PROFIT SHARING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2014

NOTE 1: DESCRIPTION OF PLAN

The following description of E.B. Bradley Co. Profit Sharing 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by E.B. Bradley Co. (the "Company"). The Plan covers all full-time employees of the Company who have three months of service and are age 21 or older, excluding employees whose conditions of employment are established by the terms of a collective bargaining agreement where retirement benefits are bargained for in good faith, non-resident aliens and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is being administered by a committee that is appointed by the Company.

Contributions:

Each year, participants may contribute up to 100% of their pretax annual compensation as defined by the Plan, up to the maximum allowed by law. Participants who have attained age 50 before the end of the year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds and a money market account as investment options for participants. Additional discretionary amounts may be contributed at the option of the Company. Allocations of additional discretionary amounts are based on a percentage of the annual salary of each participant who is employed by the Company at December 31 and has worked at least 500 hours once becoming eligible. There were no discretionary matching contributions made during the year ended December 31, 2014.

Vesting:

Participants are vested immediately in their contributions to the Plan plus actual earnings thereon. Vesting in employer matching or discretionary contributions plus actual earnings thereon is determined by length of employee service. A participant is 100 percent vested after five years of credited service or after attaining the age of 65, whichever occurs first. Active employees who become totally disabled or die before normal retirement age become fully vested in their accrued benefits.

NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2014

NOTE 1: DESCRIPTION OF PLAN (Continued)

Forfeited accounts:

Forfeited non-vested accounts are first used to reduce the Company's contribution for the next plan year and then to reduce the administrative expenses of the Plan. As of December 31, 2014 and 2013, forfeited non-vested accounts totaled $12,422 and $5,738, respectively.

Participant accounts:

Each participant's account is credited with the participant's contribution, the Company's contribution, if any, and an allocation of Plan earnings within the designated specified investment funds. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Notes receivable terms range from one to five years, or up to 30 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates determined by the Plan administrator based on prevailing interest rates charged by other lenders for similar types of loans. Interest on notes receivable from participants was charged at a rate ranging between four to nine percent. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service due to death, disability, hardship or retirement, a participant may elect to receive either lump-sum distribution or partial distributions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value as certified by MG Trust Company, LLC (the "Custodian"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and the Custodian. See Note 4 for discussion of fair value measurements. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year. Purchase and sales of investments are recorded as reported by the Custodian. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Appreciation or depreciation in fair value:

Differences between the fair value of investments at the beginning of the year, or cost if acquired subsequently, and fair values at the end of the year are recorded as appreciation or depreciation in fair value of investments.

Payment of benefits:

Benefits are recorded when paid.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment is recorded.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative and other expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements* provides the framework for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). All of the Plan's investments were in level one at December 31, 2014 and 2013. Under level one, inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments in mutual funds are valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The preceding described methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5: INVESTMENTS

The following presents investments at December 31, 2014 and 2013 that represent five percent or more of the Plan's net assets:

	2014	2013
T. Rowe Price Retirement 2025 Fund	$ 1,439,700	$ 1,396,864
T. Rowe Price 2035 Retirement Fund Adv Cl	$ 1,529,903	$ 1,491,835

NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2014

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100 percent vested in their accounts.

NOTE 7: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds that invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The Plan invests in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.
