NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the ***B&W Quality Growers, Inc. Savings Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan is a defined contribution plan covering all employees of B&W Quality Growers, Inc. (the "Company" or "Employer") who have worked at least one year for the Company and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 75% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company contributes 100% of the first 3% of the participants' compensation contributed, and 50% of the next 2% of the participants' compensation contributed. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers investment contracts and pooled separate accounts as investment options for participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Contributions received from participants for 2014 and 2013 are net of payments of $1,948 and $1,928, respectively, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. This amount is recognized in the Plan's 2014 and 2013 statements of net assets available for benefits as "excess contributions payable." Such amounts are expected to be reimbursed to the participants in 2015.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in the Company matching contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The notes receivable are secured by the balance in the participant's account and bear interest at the rate of 4.25%, which is commensurate with local prevailing rates at the time the notes are issued, as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments, as defined by the Plan agreement. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or may elect to postpone distribution until the required beginning date when the participant reaches the age of 70½. In-service withdrawals of vested balances may be elected by participants who have reached 59½ years of age. The Plan also permits withdrawals of active participants' elective contributions and rollover contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts are used to pay Plan expenses then to offset Company contributions. Forfeitures remaining after offset of nonelective contributions are held in suspense and offset future contributions. No forfeitures were utilized in 2014 or 2013. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $147 and $145, respectively. These accounts will be used to pay Plan expenses or reduce future Company contributions.

Administrative Expenses

The Plan's administrative expenses, including an allocation of salaries related to Plan administration, and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Fees for custodial and record keeping services are paid by the Plan. Participants are charged directly for asset fees, loan fees, and fees related to certain distribution types.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contracts. The statements of net assets available for benefits present the

fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value, if applicable. The statements of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2014 and 2013, fair value approximates contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become the obligations of the Company.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2014, the most recent statement of net assets available for benefits presented herein, through October 15, 2015, the date these financial statements were available to be issued. No such significant events or transactions were identified, other than those matters disclosed in Note 8.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, (other than the fair value of the guaranteed investment contracts and the related adjustments from fair value to contract value for the fully benefit-responsive investment contracts, as applicable) The Lincoln National Life Insurance Company ("Lincoln"), as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, (2) the December 31, 2014, schedule of assets (held at end of year), (3) the changes in fair value of the Plan's Level 3 assets in Note 3, (4) the related investment activity reflected in the statements of changes in net assets available for benefits during 2014 and 2013, and (5) the information presented below and in Note 4. Lincoln has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the years ended December 31, 2014 and 2013.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: These investments are valued using the net asset value ("NAV") of units held by the Plan at year-end as provided by Lincoln and are classified as Level 2. The NAV is used at a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

Investment contracts with insurance company: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry

NOTES TO FINANCIAL STATEMENTS

and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). Such instruments are classified as Level 3 (see Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31:

NOTES TO FINANCIAL STATEMENTS

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Investment Contracts With An Insurance Company	
	2014	2013
Balance, beginning of year	$ 249,831	$ -
Interest income	2,942	2,869

Sales	(82,819)	(3,500)
Balance, end of year	**$ 199,463**	**$ 249,831**

The following table sets forth the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs at December 31:

2014 Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Weighted Average and/or Range of Significant Input Values
Investment contracts with an insurance company	$ 199,463	Discounted cash flow	Risk adjusted discount rate	0% - 3.0%

2013 Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Weighted Average and/or Range of Significant Input Values
Investment contracts with an insurance company	$ 249,831	Discounted cash flow	Risk adjusted discount rate	0% - 3.0%

In estimating fair value of the investments in Level 3, Plan management utilizes third-party pricing sources. In substantiating the reasonableness of the pricing data provided by third parties, Plan management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

NOTES TO FINANCIAL STATEMENTS

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2014 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts				
Balanced funds	$ 886,175	$ -	Daily	Daily
Index funds	862,840	-	Daily	Daily
Growth funds	738,483	-	Daily	Daily

Investment Type	2013 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts				
Balanced funds	$ 825,429	$ -	Daily	Daily
Index funds	716,960	-	Daily	Daily
Growth funds	586,854	-	Daily	Daily

The following is a description of the investment strategies for pooled separate accounts at December 31, 2014, and 2013:

Balanced funds: These funds include investments that seek to provide long-term capital appreciation and reasonable current income by investing in corporate bonds and stocks of medium and large-sized companies.

Index funds: These funds include investments that seek to achieve approximately the same return as a particular market index, such as the S&P 500 Composite Stock Price Index, the Russell 2000 Index or the Wilshire 5000 Total Market Index. An index fund will attempt to achieve its investment objective primarily by investing in the securities (stocks or bonds) of companies that are included in a selected index.

Growth funds: These funds include investments that seek to provide long-term capital growth, current income, or capital appreciation by investing primarily in the equity securities of mid to large-sized companies, short-term investments using index funds, and stocks of companies contained in the S&P 500 stock index and are perceived by the manager to have excellent growth potential.

4. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

In 2013, the Plan entered into certain fully benefit-responsive investment contracts with The Lincoln National Life Insurance Company. Lincoln maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by Lincoln. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at

contract value. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 1, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts; however, the contracts are included in the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits, if necessary. The fair value of the investment contracts approximate contract value at December 31, 2014 and 2013.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the issuer on a year-by-year basis on March 1.

Certain events, limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan's documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity date.

The following table sets forth the average yields based on actual earnings and on the interest rate credited to participants at December 31:

Average Yields	2014	2013
Based on actual earnings	2.59%	2.60%
Based on the interest rate credited to participants	1.50%	1.50%

NOTES TO FINANCIAL STATEMENTS

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Lincoln, the custodian of the Plan and, therefore, these transactions qualify as party-in-interest. Fees for record keeping and custodial services paid by the Plan to Lincoln total $19,634 and $7,269 in 2014 and 2013, respectively. Fees paid by the Plan for investment management services are included as a reduction in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

6. INCOME TAX STATUS

The Company's Board of Directors adopted the PDS Advantage Volume Submitter 401(k) Savings/PS plan document. The Plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2014, the Company was untimely in remitting certain participant contributions in the amount of $34,127. Late remittances of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. Of the $34,127, the Company remitted $34,063 of the delinquent participant contributions, as well as the related Company matching contributions of $124, in February 2015. The remaining delinquent participant contributions will be paid in 2015. In addition, the Company will reimburse the Plan for any lost earnings in 2015.

NOTES TO FINANCIAL STATEMENTS

9. RISKS AND UNCERTAINTIES

The Plan invests in investment contracts and pooled separate accounts with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
