Union Hospital 403(b) Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013
(Modified Cash Basis)

Note 1: Description of the Plan

The following description of the Union Hospital 403(b) Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by The Union Hospital Association (the Hospital) for the benefit of its employees. All employees of the Hospital are immediately eligible to participate in the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

State Street Bank & Trust Company serves as the custodian of the Plan, and Transamerica Retirement Solutions Corporation serves as the record-keeper for the Plan. ING Life Insurance and Annuity Company (ING) serves as the custodian for several outstanding participant loan balances (see Note 2). During 2014, ING became Voya Retirement Insurance and Annuity Company.

The Plan only includes salary deferral contributions. Employer contributions of \$8,848 and \$10,057 at December 31, 2014 and 2013, respectively, relate to qualified nonelective contributions for prior Plan years. Based upon eligibility requirements, employees are able to participate in a separate retirement plan sponsored by the Hospital which includes the employer match benefit.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Hospital make annual contributions of up to 100% of eligible compensation. However, the deferral may not exceed an amount that would cause a violation of ERISA. Employee rollover contributions are also permitted. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Hospital's contribution attributable to balances and qualified nonelective contributions from prior Plan years, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements
December 31, 2014 and 2013
(Modified Cash Basis)

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, and qualified nonelective contributions, plus earnings thereon.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his or her account, a joint and survivor annuity, a series of installment payments over a period of five years, or a combination of these. At December 31, 2014 and 2013, there were no plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to its active participants who are members of the Ohio Nurses Association. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence). Loan repayments are made directly to the record-keeper by the participant. Each payment is subject to a 3% loan administrative charge. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Plan Termination

Although it has not expressed an intention to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements and schedules on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Consequently, certain revenue and related assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligation is incurred.

Union Hospital 403(b) Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

(Modified Cash Basis)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Mutual Funds and Money Market Funds

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end.

Pooled Separate Accounts and Pooled Separate Account – Group Annuity Contract

The Plan's pooled separate accounts and pooled separate account – group annuity contract are valued at estimated fair value as provided by Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company) and Transamerica Financial Life Insurance Company, Inc.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not obtained a determination letter as the Internal Revenue Service does not currently provide that service for 403(b) plans. The plan administrator believes that the Plan is currently designed and

being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Reconciliation to Form 5500

The statement of net assets available for benefits differs from the Form 5500 due to the impact of adjustment from fair value to contract value for fully benefit-responsive contracts.

Administrative Expenses

Administrative expenses may be paid by the Hospital or the Plan, at the Hospital's discretion.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust Company, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate to the best of their knowledge and belief:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at year end) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Notes receivable totaling \$88,822 and \$107,509 are held at Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company) and were not included in the custodian's certification for 2014 and 2013, respectively.

The Plan invests in certain funds of the Plan custodians. The Plan paid \$165,764 and \$142,558 in fees to the record-keeper during 2014 and 2013, respectively. The Hospital provides certain administrative services at no cost to the Plan.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Union Hospital 403(b) Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013
(Modified Cash Basis)

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There were no Level 3 securities identified.

Mutual funds and money market funds: Valued at quoted market prices in active markets.

Pooled separate accounts and pooled separate account – group annuity contract: These funds are valued at their respective net asset value (NAV) as reported by the funds daily. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
