Novelis Terre Haute Hourly Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Novelis Terre Haute Hourly Pension Plan (the "Plan") which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by State Street Bank & Trust Company ("State Street"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements. Accordingly, we do not express an opinion on these financial statements.

Other Matter – 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated January 28, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Novelis Terre Haute Hourly Pension Plan

Notes to the Financial Statements

A. DESCRIPTION OF PLAN

The following description of the Novelis Terre Haute Hourly Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more information.

General. The Plan is a noncontributory, defined benefit plan that includes hourly employees of Novelis Corporation's (the "Company") Terre Haute, Indiana plant who are governed by the provisions of a collective bargaining agreement. The Plan covers all full-time hourly employees as well as part-time hourly employees who complete at least 1,000 hours of service in a consecutive twelve-month period. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Funding Policy. Contributions are based on the recommendations of the Actuary. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code ("IRC"). There were no Company contributions in 2014 and 2013. The Plan met the minimum funding requirements of ERISA for the plan years ended December 31, 2014 and 2013.

Pension Benefits. Participants are entitled to a normal monthly retirement benefit on attaining the age of 65, or the following combinations of age and service: age 62 with 10 years of service, age 61 with 28 years of service, age 60 with 30 years of service, age 59 with 32 years of service, and age 58 with 34 years of service.

The normal monthly retirement benefits are calculated based on a participant's years of continuous service multiplied by a monthly benefit level as provided in the Plan. The monthly benefit level per year of continuous service was \$48 effective February 1, 2012, \$49 effective February 1, 2013, and \$50 effective February 1, 2014. The benefit level will increase by \$1 each successive February 1 until reaching \$51 on February 1, 2015. The ultimate benefit level of \$51 has been used to calculate the actuarial present value of accumulated plan benefits, at December 31, 2014 and 2013.

The Plan also provides early retirement, disability retirement, pre-retirement spouse benefits and a supplemental retirement benefit for any participant who meets certain requirements. For employees hired on or before February 1, 1996, the supplemental retirement benefit is \$100 per month (\$125 effective February 1, 2001) beginning August 1, 1996 for retirements between March 1, 1987 and January 1, 1996 and beginning at age 65 for retirements on or after February 1, 1996 and ending on the later of the death of the employee or the surviving spouse. Employees who retired on or before February 1, 1987 or who were hired after February 1, 1996 are not eligible for the supplement.

Vesting. Participants become fully vested after five years of service. Persons terminating prior to achieving five years of service forfeit the right to receive benefits.

Termination Provision. The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation, up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due participants and pensioners and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Risks and Uncertainties. The Plan invests in a Master Trust, which invests in a combination of registered investment companies. The registered investment companies invest in various types of investments securities and in various companies within various markets. The underlying investment securities are exposed to various risks, such as interest rate, credit risks and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition. Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the Master Trust's net income (loss) which consists of realized gains or losses, unrealized appreciation (depreciation) on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits. Benefits are recorded when paid.

Administrative Expenses. Trustee fees, investment management fees and Pension Benefit Guaranty Corporation premiums are generally paid by the Plan. All other administrative expenses are paid by the Company.

Notes to the Financial Statements (Continued)

Recent Accounting Pronouncements. In July 2015, the Financial Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* (“ASU 2015-12”). The purpose of ASU 2015-12 is to simplify plan accounting.

The amendments in Part I of ASU 2015-12 designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of ASU 2015-12 will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment’s strategy will no longer be required.

The amendments in Part III of ASU 2015-12 reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan’s fiscal year-end, when the fiscal period does not coincide with month-end. Part III is not applicable to the Plan.

ASU 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact ASU 2015-12 will have on the Plan’s financial statements.

C. INVESTMENT IN MASTER TRUST (UNAUDITED INFORMATION)

All of the Plan’s investments are held by State Street Bank and Trust Company and are commingled with the assets of other retirement plans of participating employers in the Novelis Master Retirement Trust (the “Master Trust”) with the Trustee. The value of the Plan’s interest in the Master Trust is based on the beginning of year value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment income based on specific asset holdings less actual distributions and administrative expenses. The Master Trust holds investments in 17 collective trusts managed by Mercer Global Investments, Inc. (“MGI” or “Investment Manager”). Each plan in the Master Trust can elect to invest in any or all of the available collective trusts in any allocation appropriate for that plan’s objectives.

The Trustee holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan’s independent public accountants.

The Plan’s interest in the Master Trust net assets was 9% for the year ending December 31, 2014 and 10% for the year ending December 31, 2013.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; |

Notes to the Financial Statements (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Collective trusts: Valued based on the net asset value (NAV) of the units held which are based primarily on quoted market prices of the underlying securities of the funds. Certain of the collective trust funds' underlying investments include securities for which quoted market prices are not available. Those securities are valued using data obtained by the custodian from the best source available (i.e., brokers, dealers, and/or appraisers) or the market value of similar investments with a readily ascertainable market value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2014 and 2013. All investments as of December 31, 2014 and 2013, were Level 2.

Level 2	2014	2013

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013, respectively.

	Fair Value Estimated Using Net Asset Value Per Share					
	Fair Value					
Collective trusts	2014	2013	Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Redemption Notice Period
MGI Equity (a)	\$ 297,038,776	\$ 292,275,131	\$ -	Daily	None	15 days
MGI Fixed income (b)	307,392,440	280,044,197	-	Daily	None	15 days
MGI Ultra long duration fixed income (b)	20,172,401	14,235,463	-	Daily	None	5 days
Mercer Long STRIPS fixed income	24,146,104	18,210,504	-	Daily	None	5 days
	\$ 648,749,721	\$ 604,765,295	\$ -			

(a) Equity (domestic and foreign) strategies (passive and active) that seek to provide long-term total return.

(b) Fixed income strategies (passive and active) and zero coupon interest rate swaps that seek to match the duration of the Plan's liabilities.

E. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are

Notes to the Financial Statements (Continued)

included, to the extent they are considered attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary. The present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the valuation dated December 31, 2014 were:

Mortality Basis:	Mercer Industry Longevity Experience Study (MILES) for the Basic Materials, Paper and Packaging Industry (base year of table is 2010), without collar adjustments for annuitants and to RP-2014 with removal of mortality improvements for years after 2007 (base year of table is 2007), without collar adjustments for non-annuitants.
Discount Rate:	5.70%
Normal Retirement Age:	Rates vary by age and service

The significant actuarial assumptions used in the valuation dated December 31, 2013 were:

Mortality Basis:	RP-2000 projected to 2021 with no collar adjustment
Discount Rate:	6.50%
Normal Retirement Age:	Rates vary by age and service

The mortality tables used to determine the plan funding contributions were updated as set forth in the IRS guidance. The expected long-term rate of return on plan assets was changed to better reflect anticipated experience. The effect of these changes increased the actuarial present value of accumulated plan benefits by \$5,310,916.

Under the above assumptions, the actuarial present value of accumulated plan benefits as of December 31, 2014 and 2013 is as follows:

	<u>2014</u>	<u>2013</u>
Vested benefits:		
Participants currently receiving payments	\$ 45,555,099	\$ 43,121,779
Other participants	<u>10,355,770</u>	<u>9,022,478</u>
Total vested benefits	55,910,869	52,144,257
Nonvested benefits	<u>1,058,414</u>	<u>993,331</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 56,969,283</u>	<u>\$ 53,137,588</u>

Notes to the Financial Statements (Continued)

Under the above assumptions, the changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2014 is as follows:

	2014
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 53,137,588</u>
Increase (decrease) during the year attributable to:	
Benefits paid	(5,185,834)
Actuarial (gains)/losses	(26,075)
Interest accrued	3,315,194
Change in actuarial assumptions	5,310,916
Benefits accumulated	<u>417,494</u>
Net Increase	<u>3,831,695</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 56,969,283</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

F. PLAN TERMINATION

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit

Notes to the Financial Statements (Continued)

obligations and may also depend on the financial condition of the Plan sponsor and on the level of benefits guaranteed by the PBGC.

G. PARTY IN INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Plan investments include shares of collective trusts in which State Street Global Advisors serves as a sub-advisor to the Investment Manager. Fees are paid by the Plan for investment management services. State Street Bank and Trust Company is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

H. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 29, 2012, that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt and no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

I. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 15, 2015, which is the date the financial statements were available to be issued, and have determined that, there are no subsequent events that require disclosure under ASC 855, *Subsequent Events*.

Retirement Rates varying by age and service.

For purposes of determining the funding target and target normal cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below:

Sample rates:

Percentage retiring during the year		
Age	<27 years	>27 years
58	0%	15%
60	10%	10%
62	50%	50%
65	100%	100%

Benefit commencement date:

- ▶ Preretirement death benefit The later of the death of the active participant or the date the participant would have been eligible for early retirement.
- ▶ Deferred vested benefit The later of the normal retirement date or termination of employment.
- ▶ Disability benefit Upon disablement.
- ▶ Retirement benefit Upon termination of employment.

Form of payment 100% of single participants are assumed to elect a life annuity; 100% of married participants are assumed to elect a 50% surviving spouse option.

Percent married 90% of males; 70% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age Wife three years younger than husband.

Administrative expenses \$212,924

Cash flow

- ▶ Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Novelis Terre Haute Hourly Pension Plan
EIN: 41-2098321
PN: 042

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Novelis and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013 reflecting the interest rate corridors of HATFA.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The assumed plan-related expenses added to the target normal cost were changed from \$30,870 for 2013 to \$212,924 for 2014.</p> <p>The expected long-term rate of return on plan assets was changed from 7.00% to 6.50%.</p> <p>The valuation software used to produce the actuarial information submitted on this report has been modified in minor ways (e.g., to change the methodology for counting days) as part of our harmonization of our valuation software systems, and such minor modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.</p>

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Covered Employees	Full-time employees in the bargaining unit.
Participation Date	First day of the month including date of hire.

Definitions

Eligibility service	All aggregated periods of service considered as service with the Company (including service with Alcan) and not forfeited through break-in-service rules and maternity leaves of absence as required by law.	
Benefit service	Full years and completed months of service accrued and included in eligibility service. Benefit service is calculated in calendar month increments and any partial month is treated as a full calendar month.	
Normal retirement date (NRD)	Age 65.	
Gross normal retirement benefit	A monthly amount equal to benefit service multiplied by:	
	Benefit level	Effective date
	\$42	2/1/2006
	43	2/1/2007
	44	2/1/2008
	45	2/1/2009
	46	2/1/2010

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and (1) on or after both attaining age 60 and completing ten years of eligibility service or (2) on or after both attaining age 58 and attaining 85 points (age plus service).
Postponed retirement	Retirement after NRD.
Vested termination	Termination after completing five years of eligibility service.
Disability	Permanently incapacitated for some unavoidable cause while an hourly employee on or before his 65th birthday and after having completed at least 10 years of eligibility service.
Preretirement spouse benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse. Benefits can commence on or after both attaining age 55 and completing ten years of eligibility service.

Benefits Paid Upon the Following Events

Normal retirement	Gross normal retirement benefit payable immediately. A supplement of \$125 per month is payable at age 65 for employees active on February 1, 1996.
Early retirement	The gross normal retirement benefit, reduced 4.0% per year prior to 89 points or age 61, 90 points at age 60, 91 points at age 59, or 92 points at age 58; unreduced for retirement after age 62. A supplement of \$125 per month is payable at age 65 for employees active on February 1, 1996.
Postponed retirement	Gross normal retirement benefit payable immediately. A supplement of \$125 per month is payable at age 65 for employees active on February 1, 1996.
Vested termination	Gross normal retirement payable unreduced at age 65, reduced as for early retirement if commencement of payments precedes NRD.
Death with preretirement spouse benefits	The preretirement spouse benefit is payable.
Disability	The disability benefit is payable.

Other Plan Provisions

Forms of payment	For single employees, benefits will be paid in the form of a single life annuity. For married employees, benefits will be paid in the form of the 50% joint and survivor annuity equal to 95% of the life annuity. Optional forms include a 75% joint and survivor annuity.
Conversion factors for optional forms of payment	6.00% interest and the "Applicable Mortality Table" as in effect for 2012 pursuant to Section 417(e)(3) of the Code.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in dollar limits are assumed for determining pension cost but not for determining contributions.

Plan Status for PBGC Reporting Purposes

Ongoing.

Future Plan Changes

The ultimate benefit level was recognized in determining pension cost and in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year.

There have been no changes in benefits valued since the prior year.
