1. Summary of Accounting Policies

Basis of Accounting The financial statements of the Apple Zebra, Inc. 401(K) Plan (the “Plan”) have been prepared under the accrual method of accounting.

Investments and Income Recognition The Plan’s investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market price, which represent the net asset value of shares held by the Plan at year end. The amounts shown for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at fair value. In general, however, pooled separate accounts are stated at estimated fair value, which represents the net asset value of the shares held by the Plan. The Plan’s investment contract is valued at fair value using a market approach based on market prices of similar contracts.

The Invesco Stable Asset Trust (the “Fund”) is a collective trust fund sponsored by Invesco Trust Company. At December 31, 2014, the Fund has invested all of its assets in Prudential Insurance Co, Metropolitan Life, RGA, American General Life Insurance, Transamerica, New York Life, and Massachusetts Mutual. The value of these investment are based on the underlying unit value reported by the individual wrap contracts.

Prudential Insurance Co, Metropolitan Life, RGA, American General Life Insurance, Transamerica, New York Life, and Massachusetts Mutual invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measure attributed for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of investment contracts as well as the adjustments of fully benefits-responsive contracts

Investments and Income Recognition (Continued)

from fair value to contract value. The statement of changes in net assets available for plan benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses

The costs incurred in the administration of the Plan are paid by Apple Zebra, Inc. (Plan Administrator and Sponsor)(“the Company”).

Management fees and operating expenses charged to mutual fund investments are deducted from income earned on a daily basis and are not separately reflected. Management fees and operating expenses charged to the Plan for investments in the common collective trust funds are accrued daily and charged to the Plan at the end of each month. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires Apple Zebra, Inc. (the Plan Administrator) to make estimates and assumptions that affect the reported amounts and disclosure. Actual results could differ from those estimates.

Subsequent Events

In accordance with ASC 855, *Subsequent Events*, the Plan evaluated subsequent events through October 15, 2015, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

2. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted by Apple Zebra, Inc. (“the Company”) on September 1, 2001. The Plan Administrator maintains all necessary employment records and determines participant eligibility.

2. Plan Description
(Continued)

Participation and Vesting	Employees of the Company become eligible to participate in the Plan upon completing 6 months of service, and upon obtaining twenty-one years of age. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after three years of service.
Payments of Benefits	Upon termination of services due to death, disability or retirement, a participant may elect to take a lump-sum distribution, or partial withdrawals of at least \$1.
Participants' Accounts	Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
Investment Options	The Company maintains 57 investment funds with State Street Bank & Trust Company. A participant may maintain their entire account in one of the investment funds or may elect to split their account among investment funds in accordance with the terms of the Plan.
Company Contribution	The Company may make a discretionary contribution each year as determined by the Board of Directors. During 2014, the Company made no discretionary contribution.
Participant Contributions	No contributions are required by participants. However, under the terms of the Plan, a participant may elect to defer any percentage of earnings as long as they do not exceed the annual deferral limit in total each year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.
Forfeitures	Forfeitures are credited to the forfeiture account as of December 31 following the date a participant incurs a one-year break in service after his termination of employment. At December 31, 2014 and 2013, there were no forfeited non-vested accounts. These accounts will be used to first pay plan expenses, and then reduce future employer contributions.
Participant Loans	The Plan allows participants to take out loans secured by their vested account balances. Participants may borrow from a minimum of \$500 to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must be repaid within five years, unless used to purchase the participant's principal residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 7%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

During 2014 the Plan's investments (including investments bought, sold and held during the year) depreciated in value by \$13,255.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs consist of significant unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

**Level 1 Fair Value
Measurements**

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

**Level 2 Fair Value
Measurements**

The fair value of the common trust funds (Invesco Stable Asset Trust) is based on information by the issuer of the common trust funds by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer of the specific instruments held by the fund at year end. As of December 31, 2014, all investments held by the common trust fund are stated at amortized cost, which approximates market value.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Income Tax Status

Effective July 1, 2011, the Plan adopted a non-standardized prototype plan of ADP, LLC. The prototype plan has received a letter from the Internal Revenue Service as to the prototype Plan's qualified status; determining that the Plan is designed in accordance with applicable laws with the IRC. The Plan has since been amended. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

In line with generally accepted accounting principles in the United States of America, the Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.
