Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2014, and the changes in its net assets available for benefits for the year then ended, and the financial status of the Plan at December 31, 2013, and the changes in its financial status for the year then ended, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules of assets (held at end of year) of the Group Trust as of December 31, 2014, and reportable transactions of the Group Trust for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 1 PLAN DESCRIPTION

The Major League Baseball— Minor League Players' Pension Plan (the Plan or the Minor League Plan) is a noncontributory multiple-employer, defined-benefit pension plan intended to meet the qualification requirements of Section 401(a) of the Internal Revenue Code (the Code) of 1986, as amended. The Plan was established to provide retirement and death benefits to eligible Minor League Players' listed on the roster of any minor league baseball club affiliated with Major League Baseball (collectively, the "Participating Clubs" and individually, a "Club") on or after January 1, 2008. Except as expressly provided herein, events occurring prior to January 1, 2008 shall be governed by the Major League Baseball Pension Plan for Non-Uniformed Personnel (the NUPP or the Prior Plan) in effect at the time the event occurred. The Plan, as a multiple-employer plan, provides benefits to Minor League Players' employed by any Club.

In 2008, assets were spun off from the single-employer plans of Participating Clubs who had adopted the NUPP to establish the Minor League Plan.

The Code Section 415(b) maximum benefit limit was \$210,000 and \$205,000 for 2014 and 2013, respectively.

The Plan is presently administered by a 9 member Pension Committee consisting of the chief investment officer, special assistant to the Commissioner, senior vice president and deputy general counsel labor and human resources, all of the Office of the Commissioner of Baseball (BOC), and six individuals appointed by a majority vote of the Participating Clubs.

The investments of the Plan are held by U.S. Bank (the Trustee), for the various Participating Employer's plans in the Major League Baseball Group Pension Trust (the Group Trust; see Note 3).

The Participating Clubs have agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits expected to be paid to participants employed by the Participating Clubs. The contributions by the Participating Clubs are not to be used to pay benefits to participants employed by any other Participating Clubs. Such contributions are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974, plus such additional amounts as may be determined to be appropriate from time to time. Such minimum funding requirements have been met for 2014 and 2013.

NOTE 1 **PLAN DESCRIPTION** *(continued)*

Eligible employees participate in the Plan after they have attained age 21 and have completed one year of eligible service. Benefits under the Plan fully vest upon completion of five years of vesting service, which includes cumulative years of service prior to establishment of the applicable Plan.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of these benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Effective December 1, 2010, the Pension Committee of the NUPP agreed to transfer inactive Minor League Players' from the NUPP to the Plan. The transfer reallocated the assets of those inactive Minor League Players' from the NUPP to the Plan, within the Group Trust. For the year ended December 31, 2013, the remaining plan assets of \$5.2 million associated with those participants were finalized and transferred to the Plan.

Additional information about the Plan, including the vesting and benefit provisions and the PBGC's benefit guarantee, is available through the Participating Clubs or the BOC and related Plan documents.

NOTE 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees through the valuation date (January 1 of each year). Accumulated plan benefits include benefits expected to be paid to: (a) retired employees or their designated beneficiaries and (b) present employees or their designated beneficiaries. Monthly benefits are determined by a formula provided for in the Plan document. Such monthly benefits are limited under Internal Revenue Service (IRS) guidelines in 2014 and 2013 to the lesser of \$17,500 and \$17,083, respectively, or the employees' highest average monthly compensation for three consecutive years that the participant is employed by the respective Club. Benefits payable are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in the U.S. requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investments and Valuation

The Plan participates in the Group Trust, as further described in Note 3. The Plan records its interest in investments of the Group Trust at fair value.

Investments held by the Group Trust are stated at fair value. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net investment gain includes gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

The Pension Committee is responsible for determining the Group Trust's valuation policies and analyzing information provided by the investment managers and issuers that is used to determine the fair value of the Group Trust's investments. Refer to Note 4 for the valuation techniques and inputs used by the Pension Committee for the instruments categorized within Level 3 of the fair value hierarchy.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Accounting Guidance Not Yet Adopted

In May 2015, the FASB issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently assessing the potential impact of ASU 2015-07 on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

Contributions received from the Participating Clubs are deposited with the Trustee. The assets are invested as part of the Group Trust. Each plan participating in the Group Trust owns a percentage of the underlying assets of the Group Trust and not the individual assets themselves. The assets of the Group Trust are comprised of investments in common stocks, equity mutual funds, government obligations, corporate bonds and notes, hedge funds, collective investment funds, interest rate swaps, and cash and cash equivalents.

The assets of the Plan are not guaranteed as to principal or income. Investment income and all gains and losses, whether or not realized, are recognized on the accrual basis.

NOTE 3 INVESTMENTS *(continued)*

With respect to investments in the Group Trust, on a quarterly basis, each plan's net assets are remeasured. This is done by first adjusting the plan's beginning balance for employer-specific items, such as contributions, benefit payments, withdrawals, and any specific expenses incurred. Investment income and loss, investment fees and expenses, and realized and unrealized gains or losses on investments are then allocated to each plan based on the percentage of its fair value to the combined fair value of all plans participating in the Group Trust. At December 31, 2014 and 2013, the individual plan's owned the following portions of the total fair value of the underlying investments comprising the Group Trust:

NOTE 3 INVESTMENTS *(continued)*

Investment managers exercise discretionary authority, subject to certain limitations, for the purchase, sale, and management of the investments of the Group Trust that have been allocated to them for such purposes. Provisions relating to this discretionary authority and a representation by each of the investment managers that it is duly registered with the SEC pursuant to the Investment Advisers Act of 1940, as amended, are contained within respective agreements entered into with each investment manager.

Certain investment managers are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Derivative financial instruments may be used to manage interest rate and foreign exchange risk. The derivative financial instruments are recorded as other investments either as an asset or a liability, depending upon whether the instrument is in a gain or loss position. Changes in the fair value of derivative financial instruments are recorded in the statements of changes in net assets available for benefits; therefore, no gains or losses are deferred. At December 31, 2014 and 2013, the Group Trust held less than 1% of the total fair value of its investments in derivative financial instruments.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value is defined under ASC 820 as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for investments measured at fair value pursuant to the fair value hierarchy, including associated inputs for Level 3 investments:

Common stocks and equity mutual funds, government obligations, and corporate bonds and notes are determined by obtaining quoted prices in an active market.

Treasury securities are valued using the consensus and matrix pricing method. The inputs (quoted, spread, and data points for yield curves) to these methods can be considered to be observable market-based data.

Municipal securities are valued daily using institutional bid evaluations. Bid evaluations are an estimated price at which a dealer would pay for a security. Corroborated, indicative market observable data such as reported sales of similar securities, broker and dealer quotes, market information, including live trading levels, are used when available to estimate the institutional bid evaluation. These investments are classified as Level 1 investments in the fair value hierarchy.

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Hedge fund fair values are valued at the net asset value (NAV) per unit based on the fair value of the underlying investments. The underlying investments are primarily in publicly traded securities, which are valued at the closing price reported on the active market on which the individual securities are traded. In addition, these funds may have underlying investments in non-publicly traded securities for which quoted prices are not readily available. Such securities are valued by the investment management firm at an amount that approximates fair value generally based on the verifiable fair value of similar securities at the valuation date.

The Plan's right to redeem its hedge fund investments varies according to the contractual agreements with each of the individual hedge fund management firms. The redemption policies of the hedge funds provide for periodic redemptions at intervals ranging from monthly to annually, with notice periods ranging from 30 to 180 days. Some of the hedge funds do not permit redemption for an initial period of time following an investment in the fund, which, for the Plan's hedge fund investments, range between six months and three years. Additionally, the Plan's hedge fund investment managers may limit the portion of an investment that can be redeemed at any one time, either by an individual investor or in the aggregate by all of the investors in the hedge fund. These limits vary and limit the portion of an investment that may be redeemed at any one time or restrict both the portion and term of such redemptions. At December 31, 2014 and 2013, the Group Trust had no unfunded commitments related to hedge funds. These investments are classified as Level 3 investments in the fair value hierarchy.

Collective investment funds are valued at the NAV per unit as reported to the Trustee by the investment management firm managing such trusts. Valuations by the investment management firm of the investments of the commingled trust funds in securities that are traded in public markets for which quoted prices are readily available are based on the quoted market price of each such investment at the valuation date. Any investments not traded in public markets or for which quoted prices are not readily available are valued by the investment management firm at an amount that approximates fair value generally based on the verifiable fair value of similar securities at the valuation date. Commingled trust funds have various procedures governing liquidity. Although some funds supply daily liquidity upon demand, others have rules and procedures governing liquidity. These may include advance notification requirements and specific periodic dates for providing such liquidity. Additionally, some commingled trust funds may reserve the right, from time to time, to be exercised at the funds' discretion to limit the portion of an investment that may be redeemed at any one time either by an individual investor or in the aggregate by all such investors in the fund. These investments are classified as Level 3 investments in the fair value hierarchy.

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Limited partnerships are valued at fair value using methods determined in good faith by the General Partners of the funds and may require significant judgment. A variety of factors are reviewed and monitored to determine the fair value of investments, including current operating performance and future expectations of the particular investment, discounted cash flow analysis, valuations of comparable public companies, comparable acquisition values, and changes in market outlook and the third-party finance environment over time. When observable prices are not available for these securities, the General Partners use one or more valuation techniques (e.g., the market approach and/or income approach) for which sufficient and reliable data is available. Limited partnerships are classified within Level 3 of the fair value hierarchy.

Interest rate swaps are valued by the Investment Manager utilizing a publicly available electronic data source and valuations provided by the counterparty. These instruments are generally classified within Level 3 of the fair value hierarchy.

Cash and cash equivalents include highly liquid investments with original maturities of 90 days or less. Treasury bills are measured at institutional bond quotes which are based on various market and industry inputs. Actively traded money market funds are measured at their NAV and classified as Level 1.

The methods described above may produce a fair value calculation that may not indicate net realizable value or reflect future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no transfers between levels in 2014 and 2013.

The Plan did not have any investments measured at fair value on a nonrecurring basis as of December 31, 2014 and 2013, and there were no changes noted in the valuation methodologies between these periods.

NOTE 5 DERIVATIVE INSTRUMENTS

In the normal course of operations, the Group Trust's assets and liabilities may include derivative financial instruments (swaps, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Group Trust's involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate, equity price, foreign currency exchange rate risk and credit risk associated with the Group Trust's investments and obligations. The Group Trust's investment managers do not anticipate any material adverse effect on the Group Trust's financial position resulting from its involvement in these instruments.

NOTE 6 OFFSETTING ASSETS AND LIABILITIES

The Group Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. The Group Trust is required to disclose the impact of offsetting assets and liabilities represented in the statement of net assets available for benefits to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are financial instruments and derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of setoff criteria: the amounts owed by the Group Trust to another party are determinable, the Group Trust has the right to set off the amounts owed with the amounts owed by the other party, the Group Trust intends to set off, and the Group Trusts' right of set off is enforceable at law. The Group Trusts' derivative contracts are subject to these master netting agreements, however these transactions are presented gross on the statement of net assets available for benefits.

NOTE 7 ACCUMULATED PLAN BENEFITS

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The Plan provides for the accumulation of benefits for services rendered by participants from the later of their respective dates of participation or January 1, 1989.

The accumulated plan benefit information as of January 1 is as follows:

	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits		
<i>Vested benefits</i>		
Participants	\$ 14,435,040	\$ 13,114,159
Nonvested benefits	222,795	268,358
	<u>\$ 14,657,835</u>	<u>\$ 13,382,517</u>

MAJOR LEAGUE BASEBALL—MINOR LEAGUE PLAYERS' PENSION PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 7 ACCUMULATED PLAN BENEFITS *(continued)*

The changes in the actuarial present value of accumulated plan benefits are due to the following:

Actuarial present value of accumulated plan benefits, as of January 1, 2013	\$ 13,382,517
Additional benefits accumulated	2,393,721
Interest due to decrease in the discount period	528,398
Benefits paid	(1,000,887)
Assumption changes	<u>(645,914)</u>
Actuarial present value of accumulated plan benefits, as of January 1, 2014	<u>\$ 14,657,835</u>

The change in the accumulated plan benefits due to assumption changes resulted primarily from the change in the discount rate as disclosed in Note 8.

NOTE 8 ACTUARIAL ASSUMPTIONS

The more significant assumptions used by the Plan's actuary to, among other things, calculate accumulated plan benefits and determine funding levels at January 1, 2014 and 2013 are as follows:

Actuarial method—Plan funding	Projected-unit credit cost method
Discount rate for accumulated plan benefits	5.00% (4.10% in 2013)
Mortality	RP-2000, with projection
Average retirement age	Age 65

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2014 and 2013. There were no significant changes to the Plan that would have changed the valuations had they been performed as of December 31, 2013 and 2012.

Notes to Financial Statements

NOTE 9 INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated August 27, 2014, stating that the Plan was qualified under Section 401(a) of the Code and, therefore, the related Trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan, as amended and restated, is qualified and the related Trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there were no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 ADMINISTRATIVE EXPENSES

Certain actuarial, auditing fees, insurance and administrative expenses are paid by the Plan. Certain other administrative expenses are paid by the BOC directly.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 50%, 75% or 100% joint and survivor annuity, a ten-year certain and life annuity, a lump sum, or (for married participants) a life annuity. The normal form of payment is converted to an optional annuity form using an interest rate of 6% and GAR-94 Mortality (unisex). The normal form of payment is converted to a lump sum using the "applicable mortality table" as defined in Code section 417(e)(3) and the applicable 24-month average segment rates (as defined in Code section 430) for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made.

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

The IRC Section 415 benefit limit was increased from \$205,000 to \$210,000 effective January 1, 2014.

• Estimated effective interest rate	6.94%	5.01%

Annual rates of increase

- Compensation N/A
- Statutory limits on compensation N/A

Demographic Assumptions

Inclusion Date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2030 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2022 using Scale AA). This is the IRS-prescribed static mortality table for 2014.

IRS 2014 Prescribed 417(e)(3) Mortality (Unisex) is used for annuity / lump sum conversions.

Termination	Rates varying by service					
	Sample rates per 1,000 participants:					
	Service	Rate	Service	Rate	Service	Rate
	1	100	5	333	9	400
	2	222	6	250	10	333
	3	286	7	333	11	500
	4	400	8	500	12	0
Disability	None assumed					
Retirement	Age 65, or age on the next valuation date if greater than 65					
Benefit commencement date:						
<ul style="list-style-type: none">Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55					
<ul style="list-style-type: none">Lump sum payment	Upon termination of employment for active participants; later of age 35 or 5 years after valuation date for deferred vested participants.					
Form of payment	100% assumed to elect lump sum. Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d) – 1(f)(4) without application of generational mortality.					
Percent married	100% (for purposes of valuing pre-retirement death benefits)					
Spouse age	Females three years younger than males					
At-risk assumptions	Not applicable for current plan year					
Timing of benefit payments	Lump sum payments are payable on date of decrement if the participant is currently active. Lump sum payments are payable at the later of age 35 or 5 years after valuation date for deferred vested participants.					

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430
Actuarial value of assets	Market value of assets
Benefits Not Valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of increase in statutory limits (CPI)	The assumed CPI is based on a combination of historical average CPI from 2004 to 2013, current conditions, and future forecasts by economists.
Administrative expenses	Administrative expenses are estimated by determining the expected expenses for the coming year, including items like PBGC premiums. These estimates are based on recent experience and reviewed on an ongoing basis for reasonability.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates are based on recent experience and plan sponsor expectations for the future, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by service because of observed and expected differences in termination rates by service.</p>
Retirement	Retirement rates are based on plan sponsor expectations for the future.
Benefit commencement date for deferred benefits:	
<ul style="list-style-type: none"> ● Preretirement death benefit 	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
<ul style="list-style-type: none"> ● Lump sum benefit 	Deferred vested participants' assumed commencement age is based on recent experience and plan sponsor expectations for the future.
Form of payment	The percentage of participants assumed to take a lump sum is based on observed experience.

Source of Prescribed Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.
