INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Joyce Steel Erection, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Joyce Steel Erection, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits of as December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Notes 3, 4 and 5, which was certified or provided by MG Trust Company, LLC, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan Administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule as of or for the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Joyce Steel Erection, Inc. 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Joyce Steel Erection, Inc. (the "Company") who have at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

In accordance with the Plan document, the Plan is administered by the Company. MG Trust Company, LLC (the "Custodian") serves as the Plan custodian and record keeper.

Contributions

Participants may contribute pre-tax deferrals up to 100% of annual compensation as defined in the Plan agreement, subject to IRS limits. Participants may also contribute pre-tax amounts representing distributions from other qualified plans, individual retirement accounts, and annuity contracts. All contributions to the Plan are participant-directed. The Company may make profit sharing, matching contributions, and supplemental matching contributions at its sole discretion. The Company's profit sharing contribution is allocated based on the ratio of the employee's earnings to total earnings and is given to participants who work at least 1,000 hours during the Plan year and are employed on the last day of the Plan year. Matching contributions are allocated based on a uniform percentage of each participant's pretax contribution. Supplemental matching contributions are allocated to participants, who work at least 1,000 hours during the Plan year and are employed on the last day of the Plan year, based on a percentage of each participant's earnings.

Participant Accounts

Participants may elect to invest their contributions in any of the available investment funds offered by the Plan. Each participant's account is credited with the participant's contribution, allocations of the Company's contributions, and Plan earnings, net of administrative expenses. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, the Company paid accounting fees on behalf of the Plan. Expenses for the Plan are paid by the Company or the Plan at the Company's discretion.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 1 - Description of Plan, continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Note transactions are treated as a transfer between the investment fund and the note fund. Note terms generally do not exceed 5 years, unless such notes are used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as published in the Wall Street Journal on the date the loan is processed, plus one percentage point. The rate of interest is constant throughout the term of the note. Principal and interest are paid through payroll deductions under a level amortization schedule. Interest rates on notes outstanding as of December 31, 2014, range from 4.25% to 6.25%. The maturity dates for the outstanding notes range from January 2015 to July 2040. Note activity is below:

	2014		2013	
	Qty	Amount	Qty	Amount
Outstanding, beginning of year	37	\$ 266,546	35	\$ 247,522
New notes and interest accrued	8	109,578	19	159,429
Repayments/distributed notes	(17)	(122,722)	(17)	(140,405)
Outstanding, end of year	28	\$ 253,402	37	\$ 266,546

Vesting

Participants are immediately vested 100% in all amounts contributed by the participant and all earnings on those contributions. Vesting in the Company's contributions is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
At least 2 years	20%
At least 3 years	40%
At least 4 years	60%
At least 5 years	80%
6 years or more	100%

Forfeited Accounts

Forfeitures and the earnings on those accounts may be utilized to offset Plan expenses or applied to offset future employer contributions. At December 31, 2014 and 2013 balances in forfeited non-vested accounts were \$21,923 and \$33,078, respectively. Forfeitures of \$22,332 and \$48,399 were used during 2014 and 2013, respectively to offset the supplemental employer match contributions receivable as of December 31, 2014 and 2013, respectively.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 1 - Description of Plan, continued

Payment of Benefits

Generally, the Plan will begin to make distributions to retired participants within 60 days after the end of the Plan year in which they retire. The participant may elect among various forms of benefit payments. Benefit payments to terminated or disabled participants are made as directed by the participant, subject to certain restrictions.

Note 2 - Summary of Significant Accounting Policies

The summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements.

Basis of Accounting

The Plan's financial statements and IRS Form 5500 are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

In accordance with U.S. GAAP, the Statements of Net Assets Available for Benefits present investments at fair value. However, contract value is the relevant measurement attribute for the Plan's fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest at the contract rates, less withdrawals. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The purchase and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Recent Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The provisions of the ASU are effective with the Plan's year ending December 31, 2017. The ASU requires retrospective adoption to all periods presented. Earlier application is permitted. The adoption of this standard is not expected to have a material impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. The amendments are in 3 parts. Among other things: Part I amendments designate contract value as the only required measure for fully benefit-responsive investment contracts; Part II amendments eliminate the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Part III amendments provide a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for the Plan's year ending December 31, 2016. Early adoption is permitted. The adoption of Part I amendments are not expected to have a material effect on the Plan's net assets available for benefits. Specified investment disclosures will be eliminated upon adoption of Part II. Part III is not applicable as the Plan's fiscal year coincides with month-end. The Plan's financial statements and IRS Form 5500 are prepared on the accrual basis of accounting.

Note 3 - Fair Value Measurements

The framework for measuring fair value under U.S. GAAP provides for a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets; the Plan has the ability to access.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 3 - Fair Value Measurements, continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's categorization within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets measured at fair value.

Pooled Separate Account Investments: Valued at the net asset value per share, based on quoted market prices of the underlying assets, which include a mix of mutual funds, collective trusts and managed accounts.

Guaranteed Stable Value Fund: Value is estimated by discounting the cash flows of the guaranteed interest account to the end of the respective year, using a discount rate that represents the respective year end interest rate that would be credited on accounts of similar duration.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- a. This category seeks to make equity investing more tolerable for risk-conscious investors by helping to reduce the volatility of their portfolio. This category's investment philosophy centers on a tactical asset allocation strategy that has a goal of participating in gains when stock market conditions are good and reducing exposure to the stock market when they are not.
- b. This category seeks to provide income in combination with the potential for some growth of capital over the long-term.
- c. This category seeks to match closely the returns of the capitalization weighted MSCI Emerging Markets ("EM") Index. The strategy also incorporates a 15% limit on the weight of any single country in the portfolio. The Morgan Stanley Capital International ("MSCI") Emerging Markets Index is comprised of 26 countries and more than 700 securities. The strategy uses a flexible portfolio construction approach, which includes replication, sampling, and the use of alternative investment vehicles including ADRS, GDRS, swaps, and country funds. Additionally, the advisor uses a hierarchy of trading processes when possible, including internal crossing, external crossing, futures when appropriate, and agency trades to capitalize on every opportunity to reduce the strategy's transaction cost.

- d. This category seeks long-term growth through appreciation. This category seeks to maintain the returns of the MSCI All Country World Investable Market excluding U.S. Index by investing in an underlying portfolio that closely replicates the index.
- e. This category seeks total return, consistent with income generation and prudent investment management. It invests primarily in non-investment grade securities and bonds with maturities of ten years or less.
- f. This category seeks to match the total return of the Barclays Capital Government/Credit Index while minimizing tracking error. It employs a passive bond indexing process.
- g. This category seeks to replicate the returns and characteristics of the S&P 500 Index. Using a replication process, the advisors purchase each security for the strategy in the same capitalization weight as it appears in the S&P 500 Index Replication results in low turnover, accurate tracking, and low costs. The approach is to buy and hold securities, trading only when there is a change to the composition of the index or when cash flow activity occurs in the strategy. The advisors use a hierarchy of trading alternatives when appropriate – internal crossing, external crossing, futures, and open market trades – to attempt to capitalize on every opportunity and to reduce the strategy's transaction costs.
- h. This category seeks long-term growth of capital. It invests primarily in equity securities, principally common and preferred stocks, of U.S. companies. It may invest in the securities of foreign issuers, including issuers located or doing business in emerging markets.
- i. This category seeks long-term growth of capital and income. It invests in common stocks and other equity securities of companies that pay or are expected to pay dividends.
- j. This category seeks long-term capital growth. It invests primarily in common stocks of U.S. companies with small and medium market capitalizations that the investment's portfolio manager believes have the potential for above average growth.
- k. This category seeks long-term growth of capital. The category invests primarily in a diversified portfolio of equity securities of small- to mid-capitalization U.S. companies, generally representing 60 to 125 companies. It normally invests at least 80% of net assets in securities of small- to mid-capitalization companies, which, at the time of investment, fall within the capitalization range between the smallest company in the Russell 2500 Value Index and the greater of \$5 billion or the market capitalization of the largest company in the Russell 2500 Value Index.
- l. This category seeks capital appreciation and income over the long-term. It allocates its investments among the Bond Index Fund, Strategic Value Fund, Stock Market Index Fund, Growth Fund, International Developed Countries Fund, Small Company Fund, and Emerging Markets Index Fund. It is reviewed quarterly following the end of January, April, July and October and rebalanced if the actual percentage of any individual fund at the end of the quarter is over or under its target percent by five percentage points or more.
- m. This category seeks total return. It invests at least 80% of total assets in common stocks and other equity securities issued by domestic real estate companies. It may invest up to 20% of total assets in securities of foreign issuers which meet the same criteria for investment as domestic companies, or sponsored and unsponsored depository receipts for such securities. It is nondiversified.

- n. This category seeks to replicate the returns and characteristics of the Russell 2000 Index. It seeks to match the return of the Index by investing in a portfolio that holds the securities of the Russell 2000 Index. Replication seeks low turnover, accurate tracking and low costs. It buys and holds securities, trading only when there is a change to the composition of the Index or when cash flow activity occurs. Index strategies help participants achieve broad diversification across the equity markets and take advantage of low implementation costs.
- o. This investment seeks long-term growth of capital. The fund primarily invests in the common stocks of companies with above average, long-term growth potential. It normally invests at least 65% of assets in equity securities of small companies, which are defined as companies having market capitalization at the time of purchase that falls within the market capitalization range of companies in the Russell 2000 Index. The fund may invest up to 10% of its net assets in foreign securities that are primarily traded outside the United States.
- p. This category seeks capital appreciation. It invests mainly in common stocks of the U.S. and foreign companies without limit to any country, including countries with developed or emerging markets. It currently emphasizes its investments in developed markets such as the United States, Western European countries and Japan. It does not limit investments in a particular capitalization range, but primarily invests in mid- and large-cap companies.
- q. This category seeks to match as closely as possible, before expenses, the performance of the S&P Midcap 400 Index over the long term. It typically attempts to invest in the securities comprising the Index and in the same proportions. In some cases, it may not be possible or practical to purchase all of the securities comprising the Index, or to hold them in the same weight. In those circumstances, the investment may employ a sampling technique to construct the portfolio.
- r. This category seeks to achieve long-term capital growth by investing in a diversified mix of asset classes and investment styles. The category is designed for investors who intend to retire within 5 years of the year 2050, and who seek a simple method to achieve a broadly diversified portfolio that will gradually become more conservative in its allocation over time.
- s. The investment seeks above-average capital appreciation. The fund normally invests at least 80% of investable assets in common stocks of small companies which are those companies with market capitalizations comparable to those in the Russell 2000 Value Index. It may invest in stocks of small companies that the advisor believes are undervalued.
- t. The investment seeks total investment return consisting of a combination of interest income, capital appreciation, and currency gains. The fund invests primarily in fixed and floating rate debt securities and debt obligations of governments, government-related or corporate issuers worldwide. It may also invest in securities or structured products that are linked to or derive their value from another security asset or currency of any nation. The fund's assets normally are invested in issuers located in at least three countries and may invest a substantially portion of its assets in developing markets. It is non-diversified.
- u. The investment seeks long-term capital appreciation. The fund normally invests at least 80% of net assets in a diversified portfolio of marketable equity and equity-related securities of smaller international companies. Smaller international companies are companies with market capitalizations not exceeding (i) \$5 billion or the equivalent in local currencies or (ii) the highest market capitalization in the Morgan Stanley Capital International EAFE Small Cap Index. It invests predominantly in securities listed or traded on recognized international markets in developed countries included in the MSCI EAFE Small Cap Index.

Notes to Financial Statements

Note 4 - Investments, continued

All of the pooled investments in separate accounts can be redeemed immediately at the current NAV per share based on the fair value of the underlying assets. The fair values of these investments have been estimated using the NAV per share of the investments.

Note 5 - Information Provided or Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been provided or certified as complete and accurate by the Custodian of the Plan as of December 31, 2014 and for the years ended December 31, 2014 and 2013.

- Assets, liabilities and net assets available for benefits
- The adjustment from fair value to contract value for interest in guaranteed stable value fund relating to fully benefit-responsive investment contracts
- The change in net assets available for benefits, including all additions and deductions

Note 6 - Guaranteed Stable Value Fund

The Plan has a stable value fund under a guaranteed investment contract (the "Stable Value Fund") with United of Omaha Life Insurance Company ("United of Omaha"). The Stable Value Fund is managed by Ameriprise Trust Company and invests in units of the RiverSource Trust Income Fund IV, a commingled fund for retirement plans, which is managed by Ameriprise Trust Company. The Stable Value Fund invests exclusively in the RiverSource Trust Income Fund I, which may invest assets in the RiverSource Trust Stable Capital Fund I – a portfolio of wrapped investments to provide book-value liquidity – that enhances the Stable Value Fund's diversification and helps reduce credit exposure. Investment options are offered through a group variable annuity issued by United of Omaha, which guarantees the principal of contributions held in the Stable Value Fund and interest earned on those contributions less any charges due under the annuity contract.

Because the Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed Stable Value Fund. Contract value, as reported to the Plan by United of Omaha, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Stable Value Fund at December 31, 2014, and 2013 was \$2,071,661 and \$2,258,544, respectively. Each month, the guaranteed interest rate is declared and any deposits made that month will be guaranteed that month's rate for 5 years. The interest rates that are declared are based on current market conditions and what quality assets United of Omaha can purchase to support the corresponding liability. The yield on the asset less the predetermined expense loads, including variables such as payment of commissions, equals the net interest rate to the participant. Withdrawals are made on a pro rata basis from each maturity account as defined in the contract. The participants do not share in the profits or surplus of United of Omaha.

During 2014 and 2013, the average yields earned by the Stable Value Fund and the annual rates credited to the Plan participants was 0.39% and 0.58%, respectively.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 6 - Guaranteed Stable Value Fund, continued

In the event there is an unusual volume of participant directed transfers, such that United of Omaha reasonably concludes that employer directed withdrawals have occurred, United of Omaha reserves the right to pay the amount of the requested withdrawals and charge the participants or the Company an amount equal to the book value of such withdrawals, less the market value of such withdrawals, as defined in the contract with United of Omaha. Also, United of Omaha has the right to delay payment of a transfer or withdrawal for up to 180 days from the date of request. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The annuity contract for the Stable Value Fund provides that United of Omaha can terminate the contract for any reason by providing 60 days prior written notice to the Plan. At the end of the 60 days, United of Omaha will pay, without assessing any market value charges, to the participants the contract balances of the Stable Value Fund.

Note 7 - Plan Termination

While it has no intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. Amounts would be distributed in accordance with Plan provisions.

Note 8 - Income Tax Status

The Company adopted a prototype plan document that was approved by the Internal Revenue Service ("IRS") on March 31, 2008 in an opinion letter in which the IRS stated the form of the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not applied for an individual determination letter from the IRS. The prototype plan has been amended since the opinion letter approval, however, the Company believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and that the Plan has satisfied the qualification requirements of IRC Section 401(a) in operation and, therefore, the related Plan is exempt from federal income taxes under the provisions of IRC Section 501(a). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Note 9 - Risks and Uncertainties

The participants direct the Plan to invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

JOYCE STEEL ERECTION, INC. 401(K) PLAN
Notes to Financial Statements

Note 10 - Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by the Custodian. Transactions with the Custodian qualify as party-in-interest transactions. In addition, during the year ended December 31, 2014 the Company paid parties-in-interest for certain administrative expenses and audit fees on behalf of the Plan. Commissions totaling \$43,542 for were paid in 2014 to the Plan's investment advisor, financial advisor, and an entity related to the Custodian.

Note 11 - Subsequent Events

The Plan Administrator has evaluated subsequent events through October 15, 2015, the date the financial statements were available to be issued. During this period, the Plan did not have any material subsequent events.
