SAVINGS PLAN FOR HOURLY-RATED EMPLOYEES OF BHP COPPER INC.

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following description of the Savings Plan for Hourly-Rated Employees of BHP Copper Inc. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established, on January 1, 1987, as a profit sharing plan with a 401(k) directed feature qualified under sections 401(a) and 401(k) of the Internal Revenue Code (IRC) of 1986, as amended, and provides retirement benefits for individuals who are compensated on an hourly basis for services performed as an employee and whose duties are under the control of BHP Copper Inc. (BHP or the Company) including any affiliated or subsidiary company (collectively referred to as Participating Companies) and who is in a unit of employees subject to a collective bargaining agreement.

The Plan was amended and restated, effective January 1, 2010, to incorporate previous amendments and to comply with the latest tax laws and regulations, among other things. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On October 11, 2013, BHP sold the Pinto Valley Unit causing a partial termination of the Plan. Effective October 11, 2013, the Plan was amended to fully vest all participants whose employment was terminated as a result of this transaction.

Administration

BHP is the Plan sponsor and the Plan administrator. Vanguard Fiduciary Trust Company (Vanguard) serves as trustee for the Plan, and Vanguard Group, Inc. serves as recordkeeper for the Plan. Certain duties, on behalf of the Plan's sponsor and the Participating Companies, are carried out by the BHP Retirement Advisory Committee.

Contributions

Employees are eligible to participate in the Plan after the first payroll period in which the employee qualifies as an eligible employee. Each year, participants may make contributions to the Plan on a pre-tax and/or after-tax basis through payroll withholding of any whole percentage up to 50% of their eligible earnings, not to exceed the limitation (\$17,500 in both 2014 and 2013) set forth in Section 402(g) of the IRC. Participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. A participant's total catch-up contribution was limited to a maximum of \$5,500 during 2014 and 2013. Such catch-up contributions are also eligible for matching. Participants may also make rollover contributions from other qualified plans.

The Participating Companies contribute an annual Company Contribution in the amount of \$400 to eligible employees who are employed on the last day of the Plan year and who were hired prior to September 1, 2005 or who were rehired on or after September 1, 2005, subsequent to termination of employment with a vested benefit under the Pension Plan for Hourly-Rated Employees of BHP Copper Inc. that is not in pay status. The annual Company Contributions for the years ended December 31, 2014 and 2013 were \$400 each year and were funded from forfeitures. Accordingly, no receivable for Company Contributions was recorded in either year.

1. Description of Plan, continued

Contributions, continued

The Participating Companies contribute an Employer Funded Contribution to all eligible employees who are first employed on or after September 1, 2005 or who are rehired on or after September 1, 2005 and who were not vested under the Pension Plan for Hourly-Rated Employees of BHP Copper Inc. when their prior employment terminated. The amount of the Employer Funded Contribution for each eligible employee is \$2,860 per year, pro-rated based on the number of weeks worked. The Employer Funded Contributions for the years ended December 31, 2014 and 2013 were \$9,595 and \$602,240, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Participating Companies' contributions, and an allocation of investment income (loss), net of administrative expenses. Investment income (loss) allocations are based on the performance of the funds in which the participant has directed his or her accounts to be invested. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Investment Options

The Plan offers eleven mutual funds and a common collective trust fund as investment options to participants. Participants may change their investment options at any time.

Vesting

Participants are 100% vested in their employee contributions, rollover contributions, and earnings thereon. Participants vest in the Participating Companies' contributions and earnings thereon as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
At least 2 but less than 3 years	20%
At least 3 but less than 4 years	40%
At least 4 but less than 5 years	60%
5 years or more	100%

All participants whose employment was involuntarily terminated on or after January 1, 2009 but before January 1, 2010, in connection with a reduction in force are fully vested. Additionally, all participants whose employment was terminated due to the October 11, 2013 sale of the Pinto Valley Unit are fully vested.

All other participants become fully vested in all Participating Companies' contributions upon death, permanent disability, attainment of age 65, or completion of five years of service

1. Description of Plan, continued

Forfeitures

All Participating Companies' contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the full vested value of his or her account (or his/her designated beneficiary in the event of death). Forfeitures are applied (i) first to reinstate any Plan benefits that are required to be reinstated, (ii) any remaining forfeitures are used to pay administrative expenses of the Plan, and (iii) thereafter, to offset future Participating Companies' contributions. At December 31, 2014 and 2013, available forfeitures totaled \$129,906 and \$146,727, respectively. Forfeitures of \$18,674 and \$13,718 were used to pay administrative expenses of the Plan during 2014 and 2013, respectively. Additionally, during the years ended December 31, 2014 and 2013, forfeitures of \$305 and \$66,047, respectively, were used to offset Company Contributions, Employer Funded Contributions and to fund miscellaneous earnings.

Participant Notes Receivable

Participants may borrow from the vested portions of their account balances a minimum of \$1,000 up to a maximum equal to the lesser of (i) 50% of the participant's vested account balance or (ii) \$50,000, reduced by the highest outstanding balance of any loan to the participant from the Plan or any other qualified plan maintained by any of the Participating Companies during the 12-month period ending on the day before the date the loan is made. Loan terms range up to 5 years unless used for the purchase of a primary residence, which cannot exceed 10 years. The loans bear interest at a rate commensurate with the prevailing prime rate, plus 1%. Interest rates on outstanding loans at December 31, 2014 and 2013 were 4.25%.

Payment of Benefits

Upon retirement or other termination of employment, the participant (or his or her beneficiary in the event of death) will receive the value of the vested interest in his or her account according to the following four distribution options: (i) a single, lump-sum distribution in cash, (ii) two or more installments over such period of time as the participant or beneficiary elects, but not extending beyond the life expectancy of the participant and his or her surviving spouse or designated beneficiary, (iii) two or more partial withdrawals at the election of the participant or beneficiary, or (iv) a combination of the methods specified in (i), (ii) and (iii).

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Participating Companies and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses in the Statements of Net Assets Available for Benefits. Investment related expenses are included in net appreciation of fair value of investments.

Expense Offset Arrangements

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Fully Benefit-Responsive Investment Contract

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Vanguard Retirement Savings Master Trust (the Fund), which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Certain events limit the Plan's ability to transact at contract value with the issuer. Specifically, any event outside the normal operation of the Fund that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, the Fund's partial or complete legal termination, tax disqualification, and certain Fund's amendments if issuers' consent is not obtained.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of a participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Notes to Financial Statements

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year as well as on investments held at the end of the year.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is accrued as earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016 on a retrospective basis. Early application is permitted. Plan management does not expect the adoption of ASU No. 2015-07 to have a significant impact on the Plan's financial statements and related footnotes.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, to reduce the complexity in employee benefit plan accounting. The following is a summary of the changes required by ASU No. 2015-12:

2. Summary of Significant Accounting Policies, continued

Recent Accounting Pronouncements, continued

Part I, Fully Benefit-Responsive Investment Contracts: Topics 962 and 965 on employee benefit plan accounting require fully benefit-responsive investment contracts to be measured at contract value. Those Topics also require an adjustment to reconcile contract value to fair value, when these measures differ, on the face of the plan financial statements. The amendments in Part I of ASU No. 2015-12 designate contract value as the only required measure for fully benefit-responsive investment contracts, which maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts.

Part II, Plan Investment Disclosures: As new disclosure requirements have been issued or amended, employee benefit plan financial statements have been affected. Specifically, the interaction between Topic 820, Fair Value Measurement, and Topics 960, 962, and 965 on employee benefit plan accounting sometimes requires aggregation, or organization of similar investment information, in multiple ways. The objective of Part II of ASU No. 2015-12 is to simplify and make more effective the investment disclosure requirements under Topic 820 and under Topics 960, 962, and 965 for employee benefit plans.

Part III, Measurement Date Practical Expedient: The objective of Part III of ASU No. 2015-12 is to reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Parts I and II of ASU No. 2015-12 are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning on or after December 15, 2015. Early adoption is permitted. Plan management is currently evaluating the effect of the adoption of ASU No. 2015-12 on the Plan's financial statements and related footnotes.

4. Fair Value Measurements

FASB ASC Topic 820 (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. Fair Value Measurements, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's administrators believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2014 and 2013:

5. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, other than the fair value of the common collective trust and the related adjustment from fair value to contract value for the fully benefit-responsive investment contract, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard, the Plan's trustee. The contract value of the common collective trust was certified by the trustee.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Party-in-Interest Transactions

The Plan invests in shares of mutual funds and a common collective trust fund, which are managed by an affiliate of Vanguard, the trustee, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC.

The Plan has been amended since receiving the determination letter; however, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, accordingly, that the trust maintained in connection with the Plan is tax exempt.

7. Tax Status, continued

The Plan has not performed the required annual compliance testing as of the date of financial statement issuance; however, the Plan expects to complete the required testing by December 31, 2014.

The Plan has applied for an updated determination letter from the IRS whose receipt was confirmed with the IRS on March 16, 2015.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

9. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013:
