Independent Auditors' Report

To the Benefits Committee of Duke Energy Corporation and Participants in
the Duke Energy Retirement Cash Balance Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Duke Energy Retirement Cash Balance Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Northern Trust Company (Trustee), the trustee of the Plan and the Duke Energy Corporation Master Retirement Trust (Master Trust) in which the Plan has a beneficial interest, except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the investment assets of the Plan in the Master Trust and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a

Note 1: Description of the Plan

The following brief description of the Duke Energy Retirement Cash Balance Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and Plan documents for more complete information.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Duke Energy Corporation (Duke Energy) covering substantially all legacy employees of Duke Energy, legacy Cinergy non-union employees, employees represented by the International Brotherhood of Electrical Workers, Local 1393, and Duke Energy's participating affiliated companies (collectively referred to as the Employing Company) and its participating affiliated companies (collectively referred to as the Employing Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

Under the Plan's cash balance benefit accrual formula, records are maintained on a notional account basis. For each month that a participant is an eligible employee, the participant's account receives a pay credit based upon the participant's eligible compensation for the month multiplied by a percentage that ranges from 4% to 7% depending upon the sum of the participant's age and years of creditable service. An additional 4% applies to eligible compensation for the month in excess of 1/12th of the social security wage base. Annual compensation that may be considered for benefit purposes is limited to a maximum amount ($260,000 for 2014 and subject to adjustment in subsequent years by the Internal Revenue Service (IRS) for increases in the cost of living). The participant's account also receives monthly interest credits generally based upon a monthly rate of 0.327% on the account's balance. Generally, normal retirement requires employment (with Duke Energy and its participating or non-participating affiliated companies) until age 65 and for early retirement, until at least age 55 with at least three years of vesting service. Participating employees who were participants in the Plan before January 1, 1997 or in plans that have been merged into the Plan may be eligible for certain transitional, or prior plan protected, benefits.

Vesting service determines the right to receive a benefit if employment ends before qualifying for normal or early retirement. An employee becomes vested under the Plan after completion of three years of vesting service or upon death, disability or attainment of age 65 while employed by Duke Energy and its participating and non-participating affiliated companies. Vesting service does not begin before age 18.

Upon retirement, a participant may elect to receive a lump sum distribution or an annuity. A terminated vested participant may elect to begin receiving a benefit as provided in the Plan document. Generally, participants must start receiving their benefit no later than April 1 following the later of the year in which they attain age 70½ or terminate employment.

If before benefit payment has begun, a vested, married participant dies, the participant's surviving spouse has the option to take the participant's vested benefit immediately as a lump sum or as a single life annuity or defer the benefit until no later than April 1 following the year in which the participant would have attained age 70½. Should the deceased participant be single, the participant's beneficiary

must receive the participant's vested benefit immediately as a lump sum. If a participant receiving a benefit dies, a death benefit is only payable if provided by the optional form of payment in effect.

401(h) Account

In 1991, the Plan was amended to permit, under Section 401(h) of the Internal Revenue Code (IRC), the funding of postretirement medical benefits in a separate trust account, and in 1992, the Employing Company commenced such funding. Employing Company contributions are discretionary and are determined annually. No contributions were made by the Employing Company to the Duke Energy Retirement Cash Balance Plan 401(h) account in 2014 or 2013. Participants do not contribute to the 401(h) account. Payment of benefits from the 401(h) account, which began in 1996, is limited to medical expenses reimbursable under retiree coverage provided by the Duke Energy Retiree Medical Plan, The Connector Program, Duke Energy Corporation Nuclear Health Reimbursement Account Opportunity Plan, and/or Duke Energy Corporation Post-Retirement Health Reimbursement Account Program (the "Medical Plan"). Other Plan assets may not be used to fund postretirement medical benefits and the 401(h) account may not be used to fund Plan retirement benefits. The obligations of the Medical Plan are not obligations of the Plan. The Medical Plan obligations are reflected in the financial statements of that plan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, credit, and overall market volatility. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Duke Energy Corporation Master Retirement Trust (Master Trust) (see Note 3) is based on the Plan's interest in the underlying assets in the Master Trust. See Note 4 for discussion of fair value measurements.

In accordance with Department of Labor regulations, realized and unrealized gains and losses are based on the value of these investments as of the later of the beginning of the plan year or at the time of purchase, if purchased during the year, and are reflected currently in the accompanying Statements of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment income from the Master Trust, which includes interest, dividends and realized and unrealized gains and losses, net of administrative expenses, is allocated to each Plan by the trustee on a pro rata basis. Brokerage fees are added to the acquisition cost of assets purchased and subtracted from the proceeds of the assets sold.

Derivative Financial Instruments

The Master Trust holds various instruments that meet the definition of a derivative under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, *Derivatives and Hedging*, (FASB ASC 815) including foreign currency contracts and interest rate swaps. The Plan's primary objective in holding these derivatives is investment appreciation and, accordingly, does not designate such derivatives as hedges of risks. Foreign currency exchange rate movements create a degree of risk by affecting the US dollar value of instruments denominated in foreign currencies. Such derivatives are recorded in the accompanying Statements of Net Assets Available for Benefits at their fair value, and changes in fair value are recorded in the Plan interest in Master Trust net income in the accompanying Statements of Changes in Net Assets Available for Benefits.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Benefit Payments

Benefit payments to participants or their beneficiaries are recorded when paid.

Administrative Expenses

The Plan pays all investment fees related to the Plan and most other administrative costs, as provided in the Plan document.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2014, and through October 14, 2015, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments (Certified by Trustee)

Duke Energy also sponsors the Cinergy Corp. Union Employees' Retirement Income Plan, which covers hourly, weekly and bi-weekly paid employees of the Employing Company represented by the Utility Workers Union of America, Local 600, the International Brotherhood of Electrical Workers, Local 1347 and Local 352, the United Steelworkers of America, Local 12049 and Local 5541-06, Employees' Representation Association, and UNITE Local 1995. Investments of the Cinergy Corp. Union Employees' Retirement Income Plan are also held in the Master Trust.

Florida Progress Corporation sponsors the Retirement Plan for Bargaining Unit Employees of Florida Progress Corporation, which covers bargaining unit employees of the Employing Company. It also sponsors the Progress Energy Pension Plan which covers certain legacy non-union employees of Progress Energy and its participating affiliated companies. Investments of both the Retirement Plan for Bargaining Unit Employees of Florida Progress Corporation and Progress Energy Pension Plan are also held in the Master Trust.

The Master Trust has the following Plans and accounts with their respective percentages as of December 31, 2014 and 2013:

	2014	2013
Duke Energy Retirement Cash Balance Plan	54.94	54.98
Duke Energy Retirement Cash Balance Plan 401(h) account	1.54	1.83
Cinergy Corp. Union Employees' Retirement Income Plan	7.51	7.53
Cinergy Corp. Union Employees' Retirement Income Plan 401(h) account	0.52	0.13
Progress Energy Pension Plan	28.88	29.05
Retirement Plan for Bargaining Unit Employees of Florida Progress Corporation	6.61	6.48
	100.00	100.00

Investment income and administrative expenses relating to the Master Trust are allocated based on average monthly balances invested by each, other than items specific to one or the other.

Plan investments are received, invested and held by the trustee. The Plan interest in the Master Trust of $4,767.1 million and $4,507.8 million represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013, respectively.

Note 4: Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, (FASB ASC 820) defines fair value, establishes a framework for measuring fair value in US GAAP and expands disclosure requirements about fair value measurements. Under FASB ASC 820, fair value is considered to be the exchange price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The fair value definition under FASB ASC 820 focuses on an exit price, which is the price that would be received by the Plan to sell an asset or paid to transfer a liability versus an entry price, which would be the price paid to acquire an asset or received to assume a liability. Although FASB ASC 820 does not require additional fair value measurements, it applies to other accounting pronouncements that require or permit fair value measurements.

The Plan determines fair value of financial assets and liabilities based on the following fair value hierarchy, as prescribed by FASB ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1
Unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. An active market for the asset or liability is one in which transactions for the asset or liability occurs with sufficient frequency and volume to provide ongoing pricing information.

Level 2
Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk and default rates.

Level 3
Unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own assumptions about the factors that other market participants would use in pricing an investment that would be based on the best information available in the circumstances.

The following is a description of the valuation methodologies used for investments measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Equity securities, corporate bonds and government securities: Valued at the closing price in the principal active market in which the individual securities are traded. Principal active markets include published exchanges such as NASDAQ, NYSE, NYMEX and Chicago Board of Trade, as well as pink sheets, which is an electronic quotation system that displays quotes for broker-dealers for many over-the-counter securities.

Government and commercial mortgage backed securities: Valued based on external price data obtained from third party vendors. When position specific external price data are not observable, the valuation is based on comparable securities. When external pricing data is observable, the securities are categorized in Level 2. When the external pricing data is unobservable, the securities are categorized as Level 3.

Short-term investment funds: Valued based on quoted market prices of the securities in the funds.

Real estate investment trust: Valued based upon property appraisal reports prepared by independent real estate appraisers. The Chief Real Estate Appraiser of the asset manager is responsible for assuring that the valuation process provides independent and reasonable property market value estimates. An external appraisal management firm not affiliated with the asset manager has been appointed to assist the Chief Real Estate Appraiser in maintaining and monitoring the independence and the accuracy of the appraisal process.

Hedge fund: Valued based on the value provided to the asset manager by the underlying fund. Values of liquid funds are based on observable inputs such as quoted market prices. Values of illiquid funds are based on observable or unobservable inputs to determine the value that might reasonably expect to be received in the normal course of business. If due diligence performed by the asset manager determines the value provided the underlying fund does not represent fair value, the asset manager may consult with its valuation committee in determining fair value.

Interest rate swaps and foreign currency contracts: These instruments are traded in over-the-counter markets. Valuation inputs include interest rate curves, LIBOR yield curve, foreign exchange spot rates, equity prices/equity index prices, volatility and index dividend yields.

Balance as of December 31, 2014	$ 581.2

The Plan's share in gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Master Trust's Statement of Changes in Net Assets Available for Benefits.

Note 5: Net Asset Value (NAV) Per Share

Under the amended guidance of FASB Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12), entities are permitted, as a practical expedient, to estimate the fair value of investments within its scope using the NAV per share of the investment as of the reporting entity's measurement dates. The amended guidance also requires additional disclosures to better enable users of the financial statements to understand the nature and risks of the reporting entity's investments that fall under these rules. In accordance with ASU 2009-12, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable. For the Plan, such assets are comprised of an investment in a hedge fund.

The following table sets forth a summary of Master Trust investments with a reported estimated fair value using the NAV per share as of December 31, 2014 and 2013 (in millions):

	2014	2013	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity securities - Common stock funds (a)	$ 718.4	$ 1,021.1	$ -	Immediate to Annual	45-370 days
Equity securities - Partnerships (b)	205.2	307.3	64.4	Non-redeemable	95 days
Hedge funds (c)	238.5	218.2	-	Quarterly/Annual/ Semi-redeemable	45-95 days
Real estate investment trusts (d)	104.4	94.9	0.5	Quarterly/Non-redeemable	45 days

(a) This category consists of institutional funds. Investments of approximately 85% of the total fair value at December 31, 2014 are redeemable either immediately or monthly. Investments of approximately 15% of this category and contain liquidity restrictions and require redemption notices ranging from 45-370 days.

(b) This category consists of private equity partnership funds that invest in private equity limited partnerships. The investments in this category are non-redeemable

(c) This category consists primarily of investments in privately offered hedge funds managed by unaffiliated investment managers. For approximately 48% of this category, quarterly redemptions in excess of 20% may be partially funded, based on the Hedge fund's board of director's decision, on a pro rata basis in proportion to all other hedge fund investees, with 95 days notice. Investments of approximately 39% of the total fair value at December 31, 2014 are semi-redeemable (at June 30th/December 31st) with 95 days written notice. At its discretion, the partnership's board of directors may apply a 25% fund-level gate. For approximately 13% of this category, annual redemptions are allowed with 45 days notice.

(d) This category consists of real estate investment funds that invest in portfolios of commercial and residential real estate assets. For approximately 99% of this category, fund participants may withdraw from the fund once per quarter subject to available cash, as determined by the Trustee. A written withdrawal request is required 45 days prior to quarter end. To the extent that withdrawal requests exceed available cash, distributions are made on a pro rata basis. The remaining 1% of this category is non-redeemable.

Note 6: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation dates.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation dates and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuations as of January 1, 2015 were:

Interest:	6.50%
Mortality:	RP-2014 healthy no collar table for Annuitants and Non-Annuitants projected generationally with scale BB-2D, with rates increased by 13%
Investment Return:	4.25% per annum

The significant actuarial assumptions used in the valuations as of January 1, 2014 were:

Interest:	6.75%
Mortality:	2014 Static Mortality Table for Annuitants and Non-Annuitants
Investment Return:	4.50% per annum

The foregoing actuarial assumptions are based on the presumption the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of January 1, 2015 and 2014 is as follows (in millions):

	1/1/2015	1/1/2014
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	$ 1,291.8	$ 1,246.8
Other participants	2,331.0	2,305.2
Total vested benefits	3,622.8	3,552.0
Nonvested benefits	55.3	34.1
Total Actuarial Present Value of Accumulated Plan Benefits	$ 3,678.1	$ 3,586.1

The changes in actuarial present value of the Plan's accumulated plan benefits are as follows (in millions):

Actuarial present value of accumulated plan benefits as of January 1, 2014	$ 3,586.1
Increase (decrease) during the year attributable to:	
Passage of time	233.5
Change in actuarial assumptions	57.7
Benefits accumulated and actuarial experience	58.4
Benefits paid	(257.6)
Net increase (decrease)	92.0
Actuarial Present Value of Accumulated Plan Benefits as of January 1, 2015	$ 3,678.1

Note 7: Funding Policy

The Employing Company's policy is to fund amounts on an actuarial basis to provide assets sufficient to meet benefits to be paid to Plan participants. Contributions to provide benefits under the Plan are made solely by the Employing Company. No contributions by the Employing Company to the Plan were necessary in 2014 or 2013 to meet the minimum funding requirements of ERISA. The Employing Company made voluntary contributions of $81.0 million in 2014. No voluntary contributions were made in 2013. No contributions were made by the Employing Company to the Duke Energy 401(h) account in 2014 or 2013.

Note 8: Plan Termination

Although it has not expressed any intention to do so, Duke Energy has the right under the Plan, to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, each participant shall become fully vested, and the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.
b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a US government agency) up to the applicable limitations (discussed subsequently).
d. All other vested benefits (that is, vested benefits not insured by the PBGC).
e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 9: Federal Income Tax Status

The Plan is intended to qualify under section 401(a) of the IRC and the Master Trust is intended to be exempt from tax under section 501(a) of the IRC. The IRS has determined and informed the Employing Company by a letter dated November 21, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Employing Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the

Plan and Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2011.

Note 10: Exempt Party-in-Interest Transactions

Northern Trust manages the Master Trust. Northern Trust is also trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA. Administrative expenses paid by the Plan were approximately $14.8 million for the year ended December 31, 2014.

Note 11: Plan Changes

An amendment to the Plan, adopted on May 27, 2014, updates the postretirement medical benefit plans for which payments are made from the Duke Energy Retirement Cash Balance Plan 401(h) account.

An amendment to the Plan, adopted on December 20, 2014, makes certain technical changes as required by the IRS

An amendment to the Plan, adopted December 19, 2014 provides for the following:

- Spins off assets and liabilities for participants transferred to the Dynegy Inc. Retirement Plan as part of the sale of the non-regulated Midwest Commercial Generation business
- Expands the availability of commencement and lump sums to certain participants
- Credits vesting service for certain Rockingham Power, LLC employees
- Provides for the automatic revocation of spousal beneficiary designations upon divorce
- Modifies the employee transfer provisions
- Provides additional benefit accrual to participants who die during qualified military service
- Updates the list of affiliated sponsors
- Reflects certain bargaining unit changes
- Clarifies certain other provisions

Note 12: Subsequent Events

Effective as of the close of business on December 31, 2015, Plan management intends to merge the Progress Energy Pension Plan (sponsored by Progress Energy Inc.) into the Plan. The Duke Energy Corporation Master Retirement Trust holds the net assets of the Plan and the Progress Energy Pension Plan.

Note 13: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the Form 5500 to the financial statements as of December 31, 2014 and 2013 (in millions):

Schedule SB, Part V — Statement of Actuarial Assumptions and Methods

---

Percent married	It is assumed that 85% of males and 85% of females have an eligible spouse.
Spouse age	Males are three years older than their spouses.
Covered pay	
Before 2014	Actual historical pensionable earnings.
2014	2014 pay estimated as the sum of: • Actual earnings through March 31, 2014 (includes bonus and incentive payments made in the first quarter). • Expected base pay for the remaining nine months of the year (estimated by using the base pay rate in effect on April 1, 2014). • Assumed overtime for the remaining nine months of the year.
2015+	Estimated 2014 pay (for projection purposes) is projected forward using the salary scale, where 2014 pay is estimated as the sum of: • Expected base pay (estimated by using the pay rate in effect on April 1, 2014). • Assumed overtime. • Assumed target bonus.
Overtime Assumption *Applies to non-exempt employees only*	The overtime assumption is expressed as a percentage of base pay and varies by pay level: • 5% for those with low base pay (under $50,000) • 15% for those with medium base pay • 20% for those with high base pay (over $67,500)
Vacation Bank (for former participants in the Cinergy Corp. Non-Union Employees' Pension Plan and Cinergy Corp. Union Employees Pension Plan)	Final pay is assumed to increase for vacation buy-back based on actual vacation banks accrued to date.

Methods

Valuation date	January 1, 2014.
Funding target	Present value of accrued benefits The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability

	benefits, Social Security benefits, death benefits and other ancillary benefits. For most such benefits, the required attribution methodology is clear. If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Trust expenses included in target normal cost	Provided by Duke Energy Corporation. $4,259,303 for 2014.
Actuarial value of assets	Smoothed fair market value of assets over the current and prior three months, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.
Actuarial method	Standard Unit Credit Cost Method.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except prior plan benefits and grandfathered benefits for active employees. Based on discussions with Duke Energy Corporation, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued. Towers Watson has reviewed the plan provisions with Duke Energy Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013. Rates have been adjusted to reflect HATFA corridors.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost were changed from $4,216,684 for 2013 to $4,259,303 for 2014.

The cash balance interest crediting rate associated with balances subject to a variable interest crediting rate was increased from 4.25% to 4.50%.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of plan provisions

Plan Provisions

Plan was restated effective January 1, 2014. Effective December 31, 2012, the Cinergy Corp. Non-Union Employees' Pension Plan and the Cinergy Corp. Union Employees' Pension Plan were merged into the Duke Energy Retirement Cash Balance Plan.

Provisions applicable to participants in the Duke Energy Retirement Cash Balance Plan

Participation

Eligible Employees	Legacy Duke employees and legacy Cinergy employees hired after July 1, 2008 who are not covered by a collective bargaining agreement. Leased employees are not eligible for the plan. If a non-union or USW Local 7202 (Nantahala) employee terminates employment and is rehired after December 31, 2013, the employee will continue to receive interest credits on any undistributed cash balance account, but will not receive pay credits following rehire. Non-union and USW Local 7202 (Nantahala) employees hired on or after January 1, 2014 are not eligible to participate in the plan.
Participation Date	Legacy Duke employees and covered legacy Cinergy employees participate at the later of hire or age 18.

Definitions

Vesting Service	A participant receives vesting service from the later of date of hire and the participant's 18th birthday. Prior to January 1, 1999, vesting service was credited by counting actual hours of employment. Beginning January 1, 1999, vesting service is credited based on elapsed time.
Plan Year	January 1 to December 31.
Compensation	Box 1 W-2 pay plus §401(k) and §125 deferrals plus pre-tax deferrals under Duke Energy Corporation Executive Savings Plan less severance pay, certain expenses, bonuses for performance periods exceeding a year, and long term incentives (including stock based awards). Excludes military leave pay from eligible earnings.
Normal Retirement Age	Age 65.

Eligibility for Benefits

Normal Retirement	Retirement at normal retirement age.
Early Retirement	A former Duke participant is eligible for early retirement after attaining age 55 and completing three years of vesting service (five years of service before January 1, 2007) or, for participants employed before January 1, 1997, attaining age 51 and completing 30 years of creditable service.
Postponed Retirement	Retirement after normal retirement age.

Vested Retirement	At least three years of vesting service (five years of service before January 1, 2007).
Disability	Participants are immediately vested upon disability.
Preretirement Death Benefit	Participants are immediately vested upon death.

Benefits Paid Upon the Following Events

Normal Retirement

The retirement benefit is based on the opening account balance calculated for Duke as of January 1, 1997 and for PanEnergy/Nantahala, as of January 1, 1999. Thereafter, the account is increased monthly through the addition of contribution credits and an interest adjustment.

The contribution credit percentage is determined by points credited to the participant monthly, as follows:

Contribution Credit Percentage by Points at Beginning of Year

Points	Contribution Credit Percentage
<35	4%, plus 4% of pay over Social Security Wage Base
35-49	5%, plus 4% of pay over Social Security Wage Base
50-64	6%, plus 4% of pay over Social Security Wage Base
>64	7%, plus 4% of pay over Social Security Wage Base

A participant's points as of any January 1 (or date of participation) equal the sum of the attained age and creditable service on such date, with the sum truncated to drop less than full points.

The monthly interest adjustment is a percentage increase in the account balance. For balances accrued through December 31, 2012, the rate of monthly increase is the average yield on 30-year Treasury bonds for the end of the third full business week of the month prior to the beginning of the calendar quarter in which the particular month occurs, subject to a minimum of 4% and a maximum of 9%. For non-union pay credits accrued on or after January 1, 2013, the rate of monthly interest credit is fixed based on an annual percentage rate of 4%. For USW Local 7202 (Nantahala) pay credits accrued on or after January 1, 2014, the rate of monthly interest credit is fixed based on an annual percentage rate of 4%.

Benefit is based on the greater of the account balance accrued to date and prior plan benefit.

Schedule SB, Part V — Summary of plan provisions

Postponed Retirement	Benefit is based on the greater of the account balance accrued to date and prior plan benefit.
Vested Retirement	Benefit is based on the greater of the account balance accrued to date and prior plan benefit with at least 3 years of vesting service.
Disablement	Upon disability, a participant will continue to earn pay credits based on pre-disability income. These credits will continue until the earlier of age 65, early retirement, or ineligibility. For non-union participants and USW Local 7202 (Nantahala) as of January 1, 2014, disability occurring on or after July 1, 2014, pay credits will cease upon disability.
Preretirement Death	The surviving spouse may elect to take the benefit immediately in the form of a lump sum, take the benefit immediately as a single life annuity or defer the benefit to a later date, but no later than April 1 following the year in which the participant would have attained age 70-1/2. The beneficiary of a single participant who dies must receive the benefit immediately as a lump sum. The benefit is based on the account balance at date of death.

Other Plan Provisions

Forms of Payment	Single Life Annuity (normal form for single participants). 100% Joint and Survivor Annuity (normal form for married participants). 50% Joint and Survivor Annuity. Lump Sum Payment. Prior plan options grandfathered for participants prior to January 1, 1999.
Actuarial Equivalence	
Conversion of Cash Balance Account to Single Life Annuity	Mortality and interest prescribed under §417(e). Look back month is August prior to the beginning of the plan year.
Conversion of Cash Balance Single Life Annuity to Optional Forms other than Lump Sum	Mortality and interest prescribed under §417(e). Look back month is August prior to the beginning of the plan year.

Schedule SB, Part V — Summary of plan provisions

Conversion of Pan Energy Prior Plan Benefit to a Lump Sum	1983 Group Annuity Mortality Table for males. Interest will be based on the PBGC published rate. For payments prior to July 1, the interest rate will be the lower of the PBGC rate as of January 1 for the current calendar year or July 1 of the prior calendar year. For payments after July 1, the interest rate will be the lower of the PBGC rate as of July 1 for the current calendar year or January 1 of the calendar year. If the PBGC rate does not exist, the applicable interest rate will be that required by §417(e), reduced by 1.75%. For lump sums greater than $25,000, 120% of the rate will be used. The lump sum must be at least equal to or greater than the lump sum determined using mortality and interest prescribed under §417(e).
Conversion of Pan Energy Prior Plan Final Average Pay Benefit to Optional Forms other than Lump Sum	Mortality and interest prescribed under §417(e). Look back month is August prior to the beginning of the plan year.
Pension Increases	None.
Plan Participants' Contributions	None required or allowed.
Minimum Benefit	A participant, who was actively employed immediately before the effective date of the cash balance plan, receives the greater of the cash balance account or the actuarial value of the prior plan protected benefit.
Maximum On Benefits and Pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Eligibility for Benefits

Normal Retirement	Retirement at normal retirement age.
Early Retirement	Age 50 and three years of service. (Five years of service prior to January 1, 2007).
Postponed Retirement	Retirement after normal retirement age.
Vested Termination	Three years of service. (Five years of service prior to January 1, 2007.)
Disability	Participants are immediately vested upon disability. (Five years of service were required prior to January 1, 2007.)
Preretirement Death Benefit	
Traditional Program	Married participants. (Five years of service prior to January 1, 2007.)
Cash Balance Program	All participants are immediately vested upon death, and the benefit will be paid to the spouse, beneficiary, or estate.

Benefits Paid Upon the Following Events

Normal Retirement	Participant's retirement formula is either based on a final average pay formula ("Traditional Program"), a cash balance plan account ("Cash Balance Program"), or a combination of both. Former TCSR plan participants were moved to the Duke cash balance formula effective January 1, 2010. These participants will have their December 31, 2009 final average pay benefit indexed with pay and will be able to elect to receive their final average pay benefit as a lump sum. These participants are included as part of the Traditional Choice group in the descriptions provided in this report. Traditional Plan participants were given the choice to stay in the Traditional Program and continue to accrue benefits or to enter the Duke Cash Balance Program with a $0 opening account balance and a soft freeze (frozen credited service and increasing final average pay) on their Traditional Benefit effective April 1, 2007. Effective January 1, 2011, all Traditional Plan participants were automatically moved to the Duke Cash Balance Program for future accruals with a hard freeze on their Traditional Program benefit. Effective January 1, 2007, the plan was amended to adopt the Duke Energy Corporation cash balance formula for new hires and for active Cinergy employees previously in the Balanced and Investor Programs. Certain prior accrued benefits are guaranteed as minimum benefits.

Employees commencing participation after January 1, 2003 and before January 1, 2007 were given the choice between the Balanced and Investor Programs. On January 1, 2003 the plan was amended to allow all existing participants a one-time choice between the Traditional Program, the Balanced Program, and the Investor Program.

Duke Energy Corporation Cash Balance Formula

A cash balance benefit with monthly pay credits based on the following schedule:

Pay Credit by Points for Duke Energy Corporation Cash Balance Formula

Points	Contribution Credit Percentage
<35	4%, plus 4% of pay over Social Security Wage Base
35-49	5%, plus 4% of pay over Social Security Wage Base
50-64	6%, plus 4% of pay over Social Security Wage Base
>64	7%, plus 4% of pay over Social Security Wage Base

A participant's points as of any January 1 (or date of participation) equal the sum of the attained age and creditable service on such date, with the sum truncated to drop less than full points.

The monthly interest adjustment is a percentage increase in the account balance. For balances accrued through December 31, 2012, the rate of monthly increase is the average yield on 30-year Treasury bonds for the end of the third full business week of the month prior to the beginning of the calendar quarter in which the particular month occurs, subject to a minimum of 4% and a maximum of 9%. For pay credits accrued on or after January 1, 2013, the rate of monthly interest credit is fixed based on an annual percentage rate of 4%.

Traditional Program

Effective January 1, 2007 (December 19, 2007 for former TCSR participants), the plan was amended to adopt a minimum benefit formula on benefit accruals beginning January 1, 2005. The benefit is the greater of Formula A or Formula B.

Formula A: 1.10% of FAP plus 0.50% of FAP in excess of Covered Compensation multiplied by service (maximum 35 years); plus 1.55% of FAP multiplied by service over 35 years.

	Formula B: Lesser of 1.12% of FAP plus 0.50% of FAP in excess of Covered Compensation multiplied by service (maximum 35 years) or 1.163% of FAP multiplied by service (maximum 35 years); plus 1.492% of FAP multiplied by service over 35 years.
Early Retirement	
Traditional Program	A monthly benefit equal to the Normal Retirement benefit based on Years of Participation and Highest 3-Year Average Earnings at the date of termination. If payments begin before age 62, the payments are reduced by 6.67% per year for the first five years, 3.33% per year for the next four years, and by varying percentages thereafter. No reductions apply if a participant retires at age 55 with 85 age plus service points.
Cash Balance Program	Participants are always entitled to their entire vested cash balance at termination or retirement.
Postponed Retirement	Monthly pension benefit determined as of actual retirement date.
Vested Termination	
Traditional Program	A monthly benefit equal to the Normal Retirement benefit based on Highest Average Earnings and years of Participation at the date of termination. Payments may begin after the eligibility requirements for Early Retirement have been satisfied. Vested Termination benefits that begin before Normal Retirement will be reduced 5% per year from age 65. Traditional Choice participants can receive this benefit as a lump sum any time after separation from the company.
Cash Balance Program	Participants are always entitled to their entire vested cash balance at termination or retirement.
Disability	
Traditional Program	Normal Retirement benefit based on Highest Average Earnings at the date of disability and years of Participation at the date of retirement. Payments may begin after the eligibility requirements for Early Retirement have been satisfied. Disability benefits that begin before Normal Retirement will be reduced using the same reductions used for Early Retirement. Traditional Choice participants can receive this benefit as a lump sum any time after separation from the company.
Cash Balance Program	Upon disability, a participant will continue to earn pay credits based on pre-disability income. These credits will continue until the earlier of age 65, early retirement or ineligibility. For non-union employees, disability occurring on or after July 1, 2014, pay credits will cease upon disability.
Preretirement Death	

Traditional Program	Under age 50: 100% of Normal Retirement benefit as of the participant's date of death, reduced actuarially for 100% Contingent Annuitant option, and reduced for payment at the participant's earliest retirement eligibility. This benefit can be paid immediately as a lump sum for Traditional Choice participants. Age 50 and older: 100% of Normal Retirement benefit as of the participant's date of death, payable immediately, reduced as applicable for early payment.
Cash Balance Program	The participant's beneficiary is entitled to the entire vested cash balance upon the participant's death.

Other Plan Provisions

Normal Form of Annuity	
Without Spouse	Life Annuity.
Cash Balance Participants with Spouse	100% Joint and Survivor Annuity.
Traditional Participants with Spouse	Contingent Annuitant option actuarially equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit and, in event of participant's death, 100% of reduced benefit continued to surviving spouse. If spouse dies before participant, benefit increases to life annuity value.
Optional Forms of Annuity	Employees hired after December 31, 2006: Life Annuity; Lump Sum; Contingent Annuitant (50% or 100%). Traditional Program Participants and Cash Balance participants who were participants as of December 31, 2006: Life Annuity; Contingent Annuitant with "pop-up" (50%, 66 2/3% or 100%); 10-year Certain and Life; Life Annuity Level Income Option; 100% Contingent Annuitant Level Income Option with pop-up; Lump Sum (Cash Balance Program and Frozen Traditional Program).
Cash Balance Actuarial Equivalence	*Used to convert Cash Balance Account to a Single Life Annuity.*
