Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Theatrical Stage Employees Union Local 27 Defined Benefit Plan as of December 31, 2014, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The financial statements of the Theatrical Stage Employees Union Local No. 27 Defined Benefit Pension Plan as of December 31, 2013 were audited by other auditors, who expressed an unmodified opinion on those statements on August 28, 2014.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held (at end of year) and reportable transactions as of December 31, 2014, and for the year ended December 31, 2014 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the plan's management, and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

**Theatrical Stage Employees Union
Local No. 27 Defined Benefit Pension Plan
Notes to the Financial Statements
December 31, 2014 and 2013**

NOTE 1**DESCRIPTION OF PLAN**

The following brief description of the Theatrical Stage Employees Union Local No. 27 Defined Benefit Pension Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

a. General

The Plan is a multi-employer defined benefit pension plan covering members of the International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts (IATSE) Local 27. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

The Plan is funded by contributions from participating employers based on collective bargaining agreements or other written agreements with the union.

c. Pension Benefits

Participants shall be eligible to receive the normal retirement benefit as specified on Section 5.01 of the Plan agreement if they have (a) attained normal retirement date (b) been credited with at least 1 Year of Credited Service (c) termination of employment and (d) filed an application for a retirement benefit, in the amount determined by Plan provisions. The Plan does allow for an early retirement at the later of age 55 or the completion of ten years of credited service. Death, disability, and termination benefits are provided under the plan. Employees will receive their pension benefits in the form of an Automatic Qualified Joint and Survivor Annuity. Employees may elect to receive their benefits as a life annuity, life annuity with period certain, or if amount is less than \$1,000 as a lump sum.

d. Vesting

Prior to his normal age, a participant shall have a vested accrued benefit after 5 years of vesting service. Upon attaining Normal Retirement Age, a Participant shall automatically be 100% vested.

NOTE 2**SUMMARY OF ACCOUNTING POLICIES**

The following are the significant accounting policies followed by the Plan:

a. Date of Management's Review

Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were tentatively available to be issued.

b. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Theatrical Stage Employees Union
Local No. 27 Defined Benefit Pension Plan
Notes to the Financial Statements
December 31, 2014 and 2013**

NOTE 2 (CONTINUED)**d. Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

e. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

f. Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan and are recorded in the accompanying statements of changes in net assets available for benefits.

g. Adoption of a New Accounting Standard

In 2014, the plan adopted FASB Accounting Standards Update 2015-12, which simplified the reporting for employee benefit plans as follows:

1. Fully-benefit responsive investment contracts are to be reported at contract value;
2. Disclosure of investments that are 5% or greater than net assets available for benefits are no longer required to be disclosed separately;
3. The disclosure of net appreciation (depreciation) in the fair value of investments is shown in total;
4. And other disclosure changes.

There was no material impact on the plan's net assets or changes in net assets upon adoption of the new standard.

The financial statements for December 31, 2013 and the year then ended have been retroactively restated for this change.

NOTE 3**FAIR VALUE MEASUREMENTS**

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of the investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

Money market funds are valued at a stable net asset value.

NOTE 4**Investments**

During 2014 and 2013 the Plan's investment (including investments bought, sold, and held during the year) appreciated (depreciated) in value by \$ (84,889) and \$ 771,108 respectively.

NOTE 5

FUNDING POLICY

Benefits provided by this Plan are funded by contributions from employers in accordance with their Collective Bargaining Agreements. The actuary determined in its latest report that contributions for December 31, 2013 and December 31, 2012 did meet the minimum funding requirements of ERISA.

NOTE 6

PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees are eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is listed to the lowest benefit that way payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government Agency) up to applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

NOTE 7

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PENSION BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provision to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability) are included to the extent they are deemed attributable to employees services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from the Segal Company and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 7 (CONTINUED)Description of Weighted Average Retirement Age:

Age 65, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2014 actuarial valuation.

Future Benefit Accrual:

Active participants as of January 1, 2014 are assumed to work the same number of hours in future years as worked in the prior year.

Definition of Active Participants:

Active participants are defined as those reported by the fund office as active as of the valuation date with at least one year of Credited Service.

Net Investment Return:

6.0% - The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgement. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes, as well as the Plan's target asset allocation.

Administrative Expenses:

\$ 75,000 for the year beginning January 1, 2014, payable at the beginning of the year.

Actuarial Value of Assets:

The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value, and is recognized, 20% per year, over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.

Actuarial Cost Method:

Entry Age Normal Actuarial Cost Method. Entry Age is the age at the date of employment or, if date is unknown, current age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary with Normal Cost determined as if the current benefit accrual rate had always been in effect.

Estimated Rate of Investment Return:

On Actuarial Value of Assets 10.7%, for the Plan Year Ending December 31, 2013
On Current (Market) Value of Assets 17.4%, for the Plan Year Ending December 31, 2013

NOTE 8**TAX STATUS**

The Internal Revenue Service has determined, and informed the Fund by Letter dated November 8, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

NOTE 9**RELATED PARTY TRANSACTIONS**

The Plan shares office space and staff with Local No. 27 of the International Alliance of Theatrical Stage Employees and Moving Picture Machine Operators of the United States and Canada (Local Union). Secretarial expense and rent were paid to the Local Union as reimbursement for the Plan's share of these expenses as follows:

	<u>2014</u>	<u>2013</u>
Secretarial Expense/Rent	\$ 27,503	\$ 27,322

NOTE 10**RISK AND UNCERTAINTIES**

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that the changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 11**IATSE LOCAL 209**

During 2014, it was discovered that employer pension contributions for members of IATSE Local 209 were remitted to The National Union office instead of this plan. A total of \$ 89,958 was received from the National Office during 2014 and is included in contributions. Plan management believes an additional amount is due from National for the Local 209 members, but the amount cannot be determined.

SUBSEQUENT EVENTS

The Plan is undergoing a Department of Labor investigation. The outcome of the investigation is unknown as of the date of this report. However, management does not expect this investigation to have a material effect on these financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality Rates:

RP-2000 Combined Healthy Blue Collar Mortality Table, projected from 2000 using Scale AA on a generational basis.

The RP-2000 Combined Healthy Blue Collar Mortality Table, projected to 2014 using Scale AA, reasonably reflects the projected mortality experience of the Plan as of the measurement date. The resulting mortality table was then adjusted to future years using generational projection under Scale AA to anticipate future mortality improvement.

Retirement Age for Active

Participants:

65

Description of Weighted Average

Retirement Age:

Age 65, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2014 actuarial valuation.

Retirement Age for Inactive

Vested Participants:

62 if eligible for early retirement, otherwise 65

Future Benefit Accruals:

Active participants as of January 1, 2014 are assumed to work the same number of hours in future years as worked in the prior year.

Employer Contributions:

7% of earned wages

Unknown Data for Participants:

Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Definition of Active Participants:

Active participants are defined as those reported by the fund office as active as of the valuation date with at least one year of Credited Service.

Percent Married:

100%

Gender and Age of Spouse:

Spouses assumed to be opposite sex of participant. Females are 3 years younger than male spouses.

Annual Wage Increase:

3% per year

Benefit Election:

All participants are assumed to elect the 50% Joint and Survivor Annuity form of payment.

Net Investment Return:	
	6.00% - The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes, as well as the Plan's target asset allocation.
Annual Administrative Expenses:	
Actuarial Value of Assets:	
	\$75,000, payable at the beginning of the year, for the year beginning January 1, 2014
	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value, and is recognized, 20% per year, over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method:	
	Entry Age Normal Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined as if the current benefit accrual rate had always been in effect.
Benefits Valued:	
	Unless otherwise indicated, includes all benefits summarized in Exhibit VIII.
Current Liability Assumptions:	
<i>Interest</i>	3.64%, within the permissible range prescribed under IRC Section 431(c)(6)(E)
<i>Mortality</i>	Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants
Estimated Rate of Investment Return:	

<i>On actuarial value of assets</i>	
<i>(Schedule MB, line 6g):</i>	10.7%, for the Plan Year ended December 31, 2013
<i>On current (market) value of assets</i>	
<i>(Schedule MB, line 6h):</i>	17.4%, for the Plan Year ended December 31, 2013

Summary of Plan Provisions
(Schedule MB, line 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year: January 1 through December 31
Pension Credit Year: January 1 through December 31
Plan Status: Ongoing plan

Regular Pension:

Age Requirement 65
Service Requirement 5 years of plan participation
Amount \$22 for each year of Credited Service before January 1, 2003 and 1.6% of contributions received on the participant's behalf after December 31, 2002. For the years ending December 31, 2003, 2004, and 2005, the participant's benefit accrual was the greater of \$18 and 1.6% of contributions received.

Early Retirement:

Age Requirement 55
Service Requirement 10 years of Credited Service
Amount Normal pension accrued reduced by 6% for each year of age less than 65.

Disability:

<i>Age Requirement</i>	None
<i>Service Requirement</i>	5 years of vesting service
<i>Amount</i>	Normal pension accrued

Vesting:

<i>Age Requirement</i>	None
<i>Service Requirement</i>	5 years of vesting service
<i>Amount</i>	Normal pension accrued
<i>Normal Retirement Age</i>	65

Qualified Pre-Retirement Survivor Annuity:

<i>Age Requirement</i>	None
<i>Service Requirement</i>	5 years of vesting service.
<i>Amount</i>	50% of the benefit participant would have received had he or she retired the day before he or she died and elected the joint and survivor option. If the participant died prior to eligibility for an early retirement pension, the spouse's benefit is deferred to the date participant would have been age 65. If the participant died with 10 years of Credited Service, but prior to early retirement age, the spouse's benefit is deferred to the date the participant would have been first eligible to receive an early retirement pension.

Post-Retirement Death Benefit:

Husband and Wife

If married, pension benefits are paid in the form of a joint and survivor annuity unless this form is rejected by the participant and spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If rejected, or if not married, benefits are payable for the life of the employee, or in any other available optional form elected by the employee in an actuarially equivalent amount.

Forms of Payment:

The normal forms of payment are as follows:

- Single Life Annuity
- 50% Joint and Survivor Annuity

The optional forms of payment are as follows:

- Single Life Annuity with 60 and 120 payments guaranteed
- 75% Joint and Survivor Annuity
- 100% Joint and Survivor Annuity

Participation:

After completion of 1,000 hours during a calendar year

Vesting Credit:

One year of vesting service for each credit year during the contribution period in which the employee works 1,000 hours

Years of Credited Service:

One year of Credited Service for each credit year during the contribution period in which the employee works 1,000 hours

Contributions:

Varies from 4.17% to 7.56% of earned wages as of the valuation date, with an average rate of 6.81% of earned wages as of January 1, 2014

Changes in Plan Provisions:

There were no changes in plan provisions reflected in this actuarial valuation.
