The plan, formed July 1, 1988, is designed as a defined-contribution plan under Section 401(a) of the Internal Revenue Code (the Code) with a cash or deferred arrangement under Section 401(k). The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The plan is a defined contribution plan that was established to provide certain employees of Telvent DTN, LLC (the Company) a formal plan to save for retirement. All full-time Telvent DTN employees who are age 18 or older are eligible to participate in the Plan. Eligible participants are automatically enrolled in the plan unless they affirmatively decline to participate.

Effective January 1, 2014, the following changes were made:

- i. Sponsorship of the plan was transferred from Telvent DTN, LLC to Schneider Electric Holdings, Inc.
- ii. The plan name was changed from Telvent DTN 401(k) Savings Plan to the Schneider Electric Telvent DTN 401(k) Savings Plan (the Plan).
- iii. Vanguard Fiduciary Trust Company serves as trustee of the Plan. Prior to January 1, 2014, Wells Fargo Bank, NA was trustee.

Effective December 31, 2014, the Plan merged into the Schneider Electric Telvent USA 401(k) Plan.

1. Description of the Plan (continued)

Contributions

Each year, participants may contribute to the Plan 1% to 50% (100% prior to January 1, 2014) of their eligible gross earnings (as defined by the Plan), subject to limitations set by the Code. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed by the participant. Participants age 50 or more are eligible to make additional catch-up contributions of up to \$5,500 in 2014. The Company will make matching contributions to participants' accounts based on their employee contributions in an amount equal to 100% of the first 6% of their compensation contributed to the Plan.

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. Participants that are automatically enrolled have their contributions invested in the applicable lifecycle fund based on their age until they change their election. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of the Plan assets' earnings (losses), net of management fees applicable to each investment option. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective January 1, 2014, participants are immediately vested in Company matching contributions. Prior to January 1, 2014, participants became fully vested in Company contributions after one year of service.

Participant Loans

Participants may borrow from their individual accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms may not exceed five years, except for loans used by participants to finance the purchase of their primary residence, which may not exceed ten years. The loans are secured by the vested balance in the participant's account and bear interest at a rate based on the published prime rate plus 1%. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant with a vested account balance may elect to receive either a lump-sum or installment payments.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Forfeited Accounts

Upon termination of employment participants forfeit their non-vested balances. There were no unallocated forfeiture balances as of December 31, 2014 and 2013.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Company and participants.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

2. Summary of Significant Accounting Policies (continued)

The Vanguard Retirement Savings Trust and Wells Fargo Stable Return Fund common/collective trust funds, invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 5); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

3. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated May 28, 2014, stating that the form of the Plan is qualified under Section 401 of the Code, and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2014-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Notes to Financial Statements (continued)

3. Tax Status (continued)

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

4. Investments

Certain investment information disclosed in the accompanying financial statements, including investments held, notes receivable from participants, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Wells Fargo Bank, the trustee of the Plan through December 31, 2013, and by Vanguard Fiduciary Trust Company, trustee of the Plan effective January 1, 2014.

5. Fair Value Measurements

Pursuant to Accounting Standards Codification Topic 820, *Fair Value Measurements*, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level of input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

5. Fair Value Measurements (continued)

Common/collective trust fund: Valued at the NAV provided by the administrator of the fund. The NAV is based on underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The following table set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

^(a)This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Redemptions are permitted by participants on any business day and by the Plan within 12 months of written notice.

^(b)This category seeks to provide capital appreciation. There are no redemption restriction on this fund.

6. Party-in-Interest Transactions

The Plan held shares of mutual funds and units of a common/collective trust fund managed by the trustees of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

8. Subsequent Events

Subsequent events were evaluated through October 15, 2015, the date the financial statements were available to be issued.
