Dur-A-Flex, Inc. 401(k) Savings Plan

Notes to Financial Statements December 31, 2014

Note 1 - Description of Plan

The following description of the Dur-A-Flex, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering all eligible employees of Dur-A-Flex, Inc. (the "Company") who are at least twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 75% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company is required to make safe harbor matching contributions equal to 100% of the first 3% of a participant's eligible compensation and 50% of the next 2% of a participant's eligible compensation. The Company may, at its discretion, make employer nonelective contributions to the Plan. In order for a participant to receive an employer nonelective contribution, they must have completed two years of service, worked 1,000 hours during the year and be employed on the last day of the Plan year. For the year ended December 31, 2014, the Company elected to make a nonelective contribution equal to 7% of a participant's eligible compensation. Although additional non-safe harbor matching contributions may be made at the Company's discretion, there were no such contributions during 2014. Participants also direct the investment of Company contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as an allocation of the Company's nonelective contributions and Plan earnings. Participant accounts are also charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Dur-A-Flex, Inc. 401(k) Savings Plan

Notes to Financial Statements December 31, 2014

Vesting

Participants are vested immediately in all contributions plus actual earnings thereon.

Payment of benefits

On termination of service for any reason, participants with a vested account balance less than \$1,000 will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants with a vested account balance greater than \$1,000 may elect to receive their vested benefit in the form of a lump-sum, as an annuity or defer payment of benefits until a later date.

Withdrawals from a participant's vested account may also be made in the event of a financial hardship, in accordance with the provisions specified in the Plan document. Participants who are at least 59½ years of age may withdraw all or a portion of the vested balance in their account prior to termination for any reason.

Forfeited accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$3,736. These amounts will be used to pay administrative expenses or to reduce future employer contributions.

Note 2 - Summary of accounting policies

Basis of presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless other paid by the Company. Expenses that are paid by the Company and are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net depreciation in fair value of mutual funds.

Dur-A-Flex, Inc. 401(k) Savings Plan

Notes to Financial Statements December 31, 2014

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2015, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Fidelity Advisor Freedom 2030 Fund	\$ 3,389,221	\$ 3,212,019
Fidelity Advisor Freedom 2015 Fund	2,177,862	1,957,394
Fidelity Advisor Freedom 2035 Fund	1,921,477	1,611,834
Fidelity Advisor Freedom 2045 Fund	1,311,015	1,172,000
Fidelity Advisor Freedom 2040 Fund	885,533	1,036,679
Fidelity Advisor Freedom 2020 Fund	812,690	740,549
Fidelity Advisor Freedom 2025 Fund	750,093	977,218

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Dur-A-Flex, Inc. 401(k) Savings Plan

Notes to Financial Statements December 31, 2014

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Dur-A-Flex, Inc. 401(k) Savings Plan

Notes to Financial Statements December 31, 2014

Note 5 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2014, and investment income for the year ended December 31, 2014, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax status

The Plan uses a volume submitter plan designed by Fidelity Management & Research Company. The IRS has informed Fidelity Management & Research Company by an advisory letter dated March 31, 2014 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the "IRC"). Accordingly, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan and the related trust are tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Expenses paid directly from Plan assets to this party-in-interest were \$25 for the year ended December 31, 2014. Fees incurred by the Plan for investment management services are included in the net depreciation in fair value of mutual funds. The Plan sponsor pays directly any other fees related to the Plan's operations.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
