2013. For each of the years ended December 31, 2014 and 2013, the net return for the guaranteed interest accounts was 3.00%.

For both the pooled separate accounts and the Voya Fixed Account, participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

Note 6 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31, 2014	December 31, 2013

Voya Fixed Account	$ 487	$ 473

	Year Ended December 31, 2014
Changes in net assets:

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500 at December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the financial statements	$ 8,115,805	$ 7,844,315

Employer contributions per the financial statements	$ -
Add: Contribution receivable at beginning of year	6,834
Employer contributions per Form 5500	$ 6,834

Note 9 - Related Party and Party-in-Interest Transactions

Certain plan investments are shares of pooled separate accounts and a Voya Fixed Account managed by Voya. Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets available for benefits.

Note 11 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 12 - Subsequent Events

The Plan evaluated its financial statements for subsequent events through October 15, 2015, the date the financial statements were available to be issued.
