4 If the plan is in at-risk status, check the box and complete lines (a) and (b)..... ☐	
a Funding target disregarding prescribed at-risk assumptions	4a
b Funding target reflecting at-risk assumptions, but disregarding transition rule for plans that have been in at-risk status for fewer than five consecutive years and disregarding loading factor.....	4b
5 Effective interest rate	5 <u>6.70%</u>
6 Target normal cost	6 <u>9209356</u>

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SIGN HERE		<u>09/28/2015</u>

For Paperwork Reduction Act Notice and OMB Control Numbers, see the instructions for Form 5500 or 5500-SF.

**Schedule SB (Form 5500) 2014
v. 140124**

Part II Beginning of Year Carryover and Prefunding Balances		
	(a) Carryover balance	(b) Prefunding balance
7 Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	0	36206642
8 Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9 Amount remaining (line 7 minus line 8)	0	36206642
10 Interest on line 9 using prior year's actual return of <u>11.75</u> %	0	4254280
11 Prior year's excess contributions to be added to prefunding balance:		
a Present value of excess contributions (line 38a from prior year)		13891699
b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>6.51</u> %		904350
b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
c Total available at beginning of current plan year to add to prefunding balance		14796049
d Portion of (c) to be added to prefunding balance		13061632
12 Other reductions in balances due to elections or deemed elections	0	0
13 Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	0	53522554

Part III Funding Percentages		
14 Funding target attainment percentage	14	100.02 %
15 Adjusted funding target attainment percentage	15	164.78 %
16 Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	100.00 %
17 If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV Contributions and Liquidity Shortfalls					
18 Contributions made to the plan for the plan year by employer(s) and employees:					
(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
07/01/2014	0	7341418			
03/18/2015	8300000	0			
06/17/2015	8300000	0			
09/09/2015	8400000	0			
Totals ▶			18(b)	25000000	18(c) 7341418

19 Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:		
a Contributions allocated toward unpaid minimum required contributions from prior years	19a	0
b Contributions made to avoid restrictions adjusted to valuation date	19b	0
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	22755054
20 Quarterly contributions and liquidity shortfalls:		
a Did the plan have a "funding shortfall" for the prior year? ☐ Yes ☒ No		
b If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? ☐ Yes ☐ No		
c If line 20a is "Yes," see instructions and complete the following table as applicable:		
Liquidity shortfall as of end of quarter of this plan year		
(1) 1st	(2) 2nd	(3) 3rd

Part V Assumptions Used to Determine Funding Target and Target Normal Cost

21 Discount rate:				
a Segment rates:	1st segment: 4.99 %	2nd segment: 6.32 %	3rd segment: 6.99 %	☐ N/A, full yield curve used
b Applicable month (enter code).....				21b 0
22 Weighted average retirement age				22 58
23 Mortality table(s) (see instructions) ☐ Prescribed - combined ☒ Prescribed - separate ☐ Substitute				

Part VI Miscellaneous Items

24 Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment.	☐ Yes ☒ No
25 Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment.	☐ Yes ☒ No
26 Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.	☒ Yes ☐ No
27 If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment.....	27

Part VII Reconciliation of Unpaid Minimum Required Contributions For Prior Years

28 Unpaid minimum required contributions for all prior years	28	0
29 Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a).....	29	0
30 Remaining amount of unpaid minimum required contributions (line 28 minus line 29)	30	0

Part VIII Minimum Required Contribution For Current Year

31 Target normal cost and excess assets (see instructions):			
a Target normal cost (line 6).....	31a	9209356	
b Excess assets, if applicable, but not greater than line 31a	31b	16535	
32 Amortization installments:	Outstanding Balance		
a Net shortfall amortization installment.....	0	0	
b Waiver amortization installment	0	0	
33 If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount	33		
34 Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)...	34	9192821	
	Carryover balance	Prefunding balance	Total balance
35 Balances elected for use to offset funding requirement.....	0	0	0
36 Additional cash requirement (line 34 minus line 35).....	36	9192821	
37 Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c).....	37	22755054	
38 Present value of excess contributions for current year (see instructions)			
a Total (excess, if any, of line 37 over line 36)	38a	13562233	
b Portion included in line 38a attributable to use of prefunding and funding standard carryover balances	38b	0	
39 Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37)	39	0	
40 Unpaid minimum required contributions for all years	40	0	

Part IX Pension Funding Relief Under Pension Relief Act of 2010 (See Instructions)

41 If an election was made to use PRA 2010 funding relief for this plan:			
a Schedule elected	☐ 2 plus 7 years ☐ 15 years		
b Eligible plan year(s) for which the election in line 41a was made	☐ 2008 ☐ 2009 ☐ 2010 ☐ 2011		
42 Amount of acceleration adjustment	42		
43 Excess installment acceleration amount to be carried over to future plan years	43		

SCHEDULE D (Form 5500) <small>Department of the Treasury Internal Revenue Service</small> <small>Department of Labor Employee Benefits Security Administration</small>	DFE/Participating Plan Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA). ► File as an attachment to Form 5500. SCHEDULE H (Form 5500) <small>Department of the Treasury Internal Revenue Service</small> <small>Department of Labor Employee Benefits Security Administration</small> <small>Pension Benefit Guaranty Corporation</small>	Financial Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code). ► File as an attachment to Form 5500.	<small>OMB No. 1210-0110</small> 2014 This Form is Open to Public Inspection
For calendar plan year 2014 or fiscal plan year beginning <u>01/01/2014</u> and ending <u>12/31/2014</u>		
A Name of plan <u>SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD</u>	B Three-digit plan number (PN) ►	<u>011</u>
C Plan sponsor's name as shown on line 2a of Form 5500 <u>SCHLUMBERGER LIMITED</u>	D Employer Identification Number (EIN) <u>52-0684746</u>	

Part I	Asset and Liability Statement		
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

Income

		(a) Amount	(b) Total
a Contributions:			
(1) Received or receivable in cash from: (A) Employers	2a(1)(A)	25000000	
(B) Participants	2a(1)(B)	7341418	
(C) Others (including rollovers)	2a(1)(C)		
(2) Noncash contributions	2a(2)		
(3) Total contributions. Add lines 2a(1)(A) , (B) , (C) , and line 2a(2)	2a(3)		32341418
b Earnings on investments:			
(1) Interest:			
(A) Interest-bearing cash (including money market accounts and certificates of deposit)	2b(1)(A)		
(B) U.S. Government securities	2b(1)(B)		
(C) Corporate debt instruments	2b(1)(C)		
(D) Loans (other than to participants)	2b(1)(D)		
(E) Participant loans	2b(1)(E)		
(F) Other	2b(1)(F)		
(G) Total interest. Add lines 2b(1)(A) through (F)	2b(1)(G)		0
(2) Dividends: (A) Preferred stock	2b(2)(A)		
(B) Common stock	2b(2)(B)		
(C) Registered investment company shares (e.g. mutual funds)	2b(2)(C)		
(D) Total dividends. Add lines 2b(2)(A) , (B) , and (C)	2b(2)(D)		0
(3) Rents	2b(3)		
(4) Net gain (loss) on sale of assets: (A) Aggregate proceeds	2b(4)(A)		
(B) Aggregate carrying amount (see instructions)	2b(4)(B)		
(C) Subtract line 2b(4)(B) from line 2b(4)(A) and enter result	2b(4)(C)		0
(5) Unrealized appreciation (depreciation) of assets: (A) Real estate	2b(5)(A)		
(B) Other	2b(5)(B)		
(C) Total unrealized appreciation of assets. Add lines 2b(5)(A) and (B)	2b(5)(C)		0

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts.....	2b(6)		
(7) Net investment gain (loss) from pooled separate accounts.....	2b(7)		
(8) Net investment gain (loss) from master trust investment accounts.....	2b(8)		12306678
(9) Net investment gain (loss) from 103-12 investment entities.....	2b(9)		
(10) Net investment gain (loss) from registered investment companies (e.g., mutual funds).....	2b(10)		
c Other income.....	2c		
d Total income. Add all income amounts in column (b) and enter total.....	2d		44648096

Expenses

e Benefit payment and payments to provide benefits:			
(1) Directly to participants or beneficiaries, including direct rollovers.....	2e(1)	929299	
(2) To insurance carriers for the provision of benefits.....	2e(2)		
(3) Other.....	2e(3)		
(4) Total benefit payments. Add lines 2e(1) through (3).....	2e(4)		929299
f Corrective distributions (see instructions).....	2f		
g Certain deemed distributions of participant loans (see instructions).....	2g		
h Interest expense.....	2h		
i Administrative expenses: (1) Professional fees.....	2i(1)		
(2) Contract administrator fees.....	2i(2)

(4) Other.....	2i(4)		
(5) Total administrative expenses. Add lines 2i(1) through (4).....	2i(5)		0
j Total expenses. Add all expense amounts in column (b) and enter total.....	2j		929299

Net Income and Reconciliation

k Net income (loss). Subtract line 2j from line 2d.....	2k		43718797
l Transfers of assets:			
(1) To this plan.....	2l(1)		
(2) From this plan.....	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unqualified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)? ☐ Yes ☒ No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: BDO USA, LLP

(2) EIN: 13-5381590

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

- a** Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.).....
- b** Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.).....

	Yes	No	Amount
4a		X	
4b		X	

	Yes	No	Amount
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.).....		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?.....		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?.....		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked, and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?.....		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?
 If "Yes," enter the amount of any plan assets that reverted to the employer this year..... ☐ Yes ☒ No Amount:

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c If the plan is a defined benefit plan, is it covered under the PBGC insurance program (see ERISA section 4021)? ☒ Yes ☐ No ☐ Not determined

Part V Trust Information (optional)

6a Name of trust	6b Trust's EIN

SCHEDULE R (Form 5500) Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Retirement Plan Information This schedule is required to be filed under section 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	OMB No. 1210-0110 2014 This Form is Open to Public Inspection.
---	--	--

For calendar plan year 2014 or fiscal plan year beginning 01/01/2014 and ending 12/31/2014

A Name of plan <u>SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD</u>	B Three-digit plan number (PN) ▶ <u>011</u>
C Plan sponsor's name as shown on line 2a of Form 5500 <u>SCHLUMBERGER LIMITED</u>	D Employer Identification Number (EIN) <u>52-0684746</u>

Part I	Distributions
---------------	----------------------

All references to distributions relate only to payments of benefits during the plan year.

1 Total value of distributions paid in property other than in cash or the forms of property specified in the instructions.....	1	<u>0</u>
2 Enter the EIN(s) of payor(s) who paid benefits on behalf of the plan to participants or beneficiaries during the year (if more than two, enter EINs of the two payors who paid the greatest dollar amounts of benefits): EIN(s): <u>36-6913037</u>		
Profit-sharing plans, ESOPs, and stock bonus plans, skip line 3.		
3 Number of participants (living or deceased) whose benefits were distributed in a single sum, during the plan year.....	3	<u>23</u>

Part II	Funding Information (If the plan is not subject to the minimum funding requirements of section 412 of the Internal Revenue Code or ERISA section 302, skip this Part)
----------------	--

4 Is the plan administrator making an election under Code section 412(d)(2) or ERISA section 302(d)(2)?.....	☐ Yes	☒ No	☐ N/A
If the plan is a defined benefit plan, go to line 8.			
5 If a waiver of the minimum funding standard for a prior year is being amortized in this plan year, see instructions and enter the date of the ruling letter granting the waiver. Date: Month _____ Day _____ Year _____ If you completed line 5, complete lines 3, 9, and 10 of Schedule MB and do not complete the remainder of this schedule.			
6 a Enter the minimum required contribution for this plan year (include any prior year accumulated funding deficiency not waived).....	6a		
b Enter the amount contributed by the employer to the plan for this plan year.....	6b		
c Subtract the amount in line 6b from the amount in line 6a. Enter the result (enter a minus sign to the left of a negative amount)	6c		
If you completed line 6c, skip lines 8 and 9.			
7 Will the minimum funding amount reported on line 6c be met by the funding deadline?.....	☐ Yes	☐ No	☐ N/A
8 If a change in actuarial cost method was made for this plan year pursuant to a revenue procedure or other authority providing automatic approval for the change or a class ruling letter, does the plan sponsor or plan administrator agree with the change?.....	☐ Yes	☐ No	☒ N/A

Part III	Amendments
-----------------	-------------------

9 If this is a defined benefit pension plan, were any amendments adopted during this plan year that increased or decreased the value of benefits? If yes, check the appropriate box. If no, check the "No" box.....	☐ Increase	☒ Decrease	☐ Both	☐ No
--	-----------------------------------	--	-------------------------------	-----------------------------

Part IV	ESOPs (see instructions). If this is not a plan described under Section 409(a) or 4975(e)(7) of the Internal Revenue Code, skip this Part.
----------------	---

10 Were unallocated employer securities or proceeds from the sale of unallocated securities used to repay any exempt loan?	☐ Yes	☐ No
11 a Does the ESOP hold any preferred stock?	☐ Yes	☐ No
b If the ESOP has an outstanding exempt loan with the employer as lender, is such loan part of a "back-to-back" loan? (See instructions for definition of "back-to-back" loan.).....	☐ Yes	☐ No
12 Does the ESOP hold any stock that is not readily tradable on an established securities market?	☐ Yes	☐ No

Part V Additional Information for Multiemployer Defined Benefit Pension Plans

Independent Auditor's Report

To the Plan Administrator of the
Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad
Houston, Texas

We have audited the accompanying financial statements of the Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2014, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014, and the changes therein for the year then ended, and its financial status as of January 1, 2014 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following brief description of the Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan established on January 1, 2009 covering employees (U.S. citizens and/or U.S. taxpayers employed abroad) of Schlumberger Limited (the "Company") who have met certain requirements, including length of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan has an allocable interest in the net assets of the Schlumberger Master Pension Trust (the "Pension Trust"), which serves as the investing medium for the Plan and certain other plans of Schlumberger Limited and its affiliates.

The Plan is administered by an Administrative Committee, which is appointed by the Board of Directors of the Company. The Administrative Committee, which normally consists of at least three persons, is responsible for general administration of the Plan.

The Finance Committee is appointed by the Board of Directors of the Company. The Finance Committee communicates to The Northern Trust Company (the "Trustee") the funding policies and methods which have been established to carry out the objectives of the Plan.

Eligibility

Each employee who (a) is designated as an International Mobile employee, an International Commuter employee, a Europe Mobile employee or a GeoMobile employee who was a participant in the Schlumberger International Staff Pension Plan immediately prior to January 1, 2009, (b) is a U.S. taxpayer working outside of the U.S., and (c) has completed one year of continuous active employment shall be eligible to commence participation in the Plan on the first day of the next following month. An employee who was a participant in the Schlumberger International Staff Pension Plan prior to January 1, 2009, and who completes one hour of service on or after such date, shall be eligible to participate in the Plan as of January 1, 2009. Employees hired after January 1, 2009 are eligible to participate in the Plan as of the date the employee completes one year of active service, as defined in the Plan document. Notwithstanding the foregoing, in order to be eligible to become a participant, each employee must agree to make participant contributions in accordance with the written procedures of the Plan.

Effective October 1, 2014, the Plan was amended to exclude any new participants from participation in the Plan.

Vesting

A participant is 100% vested after five years of active service or attainment of age 50, whichever occurs first. A participant is 100% vested in his accrued benefits attributable to his contribution.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan (cont'd)

Retirement age

Normal retirement age is 65. Early retirement is permitted at age 55 for benefits accrued in 2009 and age 60 for benefits accrued after 2009. Special early retirement is permitted at age 55 for benefits accrued after 2009, and age 50 for benefits accrued in 2009, provided the participant has completed at least 20 years of active service.

Funding policy

Employer contributions are determined by an independent actuary, Sibson Consulting, and represent the annual amount required by ERISA to meet the minimum funding standards. These contributions are funded on or before required dates as set forth by ERISA. The Plan met the ERISA minimum funding requirement for 2014 and 2013. The Company at its option can contribute more than the minimum required. Active participants are required to contribute 4% of their admissible compensation, as defined in the Plan document, for each calendar year or portion thereof by automatic payroll deduction. Effective January 1, 2010, the required active participant contribution is 6% of their admissible compensation. Upon termination of employment prior to becoming vested, participant contributions, together with appropriate accumulated interest at a 6% rate, are refunded.

Benefits

Participants who are vested and whose benefits commence at or after normal, early or special early retirement age are entitled to receive pension benefits for their lifetime in annual amounts equal to the sum of their annual retirement credits as of their retirement date reduced for early commencement, as defined in the Plan document.

Participants accrue an annual retirement credit for each year (or portion thereof) of participation in the Plan equal to 3.2% of their admissible compensation for the plan year 2009. For each year of service after December 31, 2009, a participant shall accrue an annual retirement credit equal to 3.5% of admissible compensation.

The maximum annual benefit payable to a participant shall not exceed the lesser of \$210,000 and \$205,000 in 2014 and 2013, respectively, or 100% of the participant's average annual compensation for the three consecutive calendar years with the greatest aggregate compensation. The maximum admissible compensation shall not exceed \$260,000 and \$255,000 in 2014 and 2013, respectively. In addition, survivor benefits may be paid to a deceased participant's surviving spouse or to a designated beneficiary under certain retirement options.

Alternative benefit options are available, as outlined in the Plan document.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan (cont'd)

Plan expenses

Expenses required to maintain the Plan are absorbed by the Plan, unless otherwise paid by the Company.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Valuation of investments and income recognition

The Plan's interest in the Pension Trust is stated at fair value, and consists of an allocation of the Pension Trust's net assets that is based upon cumulative employer and participant contributions, net of benefits paid to terminated and retired participants, and allocations of the Pension Trust's investment income and administrative expenses.

The Plan follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). The Director, Trust Investments, determines the Plan's valuation policies utilizing information provided by the investment managers and the Trustee.

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

2. Summary of significant accounting policies (cont'd)

Valuation of investments (cont'd)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. On October 22, 2014, shareholders of the Capital International Emerging Markets Growth Fund approved the elimination of certain fundamental policies in order to allow the fund to convert from an open-end interval fund to an open-end, daily valued fund on October 31, 2014. As a result of this change, this fund has been transferred from Level 2 to Level 1 in the fair value hierarchy. Except as noted above, for the years ended December 31, 2014 and 2013, there were no significant transfers in or out of levels 1, 2 or 3. See Notes 6 and 7 for the disclosures required by FASB ASC 820 with regard to Plan investments.

A fair value measurement is for a particular asset or liability. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements. Accordingly, because the Plan does not hold shares of the Pension Trust, the disclosures required by FASB ASC 820 are required for the individual assets and liabilities under the Pension Trust and are not required for the Plan's total interest in the Pension Trust. Similarly, since the Pension Trust does not hold shares of the Schlumberger Group Trust (the "Group Trust"), the disclosures required by FASB ASC 820 are required for the individual assets and liabilities under the Group Trust and are not required for the Pension Trust's total interest in the Group Trust. Likewise, since the Group Trust does not own shares of the different investment pools which are disclosed in Note 7, the

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

2. Summary of significant accounting policies (cont'd)

Valuation of investments (cont'd)

disclosures required by FASB ASC 820 are required for the individual assets and liabilities under each investment pool and are not required for the Group Trust's total interest in each of the investment pools.

In determining the fair value of assets and liabilities underlying the Pension Trust, Group Trust and the investment pools owned by the Group Trust, the Pension Trust and Group Trust use various inputs and valuation methodologies which are described in Notes 6 and 7. There have been no significant changes in the inputs or valuation methodologies used at December 31, 2014 and 2013.

Investment income relating to the Pension Trust is allocated to the Plan based upon the average monthly balance invested by the Plan.

Benefit payments

Benefits are recorded when paid.

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain administrative expenses relating to the Pension Trust are allocated to the Plan based upon the average monthly balance invested by the Plan. Other administrative expenses are allocated to the Plan based on the specific services provided to the Plan.

Relevant accounting developments

In December 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-11, "Disclosures about Offsetting Assets and Liabilities." ASU No. 2011-11 contains guidance enhancing disclosure requirements about the nature of an entity's right to offset and related arrangements associated with its financial instruments and derivative instruments. The new guidance requires the disclosure of the gross amounts subject to rights of set-off, amounts offset in accordance with the accounting standards followed, and the related net exposure. The adoption of the provisions of ASU No. 2011-11, effective January 1, 2013, did not have an impact on the Plan's financial statements other than the newly required disclosures in Note 7.

In January 2013, the FASB issued ASU No. 2013-01, "Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities." ASU No. 2013-01 was issued to address implementation issues about the scope of ASU No. 2011-11. The amendments clarify that the scope of ASU No. 2011-11 applies to derivatives accounted for in accordance with ASC 815, "Derivatives and Hedging," including bifurcated embedded derivatives, repurchase agreements and reverse repurchase

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

2. Summary of significant accounting policies (cont'd)

Relevant accounting developments (cont'd)

agreements, and securities borrowing and securities lending transactions that are either offset in accordance with ASC Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement. The adoption of the provisions of ASU No. 2013-01, effective January 1, 2013, did not have a material impact on the Plan's financial statements.

In May 2015, the FASB issued ASU No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." ASU No. 2015-07 was issued to address diversity in practice related to how certain investments measured at net asset value with redemption dates in the future (including periodic redemption dates) are categorized within the fair value hierarchy. ASU No. 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU No. 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The new guidance will be effective for reporting periods beginning after December 15, 2016. Plan management is currently evaluating the impact of the adoption of ASU No. 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient." ASU No. 2015-12 was issued to simplify financial reporting by employee benefit plans. The amendments (i) require fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, not fair value; (ii) simplify and make more effective the investment disclosure requirements under FASB ASC 820 and under FASB ASC Topics 960, 962, and 965 for employee benefit plans; and (iii) provide a measurement date practical expedient for employee benefit plans when the plan's fiscal period does not coincide with a month-end. The amendments are effective for annual periods beginning after December 15, 2015. Early adoption is permitted. Plan management is currently evaluating the impact of the adoption of ASU No. 2015-12 on the Plan's financial statements.

3. Risks and uncertainties

Due to various risks (i.e., interest rate, market and credit risk) associated with certain investments of the Pension Trust and Group Trust, and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of the investments of the Pension Trust and Group Trust will occur in the near term, and this could materially affect the value of the Plan interest in the Pension Trust and the corresponding investment income reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits, respectively.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

3. Risks and uncertainties (cont'd)

The Pension Trust and Group Trust invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

4. Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic benefit payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered to the benefit information date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits, which is determined by an independent actuary, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal or retirement) between the benefit information date and the expected date of payment.

The calculation of the actuarial present value of accumulated plan benefits as of January 1, 2014 has been based on the following significant actuarial assumptions:

- a) Expected rate of return on investments (net of expenses): 7.5% (including a reduction of 0.5% to reflect anticipated administrative expenses associated with providing benefits)

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

4. Actuarial present value of accumulated plan benefits (cont'd)

- b) Mortality: RP2000 separate annuitant and non-annuitant healthy mortality tables (sex-specific) with static projection through the valuation date plus another 7 years for annuitants, and through the valuation date plus another 15 years for non-annuitants

- c) Retirement rates:

<u>Age</u>	<u>Rate</u>
50-54	0%
55-59	25%
60-64	40%
65	100%

- d) Retirement from terminated vested status: Age 60, with appropriate reduction

- e) Turnover rates:

<u>Age</u>	<u>Rate</u>
25	12.60%
30	10.30%
35	8.80%
40	8.25%
45	8.40%
50	11.37%
54	13.20%
55 and older	0.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial cost method used is the Unit Credit for both funding and the calculation of the actuarial present value of accumulated plan benefits.

The Plan is not considered an "at-risk-plan" for the 2014 Plan year.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

5. Plan termination

The Board of Directors reserves the right to terminate the Plan entirely or partially at any time. In the event of the termination or partial termination of the Plan, the right of each affected participant to benefits accrued to the date of such total or partial termination, to the extent then funded, shall become fully vested and non-forfeitable, and upon a complete termination all previously unallocated net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in accordance with the following priorities:

- a) Benefits to each participant representing that portion of each participant's accrued retirement benefit which is derived from the participant's contributions.
- b) In the case of benefits payable as an annuity:
 - (i) In the case of the benefit of a participant or beneficiary which was in pay status as of the beginning of the three-year period ending on the termination date of the Plan, to each such benefit, based on the provisions of the Plan (as in effect during the five-year period ending on such date) under which such benefit would be the least; and
 - (ii) In the case of a participant's or beneficiary's benefit (other than a benefit described in subparagraph (b) (i) above) which would have been in pay status as of the beginning of such three-year period if the participant had returned prior to the beginning of the three-year period and if his benefits had commenced (in the normal form of annuity under the Plan) as of the beginning of such period, to each such benefit based on the provisions of the Plan (as in effect during the five-year period ending on such date) under which such benefit would be the least.
- c) Benefits to each participant under the Plan guaranteed under Title IV of ERISA.
- d) Benefits to each participant representing other non-forfeitable benefits.
- e) All other benefits under the Plan.

After satisfaction of all liabilities of the Plan for benefits or otherwise, any residual assets remaining in the Pension Trust shall, unless otherwise required by ERISA, revert to the Company.

Generally, the Pension Benefit Guaranty Corporation (the "PBGC") guarantees the payment of most vested normal retirement benefits, early retirement benefits, and certain disability and survivor benefits and survivor pensions, subject to certain limitations. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Participants should consult the Plan document for more complete information related to guarantees of benefits.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

5. Plan termination (cont'd)

The PBGC guarantees vested benefits at the level in effect on the date of Plan termination. However, if benefits have been increased within the 5 years before Plan termination, the whole amount of the Plan's vested benefits or the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefits that PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

In the event of the Plan's withdrawal from the Pension Trust, the Trustee shall set apart that portion or equitable share of the Pension Trust allocated to the Plan pursuant to a valuation and allocation of the Pension Trust by the Trustee, subject to approval by the Finance Committee.

6. Interest in the Schlumberger Master Pension Trust

The Plan's investments are 100% in the Pension Trust. The Pension Trust was established for the investment of assets of the Plan and other qualified pension plans sponsored by Schlumberger Limited and its affiliates (collectively, the "Pension Plans"). Each participating plan has an allocable interest in the Pension Trust. The assets of the Pension Trust are held by the Trustee. At December 31, 2014 and 2013, the Plan's interest in the net assets of the Pension Trust was approximately 4.05% (\$160.2 million) and 3.25% (\$116.5 million), respectively. Investment income and certain administrative expenses relating to the Pension Trust are allocated to the individual plans based upon average monthly balances invested by each plan. Other administrative expenses are allocated to each plan based on the specific services provided to them. The plans' balances reflect transfers to and from the individual plans as well as the plans' share of investment income. In addition, any commitments of the Pension Trust are shared by the individual plans based on the participating plan's allocable interest.

Settlements	-	(17,325)	-	(17,325)
Balance, December 31, 2013	<u>\$ 62,448</u>	<u>\$ 203,899</u>	<u>\$ 4,170</u>	<u>\$ 270,517</u>
Unrealized gains relating to assets still held at year-end	<u>\$ 5,736</u>	<u>\$ 10,071</u>	<u>\$ -</u>	<u>\$ 15,807</u>

For the years ended December 31, 2014 and 2013, realized gains (losses) and unrealized gains from Level 3 assets are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets of the Pension Trust.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

6. Interest in the Schlumberger Master Pension Trust (cont'd)

Valuation of investments and financial liabilities

The Pension Trust interest in the Group Trust is stated at fair value, and consists of an allocation of the Group Trust's net assets that is based on amounts contributed by the Pension Trust and a certain other trust and plan of Schlumberger Limited and its affiliates, net of distributions, that are invested by the Group Trust, and a respective allocation of investment income and administrative expenses.

Short-term investment funds are stated using a constant price (or amortized cost) of \$1 per unit of participation, which approximates fair value.

Investments in real estate are made principally through pooled separate accounts and real estate investment trusts ("REIT"), which are stated at fair value represented by the net asset value of the pooled separate account or REIT at year-end, as determined by the investment manager based on the fair value of the underlying real estate investments. The fair value of the underlying real estate investments are valued by independent appraisers on an annual basis. However, because of the inherent uncertainty of the valuation, the valuation presented does not necessarily represent the amount that might ultimately be realized from the investment held. The investments in real estate were purchased for the sole benefit of the Pension Plans.

Investments in limited partnerships are stated at fair value represented by the net asset value of the partnership interests owned by the Pension Trust at year-end, as determined by the respective general partners of the limited partnerships based on the fair value of the underlying investments of the limited partnerships. In establishing the fair value of partnership investments, general partners take into consideration information from the financial statements of the companies in which they invest, as well as the currency in which the investment is denominated. Because of the inherent uncertainty of the valuation, the valuation presented does not necessarily represent the amount that might ultimately be realized from the investment held. The investments in limited partnerships were purchased for the sole benefit of the Pension Plans.

The GIC is stated at fair value, which approximates contract value. Contract value represents contributions and investment income less distributions and administrative expenses. The GIC was purchased for the sole benefit of the Schlumberger Technology Corporation Pension Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Pension Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

6. Interest in the Schlumberger Master Pension Trust (cont'd)

Valuation of investments and financial liabilities (cont'd)

The following table sets forth a summary of the Level 3 investments held by the Pension Trust reported at net asset value as of December 31, 2014 and 2013:

	Fair Value Estimated Using Net Asset Value per Share			Redemption Frequency (If Currently Eligible)	Redemption Notice Period
	Fair Value 2014	Fair Value 2013	Unfunded Commitments at December 31, 2014		
Real estate (1)	\$ 87,108	\$ 62,448	\$ 42,420	quarterly	45-90 days
Limited partnerships (2)	219,354	203,899	62,613	N/A	N/A
Total	<u>\$ 306,462</u>	<u>\$ 266,347</u>	<u>\$ 105,033</u>		

(1) Real estate primarily includes investments in pooled separate accounts and real estate investment trusts, concentrated in U.S. commercial real estate. Redemptions are subject to management's and/or board of director's approval.

(2) Limited partnerships include investments in several fund of funds limited partnerships that invest primarily in U.S. and foreign companies. These investments can never be redeemed with the funds. Instead, the nature of the investments is that distributions are received through the liquidation of the underlying assets of the funds. If these investments were held, it is estimated that the underlying assets of the funds would be liquidated over 10-15 years.

Commitments

The Pension Trust invests in certain real estate and limited partnerships investments whereby the Pension Trust commits to providing certain funds primarily on an "as needed" basis. During the year ended December 31, 2014, the Pension Trust increased commitments totaling approximately \$56.4 million and contributed approximately \$44.9 million. At December 31, 2014, the Pension Trust was committed to funding approximately \$105 million for such investments over a period not exceeding six years.

Investment transactions and investment income

Net appreciation or depreciation in fair value of investments includes realized gains or losses on investments sold and unrealized gains or losses on investments held. Unrealized gains or losses on investments represent the change in the difference between the cost and fair value of investments at the end of the year and at the beginning of the year.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

6. Interest in the Schlumberger Master Pension Trust (cont'd)

Investment transactions and investment income (cont'd)

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses on securities transactions are recorded as the difference between proceeds received and cost, with cost determined on the moving average basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

7. Interest in the Schlumberger Group Trust

A portion of the Pension Trust's investments are in the Group Trust. The Group Trust serves as the investing medium for the Pension Trust and a certain other trust and plan of Schlumberger Limited and its affiliates. Each participating trust and plan has an allocable interest in the Group Trust. The assets of the Group Trust are held by the Trustee. At December 31, 2014 and 2013, the Pension Trust's interest in the net assets of the Group Trust was approximately 40.81% (\$3.623 billion) and 40.36% (\$3.295 billion), respectively. Investment income and certain administrative expenses relating to the Group Trust are allocated to the individual trusts and plan based upon average monthly balances invested by each trust and plan in the underlying pooled investments of the Group Trust. Other administrative expenses are allocated to each trust and plan based on the specific services provided to them.

At December 31, 2014 and 2013, the Pension Trust's interest in the Group Trust investments was approximately as follows:

	<u>2014</u>	<u>2013</u>
U.S. Equities and Equity Index	23.85%	35.45%
Non-U.S. Equities	38.36%	44.07%
Fixed Income - Short Term	5.48%	8.26%
Treasury Inflation Protected Securities ("TIPS")	96.74%	44.31%
Liability-Driven Investing ("LDI")	76.70%	98.85%
Portable Alpha Equity	99.23%	99.28%
Large Cap Equity	5.25%	0.00%
Mid Cap Equity	29.56%	0.00%
Small Cap Equity	64.70%	0.00%
Low Volatility Equity	99.24%	0.00%

* Transferred from Level 1 to Level 3 because of lack of observable market data due to decrease in market activity for a common stock security.

** Transferred from Level 3 to Level 2 because of availability of observable market data due to increase in market activity for a residential mortgage-backed security.

For the years ended December 31, 2014 and 2013, realized gains (losses) and unrealized gains (losses) from Level 3 assets and liabilities are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets of the Group Trust.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

The following table represents the Group Trust's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2014 and 2013, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value (dollars in thousands) at December 31, 2014	Fair Value (dollars in thousands) at December 31, 2013	Principal Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Common stocks and other equities	\$ 1	\$ 1,056	Market Approach	Price adjustments based on comparable securities and other market assumptions	0.0001%
Corporate bonds and other fixed income obligations	848	1,187	Market Approach	Price adjustments based on comparable securities and other market assumptions	2.613% (as of 12/31/2014) 8.119% (as of 12/31/2013)
Government and other related bonds	23	25	Market Approach	Price adjustments based on comparable securities and other market assumptions	-0.991% (as of 12/31/2014) -0.012% (as of 12/31/2013)
Government mortgage-backed securities and other collateralized obligations	-	3,781	Market Approach	Price adjustments based on comparable securities and other market assumptions	0.243% (as of 12/31/2013)
Other short-term securities	-	3,599	Discounted Cash Flow	3 Month LIBOR	0.236 to 0.249 (0.241) (as of 12/31/2013)
Total	\$ 872	\$ 9,648			

In estimating fair value of the investments in Level 3, the Group Trust may use third-party pricing sources. In substantiating the reasonableness of the pricing data provided by third parties, plan management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, price movements of comparable securities, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

* Prior to close of first business day of each month

- (1) The Fund is an open-end interval management investment company that offers its shareholders the opportunity to purchase and redeem shares on a periodic basis. The Fund seeks long-term growth of capital and invests primarily in common stock and other equity securities of issuers in developing countries. The Fund redeems its shares at monthly intervals and accepts redemption requests at any time. The Fund has adopted, as a fundamental policy, liquidity procedures designed to more easily provide for redemptions, although there can be no guarantees of that result. The Fund's liquidity policy requires that the Fund maintain a portfolio of securities such that as of each day on which the Fund's assets are valued for purposes of calculating its net asset value, at least 85% of the Fund's net assets will either (i) mature by the next redemption payment date; or (ii) be capable of being sold between the redemption request deadline and the redemption payment date at approximately the price used in computing the Fund's net asset value.

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

- (2) The primary objective of the S&P 500 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the S&P 500 Index. This Index is commonly used to represent the large cap segment of the U.S. equity market. To achieve its objective, the Fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund may participate in securities lending. The Fund is valued daily and has a trade notification deadline of trade date minus one business day (T-1) at 9:30 Central.
- (3) The primary objective of the Daily S&P 500 Equity Index Fund - DC - Non Lending, a collective fund for qualified plans, is to approximate the risk and return characterized by the S&P 500 Index. This Index is commonly used to represent the large cap segment of the U.S. equity market. To achieve its objective, the Fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The fund may hold units of the NTGI-QM Collective Daily S&P 500 Equity Index Fund - Non Lending. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund does not participate in securities lending. The S&P 500 Fund is valued daily and has a trade notification deadline of trade date minus one business day (T-1) at 9:30 Central.
- (4) The investment objective of the Pyramis Small Company Commingled Pool (Portfolio) is to achieve long-term growth of capital, principally by investing in the equity securities of smaller, growing companies. The Portfolio's management is based on the selection of equity securities of companies which have relatively small market capitalizations, the potential for above average earnings-per-share growth and whose equity valuations are close to or below the average valuation level of established, larger companies' shares. The Portfolio has daily liquidity and the only restrictions to cash flow activity in the pool pertain to anti-dilution measures, wherein any flow in to or out of the pool that exceeds 2% of the total net assets of the pool must use a transition account, so as not to adversely affect other investors in the pool.
- (5) The investment objective of the Funds is to approximate as closely as practicable, before expenses, the performance of the Russell 1000 Index over the long term. The Funds attempt to achieve their investment objective by investing in other collective investment funds (each an "Underlying Fund"), managed by the Trustee, which have characteristics consistent with the Funds' overall investment objective. The net asset value per unit of the Funds is determined each business day and thus issuances and redemptions of Funds' units may be made on such days based upon the transaction price per unit of the Funds. Redemption from the Funds may be subject to certain withdrawal safeguards.
- (6) The primary objective of the EAFE Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the MSCI ("MSCI") Europe, Australasia, and Far East ("EAFE") Index. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund does not participate in securities lending.

7. Interest in the Schlumberger Group Trust (cont'd)

- (7) The primary objective of the Emerging Markets Index Fund, a collective fund for qualified plans, is to provide investment results that replicate the overall performance of the MSCI Emerging Markets Equity Index. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund does not participate in securities lending.
- (8) The primary objective of the Russell 1000 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the Russell 1000 Index. This Index is commonly used to represent the large cap segment of the U.S. equity market. This fund may hold units of the NT Collective Russell 1000 Growth Index Fund - Non Lending and the NT Collective Russell 1000 Value Index Fund - Non-Lending. This Fund may not participate in securities lending.
- (9) The primary objective of the S&P 400 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the S&P Mid Cap 400 Composite Index. This Index is commonly used to represent the mid cap segment of the U.S. equity market. To achieve its objective, the Fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund may not participate in securities lending.
- (10) The primary objective of the Russell 2000 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the Russell 2000 Index. This Index is commonly used to represent the small cap segment of the U.S. equity market. This fund may hold units of the NT Collective Russell 2000 Growth Index Fund - Non Lending and the NT Collective Russell 2000 Value Index Fund - Non Lending. This Fund may not participate in securities lending.
- (11) The primary objective of the S&P 500 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the S&P 500 Index. This Index is commonly used to represent the large cap segment of the U.S. equity market. To achieve its objective, the Fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund may not participate in securities lending.

Valuation of investments and financial liabilities

Cash and cash equivalents are stated at fair value. Foreign currency included in cash is translated using closing spot rates of exchange. Cash equivalents include repurchase agreements, U.S. Treasury bills and other highly liquid investments that are within three months of maturity when acquired, and short-term investment funds. Repurchase agreements are valued at amortized cost, which approximates fair value. U.S. government securities and government agency obligations included in cash equivalents are stated at fair value based on a bid evaluation. Short-term investment funds are stated using a constant price (or amortized cost) of \$1 per unit of participation, which approximates fair value. Other cash equivalents are valued on the basis of a bid evaluation or at amortized cost, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Valuation of investments and financial liabilities (cont'd)

Equity securities include U.S. and international equity securities. U.S. equities include companies that are well diversified by industry sector and equity style (i.e., growth and value strategies). Active and passive management strategies are employed. Investments are primarily in large capitalization stocks and, to a lesser extent, mid-and small-cap stocks. International equities are invested in companies that are traded on exchanges outside the U.S. and are well diversified by industry sector, country and equity style. Active and passive strategies are employed. The vast majority of the investments are made in companies in developed markets with a small percentage in emerging markets.

Common stocks and most of other equities are stated at fair value as determined by closing quoted market prices in active markets in which the securities are traded. Certain other equity investments are valued at fair value based on bid or mid prices (i.e., the average of the bid and ask prices).

Mutual funds and other registered investment companies are stated at fair value. Mutual funds are valued at quoted market prices (available to institutions and retail clients) which represent the net asset value of shares owned by the Group Trust at year-end. Certain other registered investment companies are valued based on the net asset value of the units owned by the Group Trust at year-end as determined by the investment manager of the other registered investment companies based on the fair value of the underlying investments of the other registered investment companies. Exchange traded funds, also considered to be other registered investment companies, are valued at quoted market prices, which may not represent the net asset value of the units owned by the Group Trust at year-end. Other registered investment companies include an open-end interval management investment fund that offers its shareholders the opportunity to purchase and redeem shares on a periodic basis. The mutual funds and other registered investment companies held by the Group Trust are deemed to be actively traded.

Collective and other trusts are stated at fair value, represented by the net asset value of the units of participation owned by the Group Trust at year end as determined by the trustees of the collective and other trusts based on the fair value of the underlying investments of the collective and other trusts.

Corporate bonds and other fixed income obligations consist primarily of investment grade bonds from diversified industries. Corporate bonds and other fixed income obligations are stated at fair value. Certain corporate bonds and other fixed income obligations are valued based on a bid evaluation while others are valued based on mid and bid prices (i.e., a bid price represents a price a dealer is ready to pay for a security). Oftentimes, bid evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Valuation of investments and financial liabilities (cont'd)

Government and other related bonds are comprised primarily of inflation protected U.S. treasuries, and to a lesser extent, other government-related securities (e.g., government agency obligations, and municipal and provincial bonds). Government and other related bonds are stated at fair value. Government and other related bonds, other than for those which have quoted market prices available, are valued based on a bid evaluation (i.e., an estimated price at which a dealer would pay for a security). Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Government mortgage-backed securities and other collateralized obligations are debt obligations that represent claims to the cash flows from pools of credit cards, auto loans and mortgage loans which are purchased from banks, mortgage companies, and other originators and then assembled into pools by governmental, quasi-governmental and private entities. Government mortgage-backed securities and other collateralized obligations are stated at fair value. Government mortgage-backed securities and other collateralized obligations are valued based on a bid evaluation. Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The GIC is stated at fair value, represented by the net asset value, as determined by the insurance company, of the underlying investments in the separate account. The GIC's fair value approximates its contract value. The GIC is 100% allocable to the Schlumberger Master Profit Sharing Trust. The GIC was terminated as of August 1, 2014.

Asset derivatives include options, rights, warrants, swaps, swaptions and pending foreign exchange purchases. Derivatives are stated at fair value. Exchange traded options and rights are valued based on a settlement price which is the price set by the exchange at the end of each day's trading. Pending foreign exchange purchases are marked-to-market based upon year-end forward exchange rates. Other derivatives are valued based on a bid price or a mid evaluation (i.e., the average of the estimated prices at which a dealer would pay for and sell a security). Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Short-term securities under security lending agreement represent short-term investments purchased with proceeds from cash collateral received from borrowers of the Group Trust's securities. Short-term securities under the security lending agreement are valued at cost, which approximates fair value.

Other short-term securities are valued based on a bid evaluation or at amortized cost, which approximates fair value.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Valuation of investments and financial liabilities (cont'd)

Liability derivatives (which include options, swaps, and pending foreign exchange sales) and other liabilities are stated at fair value. Exchange traded options are valued based on a settlement price which is the price set by the exchange at the end of each day's trading. Pending foreign exchange sales are marked-to-market based upon year-end forward exchange rates. Other derivatives are valued on the basis of a mid evaluation. Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Other liabilities are valued at cost, which approximates fair value.

The obligation under security lending agreement represents amounts due to borrowers of the Group Trust's securities for the cash collateral received from them. The amount due approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Group Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The disclosures required by FASB ASC 820 are not required for due from brokers for securities sold, due to brokers for securities purchased, accrued income, other assets and other liabilities.

Investment transactions and investment income

Net appreciation or depreciation in fair value of investments includes realized gains or losses on investments sold and unrealized gains or losses on investments held. Unrealized gains or losses on investments represent the change in the difference between the cost and fair value of investments at the end of the year and at the beginning of the year.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains or losses on securities transactions are recorded as the difference between proceeds received and cost, with cost determined on the moving average basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Derivative financial instruments

The Group Trust enters into various derivative financial instruments in carrying out its investment strategy, principally to: (1) hedge a portion of the Group Trust's portfolio to limit or minimize exposure to certain risks such as foreign exchange risk, interest rate risk, credit risk, and equity risk, (2) gain an exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Derivative financial instruments (cont'd)

Forward foreign exchange contracts are used to protect the Group Trust against the exchange risk associated with the Group Trust's investment in common stock and fixed income obligations denominated in foreign currency because the Group Trust is able to secure an exchange rate in the present for settlement at a future date. The terms of these contracts generally do not exceed one year. Risks in forward foreign exchange contracts arise from the possible inability of counterparties to meet the contract's terms and from movements in currency values.

The Group Trust reflects the fair value of all forward contracts as an asset (forward contracts to purchase foreign currency) or liability (forward contracts to sell foreign currency) in the Group Trust's statements of net assets. The change in value of these forward exchange contracts is included as unrealized gains or losses in the changes in Group Trust net assets. When the forward exchange contract is closed, the Group Trust transfers the unrealized appreciation or depreciation to a realized gain or loss equal to the change in the value of the forward exchange contract when it was opened and the value at the time it was closed or offset. Unrealized and realized gains and losses are included in net appreciation (depreciation) in the Group Trust's statements of changes in net assets.

Interest rate contracts such as fixed income futures, interest rate swaps, and option premiums are used to manage the interest rate risk.

The Group Trust enters into fixed-income futures contracts in the normal course of its investment activities to reduce the interest rate risk associated with its fixed-income investments, to replicate government bond positions, and as a duration management tool to enhance portfolio returns.

Upon entering into a fixed-income futures contract, the Group Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Group Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin" which is settled daily and is included in net appreciation (depreciation) in the changes in Group Trust net assets. The Group Trust records a variation margin receivable or payable in the Group Trust's statements of net assets for valuation margins which have not been received or paid at the end of the year. Fixed-income futures contracts are not included in the Group Trust's statements of net assets as cash settlements are made daily.

The risk of counterparty non-performance associated with the use of fixed-income futures is considered to be modest as performance is assured by the futures exchanges, which provide multiple layers of protection, such as the collection of variation margin on a daily basis and the use of standardized contracts to facilitate liquidity.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Derivative financial instruments (cont'd)

Interest rate swaps are used to adjust interest rate and yield curve exposures and as a substitute for physical securities. Swap agreements involve the exchange by the Group Trust with a counterparty of the respective commitments to pay or receive interest with respect to a notional amount of principal. Market risk of loss is limited to changes in the fair value from December 31 of each year presented through the applicable expiration date. Long swap positions increase exposure to long-term interest rates while short positions decrease exposure. The Group Trust is subject to the risk of the counterparty to an interest rate swap agreement being unable or unwilling to make timely interest payments, or to otherwise honor its obligations.

The Group Trust reflects the fair value of all interest rate swaps as an asset or liability in the Group Trust's statements of net assets. Gains or losses on interest rate swaps are accounted in net appreciation (depreciation) in the Group Trust's statements of changes in net assets.

The Group Trust may buy or write put and call options through listed exchanges and in the over-the-counter ("OTC") market. When the Group Trust buys or writes an option, an amount equal to the premium paid or received by the Group Trust is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses upon the expiration of the options. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction also is treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost if acquired. The Group Trust, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option. Options to purchase and sell fixed income securities and swaptions are used to manage interest rate and volatility exposure, while credit spreads are used to manage credit risk. Options will become worthless at expiration if the underlying instrument does not reach the strike price of the option.

The Group Trust may use derivatives including stock rights and warrants as a substitute for investment in equity and fixed-income securities or to reduce the effect of fluctuating foreign currencies on foreign currency denominated investments.

Rights are the right, but not the obligation, to purchase newly issued equity shares, often in proportion to the number of shares currently owned, in a specified company, at a pre-established price on or within a pre-determined date. Rights are privately transacted in OTC markets. Rights are subject to general market risk and liquidity risk.

A warrant provides the holder the right, but not the obligation, to purchase securities from the issuing entity at a specific price and within a certain time period. Warrants are privately transacted in OTC markets. The Group Trust may purchase or receive warrants from its investment in the debt or equity of a company. The warrants provide the Group Trust with exposure and potential gains upon equity appreciation of the company's share price.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Derivative financial instruments (cont'd)

The value of a warrant has two components: time value and intrinsic value. A warrant has a limited life and expires on a certain date. As the expiration date of a warrant approaches, the time value of a warrant will decline. In addition, if the stock underlying the warrant declines in price, the intrinsic value of an "in the money" warrant will decline. Further, if the price of the stock underlying the warrant does not exceed the strike price of the warrant on the expiration date, the warrant will expire worthless. As a result, there is the potential for the Group Trust to lose its entire investment in a warrant.

Credit default swaps ("CDS") are used to manage credit exposure without buying or selling securities outright. Written CDS increase credit exposure ("selling protection"), obligating the portfolio to buy bonds from counterparties in the event of a default. Purchased CDS decrease exposure ("buying protection"), providing the right to "put" bonds to the counterparty in the event of a default. CDS agreements involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation or index. As a seller of protection on credit default swap agreements, the Group Trust will generally receive from the buyer of protection a fixed rate of income throughout the term of the swap provided that there is no credit event. Typical credit events include bankruptcy, dissolution or insolvency of the referenced entity, failure to pay and restructuring of the obligations of the referenced entity. As the seller, the Group Trust would effectively add leverage to its portfolio because, in addition to its total net assets, the Group Trust would be subject to investment exposure on the notional amount of the swap.

If the Group Trust is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Group Trust will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If the Group Trust is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Group Trust will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

The Group Trust may use credit default swaps on corporate issues, sovereign issues of an emerging country or U.S. municipal issues to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Group Trust owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default. The Group Trust also may use credit default swaps on credit indices to hedge a portfolio of credit default swaps or bonds, which is less expensive than it would be to buy many credit

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Derivative financial instruments (cont'd)

default swaps to achieve a similar effect. Credit default swaps on indices are benchmarks for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality. At December 31, 2014 and 2013, the Group Trust did not hold credit default swaps where the Group Trust was a seller of protection.

The maximum potential amount of future payments (undiscounted) that the Group Trust as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Group Trust for the same referenced entity or entities. Securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate, sovereign, U.S. municipal or U.S. Treasury obligation issues as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The Group Trust reflects the fair value of all CDS as an asset or liability in the Group Trust's statements of net assets. Gains or losses on CDS are accounted in net appreciation (depreciation) in the Group Trust's statements of changes in net assets.

The Group Trust enters into equity futures contracts to manage the risk that the fair value or future cash flows of an equity financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument, or its issuer, or factors affecting all similar financial instruments traded in the market.

The objective of the S&P 500 Index futures contracts is to lock in the return of the S&P 500 Index and then use fixed income assets to add excess return over the benchmark. The risks involved with owning S&P 500 Index futures contracts are related to the volatility of the S&P 500 Index and that the performance of the Index and the futures may differ slightly. Changes in the contract values are settled daily and gains and losses are included in net appreciation (depreciation) in the fair value of investments in the Group Trust's statements of changes in net assets. S&P 500 Index futures contracts are not included in the Group Trust's statements of net assets as cash settlements are made daily.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

7. Interest in the Schlumberger Group Trust (cont'd)

Derivative financial instruments (cont'd)

U.S. Treasury Bills, U.S. Treasury Bonds, short-term investments, and cash with a fair value of \$2,300,000 and \$713,000 at December 31, 2014 and 2013, respectively, were posted by brokers and held by the Group Trust as collateral for derivative transactions. The notional amount of this collateral at December 31, 2014 and 2013 was \$2,300,000 and \$713,000, respectively.

Assets owned and included in the Group Trust's statements of net assets, with a fair value of \$32,863,329 and \$18,838,318 at December 31, 2014 and 2013, respectively, were held by the Group Trust's brokers as collateral for derivative transactions. The notional amount of this collateral at December 31, 2014 and 2013 was \$32,542,000 and \$19,769,000, respectively.

Certain of the Group Trust's derivative documents contain provisions, in addition to standard events of default, which if violated could cause a counterparty to declare a termination event and terminate the relevant agreement(s) with the Group Trust, which would result in a determination of the net amount due to or due from the counterparty and require immediate payment in accordance therewith. The aggregate fair value of all derivative instruments with credit-risk-related contingency features that are in a net liability position on December 31, 2014 and 2013 was \$8,580,060 and \$7,656,356, respectively. If the credit-risk-related contingency features underlying these agreements were triggered on December 31, 2014 and 2013 with respect to one or more counterparties and any of such counterparties declared a termination event, as of the effective date of termination all derivative positions would be valued in accordance with the valuation procedures set forth in the derivatives documentation and the net amount due to or due from the counterparty would be payable by or payable to the Group Trust, respectively.

The Group Trust is subject to various Master Agreements, which govern the terms of certain transactions with select counterparties. These Master Agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of forward and OTC financial derivative transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different Master Agreement, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Group Trust to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single agreement with that counterparty.

Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant master agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to \$250,000 depending on the counterparty and the type of Master Agreement. United States Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of AAA rated paper may be used. The Group Trust's overall exposure to counterparty risk can change substantially within a short period, as it is affected by each transaction subject to the relevant Master Agreement.

As of December 31, 2014 and 2013, the Group Trust holds certain derivative instruments that are eligible for offset in the statements of net assets and are subject to the terms of master netting arrangements between the Group Trust and select counterparties. In the case of default, the master netting arrangement allows the Group Trust to close out and net its total exposure to a counterparty with respect to all the transactions governed under a single agreement with that counterparty. For financial reporting purposes, the Group Trust does not offset derivative assets and derivative liabilities that are subject to master netting agreements in the statements of net assets.

Security lending

Pursuant to the investment objectives of the Group Trust, stock loan transactions are permitted with the objective of adding investment income to the Group Trust. The Group Trust may lend securities held to unaffiliated broker-dealers registered under the Securities Exchange Act of 1934, or banks organized in the United States of America through the Group Trust's participation in the Trustee's securities lending program. At all times, the borrower must maintain cash or equivalent collateral equal in value to at least 100 percent of the value of the securities loaned. The cash collateral generally is invested in short-term securities which generate income that is allocated between the security lending agent and the Group Trust at predetermined contractual rates. The primary risk in lending securities is that a third-party borrower may default during a sharp rise in the price of the security that was borrowed, resulting in a deficiency in the collateral posted by the third-party borrower. The Group Trust seeks to minimize this risk by requiring that the market value of the loaned securities is recomputed each day and that additional collateral is furnished daily, if necessary. The Group Trust records cash collateral received from the third-

Security lending (cont'd)

party borrower as an asset and also records a corresponding liability for the return of the cash collateral. The Group Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. The fair value of the securities loaned in the Group Trust securities lending program amounted to \$457,702,807 and \$448,589,043 at December 31, 2014 and 2013, respectively, and is included in Investments in the Group Trust. The Group Trust recorded gross earnings from lending securities of \$1,183,875 and \$1,442,884 in 2014 and 2013, respectively, and net income of \$1,127,198 and \$1,148,541 in 2014 and 2013, respectively. Participating brokers paid \$426,046 and \$197,571 for rebates in 2014 and 2013, respectively, and the Trustee received \$482,723 and \$491,913 in 2014 and 2013, respectively, for fees relating to security lending activity.

8. Tax status

The Plan obtained its latest determination letter on August 2, 2012 in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status. Plan management and tax counsel believe that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD

NOTES TO FINANCIAL STATEMENTS

9. Party-in-interest transactions

Custodial fees paid to the Trustee by the Pension Trust were approximately \$785,000 and \$760,000 for the years ended December 31, 2014 and 2013, respectively. A portion of these fees is allocated to the Plan. Through its interest in the Pension Trust, certain investments held by the Plan are managed by the Trustee or an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transactions rules under ERISA.

10. Reconciliation to the Form 5500

The following is a reconciliation of Plan interest in the Schlumberger Master Pension Trust investment income per the financial statements to the Form 5500 for the year ended December 31, 2014:

	Year Ended December 31, 2014		
	Amounts per Financial Statements	Administrative Expenses	Amounts per Form 5500
Plan interest in the Pension Trust investment income	\$ 12,747,038	\$ (440,360)	\$ 12,306,678

11. Subsequent events

For purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through October 15, 2015, the date on which the financial statements were available to be issued.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 52-0684746 PN 011

Actuarial Assumptions and Methodologies (Funding)

Interest:	<p>The interest rates used for the 2014 plan year are the 24-month average corporate bond segment rates for January 2014 subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average of corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2014, the stabilization corridor is 10%. It will remain at 10% through 2017, then increase by 5% per year until it reaches 30% for 2021. The rates are as follows:</p> <table><tr><th></th><th>Payments in the First 5 Years</th><th>Payments in Years 6 – 20</th><th>Payments Thereafter</th><th>Effective Interest Rate</th></tr><tr><td>Current Year, reflecting stabilization (under HATFA)</td><td>4.99%</td><td>6.32%</td><td>6.99%</td><td>6.70%</td></tr><tr><td>Current Year, without stabilization</td><td>1.25%</td><td>4.06%</td><td>5.08%</td><td>4.72%</td></tr><tr><td>Prior Year, reflecting stabilization (under MAP-21)</td><td>4.94%</td><td>6.15%</td><td>6.76%</td><td>6.51%</td></tr><tr><td>Prior Year, without stabilization</td><td>1.62%</td><td>4.40%</td><td>5.45%</td><td>5.08%</td></tr></table> <p>The segment rates used to determine the PBGC variable rate premium are the same as those used for funding, without reflecting funding stabilization.</p>		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate	Current Year, reflecting stabilization (under HATFA)	4.99%	6.32%	6.99%	6.70%	Current Year, without stabilization	1.25%	4.06%	5.08%	4.72%	Prior Year, reflecting stabilization (under MAP-21)	4.94%	6.15%	6.76%	6.51%	Prior Year, without stabilization	1.62%	4.40%	5.45%	5.08%
	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate																						
Current Year, reflecting stabilization (under HATFA)	4.99%	6.32%	6.99%	6.70%																						
Current Year, without stabilization	1.25%	4.06%	5.08%	4.72%																						
Prior Year, reflecting stabilization (under MAP-21)	4.94%	6.15%	6.76%	6.51%																						
Prior Year, without stabilization	1.62%	4.40%	5.45%	5.08%																						
Mortality rates:	<p>RP2000 separate annuitant and non-annuitant healthy mortality tables (sex-specific) with static projection using Scale AA and no collar-adjustment. Mortality is projected through the valuation date plus another 7 years for annuitants, and through the valuation date plus another 15 years for non-annuitants. This assumption is one of the choices allowed by the regulations.</p>

Description of Weighted Average Retirement Age:	<p>Age 58, determined as follows: The weighted average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.</p>																				

Attachment to 2014 Schedule SB of Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 52-0684746 PN 011

Actuarial Assumptions and Methodologies (Funding) *continued*

Retirement from terminated vested status:	Age 60, with appropriate reduction
Percent married:	80% for males, 60% for females
Age difference:	Husbands are three years older than their wives.
Administrative expenses:	An expense assumption is required under the funding rules. Plan-related expenses of \$273,619 (based on the actual amount paid during the prior year) are expected to be paid by the plan during the year.
Asset method:	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 7.52% in 2012 and 6.76% in 2013.
Funding method:	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.

4 If the plan is in at-risk status, check the box and complete lines (a) and (b) ☐			
a Funding target disregarding prescribed at-risk assumptions	4a		
b Funding target reflecting at-risk assumptions, but disregarding transition rule for plans that have been in at-risk status for fewer than five consecutive years and disregarding loading factor	4b		
5 Effective interest rate	5	6.70%	
6 Target normal cost	6	9209356	

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 52-0684746 PN 011

Age	Rate of Retirement	Lx	Number of Retirements	Number of Retirements * Age
55	25.00%	10,000	2,500	137,500
56	25.00	7,500	1,875	105,000
57	25.00	5,625	1,406	80,156
58	25.00	4,219	1,055	61,172
59	25.00	3,164	791	46,670
60	40.00	2,373	949	56,953
61	40.00	1,424	570	34,741
62	40.00	854	342	21,187
63	40.00	513	205	12,917
64	40.00	308	123	7,873
65	100.00	185	185	11,994
Total			10,000	576,163

Weighted Average Retirement Age: 57.62

*The weighted average retirement age is equal to the total (Number of Retirements * Age) divided by the total number of retirements, rounded to the nearest integral age.*

Attachment to 2014 Schedule SB of Form 5500
Schedule SB, Part V – Summary of Plan Provisions
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 52-0684746 PN 011

Summary of Plan Provisions

This subsection summarizes the major provisions of the Plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

PLAN STATUS: ONGOING	
EFFECTIVE DATE: JANUARY 1, 2009	
Normal retirement:	
Age requirement:	65
Service requirement:	None
Amount:	3.2% of admissible compensation for the 2009 plan year, plus 3.5% of admissible compensation for each year of service after 2009.
Early retirement:	
Age requirement:	60 for benefits accrued after 2009; 55 for benefits accrued in 2009.
Service requirement:	None
Amount:	Normal retirement pension accrued without reduction for early retirement
Special early retirement:	
Age requirement:	55 for benefits accrued after 2009; 50 for 2009 accruals
Service requirement:	None for benefits accrued after 2009; 20 years for 2009 accruals
Amount:	Normal retirement pension accrued reduced by 4% per year below age 60 (post 2009 accruals) or 55 (2009 accruals).

EIN 52-0684746 PN 011

Summary of Plan Provisions *continued*

Vesting:	
Requirement:	Age 50 or 5 years vesting service if under age 50
Amount:	Normal retirement pension accrued payable at age 65, or at early retirement date (i.e., 55 for 2009 accruals, age 60 for post-2009 accruals) with the following reduction - 4% for each of the first 5 years and 3% for each additional year below age 65.
Vesting percentage:	100% after 5 years of service or attainment of age 50
Pre-retirement death benefits:	
Age:	None
Service requirement:	5 years
Amount:	50% of accrued benefit payable as life annuity, 60% if at least age 55, payable upon death
Post-retirement death benefits:	
Joint and Survivor:	If married, pension benefits are paid in the form of a joint and survivor annuity unless this form is rejected by employee. If rejected, or if not married, benefits are payable for the life of the employee with 10 years of payment guaranteed without reduction or in any other available optional form elected by the employee in an actuarially equivalent amount.
Employee Contributions:	
Required Contributions	Participants contribute 6% (4% in 2009) of their admissible compensations.
Withdrawal of Contribution	Upon termination of employment prior to becoming vested, employee contributions, together with appropriate accumulated interest at a 6% rate, are refunded.
Return of Contributions in the Event of Death	In the event of death prior to benefit commencement, employee contributions with interest to the date of death are refunded to any participant.
Participation:	
Age requirement:	None
Service requirement:	After one year of vesting service (including pre-2009 service)
Eligibility	Employees of International Staff who are US taxpayers (Citizens and GCH's)
Service:	
Vesting:	All years of employment are credited, including SLB service
Benefit:	From date of participation
