1. Description of Plan

The following description of the BHP USA Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established, effective January 1, 1998, as a multiple-employer profit-sharing plan with a 401(k) directed feature qualified under Sections 401(a) and 401(k) of the Internal Revenue Code (IRC) of 1986, as amended. Effective November 1, 1999, the Plan became a single-employer profit-sharing plan. The Plan was amended and restated, effective January 1, 2014, to incorporate previous amendments and to comply with the latest tax laws and regulations, among other things. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan provides retirement benefits for regular salaried employees of BHP Holdings (International), Inc. (BHP), and adopting subsidiaries and affiliates of the parent company, BHP Billiton Limited (collectively, the Participating Companies), on their date of hire. The Participating Companies are BHP Base Metals Management Co., BHP Copper Inc., BHP Hawaii Inc., BHP Minerals Service Company, BHP Nevada Mining Company, BHP Nevada Railroad Company, BHP Petroleum (Americas) Inc., BHP Petroleum Americas Refining Inc., BHP Steel Americas Inc., Broken Hill Proprietary (USA) Inc., BSI Commodities Inc., San Manuel Arizona Railroad Company, BHP Billiton Canada Inc., BHP Navajo Coal Company, BHP Billiton New Mexico Coal, Inc., San Juan Coal Company, San Juan Transportation Company, BHP Billiton Mine Management Company and Petrohawk Energy Corporation. Additionally, effective July 1, 2013, the Plan was amended to include BHP Billiton Mine Management Company as a Participating Company, and effective December 1, 2013, to remove BHP Navajo Coal Company as a Participating Company.

Administration

BHP is the Plan's sponsor and Plan administrator. Vanguard Fiduciary Trust Company (Vanguard) serves as trustee for the Plan, and Vanguard Group, Inc. serves as recordkeeper for the Plan. Certain duties, on behalf of the Plan's sponsor and the Participating Companies, are carried out by the BHP USA Retirement Advisory Committee (the Committee). The Committee members are each appointed by the boards of directors of the Participating Companies.

Contributions

All new employees are automatically enrolled in the Plan based on a pre-tax contribution rate of 6% unless the employee elects to waive immediate automatic enrollment.

Participants may make contributions to the Plan on a pre-tax and/or after-tax basis as well as ROTH contributions through payroll withholding of any whole percentage up to 30% of their eligible earnings. Contributions may not exceed the limitation ($17,500 in both 2014 and 2013) set forth in Section 402(g) of the IRC. Participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. A participant's total catch-up contribution was limited to a maximum of $5,500 during both 2014 and 2013. Such catch-up contributions are also eligible for matching.

1. Description of Plan, continued

Contributions, continued

The Participating Companies make a matching contribution equal to 100% of the first 6% of eligible earnings contributed to the Plan by their participants for each payroll period. Total employer matching contributions were $26,191,831 and $23,867,611 for the years ended December 31, 2014 and 2013, respectively.

The Participating Companies also make employer funded contributions to the Plan on behalf of eligible participants. Effective January 1, 2014, all participants of the Plan were eligible to receive employer funded contributions. Prior to January 1, 2014, eligible participants were participants who (i) were hired, rehired or transferred to the payroll of a Participating Company on or after July 1, 2004, or (ii) had made a one-time election to receive contributions under the employer funded account, for service after December 31, 2004, in lieu of continuing to accrue benefit service under the BHP USA Retirement Income Plan, provided such participant was not concurrently accruing benefit service under any defined benefit plan sponsored by the affiliated group of employers. The employer funded contribution is equal to 8.5% of each eligible participant's earnings, plus 5.7% of each eligible participant's earnings in excess of the social security taxable wage base for the year, for each payroll period. Total employer funded contributions were $43,573,506 and $35,785,172 for the years ended December 31, 2014 and 2013, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Participating Companies' contributions, and an allocation of investment income (loss), net of administrative expenses. Investment income (loss) allocations are based on the performance of the funds in which the participant has directed his or her accounts to be invested. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Investment Options

The Plan offers mutual funds and a common collective trust fund as investment options to participants. Additionally, the Plan offers a brokerage account investment option in which participants can select from a large number of mutual funds and individual securities such as common stocks and bonds. The Plan also utilizes a money market fund to facilitate Plan transactions. Participants may change their investment options at any time.

1. Description of Plan, continued

Vesting

Participants previously included in the Petrohawk Energy Corporation 401K Plan continue to vest in accordance with the vesting schedule provided in that Plan as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than one year	0%
One year but less than two years	20%
Two years but less than three years	40%
Three years but less than four years	60%
Four years but less than five years	80%
Five years or more	100%

All other participants are immediately 100% vested in their accounts.

Forfeitures

The Plan contains forfeitures that came into the Plan through mergers or became available in earlier Plan years prior to the date of a previous Plan amendment, pursuant to which all participant accounts became 100% vested. Forfeitures are applied as follows: (i) first to reinstate any Plan benefits that are required to be reinstated, (ii) any remaining forfeitures are used to pay administrative expenses of the Plan, and (iii) thereafter, to offset future employer contributions. At December 31, 2014 and 2013, the Plan has forfeitures available of $2,257,874 and $1,969,713, respectively. Forfeitures used to fund employer contributions and to reinstate Plan benefits amounted to $101,035 and $157,807 in 2014 and 2013, respectively. Forfeitures used to pay Plan expenses amounted to $100,004 and $145,715 in 2014 and 2013, respectively.

In-Service Withdrawals

A participant may take an in-service withdrawal of all or any portion of the balance in his or her after-tax account and or rollover account as well as certain grandfathered Company contribution and tax deductible retirement accounts as described in the supplements to the Plan document. Once age 59 1/2 is attained, a participant may withdraw some or all of the vested amounts in his or her account. Certain participants, as specified in the supplements to the Plan document, may make a hardship withdrawal from their pretax accounts and/or Participating Companies contribution account. A hardship withdrawal shall only be made in the event of a financial need constituting a hardship, as defined in the Plan document.

Participant Notes Receivable

Participants may borrow from the vested portions of their account balances a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 less the highest outstanding loan balance in the last 12 months or (b) 50% of their account balances. No more than one loan is allowed per account at any given time. The loans bear interest at a rate equal to *Reuters* prime rate plus 1%. Interest rates on outstanding loans ranged from 4.25% to 9.25% during the years ended December 31, 2014 and 2013. Loans must be repaid within five years for general loans and ten years for loans used to purchase a primary residence. Loan repayments are made through payroll deductions. The entire outstanding loan balance becomes due upon employment termination.

1. Description of Plan, continued

Payment of Benefits

Upon retirement or other termination of employment, the participant (or his or her beneficiary in the event of death) will receive the value of the vested interest in his or her account according to the following four distribution options: (i) a single, lump-sum distribution in cash, (ii) two or more installments over such period of time as the participant or beneficiary elects, but not extending beyond the life expectancy of the participant and his or her surviving spouse or designated beneficiary, (iii) two or more partial withdrawals at the election of the participant or beneficiary, or (iv) a combination of the methods specified in (i), (ii) and (iii).

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Participating Companies and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Expense Offset Arrangements

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Fully Benefit-Responsive Investment Contract

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Vanguard Retirement Savings Master Trust (the Fund), which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Certain events limit the Plan's ability to transact at contract value with the issuer. Specifically, any event outside the normal operation of the Fund that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, the Fund's partial or complete legal termination, tax disqualification, and certain Fund's amendments if issuers' consent is not obtained.

2. Summary of Significant Accounting Policies, continued

Fully Benefit-Responsive Investment Contract

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of a participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year as well as on investments held at the end of the year.

Benefit Payments

Benefits are recorded when paid.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is accrued as earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016 on a retrospective basis. Early application is permitted. Plan management does not expect the adoption of ASU No. 2015-07 to have a significant impact on the Plan's financial statements and related footnotes.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, to reduce the complexity in employee benefit plan accounting. The following is a summary of the changes required by ASU No. 2015-12:

Part I, Fully Benefit-Responsive Investment Contracts: Topics 962 and 965 on employee benefit plan accounting require fully benefit-responsive investment contracts to be measured at contract value. Those Topics also require an adjustment to reconcile contract value to fair value, when these measures differ, on the face of the plan financial statements. The amendments in Part I of ASU No. 2015-12 designate contract value as the only required measure for fully benefit-responsive investment contracts, which maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts.

Part II, Plan Investment Disclosures: As new disclosure requirements have been issued or amended, employee benefit plan financial statements have been affected. Specifically, the interaction between Topic 820, Fair Value Measurement, and Topics 960, 962, and 965 on employee benefit plan accounting sometimes requires aggregation, or organization of similar investment information, in multiple ways. The objective of Part II of ASU No. 2015-12 is to simplify and make more effective the investment disclosure requirements under Topic 820 and under Topics 960, 962, and 965 for employee benefit plans.

Part III, Measurement Date Practical Expedient: The objective of Part III of ASU No. 2015-12 is to reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Parts I and II of ASU No. 2015-12 are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning on or after December 15, 2015. Early adoption is permitted. Plan management is currently evaluating the effect of the adoption of ASU No. 2015-12 on the Plan's financial statements and related footnotes.

4. Fair Value Measurements

FASB ASC Topic 820 (ASC 820), *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements, continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses the market approach which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-directed brokerage accounts which include common stocks, mutual funds, exchange traded funds, and corporate debt instruments: Valued using a variety of methods based on the nature of the underlying assets, but primarily valued at the closing price reported for the market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's administrators believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2014 and 2013:

5. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, other than the fair value of the common collective trust and the related adjustment from fair value to contract value for the fully benefit-responsive investment contract, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard, the Plan's trustee. The contract value of the common collective trust was certified by the trustee.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. Party-in-Interest Transactions

The Plan invests in shares of mutual funds, a common collective trust fund, and a self-directed brokerage account, which are managed by an affiliate of Vanguard, the trustee, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 10, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC.

The Plan has not performed the required annual compliance testing as of the date of financial statement issuance; however, the Plan expects to complete the required testing by December 31, 2015.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.
