Savings and Investment Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE A - DESCRIPTION OF THE PLAN

The following description of the John Bean Technologies Corporation (the Company) Savings and Investment Plan (the Plan) provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a qualified salary-reduction plan under Section 401(k) of the Internal Revenue Code (the IRC), which covers substantially all full-time employees and certain eligible part-time employees of the Company (other than employees who generally reside or work outside of the United States and certain employees of the Company's Airport Services business unit that are covered in the JBT Airport Services Division Savings and Investment Plan (Airport Services Plan). Such employees are eligible to participate in the Plan immediately upon commencement of their employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the John Bean Technologies Corporation Employee Benefits Plan Committee (the Benefits Plan Committee), acting on behalf of the Plan sponsor, the Company.

Contributions

Participants may make elective deferrals of their annual compensation up to the IRC annual limit. The aggregate amount of such elective deferrals is contributed to a trust on a pretax or Roth basis. Participants may also elect to make after-tax contributions, either as an alternative to pretax or Roth contributions, or in addition to the maximum elective deferrals. The aggregate of pretax, Roth and after-tax contributions cannot exceed 75% of a participant's total compensation or 20% for highly compensated employees. Active employees who meet the following requirements are eligible to make catch-up contributions to the prescribed limit: (1) attain age 50 or older during the year, (2) already contributing at least 5% to the Plan on a pretax or Roth basis and (3) will reach the elective deferral limit for the year.

The Company makes matching contributions for all active participants, except for certain bargaining unit employees. The Company matches 100% of basic contributions up to 5% of each participant's eligible compensation (Matching Contribution). The Company makes a 3% non-elective contribution (Non-elective Contribution) with immediate vesting to all eligible non-union employees in addition to the Matching Contribution.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in 1% increments, with a minimum of 2%, to any of the available investment options. Company matching contributions to the Plan are allocated to the investment options selected by the participants.

Savings and Investment Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2014 and 2013

Vesting

Participants are immediately vested in their elective contributions and the Company's Non-elective Contribution plus actual earnings thereon. Vesting in the Company's Matching Contribution and related earnings is determined according to the following graduated schedule based on years of service.

<u>Years of service</u>	<u>Percent vested</u>
Fewer than 2	0%
At least 2 but fewer than 3	20
At least 3 but fewer than 4	40
At least 4 but fewer than 5	60
5 or more	100

Participants are immediately vested in the Company's Matching Contribution upon becoming disabled, dying while working for the Company, termination of service due to a permanent shutdown of a site or attainment of age 55.

Payment of Benefits and Forfeitures

Upon termination of service, death, disability or attainment of age 59-1/2, any participant may elect to immediately receive a lump-sum distribution equal to the vested interest of his or her account. Participants may, upon termination, elect to defer their lump-sum distribution or receive annual installments. Any unvested interests are forfeited. Forfeitures are used to restore forfeitures of participants that are rehired within five years, pay for certain administrative expenses of the Plan and reduce future Company contributions to the Plan. The forfeited balances held in the Plan as of December 31, 2014 and 2013, were approximately \$12,300 and \$14,000, respectively. During 2014, approximately \$79,000 of forfeited non-vested accounts were used to pay administrative expenses and approximately \$60,000 were used to reduce Company contributions.

Expenses

Certain administrative expenses of the Plan are paid by Fidelity Management Trust Company (the Trustee) out of the assets of the Plan and constitute a charge upon the respective investment funds or upon the individual participants' accounts. Certain other Plan expenses can be paid by the Plan from the forfeitures balance, or by the Company.

Withdrawals and Loans

The Plan allows participants to make hardship cash withdrawals (subject to income taxation and Internal Revenue Service (IRS) penalties) of some or all of their vested account balances. Eligible participants may also receive money from the Plan in the form of loans. The minimum that may be borrowed is \$1,000. The maximum that may be borrowed is the lesser of \$50,000, or 50% of the participant's vested account balance. Loans, which are secured by the participant's vested account balance, must be repaid over not more than 60 months with interest at the prime interest rate at the inception of the loan. A participant may have up to two loans outstanding at any one time. Principal and interest is paid ratably through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Plan and ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's Matching and Non-elective Contribution, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations of Plan earnings are based on the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statements of net assets available for benefits present the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates, but the Plan administrator does not believe such differences will materially affect the Plan's financial position or results of operations.

Notes Receivable from Participants

Notes receivables from participants are valued at their outstanding balances of unpaid principal and accrued interest. Delinquent loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit distributions to participants are recorded when paid.

NOTE C - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of funds managed by the Trustee.

The Company pays certain administrative costs of the Plan and provides certain administrative services to the Plan at a charge. The cost of providing these services constitutes exempt party-in-interest transactions under ERISA.

The Trustee provides certain administrative services to the Plan pursuant to a trust agreement between the company and the Trustee. The Trustee receives revenue from mutual fund and collective fund service providers for services the Trustee provides to the funds. This revenue is used to offset certain amounts owed to the Trustee for its administrative services to the Plan. If the revenue received by the Trustee from such fund service providers exceeds the amount owed under the trust agreement, the Trustee remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Company may make a payment to the Trustee for administrative expenses not covered by revenue sharing.

NOTE D - INVESTMENTS

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013, were as follows (in thousands):

NOTE E - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, notes receivable from participants and adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net investment income and interest on notes receivables from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent accountants did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F - FAIR VALUE MEASUREMENTS

The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value; whereas, Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 - Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds and mutual funds - Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end traded on an active market.

Collective trust fund - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the

John Bean Technologies Corporation

underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31 (in thousands):

NOTE G - INCOME TAXES

The Plan received a determination letter from the IRS on November 18, 2013, as to the qualified status of the plan under Section 401(a) of the IRC. The Company believes that the Plan is currently operated in compliance with the IRC and, therefore, is qualified, and the related trust is exempt from federal income taxes under Section 501(a) of the IRC. Accordingly, income taxes are not provided for in the accompanying financial statements. U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.
