NOTE 1: DESCRIPTION OF PLAN

The following description of Wm. Bolthouse Farms, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Wm. Bolthouse Farms, Inc. (the "Company"). The purpose of the Plan is to enable eligible employees to save for retirement. The Plan, under described circumstances, provides benefits upon retirement, disability, death or termination of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees (other than those under the age of 18) of the Company may begin participating in the Plan immediately.

Contributions

Eligible employees may elect to contribute a percentage of their total eligible compensation to the Plan, subject to a maximum dollar limitation under Section 402(g)(1) of the Internal Revenue Code (IRC). An employee becomes eligible for discretionary nonelective Company contributions after one year of service during which the employee has at least 1,000 hours of service. The Company contributes one hundred percent of the first three percent of base compensation that a participant contributes to the Plan and fifty percent of the next two percent of base compensation that a participant contributes, subject to a maximum of four percent of employee's base compensation contributed to the Plan. In addition to Company matching contributions, the Company may elect to make discretionary profit sharing contributions in an amount to be determined by the Board of Directors of the Company at each Plan year-end. The Company did not make profit sharing contributions during 2014 or 2013. Participant contributions combined with Company contributions to the Plan on behalf of each participant may not, on an annual basis, exceed maximum limitation subject to cost-of-living adjustments under Section 415(d) of the IRC. These amounts together also may not exceed one hundred percent of annual compensation.

Participant Accounts

Each participant's account is credited with (a) participant contributions (b) Company matching contributions and (c) an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant's direct the investment of their accounts. Changes to these investment elections are allowed at any time. The Plan provides for transfers from former or previously existing qualified plans for each participant.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in all employee pretax contributions, rollover contributions, safe harbor matching contributions and any earnings thereon. Discretionary nonelective employer contributions and earnings shall be vested in accordance with a six year vesting scheduling in twenty percent increments beginning in year two of participation.

Notes Receivable from Participants

Notes receivable from participants are comprised of loan amounts the participant has borrowed. Participants may borrow up to one-half of their vested account balance with a minimum loan amount of $1,000 and a maximum of $50,000. Loans outstanding are collateralized by the related balance in the participant's account and bear interest ranging from 5.25%-7.25%. Repayment of principal and interest is provided by uniform payroll deductions over a period of up to five years with the exception of a loan used to acquire a primary residence which may be repaid over a longer, reasonable period of time as determined by the plan administrator.

Payment of Benefits

Upon termination of service due to separation from the Company, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, direct rollover into an eligible account or a combination of the two options. Withdrawals are also permitted for financial hardship, which is determined pursuant to the provisions of the IRC. Benefits to participants are recorded when paid.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in accordance with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan will be allocated among the participants and their beneficiaries, after payment of any expenses properly chargeable to the Plan, in accordance with the provisions of ERISA.

Administrative Expenses

The participants pay the majority of administrative expenses incurred by the Plan. Fees totaling $118,919 were paid by the Plan for the year ended December 31, 2014.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management Review

Subsequent events were evaluated through September 2, 2015, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Cash and Cash Equivalents

All short-term investments with an original maturity of less than three months are considered cash equivalents. Funds whose underlying assets consist of investments with original maturities of less than three months are considered cash equivalents and included in the value of the fund.

Contributions

Contributions from employees are recorded in the period in which payroll deductions are made. The discretionary Company contribution to the Plan is recorded as an addition to net assets in the fiscal year for which the Company's Board of Directors approves funding of the Plan.

Forfeited Accounts

Forfeitures are retained in the Plan and used to reduce future plan expenses. For the years ended December 31, 2014 and 2013 forfeited non-vested accounts totaled $0 and $7,405, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Options

Participant and Company contributions are invested, as designated by the participants, in one or any combination of the registered investment company mutual funds or Fidelity Stable Value Fund. See fund prospectuses for a complete description of the investment objectives and other information about the fund options.

Investments and Investment Income

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Benefits Payable

As of December 31, 2014, there were no benefits payable to persons who have withdrawn from participation in the earnings and operations of the Plan.

NOTE 3: TAX STATUS OF THE PLAN

The Plan has adopted a prototype non-standardized profit sharing plan that has been determined to be acceptable under the IRC by a letter dated March 31, 2008. The Plan has been amended since receiving this opinion letter. The plan administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. As a result, no provision for federal or state income taxes is recorded in the accompanying financial statements. Participants are not expected to be subject to federal or state income taxes for contributions made by the participants or by the Company. Distributions from the Plan may be taxable to participants upon distribution. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 4: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2014				
Mutual funds	$ 32,664,982	$ 32,664,982	$ -	$ -
Stable value investment/ insurance contract	4,852,987	-	4,852,987	-
Total	$ 37,517,969	$ 32,664,982	$ 4,852,987	$ -
December 31, 2013				
Mutual funds	$ 28,769,780	$ 28,769,780	$ -	$ -
Stable value investment/ insurance contract	4,602,256	-	4,602,256	-
Total	$ 33,372,036	$ 28,769,780	$ 4,602,256	$ -

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

The fair values of certain investment contracts are based on observable inputs other than the quoted prices included in Level 1. Thus, the fair value of the investment contracts are based on yields for securities of comparable maturity, quality and type.

Level 3 Fair Value Measurements

No investments qualify for Level 3 measurement.

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2014, are reported in net depreciation in fair value of investments.

NOTE 5: STABLE VALUE INVESTMENT/INSURANCE CONTRACTS

The Plan entered into a benefit-responsive investment contract for Fidelity's Common Collective Trust (Fidelity). The Fidelity Stable Value Fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity. Investment contracts are designed to permit the use of book value accounting to maintain a constant $1 unit price and to provide for the payment of participant-directed withdrawals and exchanges at book value during the term of the investment contracts. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

NOTE 5: STABLE VALUE INVESTMENT/INSURANCE CONTRACTS (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $4,852,987 and $4,602,256, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Fidelity. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsored events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2014	2013
Based on actual earnings	1.69%	1.70%
Based on interest rate credited to participants	1.06%	0.92%

NOTE 6: SUMMARY OF FINANCIAL DATA CERTIFIED BY THE RECORD KEEPER ON BEHALF OF THE TRUSTEES

The plan administrator had elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

NOTE 6: SUMMARY OF FINANCIAL DATA CERTIFIED BY THE RECORD KEEPER ON BEHALF OF THE TRUSTEES (CONTINUED)
