KENALL MANUFACTURING CO., INC. 401(K) PLAN
AND PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust (Plan) is a defined contribution plan sponsored by Kenall Manufacturing Co., Inc. (Company). Perma Plastics, Inc. is a related employer and is also included as a participating employer in the Plan.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Employees who are at least 20½ years old and who have completed six months of service of 1,000 hours or more are eligible to participate in the Plan. Employees are not eligible to participate in the Profit Sharing portion of the Plan until they have completed one year of service of 1,000 hours or more.

Contributions

Participants may contribute up to 60% of pretax annual compensation to the Plan within the annual IRS limitations. In 2014 and 2013, the Company made a matching contribution of 50% of employee contributions up to 3% of employee compensation. In addition, the Company may make a profit sharing contribution which is allocated to participants based on the ratio of their compensation to total compensation. There was no profit sharing contribution for the years ended December 31, 2014 and 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions. Participants become vested in Company contributions over a six year period; 20% after 2 years and an additional 20% for each year of service after 2 years.

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN, CONTINUED

Forfeited Accounts

Forfeitures of nonvested Company contributions are first used to reduce the Company match and then can be used to pay Plan administrative expense. Forfeitures of nonvested accounts totaled $17,319 and $32,342 for the years ended December 31, 2014 and 2013, respectively. Forfeitures in the amount of $113,987 were used to reduce employer contributions for the year ended December 31, 2014. The forfeiture account balance at December 31, 2014 was $2,254.

Payment of Benefits

Benefits are payable to a participant or the participant's designated beneficiary upon the participant's termination with the Company or disability or death. Payments are made in a lump sum distribution.

Notes Receivable from Participants

The Plan allows any participant to borrow up to 50% of their vested account balance not to exceed $50,000. The loans are secured by the balance in the participant's account. Interest rates are determined at the time the loan is disbursed at the prime rate. All loans must be repaid within five years unless such loan is for the purchase of a primary residence, in which case the loan must be repaid within ten years. A loan that is in default is considered a distribution and becomes taxable income to the participant.

Plan Termination

The Company anticipates and believes the Plan will continue without interruption but reserves the right to terminate the Plan at any time. If the Plan is terminated, employees will become 100% vested in all contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Expenses of the Plan

All general expenses incurred in the administration of the Plan are absorbed by the Plan Sponsor, while investment and transaction expenses are paid from Plan assets.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Subsequent Events

Subsequent events have been evaluated through August 21, 2015, the date that the financial statements were available for issue.

NOTE 3 - INVESTMENTS

The following table represents the fair value of the investments in this Plan that were certified by Fidelity Management Trust Company at December 31, 2014 and 2013. Investments representing greater than 5% of Plan net assets were as follows:

		2014	2013
Fidelity Retirement Money Market Portfolio	$	1,549,533	1,574,303
Fidelity Freedom 2020 Fund		1,239,914	1,124,096

Fidelity Freedom 2030 Fund		1,257,746	1,062,147
Fidelity Blue Chip Growth Fund		1,142,102	873,465
Oakmark International Fund Class I		784,594	761,225

	$	12,997,766	11,473,059

*Investment was not greater than 5% of Plan net assets.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $29,830 as follows:

NET CHANGE IN FAIR VALUE OF INVESTMENTS

Mutual funds	$	(21,871)
Self-directed brokerage fund		(7,959)
Net appreciation in fair value of investments	$	(29,830)

NOTE 4 - TAX STATUS OF PLAN

Effective January 1, 2004, the Company adopted a non-standardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the adoption date. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Department of Labor or the Internal Revenue Service.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any open tax periods or any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 - NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants consist of loans participants have taken from their accounts.

The loans bear interest from 3.25% to 4.50%. Participant loans totaled $620,357 and $457,214 as of December 31, 2014 and 2013, respectively.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $16,370 for the year ended December 31, 2014.

NOTE 8 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY

In 2008, the Plan entered into a benefit-responsive investment contract with Fidelity Management Trust Company. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contract, plus all accrued interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value is the best estimate of the fair market value of the investment. The contract value approximates fair value; therefore, no adjustment of the fully benefit-responsive investment contracts from fair value to contract value is reported on the statement of net assets available for benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on the formula agreed upon with the issuer, but may not be less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of the equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 8 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY, CONTINUED

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contracts are as follows:

	2014	2013
Average yields:		
Based on actual earnings	1.67%	1.54%
Based on interest rate credited to participants	1.07%	0.89%

NOTE 9 - FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the framework are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 9 - FAIR VALUE MEASUREMENTS, CONTINUED

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds and money market funds: Valued using the net asset value (NAV) of shares held by the Plan at year-end.

Fidelity BrokerageLink self-directed brokerage funds: Consist primarily of interest-bearing cash accounts and individual corporate common stocks, are valued at the closing price reported on the open market.

Common/collective trust funds: Consist primarily of fixed income investment wrapped with insurance contracts and is valued using NAV, provided by the administrator of the fund. The fixed income investments are valued at their net asset value, and the fair value of the wrapped insurance contracts is determined using a discounted cash flow model, with inputs derived from observable market data.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:
